FIRST MERCHANTS CORPORATION ANNOUNCES 4th QUARTER 2009 EARNINGS AND 1st QUARTER 2010 DIVIDENDS

First Merchants Corporation (NASDAQ – FRME) has reported a fourth quarter 2009 net loss of \$11.7 million, or \$.55 per fully diluted common share. The Corporation's fourth quarter loss contributed to an annual fully diluted common share loss of \$2.17, down from the prior year income of \$1.14.

Michael C. Rechin, President and Chief Executive Officer, stated that, "2009 proved to be a challenge and a disappointment by many measures including net income, EPS and our stock price. The earnings shortfall is nearly 100 percent the result of credit costs including provision, OREO and legal expense totaling \$135 million. The magnitude of the provisioning was a function of charge-offs and the building of our loan loss reserve given the protracted recessionary environment. The net affect of the 2009 experience produced positive strides in process, underwriting and policy.

"Our core business remains very healthy, and we are satisfied with many aspects of our operations. Our deposit mix improved materially through the year driving our net-interest margin higher for each of the last three quarters. We grew demand deposits and savings balances by 10% over year-end 2008 and 7% over September 30, 2009. The liquidity we built allowed for brokered deposits and non-customer borrowings to be reduced in excess of \$370 million, contributing to our net-interest margin strength. Our efficiency also improved through the year having successfully integrated the acquisition of Lincoln Bancorp and combining four bank charters into First Merchants Bank."

The loss for the quarter was primarily due to provision for loan losses of \$26 million with net charge-offs of \$21 million. The Corporation's allowance for loan losses increased to \$92 million, or 2.81 percent of total loans as of year-end from 1.33 percent, as of December 31, 2008, a \$43 million increase. The Corporation's coverage ratio of allowance to non-accrual loans improved to 78 percent, the highest level in five quarters.

Non-performing assets (NPA) plus 90 days delinquent loans declined for the first time in eight quarters totaling \$146 million, or 3.26 percent of total assets. The six percent decline in overall NPAs included a reduction in non-accrual loans despite the addition of two large credit relationships totaling \$28 million.

Net-Interest margin remained strong up three basis points (bps) linked quarter-over-quarter to 3.86 percent as net interest income totaled nearly \$38 million, reflecting the strength of ongoing operations. Interest reversals on non-accrual loans totaled \$2.9 million for the year and \$592,000 for the quarter depressing net-interest margin by six bps for both periods.

Total non-interest income totaled \$10.6 million for the quarter, after adjusting for gains from the sale of securities totaling \$2.0 million and other-than-temporary impairment (OTTI) charges of \$3.0 million. The expected decline linked quarter-over-quarter is consistent with prior years as mortgage banking fees and insurance commissions are seasonal. For the year, non-interest income, excluding bond gains and losses and a one time mortgage portfolio sale gain, totaled \$46.5 million.

Total non-interest expense, for the fourth quarter, increased by \$662,000 as salary and benefits expense increased by \$735,000 quarter-over-quarter. The increase in salary and benefits expense is the result of two items including \$407,000 of severance expense in the fourth quarter and a \$500,000 bonus accrual reversal in the third quarter. When normalized, the Corporation's salary and benefit costs are actually down another \$172,000. The positive impact of the severance expense will be reflected in first quarter 2010 operating results.

The Corporation's pre-tax, pre-provision earnings totaled \$7.5 million for the quarter and \$53 million for the full year. When normalized for a fully taxable equivalent net interest income and extraordinary items, the pre-tax, pre-provision earnings totaled \$15.7 million for the quarter and \$70.9 million for the full year. Extraordinary items include bond gains, OTTI expense, ORE write-downs, professional services related to credit losses and FHLB prepayment penalties.

For the year 2009, the Corporation experienced a combination of extraordinary expenses associated with credit-related OREO write-downs of \$9.8 million, professional services related to credit losses totaling \$3.0 million, FDIC special assessment fees of \$2.2 million and \$1.9 million of prepayment penalties related to FHLB advances. When adjusted for the extraordinary levels of these expenses the Corporation's operating costs totaled \$134.7 million.

As of December 31, 2009, the Corporation's total risk-based capital measured 13.04 percent, Tier 1 risk-based capital totaled 10.32 percent, Tier 1 leverage ratio totaled 8.20 percent, and tangible common equity ratio totaled 4.54 percent. All regulatory capital ratios exceed the regulatory definitions of "well capitalized".

The Corporation's management and Board of Directors believe that retaining capital to protect and strengthen the Corporation is one of its highest priorities. As a result, the board of directors, on January 29, 2010, declared a reduced cash dividend of \$.01 payable on March 19, 2010, to shareholders of record as of March 5, 2010.

Rechin continued, "We are pleased to have started a new year and there is evidence of a return towards profitability based on our NPA, impaired asset levels and delinquency trends. Our non-performing asset reduction in the fourth quarter and the slowing of migration in delinquency suggests a peak in provisioning. Our feeling is that absent a reversal in the current recovery, we are nearing the end of our reserve building. We look forward to fully maximizing our pre-tax pre-provision earnings run rate of nearly \$70 million in the future as the expense of loan losses begins to slow."
