The completion of our merger with Level One on April 1st is a milestone in First Merchants history that will propel our Bank into the future. I am proud of our new teammates and the professional winning attitude they exude." First Quarter Financial Results:

First Merchants Corporation (the "Corporation) has reported first quarter 2022 net income of \$48.6 million compared to \$49.5 million during the same period in 2021. Earnings per share for the period totaled \$.91 per share compared to the first quarter of 2021 result of \$.91 per share.

Total assets equaled \$15.5 billion as of March 31, 2022 and loans totaled \$9.4 billion. The Corporation experienced organic loan growth of \$730.6 million, or 8.5 percent, during the past twelve months. This was offset by the forgiveness of Paycheck Protection Program ("PPP") loans of \$693.1 million, resulting in net loan growth of \$37.5 million. PPP loans accounted for \$48.7 million of the period end loan portfolio balance. Investments increased \$788.4 million, or 21.3 percent, during the year and now total \$4.5 billion. Total deposits equaled \$12.9 billion as of quarter-end and increased by \$954.2 million, or 8.0 percent over the same period in 2021.

The Corporation's Allowance for Credit Losses – Loans (ACL) totaled \$196.0 million as of quarter-end, or 2.09 percent of total loans. Net loan recoveries for the quarter totaled \$0.6 million and no provision expense was recorded during the quarter or during the last twelve months. Non-performing assets to total assets were 0.32% for the first quarter of 2022, a decrease of eight basis points compared to 0.40% in the first quarter of 2021.

Net-interest income totaling \$102.3 million for the quarter, continued to grow with an increase of \$1.0 million, or 4.0 percent, over prior quarter and an increase of \$1.9 million, or 1.8 percent compared to the first quarter of 2021. Stated net-interest margin on a tax equivalent basis, totaling 3.03 percent, declined by one basis point compared to the fourth quarter of 2021 and twenty basis points compared to the first quarter of 2021. Net-interest margin excluding the impact of fair value accretion and PPP loans totaled 2.97%, an increase of five basis points compared to 2.92% for the fourth quarter of 2021 and a decline of seven basis points from the first quarter of 2021. During the quarter, net-interest margin expanded nine basis points from growth in the loan and investment portfolios, higher investment portfolio yield and lower funding costs, offset by a decline of four basis points from the impact of a lower day count in the quarter.

Non-interest income, totaling \$25.9 million for the quarter, was stable compared to the fourth quarter of 2021 and increased \$1.8 million from the first quarter of 2021. Customer-specific line items accounted for \$2.3 million of the increase over the first quarter of 2021 driven by higher service charges on deposits, fiduciary and wealth management fees and card payment fees. This was offset by a decline on gains on the sale of loans of \$1.8 million driven by lower origination volume.

Non-interest expense totaled \$72.3 million for the quarter, a decline of \$0.1 million from the fourth quarter of 2021, and an increase of \$6.3 million or 9.4% over the first quarter of 2021. The increase over the first quarter of 2021 was primarily due to higher salaries and employee benefits as well as higher FDIC assessments.

The Corporation's loan to deposit ratio totals 73 percent and loan to asset ratio totals 61 percent. Additionally, the Corporation's total risk-based capital ratio equaled 13.85 percent, common equity tier 1 capital ratio equaled 11.63 percent, and the tangible common equity ratio totaled 8.31 percent.
