ITEM 1. BUSINESS

---

GENERAL

First Merchants Corporation (the "Corporation") was incorporated under Indiana law on September 20, 1982, as the bank holding company for First Merchants Bank, National Association ("First Merchants"), a national banking association incorporated in 1893. Prior to December 16, 1991, First Merchants' name was The Merchants National Bank of Muncie. On November 30, 1988, the Corporation acquired Pendleton Banking Company ("Pendleton"), a state chartered commercial bank organized in 1872. On July 31, 1991, the Corporation acquired First United Bank ("First United"), a state chartered commercial bank organized in 1882. On August 1, 1996, the Corporation acquired The Union County National Bank of Liberty ("Union County"), a national banking association incorporated in 1872. On October 2, 1996, the Corporation acquired The Randolph County Bank ("Randolph County"), a state chartered commercial bank founded in 1865. On April 1, 1998, Pendleton acquired the Muncie office of Insurance and Risk Management, Inc., which was renamed, on April 1, 1998, First Merchants Insurance Services, Inc. ("FMIS"). On April 1, 1999, the Corporation acquired The First National Bank of Portland ("First National"), a national banking association incorporated in 1904. On April 21, 1999, the Corporation acquired Anderson Community Bank ("Anderson"), a state chartered commercial bank founded in 1995. Pendleton and Anderson were combined on April 21, 1999, to form Madison Community Bank ("Madison"). Decatur Bank and Trust Company ("Decatur") a state chartered commercial bank organized in 1966 was acquired on June 1, 2000. On January 19, 2000, First Merchants Reinsurance Company was formed to underwrite accident, health and credit life insurance. On July 1, 2001, the Corporation acquired Frances Slocum Bank & Trust Company ("Frances Slocum"), a state chartered commercial bank organized in 1963. Effective January 1, 2002, the Corporation acquired Delaware County Abstract Company, Inc. and Beebe & Smith Title Insurance Company, Inc., which were merged into Indiana Title Insurance Company, a wholly-owned subsidiary of the Corporation. Such title insurance operations were subsequently contributed to Indiana Title Insurance Company, LLC in which the Corporation has a 52.12% ownership interest. On April 1, 2002, the Corporation acquired Lafayette Bank and Trust Company ("Lafayette") a state chartered commercial bank founded in 1899. On September 6, 2002, the Corporation acquired Stephenson Insurance Service, Inc., which was merged into FMIS. Effective January 1, 2003, the Corporation formed Merchants Trust Company, National Association ("MTC"), a wholly-owned subsidiary of the Corporation. On January 1, 2003, MTC purchased the trust operations of First Merchants, First National and Lafayette, which united the trust and asset management services of all affiliate banks of the Corporation. On March 1, 2003, the Corporation acquired Commerce National Bank ("Commerce National"), a national banking association incorporated in 1991.

As of December 31, 2002, the Corporation had consolidated assets of \$2.679 billion, consolidated deposits of \$2.037 billion and stockholders' equity of \$261.1 million.

The Corporation is headquartered in Muncie, Indiana, and is presently engaged in conducting commercial banking business through the offices of its ten banking subsidiaries. As of December 31, 2002, the Corporation and its subsidiaries had 1,127 full-time equivalent employees.

Through its bank subsidiaries, the Corporation offers a broad range of financial services, including: accepting time, savings and demand deposits; making consumer, commercial, agri-business and real estate mortgage loans; renting safe deposit facilities; providing personal and corporate trust services; providing full service brokerage; and providing other corporate services, letters of credit and repurchase agreements. Through various nonbank subsidiaries, the Corporation also offers personal and commercial lines of insurance and engages in the title agency business and the reinsurance of credit life, accident, and health insurance.

The Corporation makes its Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, available on its website at [www.firstmerchants.com](http://www.firstmerchants.com) without charge, as soon as reasonably practicable after such reports are electronically filed with, or furnished to, the Securities and Exchange Commission. Additionally, the Corporation will also provide without charge, a copy of its Form 10-K to any shareholder by mail. Requests should be sent to Mr. Brian Edwards, Shareholder Relations Officer, First Merchants Corporation, P.O. Box 792, Muncie, IN 47308-0792.

Acquisition Policy

The Corporation anticipates that it will continue its policy of geographic expansion of its banking business through the acquisition of banks whose operations are consistent with its community banking philosophy. Management routinely explores opportunities to acquire financial institutions and other financial services-related businesses and to enter into strategic alliances to expand the scope of its services and its customer base.

-----

## COMPETITION

The Corporation's banking subsidiaries are located in Adams, Boone, Carroll, Delaware, Fayette, Hamilton, Henry, Howard, Jasper, Jay, Madison, Miami, Tippecanoe, Wabash, Wayne, White, Randolph, and Union counties in Indiana and Butler and Franklin counties in Ohio. In addition to the competition provided by the lending and deposit gathering subsidiaries of national manufacturers, retailers, insurance companies and investment brokers, the banking subsidiaries compete vigorously with other banks, thrift institutions, credit unions and finance companies located within their service areas.

## REGULATION AND SUPERVISION

### OF FIRST MERCHANTS AND SUBSIDIARIES

#### BANK HOLDING COMPANY REGULATION

The Corporation is registered as a bank holding company and has elected to be a financial holding company. It is subject to the supervision of, and regulation by the Board of Governors of the Federal Reserve System ("Federal Reserve") under the Bank Holding Company Act of 1956, as amended (the "BHC Act"). Bank holding companies are required to file periodic reports with and are subject to periodic examination by the Federal Reserve. The Federal Reserve has issued regulations under the BHC Act requiring a bank holding company to serve as a source of financial and managerial strength to its subsidiary banks. Thus, it is the policy of the Federal Reserve that, a bank holding company should stand ready to use its resources to provide adequate capital funds to its subsidiary banks during periods of financial stress or adversity. Additionally, under the Federal Deposit Insurance Corporation Improvement Act of 1991 ("FDICIA"), a bank holding company is required to guarantee the compliance of any subsidiary bank that may become "undercapitalized" (as defined in the FDICIA) with the terms of any capital restoration plan filed by such subsidiary with its appropriate federal banking agency. Under the BHC Act, the Federal Reserve has the authority to require a bank holding company to terminate any activity or relinquish control of a nonbank subsidiary (other than a nonbank subsidiary of a bank) upon the determination that such activity constitutes a serious risk to the financial stability of any bank subsidiary.

The BHC Act requires the Corporation to obtain the prior approval of the Federal Reserve before:

1. Acquiring direct or indirect control or ownership of any voting shares of any bank or bank holding company if, after such acquisition, the bank holding company will directly or indirectly own or control more than 5% of the voting shares of the bank or bank holding company.
2. Merging or consolidating with another bank holding company; or
3. Acquiring substantially all of the assets of any bank.

The BHC Act generally prohibits bank holding companies that have not become financial holding companies from (i) engaging in activities other than banking or managing or controlling banks or other permissible subsidiaries, and (ii) acquiring or retaining direct or indirect control of any company engaged in the activities other than those activities determined by the Federal Reserve to be closely related to banking or managing or controlling banks.

The BHC Act does not place territorial restrictions on such nonbanking-related activities.

CAPITAL ADEQUACY GUIDELINES FOR BANK HOLDING COMPANIES

The Corporation is required to comply with the Federal Reserve's risk-based capital guidelines. These guidelines require a minimum ratio of capital to risk-weighted assets of 8% (including certain off-balance sheet activities such as standby letters of credit). At least half of the total required capital must be "Tier 1 capital," consisting principally of common shareholders' equity, noncumulative perpetual preferred stock, a limited amount of cumulative perpetual preferred stock and minority interest in the equity accounts of consolidated subsidiaries, less certain goodwill items. The remainder may consist of a limited amount of subordinate debt and intermediate-term preferred stock, certain hybrid capital instruments and other debt securities, cumulative perpetual preferred stock, and a limited amount of the general loan loss allowance.

In addition to the risk-based capital guidelines, the Federal Reserve has adopted a Tier 1 (leverage) capital ratio under which the Corporation must maintain a minimum level of Tier 1 capital to average total consolidated assets. The ratio is 3% in the case of bank holding companies which have the highest regulatory examination ratings and are not contemplating significant growth or expansion. All other bank holding companies are expected to maintain a ratio of at least 1% to 2% above the stated minimum.

The following are the Corporation's regulatory capital ratios as of December 31, 2002:

	Corporation	Regulatory Minimum Requirement
Tier 1 Capital: (to risk-weighted assets)	10.1%	4.0%
Total Capital:	11.2%	8.0%

BANK REGULATION

First Merchants, Union County, First National and Commerce National are national banks and are supervised, regulated and examined by the Office of the Comptroller of the Currency (the "OCC"). First United, Madison, Randolph County, Decatur, Frances Slocum and Lafayette are state banks chartered in Indiana and are supervised, regulated and examined by the Indiana Department of Financial Institutions. In addition, six of the Corporation's subsidiaries, Madison, First United, Randolph County, Decatur, Frances Slocum and Lafayette are supervised, regulated and examined by the FDIC. Each regulator has the authority to issue cease-and-desist orders if it determines that activities of the bank regularly represent an unsafe and unsound banking practice or a violation of law.

Both federal and state law extensively regulate various aspects of the banking business such as reserve requirements, truth-in-lending and truth-in-savings disclosures, equal credit opportunity, fair credit reporting, trading in securities and other aspects of banking operations. Current federal law also requires banks, among other things, to make deposited funds available within specified time periods.

BANK REGULATION continued

Insured state-chartered banks are prohibited under FDICIA from engaging as the principal in activities that are not permitted for national banks, unless (i) the FDIC determines that the activity would pose no significant risk to the appropriate deposit insurance fund, and (ii) the bank is, and continues to be, in compliance with all applicable capital standards.

BANK CAPITAL REQUIREMENTS

The FDIC and the OCC have adopted risk-based capital ratio guidelines to which state-chartered banks and national banks are subject. The guidelines establish a framework that makes regulatory capital requirements more sensitive to differences in risk profiles. Risk-based capital ratios are determined by allocating assets and specified off-balance sheet commitments to four risk-weighted categories, with higher levels of capital being required for the categories perceived as representing greater risk.

Like the capital guidelines established by the Federal Reserve, these guidelines divide a bank's capital into tiers. Banks are required to maintain a total risk-based capital ratio of 8%. The FDIC or OCC may, however, set higher capital requirements when a bank's particular circumstances warrant. Banks experiencing or anticipating significant growth are expected to maintain capital ratios, including tangible capital positions, well above the minimum levels.

In addition, the FDIC and the OCC established guidelines prescribing a minimum Tier 1 leverage ratio (Tier 1 capital to adjusted total assets as specified in the guidelines). These guidelines provide for a minimum Tier 1 leverage ratio of 3% for banks that meet specified criteria, including that they have the highest regulatory rating and are not experiencing or anticipating significant growth. All other banks are required to maintain a Tier 1 leverage ratio of 3% plus an additional 100 to 200 basis points.

All of the Corporation's affiliate banks exceed the risk-based capital guidelines of the FDIC and/or the OCC as of December 31, 2002.

The Federal Reserve, the FDIC and the OCC have adopted rules to incorporate market and interest rate risk components into their risk-based capital standards. Amendments to the risk-based capital requirements, incorporating market risk, became effective January 1, 1998. Under the new market risk requirements, capital will be allocated to support the amount of market risk related to a financial institution's ongoing trading activities.

FDIC IMPROVEMENT ACT OF 1991

The Federal Deposit Insurance Corporation Improvement Act of 1991 ("FDICIA") requires, among other things, federal bank regulatory authorities to take "prompt corrective action" with respect to banks which do not meet minimum capital requirements. For these purposes, FDICIA establishes five capital tiers: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized and critically undercapitalized. The FDIC has adopted regulations to implement the prompt corrective action provisions of FDICIA.

"Undercapitalized" banks are subject to growth limitations and are required to submit a capital restoration plan. A bank's compliance with such plan is required to be guaranteed by the bank's parent holding company. If an "undercapitalized" bank fails to submit an acceptable plan, it is treated as if it is significantly undercapitalized. "Significantly undercapitalized" banks are subject to one or more restrictions, including an order by the FDIC to sell sufficient voting stock to become adequately capitalized, requirements to reduce total assets and cease receipt of deposits from correspondent banks, and restrictions on compensation of executive officers. "Critically undercapitalized" institutions may not, beginning 60 days after becoming "critically undercapitalized," make any payment of principal or interest on certain subordinated debt or extend credit for a highly leveraged transaction or enter into any transaction outside the ordinary course of business. In addition, "critically undercapitalized" institutions are subject to appointment of a receiver or conservator.

As of December 31, 2002, each bank subsidiary of First Merchants is "well capitalized" based on the "prompt corrective action" ratios and deadlines described above. It should be noted, however, that a bank's capital category is determined solely for the purpose of applying the OCC's (or the FDIC's) "prompt corrective action" regulations and that the capital category may not constitute an accurate representation of the bank's overall financial condition or prospects.

#### DEPOSIT INSURANCE

The Corporation's affiliated banks are insured up to regulatory limits by the FDIC and, accordingly, are subject to deposit insurance assessments to maintain the Bank Insurance Fund (the "BIF") and the Savings Association Insurance Fund ("SAIF") administered by the FDIC. The FDIC has adopted regulations establishing a permanent risk-related deposit insurance assessment system. Under this system, the FDIC places each insured bank in one of nine risk categories based on (i) the bank's capitalization, and (ii) supervisory evaluations provided to the FDIC by the institution's primary federal regulator. Each insured bank's insurance assessment rate is then determined by the risk category in which it is classified by the FDIC.

The Deposit Insurance Funds Act of 1996 provides for assessments to be imposed on insured depository institutions with respect to deposits insured by the BIF and the SAIF (in addition to assessments currently imposed on depository institutions with respect to BIF- and SAIF-insured deposits) to pay for the cost of Financing Corporation ("FICO") funding. The FICO assessments do not vary depending upon a depository institution's capitalization or supervisory evaluations.

#### DIVIDEND LIMITATIONS

National and state banking laws restrict the amount of dividends that an affiliate bank may declare in a year without obtaining prior regulatory approval. National and state banks are limited to the bank's retained net income (as defined) for the current year plus those for the previous two years. At December 31, 2002, the Corporation's affiliate banks had a total of \$15,147,000 retained net profits available for 2003 dividends to the Corporation without prior regulatory approval.

#### BROKERED DEPOSITS

Under FDIC regulations, no FDIC-insured depository institution can accept brokered deposits unless it (i) is well capitalized, or (ii) is adequately capitalized and received a waiver from the FDIC. In addition, these regulations prohibit any depository institution that is not well capitalized from (a) paying an interest rate on deposits in excess of 76 basis points over certain prevailing market rates or (b) offering "pass through" deposit insurance on certain employee benefit plan accounts unless it provides certain notice to affected depositors.

#### INTERSTATE BANKING AND BRANCHING

Under the Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994 ("Riegle-Neal") subject to certain concentration limits, required regulatory approvals and other requirements, (i) financial holding companies such as the Corporation are permitted to acquire banks and bank holding companies located in any state; (ii) any bank that is a subsidiary of a bank holding company is permitted to receive deposits, renew time deposits, close loans, service loans and receive loan payments as an agent for any other bank subsidiary of that holding company; and (iii) banks are permitted to acquire branch offices outside their home states by merging with out-of-state banks, purchasing branches in other states, and establishing de novo branch offices in other states.

## FINANCIAL SERVICES MODERNIZATION ACT

The Gramm-Leach-Bliley Act of 1999 (the "Financial Services Modernization Act") establishes a comprehensive framework to permit affiliations among commercial banks, insurance companies, securities firms, and other financial service providers by revising and expanding the existing BHC Act. Under this legislation, bank holding companies would be permitted to conduct essentially unlimited securities and insurance activities as well as other activities determined by the Federal Reserve Board to be financial in nature or related to financial services. As a result, the Corporation is able to provide securities and insurance services. Furthermore, under this legislation, the Corporation is able to acquire, or be acquired by, brokerage and securities firms and insurance underwriters. In addition, the Financial Services Modernization Act broadens the activities that may be conducted by national banks through the formation of financial subsidiaries. Finally, the Financial Services Modernization Act modifies the laws governing the implementation of the Community Reinvestment Act and addresses a variety of other legal and regulatory issues affecting both day-to-day operations and long-term activities of financial institutions.

A bank holding company may become a financial holding company if each of its subsidiary banks is well capitalized, is well managed and has at least a satisfactory rating under the Community Reinvestment Act, by filing a declaration that the bank holding company wishes to become a financial holding company. Also effective March 11, 2000, no regulatory approval is required for a financial holding company to acquire a company, other than a bank or savings association, engaged in activities that are financial in nature or incidental to activities that are financial in nature, as determined by the Federal Reserve Board. The Federal Reserve Bank of Chicago approved the Corporation's application to become a Financial Holding Company effective September 13, 2000.

## USA PATRIOT ACT

As part of the USA Patriot Act, signed into law on October 26, 2001, Congress adopted the International Money Laundering Abatement and Financial Anti-Terrorism Act of 2001 (the "Act"). The Act authorizes the Secretary of the Treasury, in consultation with the heads of other government agencies, to adopt special measures applicable to financial institutions such as banks, bank holding companies, broker-dealers and insurance companies. Among its other provisions, the Act requires each financial institution: (i) to establish an anti-money laundering program; (ii) to establish due diligence policies, procedures and controls that are reasonably designed to detect and report instances of money laundering in United States private banking accounts and correspondent accounts maintained for non-United States persons or their representatives; and (iii) to avoid establishing, maintaining, administering, or managing correspondent accounts in the United States for, or on behalf of, a foreign shell bank that does not have a physical presence in any country. In addition, the Act expands the circumstances under which funds in a bank account may be forfeited and requires covered financial institutions to respond under certain circumstances to requests for information from federal banking agencies within 120 hours.

Treasury regulations implementing the due diligence requirements were issued in 2002. These regulations required minimum standards to verify customer identity, encouraged cooperation among financial institutions, federal banking agencies, and law enforcement authorities regarding possible money laundering or terrorist activities, prohibited the anonymous use of "concentration accounts," and required all covered financial institutions to have in place an anti-money laundering compliance program.

The Act also amended the Bank Holding Company Act and the Bank Merger Act to require the federal banking agencies to consider the effectiveness of a financial institution's anti-money laundering activities when reviewing an application under these acts.

## THE SARBANES-OXLEY ACT

The Sarbanes-Oxley Act of 2002 ("Sarbanes-Oxley Act"), which became law on July 30, 2002, added new legal requirements for public companies affecting corporate governance, accounting and corporate reporting.

The Sarbanes-Oxley Act provides for, among other things:

- \* a prohibition on personal loans made or arranged by the issuer to its directors and executive officers (except for loans made by a bank subject to Regulation O);
- \* independence requirements for audit committee members;
- \* independence requirements for company auditors;
- \* certification of financial statements on Forms 10-K and 10-Q reports by the chief executive officer and the chief financial officer;
- \* the forfeiture by the chief executive officer and chief financial officer of bonuses or other incentive-based compensation and profits from the sale of an issuer's securities by such officers in the twelve month period following initial publication of any financial statements that later require restatement due to corporate misconduct;
- \* disclosure of off-balance sheet transactions;
- \* two-business day filing requirements for insiders filing Form 4s;
- \* disclosure of a code of ethics for financial officers and filing a Form 8-K for a change in or waiver of such code;
- \* the reporting of securities violations "up the ladder" by both in-house and outside attorneys;
- \* restrictions on the use of non-GAAP financial measures in press releases and SEC filings;
- \* the formation of a public accounting oversight board; and
- \* various increased criminal penalties for violations of securities laws.

The Sarbanes-Oxley Act contains provisions which became effective upon enactment on July 30, 2002 and provisions which will become effective from within 30 days to one year from enactment. The SEC has been delegated the task of enacting rules to implement various provisions. In addition, each of the national stock exchanges has proposed new corporate governance rules, including rules strengthening director independence requirements for boards, the adoption of corporate governance codes and charters for the nominating, corporate governance and audit committees.

## ADDITIONAL MATTERS

The Corporation and its affiliate banks are subject to the Federal Reserve Act, which restricts financial transactions between banks and affiliated companies. The statute limits credit transactions between banks, affiliated companies and its executive officers and its affiliates. The statute prescribes terms and conditions for bank affiliate transactions deemed to be consistent with safe and sound banking practices, and restricts the types of collateral security permitted in connection with the bank's extension of credit to an affiliate. Additionally, all transactions with an affiliate must be on terms substantially the same or at least as favorable to the institution as those prevailing at the time for comparable transactions with non-affiliated parties.

In addition to the matters discussed above, the Corporation's affiliate banks are subject to additional regulation of their activities, including a variety of consumer protection regulations affecting their lending, deposit and collection activities and regulations affecting secondary mortgage market activities.

The earnings of financial institutions are also affected by general economic conditions and prevailing interest rates, both domestic and foreign, and by the monetary and fiscal policies of the United States Government and its various agencies, particularly the Federal Reserve.

Additional legislation and administrative actions affecting the banking industry may be considered by the United States Congress, state legislatures and various regulatory agencies, including those referred to above. It cannot be predicted with certainty whether such legislation or administrative action will be enacted or the extent to which the banking industry in general or the Corporation and its affiliate banks in particular would be affected.

## SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

The Corporation from time to time includes forward-looking statements in its oral and written communication. The Corporation may include forward-looking statements in filings with the Securities and Exchange Commission, such as this Form 10-K, in other written materials and in oral statements made by senior management to analysts, investors, representatives of the media and others. The Corporation intends these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and the Corporation is including this statement for purposes of these safe harbor provisions. Forward-looking statements can often be identified by the use of words like "estimate," "project," "intend," "anticipate," "expect" and similar expressions. These forward-looking statements include:

- \* statements of the Corporation's goals, intentions and expectations;
- \* statements regarding the Corporation's business plan and growth strategies;
- \* statements regarding the asset quality of the Corporation's loan and investment portfolios; and
- \* estimates of the Corporation's risks and future costs and benefits.

These forward-looking statements are subject to significant risks, assumptions and uncertainties, including, among other things, the following important factors which could affect the actual outcome of future events:

- \* fluctuations in market rates of interest and loan and deposit pricing, which could negatively affect the Corporation's net interest margin, asset valuations and expense expectations;
- \* adverse changes in the Indiana economy, which might affect the Corporation's business prospects and could cause credit-related losses and expenses;
- \* adverse developments in the Corporation's loan and investment portfolios;
- \* competitive factors in the banking industry, such as the trend towards consolidation in the Corporation's market; and
- \* changes in the banking legislation or the regulatory requirements of federal and state agencies applicable to bank holding companies and banks like the Corporation's affiliate banks.

Because of these and other uncertainties, the Corporation's actual future results may be materially different from the results indicated by these forward-looking statements. In addition, the Corporation's past results of operations do not necessarily indicate its future results.

ANALYSIS OF CHANGES IN NET INTEREST INCOME

The following table presents net interest income components on a tax-equivalent basis and reflects changes between periods attributable to movement in either the average balance or average interest rate for both earning assets and interest-bearing liabilities. The volume differences were computed as the difference in volume between the current and prior year times the interest rate of the prior year, while the interest rate changes were computed as the difference in rate between the current and prior year times the volume of the prior year. Volume/rate variances have been allocated on the basis of the absolute relationship between volume variances and rate variances.

Nonaccruing loans are loans which are reclassified to a nonaccruing status when in management's judgment the collateral value and financial condition of the borrower do not justify accruing interest. Interest previously recorded, but not deemed collectible, is reversed and charged against current income. Interest income on these loans is then recognized when collected.

Restructured loans are loans for which the contractual interest rate has been reduced or other concessions are granted to the borrower, because of a deterioration in the financial condition of the borrower resulting in the inability of the borrower to meet the original contractual terms of the loans.

Interest income of \$783,000 for the year ended December 31, 2002, was recognized on the nonaccruing and restructured loans listed in the table above, whereas interest income of \$1,544,000 would have been recognized under their original loan terms.

Potential problem loans:

Management has identified certain other loans totaling \$36,630,000 as of December 31, 2002, not included in the table above, or the impaired loan table in the footnotes to the consolidated financial statements, about which there are doubts as to the borrowers' ability to comply with present repayment terms.

The Corporation's affiliate banks generate commercial, mortgage and consumer loans from customers located primarily in north-central and east-central Indiana and Butler and Franklin counties in Ohio. The Banks' loans are generally secured by specific items of collateral, including real property, consumer assets, and business assets. Although the Banks have diversified loan portfolios, a substantial portion of their debtors' ability to honor their contracts is dependent upon economic conditions in the automotive and agricultural industries.

Loan Administration and Loan Loss Chargeoff Procedures

Primary responsibility and accountability for day-to-day lending activities rests with the Corporation's affiliate banks. Loan personnel at each bank have the authority to extend credit under guidelines approved by the bank's board of directors. Executive and board loan committees active at each bank serve as vehicles for communication and for the pooling of knowledge, judgment and experience of its members. These committees provide valuable input to lending personnel, act as an approval body, and monitor the overall quality of the banks' loan portfolios. The Executive Committee of the Corporation's Board of Directors meets bimonthly to approve or disapprove all new loans in excess of \$1,000,000. The Corporation also maintains a loan grading and review program for its affiliate banks, which includes quarterly reviews of problem loans, delinquencies and charge-offs. The purpose of this program is to evaluate loan administration, credit quality, loan documentation and the adequacy of the allowance for loan losses.

The Corporation maintains an allowance for loan losses to cover probable credit losses identified during its loan review process. The allowance is increased by the provision for loan losses and decreased by charge-offs less recoveries. All charge-offs are approved by the bank's senior loan officer and are reported to the Banks' Boards. The Banks charge off loans when a determination is made that all or a portion of a loan is uncollectible or as a result of examinations by regulators and the independent auditors.

Provision for Loan Losses

In banking, loan losses are one of the costs of doing business. Although the Banks' management emphasize the early detection and chargeoff of loan losses, it is inevitable that at any time certain losses exist in the portfolio which have not been specifically identified. Accordingly, the provision for loan losses is charged to earnings on an anticipatory basis, and recognized loan losses are deducted from the allowance so established. Over time, all net loan losses must be charged to earnings. During the year, an estimate of the loss experience for the year serves as a starting point in determining the appropriate level for the provision. However, the amount actually provided in any period may be greater or less than net loan losses, based on management's judgment as to the appropriate level of the allowance for loan losses. The determination of the provision in any period is based on management's continuing review and evaluation of the loan portfolio, and its judgment as to the impact of current economic conditions on the portfolio. The evaluation by management includes consideration of past loan loss experience, changes in the composition of the loan portfolio, and the current condition and amount of loans outstanding.

Impaired loans are measured by the present value of expected future cash flows, or the fair value of the collateral of the loans, if collateral dependent. Information on impaired loans is summarized below:

	2002	2001	2000
	----- (Dollars in Thousands) -----		
For the year ending December 31:

## ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Asset/Liability Management has been an important factor in the Corporation's ability to record consistent earnings growth through periods of interest rate volatility and product deregulation. Management and the Board of Directors monitor the Corporation's liquidity and interest sensitivity positions at regular meetings to review how changes in interest rates may affect earnings. Decisions regarding investment and the pricing of loan and deposit products are made after analysis of reports designed to measure( liquidity, rate sensitivity, the Corporation's exposure to changes in net interest income given various rate scenarios and the economic and competitive environments.

It is the objective of the Corporation to monitor and manage risk exposure to net interest income caused by changes in interest rates. It is the goal of the Corporation's Asset/Liability function to provide optimum and stable net interest income. To accomplish this, management uses two asset liability tools. GAP/Interest Rate Sensitivity Reports and Net Interest Income Simulation Modeling are both constructed, presented and monitored quarterly.

Management believes that the Corporation's liquidity and interest sensitivity position at December 31, 2002, remained adequate to meet the Corporation's primary goal of achieving optimum interest margins while avoiding undue interest rate risk. The following table presents the Corporation's interest rate sensitivity analysis as of December 31, 2002.

## INTEREST RATE SENSITIVITY ANALYSIS

Interest rate sensitivity gap by period .....	\$ 97,689	\$ (294,599)	\$ 162,267	\$ 327,517	
Cumulative rate sensitivity gap .....	97,689	(196,910)	(34,643)	292,874	
Cumulative rate sensitivity gap ratio					
at December 31, 2002 .....	111.8%	85.2%	98.2%	113.8%	
at December 31, 2001 .....	135.4%	97.6%	109.7%	116.9%	

The Corporation had a cumulative negative gap of \$196,910,000 in the one-year horizon at December 31, 2002, just over 7.4 percent of total assets. Net interest income at financial institutions with negative gaps tends to increase when rates decrease and decrease as interest rates increase.

The Corporation places its greatest credence in net interest income simulation modeling. The GAP/Interest Rate Sensitivity Report is believed by the Corporation's management to have two major shortfalls. The GAP/Interest Rate Sensitivity Report fails to precisely gauge how often an interest rate sensitive product reprices, nor is it able to measure the magnitude of potential future rate movements.

Net interest income simulation modeling, or earnings-at-risk, measures the sensitivity of net interest income to various interest rate movements. The Corporation's asset liability process monitors simulated net interest income under three separate interest rate scenarios; base, rising and falling. Estimated net interest income for each scenario is calculated over a 12-month horizon. The immediate and parallel changes to the base case scenario used in the model are presented below. The interest rate scenarios are used for analytical purposes and do not necessarily represent management's view of future market movements. Rather, these are intended to provide a measure of the degree of volatility interest rate movements may introduce into the earnings of the Corporation.

The base scenario is highly dependent on numerous assumptions embedded in the model, including assumptions related to future interest rates. While the base sensitivity analysis incorporates management's best estimate of interest rate and balance sheet dynamics under various market rate movements, the actual behavior and resulting earnings impact will likely differ from that projected. For mortgage-related assets, the base simulation model captures the expected prepayment behavior under changing interest rate environments. Assumptions and methodologies regarding the interest rate or balance behavior of indeterminate maturity products, e.g., savings, money market, NOW and demand deposits reflect management's best estimate of expected future behavior.

The comparative rising and falling scenarios for the period ended December 31, 2003 assume further interest rate changes in addition to the base simulation discussed above. These changes are immediate and parallel changes to the base case scenario. In addition, total rate movements (beginning point minus ending point) to each of the various driver rates utilized by management in the base simulation for the period ended December 31, 2003 are as follows:

Driver Rates	RISING	FALLING
Prime	200 Basis Points	(50) Basis Points
Federal Funds	200	(50)
One-Year T-Bill	200	(20)
Two-Year T-Bill	200	(59)
Interest Checking	100	--
MMIA Savings	100	--
First Flex	100	(25)
CD's	200	(53)
FHLB Advances	200	(66)

Results for the base, rising and falling interest rate scenarios are listed below, based upon the Corporation's rate sensitive assets at December 31, 2002. The net interest income shown represents cumulative net interest income over a 12-month time horizon. Balance sheet assumptions used for the base scenario are the same for the rising and falling simulations.

	BASE	RISING	FALLING
Net Interest Income (dollars in thousands)	\$105,138	\$113,855	\$ 98,793
Variance from base		\$ 8,717	\$ (6,345)
Percent of change from base		8.29%	(6.03)%

The comparative rising and falling scenarios for the year ended December 31, 2002 assume further interest rate changes in addition to the base simulation discussed above. These changes are immediate and parallel changes to the base case scenario. In addition, total rate movements (beginning point minus ending point) to each of the various driver rates utilized by management in the base simulation for the year ended December 31, 2002 are as follows:

Driver Rates	RISING	FALLING
Prime	200 Basis Points	(150)Basis Points
Federal Funds	200	(100)
One-Year T-Bill	200	(100)
Two-Year T-Bill	200	(100)

MMIA Savings	75	(25)
Money Market Index	200	(100)
CD's	170	(130)
FHLB Advances	200	(100)

Results for the base, rising and falling interest rate scenarios are listed below, based upon the Corporation's rate sensitive assets at December 31, 2001. The net interest income shown represents cumulative net interest income over a 12-month time horizon. Balance sheet assumptions used for the base scenario are the same for the rising and falling simulations.

	BASE	RISING	FALLING
Net Interest Income (dollars in thousands)	\$ 74,029	\$ 74,356	\$ 71,540
Variance from base		\$ 327	\$ (2,489)

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

In connection with its audits for the two most recent fiscal years ended December 31, 2002, there have been no disagreements with the Corporation's independent certified public accountants on any matter of accounting principles or practices, financial statement disclosure or audit scope or procedure, nor have there been any changes in accountants.

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT.

-----

The information in the Corporation's Proxy Statement dated February 25, 2003 furnished to its stockholders in connection with an annual meeting to be held April 10, 2003 (the "2003 Proxy Statement"), under the captions "Election of Directors" and "Section 16(a) Beneficial Ownership Reporting Compliance", is expressly incorporated herein by reference. The information required under this item relating to executive officers is set forth in Part I, "Supplemental Information - Executive Officers of the Registrant" of this annual report on Form 10-K and is expressly incorporated herein by reference.

ITEM 11. EXECUTIVE COMPENSATION.

-----

The information in the Corporation's 2003 Proxy Statement, under the captions, "Compensation of Directors", "Compensation of Executive Officers", "Compensation and Human Resources Committee Interlocks and Insider Participation", "Compensation and Human Resources Committee Report on Executive Compensation" and "Performance Graph," is expressly incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

The information in the Corporation's 2003 Proxy Statement, under the caption, "Security Ownership of Certain Beneficial Owners and Management," is expressly incorporated herein by reference.

The following table presents information relating to securities authorized under equity compensation plans.

Equity Compensation Plan Information

Plan category	(a) Number of securities to be issued upon exercise of outstanding options, warrants and rights	(b) Weighted-average exercise price of outstanding options, warrants and rights	(c) Number of securities remaining available for future issuance under equity compensations plans (excluding securities reflected in column (a))
Equity compensation plans approved by stockholders	771,589	\$ 20.78	195,217
Equity compensation plans not approved by stockholders	30,871	21.65	
<b>Total</b>	<b>802,460</b>	<b>\$ 20.81</b>	<b>195,217</b>

The only plan reflected above that was not approved by the Corporation's stockholders relates to certain First Merchants Corporation Stock Option Agreements ("Agreements"). These Agreements provide for non-qualified stock options of the common stock of the Corporation to be granted to each director of First Merchants Bank, National Association (the "Bank") who, on the date of the grant: (a) is serving as a director of the Bank; (b) is not an employee of the Corporation, the Bank, or any of the Corporation's other affiliated banks or non-bank subsidiaries; and (c) is not serving as a director of the Corporation. The exercise price of the shares is equal to the fair market value of the shares upon the grant of the option. Options become 100 percent vested when granted and are fully exercisable six months after the date of the grant, for a period of ten years.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

The information in the Corporation's 2003 Proxy Statement, under the caption "Interest of Management in Certain Transactions," is expressly incorporated herein by reference.

ITEM 14. CONTROLS AND PROCEDURES

Within the 90 days prior to the filing date of this report, the Corporation carried out an evaluation, under the supervision and with the participation of the Corporation's management, including the Corporation's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon that evaluation, the Corporation's Chief Executive Officer and Chief Financial Officer concluded that the Corporation's disclosure controls and procedures are effective. Disclosure controls and procedures are controls and procedures that are designed to ensure that information required to be disclosed in Corporation reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There have been no significant changes in our internal controls or in other factors that could significantly affect internal controls subsequent to the date we carried out this evaluation.

EXHIBIT-10L  
FIRST MERCHANTS CORPORATION 1999 LONG-TERM EQUITY INCENTIVE PLAN,  
AS AMENDED

Exhibit 101--FIRST MERCHANTS CORPORATION 1999 LONG-TERM EQUITY INCENTIVE PLAN

ARTICLE I

ESTABLISHMENT AND PURPOSE

Section 1.01. Establishment and Term of Plan. First Merchants Corporation, an Indiana corporation (the "Company"), hereby establishes the First Merchants Corporation 1999 Long-Term Equity Incentive Plan (the "Plan"), effective as of April 14, 1999, subject to the approval of the Plan at the Company's 1999 annual meeting of shareholders by the holders of a majority of the shares of the Company's common stock present and voting at that meeting in person or by proxy.

Section 1.02. Purpose. The Plan is designed to promote the interests of the Company, its subsidiaries, and its shareholders by providing stock-based incentives to selected Employees, Non-Employee Directors, Subsidiary Directors and Advisory Directors who are expected to contribute materially to the success of the Company and its subsidiaries. The purpose of the Plan is to provide a means of rewarding performance and to provide an opportunity to increase the personal ownership interest of Employees, Non-Employee Directors, Subsidiary Directors and Advisory Directors in the continued success of the Company. The Company believes that the Plan will assist its efforts to attract and retain quality Employees, Non-Employee Directors, Subsidiary Directors and Advisory Directors.

ARTICLE II

ADMINISTRATION

Section 2.01. Administrative Committee. The Plan shall be administered by the Committee, which shall serve at the pleasure of the Board of Directors. The Committee shall have full authority to administer the Plan, including authority to interpret and construe any provision of the Plan and to adopt such rules and regulations for administering the Plan as it may deem necessary to comply with the requirements of the Plan or any applicable law.

Section 2.02. Powers of the Committee. The Committee shall, subject to the terms of this Plan, have the authority to: (i) select the eligible Employees, Subsidiary Directors and Advisory Directors who shall receive Awards, (ii) grant Awards, (iii) determine the types and sizes of Awards to be granted to Employees, Subsidiary Directors and Advisory Directors under the Plan (but not to Non-Employee Directors, who shall receive Director Options in accordance with Article VI of this Plan), (iv) determine the terms, conditions, vesting periods, and restrictions applicable to Awards (other than Director Options), (v) adopt, alter, and repeal administrative rules and practices governing this Plan, (vi) interpret the terms and provisions of this Plan and any Awards granted under this Plan, (vii) prescribe the forms of any Award Agreements or other instruments relating to Awards, and (viii) otherwise supervise the administration of this Plan. The Committee may delegate any of its authority to any other person or persons that it deems appropriate with respect to Awards granted to Employees who are not officers of the Company.

Section 2.03. Actions of the Committee. All actions taken and all interpretations and determinations made in good faith by the Committee, or made by any other person or persons to whom the Committee has delegated authority, shall be final and binding upon all Participants, the Company, and all other interested persons. All decisions by the Committee shall be made with the approval of not less than a majority of its members. Members of the Committee who are eligible for Awards may vote on any matters affecting the administration of the Plan or the grant of any Awards pursuant to the Plan, except that no such member shall act upon the granting of an Award to himself or herself; but any such member may be counted in determining the existence of a quorum of the Committee.

ARTICLE III

ELIGIBILITY

Section 3.01. Employees, Subsidiary Directors and Advisory Directors. Any Employee of the Company or any of its Subsidiaries who is selected by the Committee to be a Participant under the Plan, and any Subsidiary Director or Advisory Director, shall be eligible for the grant of Awards (other than Director Options). The selection of the Employees, Subsidiary Directors and Advisory Directors to receive Awards (other than Director Options) shall be within the discretion of the Committee. More than one Award may be granted to the same Employee, Subsidiary Director or Advisory Director.

Section 3.02. Non-Employee Directors. All Non-Employee Directors are eligible for the grant of Director Options, as provided in Article VI of this Plan. Non-Employee Directors are not, however, eligible for the grant of any Awards other than Director Options.

ARTICLE IV

SHARES SUBJECT TO AWARDS

Section 4.01. Number of Common Shares. The shares subject to the Awards and other provisions of the Plan shall be the Company's authorized but unissued, or reacquired Common Shares. The aggregate number of Common Shares that may be subject to Awards granted under this Plan in any fiscal year shall be equal to the sum of (i) one percent (1%) of the number of Common Shares Outstanding as of the last day of the Company's prior fiscal year, plus (ii) the number of Common Shares that were available for the grant of Awards, but not granted, under this Plan in any previous fiscal year; provided that in no event will the number of Common Shares available for the grant of Awards in any fiscal year exceed one-and-one-half percent (1 1/2%) of the Common Shares Outstanding as of the last day of the prior fiscal year. The aggregate number of Common Shares that may be issued under the Plan upon the exercise of Incentive Stock Options is 1,200,000, as adjusted pursuant to Section 4.02. No fractional shares shall be issued under this Plan; if necessary, the Committee shall determine the manner in which the value of fractional shares will be treated.

The assumption of awards granted by an organization acquired by the Company, or the grant of Awards under this Plan in substitution for any such awards, shall not reduce the number of Common Shares available for the grant of Awards under this Plan. Common Shares subject to an Award that is forfeited, terminated or canceled without having been exercised shall again be available for grant under this Plan, subject to the limitations noted in the foregoing paragraph of this Section 4.01.

Section 4.02. Adjustment. In the event of any change in the Common Shares by reason of a merger, consolidation, reorganization, recapitalization or similar transaction, or in the event of a stock split, stock dividend or distribution to shareholders (other than normal cash dividends), spin-off or any other change in the corporate structure of the Company, the Committee shall adjust the number and class of shares that may be issued under this Plan, the aggregate number of Common Shares that may be issued under the Plan upon the exercise of Incentive Stock Options, the number and class of shares subject to outstanding Awards, the exercise price applicable to outstanding Awards, and the Fair Market Value of the Common Shares and other value determinations applicable to outstanding Awards, as appropriate. All determinations made by the Committee with respect to adjustments under this Section 4.02 shall be conclusive and binding for all purposes of the Plan.

ARTICLE V

AWARDS

Section 5.01. Grant of Awards. Awards authorized under this Article V may be granted pursuant to another incentive program which incorporates by reference the terms and conditions of this Plan. Awards may be granted singly or in combination or tandem with other Awards. Awards may also be granted in replacement of, or in substitution for, other awards granted by the Company whether or not such other awards were granted under this Plan; without limiting the foregoing, if a Participant pays all or part of the exercise price or taxes associated with an Award by the transfer of Common Shares or the surrender of all or part of an Award (including the Award being exercised), the Committee may, in its discretion, grant a new Award to replace the Common Shares that were transferred or the Award that was surrendered. The Company may assume awards granted by an organization acquired by the Company or may grant Awards in replacement of, or in substitution for, any such awards.

Section 5.02. Types of Awards. Awards may include, but are not limited to, the following:

(a) Director Option. A right to purchase Common Shares granted to a Non-Employee Director pursuant to Article VI of this Plan.

(b) Stock Award. An Award that is made in Common Shares or Restricted Stock or that is otherwise based on, or valued in whole or in part by reference to, the Common Shares. All or part of any Stock Award may be subject to conditions, restrictions and risks of forfeiture, as and to the extent established by the Committee. Stock Awards may be based on the Fair Market Value of the Common Shares, or on other specified values or methods of valuation, as determined by the Committee.

(c) Stock Option. A right to purchase a specified number of Common Shares, during a specified period and at a specified exercise price, all as determined by the Committee. A Stock Option may be an Incentive Stock Option or a Non-Qualified Stock Option. Incentive Stock Options may only be issued to Employees. In addition to the terms, conditions, vesting periods, and restrictions established by the Committee in the Award Agreement, Incentive Stock Options must comply with the requirements of Section 422 of the Code, Section 5.03(f), and this Article V.

Section 5.03. Terms and Conditions of Awards; Agreements. Awards granted under the Plan shall be evidenced by an Award Agreement executed by the Company and the Participant, which shall contain such terms and be in such form as the Committee may from time to time approve, subject to the following limitations and conditions:

(a) Number of Shares. The Award Agreement shall state, as appropriate, the type and total number of shares granted, and/or the type and total number of shares with respect to which Stock Options are granted.

(b) Award Prices. The Award Agreement shall state, as applicable, the price per share of the Common Shares with respect to which Stock Options are issued. The price or other value shall be determined by the Committee. For Incentive Stock Options, the exercise price shall satisfy all of the requirements of the Code and of Section 5.03(f) of this Plan.

(c) Payment of Exercise Price; Deferral. The exercise price of a Stock Option (other than an Incentive Stock Option), Director Option, and any Stock Award for which the Committee has established an exercise price, may be paid in cash, by the transfer of Common Shares, by the surrender of all or part of an Award (including the Award being exercised), or by a combination of these methods, as and to the extent permitted by the Committee. The exercise price of an Incentive Stock Option may be paid in cash, by the transfer of Common Shares, or by a combination of these methods, as and to the extent permitted by the Committee at the time of grant, but may not be paid by the surrender of all or part of an Award. The Committee may prescribe any other method of paying the exercise price that it determines to be consistent with applicable law and the purpose of this Plan.

With the approval of the Committee, the delivery of the Common Shares, cash, or any combination thereof subject to an Award (other than Director Options) may be deferred, either in the form of installments or a single future delivery. The Committee may also permit selected Participants to defer the payment of some or all of their Awards, as well as other compensation, in accordance with procedures established by the Committee to assure that the recognition of taxable income is deferred under the Code. The Committee may also establish rules and procedures for the crediting of interest on deferred cash payments and dividend equivalents on Awards.

(d) Issuance of Shares and compliance with Securities Laws. The Company may postpone the issuance and delivery of certificates representing shares until (a) the admission of such shares to listing on any stock exchange on which shares of the Company of the same class are then listed, and (b) the completion of such registration or other qualification of such shares under any state or federal law, rule or regulation as the Company shall determine to be necessary or advisable, which registration or other qualification the Company shall use its best efforts to complete; provided, however, a person purchasing shares pursuant to the Plan has no right to require the Company to register the Common Shares under federal or state securities laws at any time. Any person purchasing shares pursuant to the Plan may be required to make such representations and furnish such information as may, in the opinion of counsel for the Company, be appropriate to permit the Company, in light of the existence or non-existence with respect to such shares of an effective registration under the Securities Act of 1933, as amended, or any similar state statute, to issue the shares in compliance with the provisions of those or any comparable acts.

(e) Rights as a Shareholder. Unless otherwise provided by the Board of Directors or the Committee, a Participant shall have rights as a shareholder with respect to shares covered by an Award, including voting rights or rights to dividends, only upon the date of issuance of a certificate to him or her, and, if payment is required, only after such shares are fully paid.

(f) Incentive Stock Options. To the extent any Award granted pursuant to this Plan contains an Incentive Stock Option, the following limitations and conditions shall apply to such Incentive Stock Option and the Award Agreement relating thereto in addition to the terms and conditions provided herein:

- (i) Price. The price of an Incentive Stock Option shall be an amount per share not less than the Fair Market Value per share of the Common Shares on the date of granting of the option. In the case of Incentive Stock Options granted to an Employee of the Company who is a 10% shareholder, the option price shall be an amount per share not less than one hundred ten percent (110%) of the Fair Market Value per share of the Common Shares on the date of the granting of the Incentive Stock Option.
- (ii) Exercise Period. Unless terminated earlier pursuant to other terms and provisions of the Award Agreement, the term of each Incentive Stock Option shall expire within the period prescribed in the Agreement relating thereto, which shall not be more than five (5) years from the date the Incentive Stock Option is granted if the Participant is a ten percent (10%) shareholder, and not more than ten (10) years from the date the Incentive Stock Option is granted if the Participant is not a ten percent (10%) shareholder.
- (iii) Limitation on Grants. No Incentive Stock Option shall be granted under this Plan after April 14, 2009.
- (iv) Limitation on Transferability. No Incentive Stock Option shall be assignable or transferable except by will or under the laws of descent and distribution. During the lifetime of a Participant, the Incentive Stock Option shall be exercisable only by the Participant and may not be transferred or assigned pursuant to a qualified domestic relations order.
- (v) Maximum Exercise Rule. The aggregate Fair Market Value (determined at the time the option is granted) of the shares with respect to which Incentive Stock Options are exercisable for the first time by an Employee during any calendar year under all such plans of the Company and any parent or Subsidiary of the Company shall not exceed One Hundred Thousand Dollars (\$100,000).

(g) Termination of Awards Under Certain Conditions. The Committee may cancel any unexpired, unpaid or deferred Awards at any time, if the Participant is not in compliance with all applicable provisions of this Plan or with any Award Agreement, or if the Participant, whether or not he or she is currently employed by the Company, engages in any of the following activities without the prior written consent of the Company:

- (i) Directly or indirectly renders services to or for an organization, or engages in a business that is, in the judgment of the Committee, in competition with the Company.
- (ii) Discloses to anyone outside of the Company, or uses for any purpose other than the Company's business, any confidential or proprietary information or material relating to the Company, whether acquired by the Participant during or after employment with the Company.

The Committee may, in its discretion and as a condition to the exercise of an Award, require a Participant to acknowledge in writing that he or she is in compliance with all applicable provisions of this Plan and of any Award Agreement and has not engaged in any activities referred to in clauses (i) and (ii) above.

(h) Nontransferability. Unless otherwise determined by the Committee and provided in the Award Agreement, (i) no Award granted under this Plan may be transferred or assigned by the Participant to whom it is granted other than by will, pursuant to the laws of descent and distribution, or pursuant to a qualified domestic relations order, and (ii) an Award granted under this Plan may be exercised, during the Participant's lifetime, only by the Participant or by the Participant's guardian or legal representative.

Section 5.04. Election to Defer Grant or Receipt of Award.

Notwithstanding any provision herein to the contrary, the Committee may provide, in any Award Agreement or in any program granting Awards under this Plan, that the Participant may elect to defer receipt of the Award as provided in the Award Agreement or program.

## ARTICLE VI

### DIRECTOR OPTIONS

Section 6.01. Grant of Director Options.

(a) Administration. A committee formed by only those Directors other than Non-Employee Directors shall have full authority to administer Director Options, including authority to require that any Non-Employee Director sign an Award Agreement as a condition of receiving a Director Option.

(b) Granting of Director Options. Until this Plan is terminated, each individual serving as a Non-Employee Director on July 1 in any year after 1998 shall automatically receive a Director Option, effective on such date.

Section 6.02. Number of Common Shares Subject to Each Director Option.

Each Director Option shall entitle the Non-Employee Director the right to purchase one thousand (1,000) Common Shares on the terms and conditions specified herein.

Section 6.03. Exercise Price. The exercise price of the Common Shares subject to each Director Option shall be the Fair Market Value of the Common Shares at the date of grant.

Section 6.04. Date Director Options Become Exercisable. Unless

otherwise established by the Board of Directors, each Director Option shall become exercisable in full six (6) months after the date of grant; provided, however, all Director Options shall become exercisable in full (i) upon a Change of Control, (ii) in accordance with the terms of Section 6.06, or (iii) upon attainment by the Non-Employee Director of age 70.

Section 6.05. Expiration Date. Unless terminated earlier pursuant to

the terms of this Plan, each Director Option shall terminate, and the right of the holder to purchase Common Shares upon exercise of the Director Option shall expire, at the close of business on the tenth anniversary date of the date of grant.

Section 6.06. Continuous Service as a Director. No Director Option may be exercised unless the Non-Employee Director to whom the Director Option was granted has continued to be a Non-Employee Director from the time of grant through the time of exercise, except as provided in Section 6.04 and this Section 6.06.

(a) Retirement or Disability. If the service in office of a Non-Employee Director is terminated due to the retirement or Disability of the Non-Employee Director, the Non-Employee Director (or his or her legal representative if he or she becomes incapacitated), shall have the right, on or after the date of such termination but in no event following the expiration of the Director Option, to exercise the Director Option in full, whether or not the Non-Employee Director would otherwise have been entitled to exercise the Director Option at such date.

(b) Death. If the service in office of a Non-Employee Director is terminated due to the death of the Non-Employee Director, the Non-Employee Director's estate, executor, administrator, personal representative or beneficiary shall have the right to exercise the Director Option in full prior to the earlier of (i) one (1) year after the date of his or her death, and (ii) the expiration of the Director Option.

(c) Employed by Company. If a Non-Employee Director ceases to be a Non-Employee Director by reason of his or her employment by the Company or his or her appointment as a Subsidiary Director or Advisory Director, the Director Option granted to that Non-Employee Director shall be treated the same as Non-Qualified Stock Options held by Employees, Subsidiary Directors or Advisory Directors, whichever is applicable, and shall continue to be exercisable prior to the expiration of the Director Option, subject to the limitations on exercise following termination of employment, or termination of service as a Subsidiary Director or Advisory Director, established by the Committee pursuant to Article VIII of this Plan.

#### ARTICLE VII

##### TAX WITHHOLDING OBLIGATIONS

Prior to the payment of an Award, the Company may withhold, or require a Participant to remit to the Company, an amount sufficient to pay any federal, state and local withholding taxes associated with the Award. The Committee may, in its discretion and subject to such rules as the Committee may adopt, permit a Participant to pay any or all withholding taxes associated with the Award in cash, by the transfer of Common Shares, by the surrender of all or part of an Award (including the Award being exercised), or by a combination of these methods.

#### ARTICLE VIII

##### TERMINATION OF EMPLOYMENT OR TERMINATION OF SERVICE AS SUBSIDIARY DIRECTOR OR ADVISORY DIRECTOR

Section 8.01. Termination of Employment. Unless the Committee provides otherwise in the Award Agreement, if a Participant's employment with the Company or a Subsidiary terminates for any reason other than Retirement, Disability or death of the Participant, he or she may, but only within the thirty (30)-day period immediately following such termination of employment, and in no event later than the expiration date specified in the Award Agreement, exercise his or her Award to the extent that he or she was entitled to exercise it at the date of such termination; provided, however, if a Participant's employment is terminated for deliberate, willful or gross misconduct, as determined by the Board of Directors, all rights under the Award shall expire upon receipt of the notice of such termination. The transfer of an Employee from the employ of the Company to a Subsidiary, or vice versa, or from one Subsidiary to another Subsidiary, shall not be deemed a termination of employment for purposes of the Plan.

Section 8.02. Retirement or Disability. Unless the Committee provides otherwise in the Award Agreement, if a Participant's employment with the Company or any Subsidiary, or his or her service as a Subsidiary Director or Advisory Director, terminates due to Retirement or Disability, the Participant (or his or her legal representative if he or she becomes incapacitated) may, on or after the date of such termination but in no event later than the expiration date of the Award, exercise in full each Award granted to the Participant prior to such termination, whether or not the Participant would otherwise have been entitled to exercise the Award at such date. However, if the Award being exercised under this Section is an Incentive Stock Option, it may be exercised as such only during (i) the three (3) month period immediately following a termination due to Retirement, or (ii) during the one (1) year period immediately following a termination due to Disability (but in no event later than the expiration date of the Award). During the remainder of the exercise period, if any, the option may be exercised as a Non-Qualified Stock Option.

Section 8.03. Death. Unless the Committee provides otherwise in the Award Agreement, if a Participant dies (whether prior to or after termination of employment or termination of service as a Subsidiary Director or Advisory Director), the Participant's estate, executor, administrator, personal representative or beneficiary may, within the one (1) year period immediately following the Participant's death but in no event later than the expiration date of the Award, exercise in full each Award granted to the Participant prior to his or her death, whether or not the Participant would otherwise have been entitled to exercise the Award at such date. If the Award being exercised under this Section is an Incentive Stock Option and the Participant dies prior to termination of employment or within three (3) months following such termination, the Award may continue to be exercised as an Incentive Stock Option during the entire one (1) year period immediately following the Participant's death (but in no event later than the expiration date of the Award).

#### ARTICLE IX

##### CHANGE OF CONTROL

Unless and to the extent the terms and conditions of a Change of Control agreement between the Company and a Participant provide otherwise, in the event of a Change of Control of the Company, (i) all Stock Options then outstanding will become fully exercisable as of the date of the Change of Control, and (ii) all restrictions and conditions applicable to Restricted Stock and other Stock Awards will be deemed to have been satisfied as of the date of the Change of Control. Any such determination by the Board of Directors that is made after the occurrence of a Change of Control will not be effective unless a majority of the Directors then in office were in office at the beginning of a period of twenty-four (24) consecutive months and the determination is approved by a majority of such Directors.

#### ARTICLE X

##### AMENDMENT OF PLAN OR AWARDS

Section 10.01. Amendment, Suspension or Termination of Plan. The Board of Directors may, from time to time, amend, suspend or terminate this Plan at any time, and, in accordance with such amendments, may thereupon change terms and conditions of any Awards not theretofore issued. Shareholder approval for any such amendment will be required only to the extent necessary to satisfy the rules of NASDAQ or any national exchange on which the Common Shares are listed, or to satisfy any applicable federal or state law or regulation.

Section 10.02. Amendment of Outstanding Awards. The Committee may, in its discretion, amend the terms of any Award (other than a Director Option), prospectively or retroactively, but no such amendment may impair the rights of any Participant without his or her consent. Shareholder approval for any such amendment will be required only to the extent necessary to satisfy the rules of NASDAQ or any national exchange on which the Common Shares are listed, or to satisfy any applicable federal or state law or regulation. The Committee may, in whole or in part, waive any restrictions or conditions applicable to, or accelerate the vesting of, any Award (other than a Director Option).

ARTICLE XI

MISCELLANEOUS

Section 11.01. Governing Law. The interpretation, validity and enforcement of this Plan will, to the extent not otherwise governed by the Code or the securities laws of the United States, be governed by the laws of the State of Indiana.

Section 11.02. Rights of Employees. Nothing in this Plan will confer upon any Participant the right to continued employment by the Company or limit in any way the Company's right to terminate any Participant's employment at will.

ARTICLE XII

DEFINITIONS

Section 12.01. Definitions. When capitalized in this Plan, unless the context otherwise requires:

(a) "Advisory Director" means an advisory director of the Company or any of its Subsidiaries, who is not an Employee or Director of the Company or any of its Subsidiaries.

(b) "Award" means a grant made to a Participant pursuant to Article V of this Plan.

(c) "Award Agreement" means a written instrument between the Company and a Participant evidencing an Award and prescribing the terms, conditions, and restrictions applicable to the Award.

(d) "Board of Directors" means the Board of Directors of the Company, as constituted at any time.

(e) "Change of Control" means the first to occur of the following events:

- (i) any "person," as such term is used in Sections 13(d) and 14(d) of the Securities Exchange Act of 1934, as amended (the "Exchange Act") other than the Company, is or becomes the "beneficial owner" (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities of the Company or First Merchants Bank, National Association (the "Bank") representing twenty-five percent (25%) or more of the combined voting power of the Company's or Bank's then outstanding securities;
- (ii) persons constituting a majority of the Board of Directors of the Company or the Bank were not directors of the Company or the Bank for at least the twenty-four (24) months preceding months;
- (iii) the shareholders of the Company or the Bank approve a merger or consolidation of the Company or the Bank with any other company, other than (1) a merger or consolidation which would result in the voting securities of the Company or the Bank outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity) more than fifty percent (50%) of the combined voting power of the voting securities of the Company or the Bank or such surviving entity outstanding immediately after such merger or consolidation or (2) a merger or consolidation effected to implement a recapitalization of the Company or the Bank (or similar transaction) in which no person acquires fifty percent (50%) or more of the combined voting power of the Company's or the Bank's then outstanding securities; or
- (iv) the shareholders of the Company approve a plan of complete liquidation of the Company or the Bank or an agreement for the sale or disposition by the Company or the Bank of all or substantially all of the Company's assets.

(f) "Code" means the Internal Revenue Code of 1986, as amended.

(g) "Committee" means the Compensation and Human Resources Committee of the Board of Directors, consisting of two or more Non-Employee Directors who are "non-employee directors" as defined in paragraph (b)(3) of Rule 16b-3.

(h) "Common Share" means a share of common stock of First Merchants Corporation.

(i) "Common Shares Outstanding" means the total number of Common Shares outstanding as reflected in the Company's financial statements as of the most recent fiscal year-end.

(j) "Company" means First Merchants Corporation.

(k) "Director" means a director of the Company.

(l) "Director Option" means a right to purchase Common Shares granted to a Non-Employee Director pursuant to Article VI.

(m) "Disabled" or "Disability" means a permanent disability as defined in the applicable long-term disability plan of the Company; except that "Disabled" or "Disability" with respect to Director Options or Awards made to Subsidiary Directors or Advisory Directors shall mean total and permanent disability as defined in Section 22(e)(3) of the Code.

(n) "Employee" means any individual employed by the Company or any of its Subsidiaries, including officers and Employees who are members of the Board of Directors of the Company or any of its Subsidiaries.

(o) "Fair Market Value" of a Common Share means the value of the share on a particular date, determined as follows:

- (i) if the stock is not listed on such date on any national securities exchange, the average between the highest "bid" and lowest "offered" quotations of a share on such date (or, if none, on the most recent date on which there were bid and offered quotations of a share), as reported by NASDAQ, or other similar service selected by the Committee;
- (ii) if the stock is listed on such date on one (1) or more national securities exchanges, the last reported sale price of a share on such date as recorded on the composite tape system, or, if such system does not cover the stock, the last reported sale price of a share on such date on the principal national securities exchange on which the stock is listed, or, if no sale of the stock took place on such date, the last reported sale price of a share on the most recent day on which a sale of a share took place as recorded by such system or on such exchange, as the case may be; or
- (iii) if the stock is neither listed on such date on a national securities exchange nor traded in the over-the-counter market, the fair market value of a share on such date as determined in good faith by the Committee, on a basis consistent with regulations under the Code.

(p) "Incentive Stock Options" means stock options issued to Employees which qualify under and meet the requirements of Section 422 of the Code.

(q) "Non-Employee Director" means any Director of the Company who is not an Employee of the Company or any of its Subsidiaries.

(r) "Non-Qualified Stock Options" means stock options which do not qualify under or meet the requirements of Section 422 of the Code.

(s) "Participant" means any person to whom an Award has been granted under this Plan.

(t) "Plan" means this First Merchants Corporation 1999 Long-Term Equity Incentive Plan authorized by the Board of Directors at its meeting held on February 9, 1999, as such Plan from time to time may be amended as herein provided.

(u) "Restricted Stock" means an Award of Common Shares that are nontransferable and are subject to a substantial risk of forfeiture.

(v) "Retirement", in the case of an Employee, means the termination of all employment with the Company and its Subsidiaries for any reason other than death or Disability after the day on which the Employee has attained age 55.

(w) "Rule 16b-3" means Rule 16b-3 of the Securities and Exchange Commission, under the Securities Exchange Act of 1934, as amended.

(x) "Stock Options" means the Incentive Stock Options and the Non-Qualified Stock Options issued pursuant to the Plan.

(y) "Subsidiary" means a corporation or other form of business association of which shares (or other ownership interests) having fifty percent (50%) or more of the voting power are, or in the future become, owned or controlled, directly or indirectly, by the Company.

(z) "Subsidiary Director" means a director of a Subsidiary of the Company, who is not a Director of the Company or an Employee of the Company or any of its Subsidiaries.

The Corporation's financial data has been restated for all mergers accounted for as pooling of interests.

FORWARD-LOOKING STATEMENTS

The Corporation from time to time includes forward-looking statements in its oral and written communication. The Corporation may include forward-looking statements in filings with the Securities and Exchange Commission, such as Form 10-K and Form 10-Q, in other written materials and in oral statements made by senior management to analysts, investors, representatives of the media and others. The Corporation intends these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and the Corporation is including this statement for purposes of these safe harbor provisions. Forward-looking statements can often be identified by the use of words like "estimate," "project," "intend," "anticipate," "expect" and similar expressions. These forward-looking statements include:

- \* statements of the Corporation's goals, intentions and expectations;
- \* statements regarding the Corporation's business plan and growth strategies;
- \* statements regarding the asset quality of the Corporation's loan and investment portfolios; and
- \* estimates of the Corporation's risks and future costs and benefits.

These forward-looking statements are subject to significant risks, assumptions and uncertainties, including, among other things, the following important factors which could affect the actual outcome of future events:

- \* fluctuations in market rates of interest and loan and deposit pricing, which could negatively affect the Corporation's net interest margin, asset valuations and expense expectations;
- \* adverse changes in the Indiana economy, which might affect the Corporation's business prospects and could cause credit-related losses and expenses;
- \* adverse developments in the Corporation's loan and investment portfolios;
- \* competitive factors in the banking industry, such as the trend towards consolidation in the Corporation's market; and
- \* changes in the banking legislation or the regulatory requirements of federal and state agencies applicable to bank holding companies and banks like the Corporation's affiliate banks.

MANAGEMENT'S DISCUSSION & ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

=====

Because of these and other uncertainties, the Corporation's actual future results may be materially different from the results indicated by these forward-looking statements. In addition, the Corporation's past results of operations do not necessarily indicate its future results.

CRITICAL ACCOUNTING POLICIES

Certain policies are important to the portrayal of the Corporation's financial condition, since they require management to make difficult, complex or subjective judgements, some of which relate to matters that are inherently uncertain. Management believes that its critical accounting policies are those that involve the determination of the allowance for loan losses ("ALL").

The ALL is a significant estimate that can and does change based on management's assumptions about specific borrowers and applicable economic and environmental conditions, among other factors. The ALL is maintained to absorb losses inherent in the loan portfolio and is based on ongoing, quarterly assessments of the probable losses inherent in the loan portfolio. The ALL is increased by the provision for loan losses, which is charged against current operating results. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance. The Corporation's methodology for assessing the appropriateness of the ALL consists of three key elements - the determination of the appropriate reserves for specifically identified loans, historical losses, and environmental or qualitative factors.

Specific allowances are established in those instances where management has identified significant conditions or circumstances related to a credit that management believes indicate the probability that a loss may be incurred. The loans that are reviewed for specific allowances are generally those internally classified as substandard, doubtful or loss, including nonaccrual loans, loans in the process of foreclosure and certain loans past due 90 days or more and still accruing interest. Additionally, management also specifically reviews any other loan with a significant loss exposure.

The Corporation's five-year average historical loss experience is used to estimate an appropriate allowance for those loans not individually reviewed. The historical loss experience is determined for each type of loan in the portfolio.

There are certain inherent risks in the Corporation's loan portfolio; accordingly, the Corporation includes certain environmental or qualitative factors in its determination of the adequacy of the allowance for loan losses. These factors include national and local economic conditions that could have an impact of the credit quality of the loan portfolio, lending policies and procedures, portfolio size and composition, delinquency and non-performing loan trends, lending management and staff, loan review systems and procedures, concentration of credit, among other factors. The evaluation of the inherent loss with respect to these factors is subject to a higher degree of uncertainty because they are not identified with specific credits.

MANAGEMENT'S DISCUSSION & ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

=====

RESULTS OF OPERATIONS

Net income for the year 2002 reached \$27,836,000, up from \$22,209,000 in 2001. The \$5,627,000 increase is attributable to several factors, including the April 1, 2002 acquisition of Lafayette Bank and Trust Company ("Lafayette"), improved net interest margin and the elimination of goodwill amortization. However, these factors were mitigated by increased provision for loan losses and increased other expenses. These factors and others are discussed within the respective sections of Management's Discussion & Analysis of Financial Condition and Results of Operations. Diluted earnings per share totaled \$1.77, a 4.7% increase over \$1.69 reported for 2001. In 2002, First Merchants Corporation ("Corporation") recorded the twenty-seventh consecutive year of improvement in net income on both an aggregate and per share basis.

Net income for the year 2001 reached \$22,209,000 up from \$19,940,000 in 2000. The \$2,269,000 increase is attributable to several factors, including the July 1, 2001 acquisition of Frances Slocum Bank and Trust Company and improved net interest margin; however, these factors were mitigated by increased other expenses. These factors and others are discussed within the respective sections of Management's Discussion & Analysis of Financial Condition and Results of Operations. Diluted earnings per share totaled \$1.69, a 7.0% increase over \$1.58 reported for 2000.

Return on equity was 11.72 percent in 2002, as compared to the 2001 and 2000 figures of 13.36 percent and 14.10 percent.

Return on assets was 1.16 percent in 2002, 1.31 percent in 2001 and 1.30 percent in 2000.

The declines in return on equity and return on assets during 2002 are primarily due to increased provision for loan losses, which is discussed in the Asset Quality/Provision for Loan Losses section of Management's Discussion & Analysis of Financial Condition and Results of Operations.

CAPITAL

The Corporation's capital strength continues to exceed regulatory minimums and management believes that its capital levels continue to be a distinct advantage in the competitive environment in which the Corporation operates.

Tier I capital consists primarily of common stockholders' equity and trust preferred securities, less nonqualifying intangible assets and unrealized net securities gains. The Corporation's Tier I capital to average assets ratio was 7.92 percent and 8.7 percent at December 31, 2002 and 2001, respectively. In addition, at December 31, 2002, the Corporation had a Tier I risk-based capital ratio of 10.06 percent and total risk-based capital ratio of 11.17 percent. Regulatory capital guidelines require a Tier I risk-based capital ratio of 4.0 percent and a total risk-based capital ratio of 8.0 percent.

CAPITAL continued

The Corporation has an employee stock purchase plan and an employee stock option plan. Activity under these plans is described in Note 16 to the Consolidated Financial Statements. The transactions under these plans have not had a material effect on the Corporation's capital position.

ASSET QUALITY/PROVISION FOR LOAN LOSSES

Asset quality has been a major factor in the Corporation's ability to generate consistent profit improvement. The allowance for loan losses is maintained through the provision for loan losses, which is a charge against earnings. The amount provided for loan losses and the determination of the adequacy of the allowance are based on a continuous review of the loan portfolio, including an internally administered loan "watch" list and an independent loan review provided by an outside accounting firm. The evaluation takes into consideration identified credit problems, as well as the possibility of losses inherent in the loan portfolio that are not specifically identified. (See Critical Accounting Policies)

At December 31, 2002, non-performing loans totaled \$23,318,000, an increase of \$8,652,000, as noted in the table on the following page. This increase was primarily due to the addition of \$8,122,000 in non-accrual loans and past due 90 days or more other than non-accruing loans related to the acquisition of Lafayette and the general downturn in the economy.

At December 31, 2002, impaired loans totaled \$44,351,000, an increase of \$23,190,000 from year end 2001. The increase was attributable to the addition of impaired loans totaling \$14,677,000, related to the acquisition of Lafayette and several borrowers whose loans are considered impaired at December 31, 2002, but were not impaired at December 31, 2001. At December 31, 2002, an allowance for losses was not deemed necessary for impaired loans totaling \$27,450,000, but an allowance of \$7,299,000 was recorded for the remaining balance of impaired loans of \$16,901,000 and is included in the Corporation's allowance for loan losses. The average balance of impaired loans for 2002 was \$49,663,000.

At December 31, 2002, the allowance for loan losses was \$22,417,000, an increase of \$7,276,000 from year end 2001. As a percent of loans, the allowance was 1.11 percent at both December 31, 2002 and 2001.

The provision for loan losses in 2002 was \$7,174,000, an increase of \$3,598,000 from \$3,576,000 in 2001. The Corporation's adequacy of the allowance for loan losses reflects increased non-performing loans, increased specific reserves and increased impaired loans, resulting in increased provision expense. Of the \$3.6 million increase, approximately \$900,000 is attributable to the provision for loan losses for Lafayette subsequent to its acquisition, with the remaining based on the regular ongoing evaluation of the loan portfolios of the Corporation's bank subsidiaries. Current non-performing and impaired loan balances indicate that some decline in loan asset quality has occurred, which management believes is a result of current economic conditions.

LIQUIDITY

Liquidity management is the process by which the Corporation ensures that adequate liquid funds are available for the Corporation and its subsidiaries. These funds are necessary in order for the Corporation and its subsidiaries to meet financial commitments on a timely basis. These commitments include withdrawals by depositors, funding credit obligations to borrowers, paying dividends to shareholders, paying operating expenses, funding capital expenditures, and maintaining deposit reserve requirements. Liquidity is monitored and closely managed by the asset/liability committees at each subsidiary and by the Corporation's asset/liability committee.

The liquidity of the Corporation is dependent upon the receipt of dividends from its bank subsidiaries, which are subject to certain regulatory limitations as explained in Note 14 to the consolidated financial statements, and access to other funding sources. Liquidity of the Corporation's bank subsidiaries is derived primarily from core deposit growth, principal payments received on loans, the sale and maturity of investment securities, net cash provided by operating activities, and access to other funding sources. The most stable source of liability-funded liquidity for both the long-term and short-term is deposit growth and retention in the core deposit base. In addition, the Corporation utilizes advances from the Federal Home Loan Bank ("FHLB") as a funding source. At December 31, 2002, total borrowings from the FHLB were \$184,677,000. The Corporation's bank subsidiaries have pledged certain mortgage loans and certain investments to the FHLB. The total available remaining borrowing capacity from the FHLB at December 31, 2002, was \$221,204,000. The principal source of asset-funded liquidity is investment securities classified as available-for-sale, the market values of which totaled

LIQUIDITY continued

\$332,925,000 at December 31, 2002, an increase of \$101,257,000 or 43.7% over 2001. Securities classified as held-to-maturity that are maturing within a short period of time can also be a source of liquidity. Securities classified as held-to-maturity and that are maturing in one year or less totaled \$1,286,000 at December 31, 2002. In addition, other types of assets-such as cash and due from banks, federal funds sold and securities purchased under agreements to resell, and loans and interest-bearing deposits with other banks maturing within one year-are sources of liquidity.

In the normal course of business, the Corporation is a party to a number of other off-balance sheet activities that contain credit, market and operational risk that are not reflected in whole or in part in the Corporation's consolidated financial statements. Such activities include: traditional off-balance sheet credit-related financial instruments, commitments under operating leases and long-term debt.

The Corporation provides customers with off-balance sheet credit support through loan commitments and standby letters of credit. Summarized credit-related financial instruments at December 31, 2002 are as follows:

In addition to owned banking facilities, the Corporation has entered into a number of long-term leasing arrangements to support the ongoing activities of the Corporation. The required payments under such commitments and long-term debt at December 31, 2002 are as follows:

INTEREST SENSITIVITY AND DISCLOSURES ABOUT MARKET RISK

Asset/Liability Management has been an important factor in the Corporation's ability to record consistent earnings growth through periods of interest rate volatility and product deregulation. Management and the Board of Directors monitor the Corporation's liquidity and interest sensitivity positions at regular meetings to review how changes in interest rates may affect earnings. Decisions regarding investment and the pricing of loan

and deposit products are made after analysis of reports designed to measure liquidity, rate sensitivity, the Corporation's exposure to changes in net interest income given various rate scenarios and the economic and competitive environments.

It is the objective of the Corporation to monitor and manage risk exposure to net interest income caused by changes in interest rates. It is the goal of the Corporation's Asset/Liability function to provide optimum and stable net interest income. To accomplish this, management uses two asset liability tools. GAP/Interest Rate Sensitivity Reports and Net Interest Income Simulation Modeling are both constructed, presented and monitored quarterly.

Management believes that the Corporation's liquidity and interest sensitivity position at December 31, 2002, remained adequate to meet the Corporation's primary goal of achieving optimum interest margins while avoiding undue interest rate risk. The following table presents the Corporation's interest rate sensitivity analysis as of December 31, 2002.

The Corporation had a cumulative negative gap of \$196,910,000 in the one-year horizon at December 31, 2002, just over 7.4 percent of total assets. Net interest income at financial institutions with negative gaps tends to increase when rates decrease and decrease as interest rates increase.

The Corporation places its greatest credence in net interest income simulation modeling. The GAP/Interest Rate Sensitivity Report is believed by the Corporation's management to have two major shortfalls. The GAP/Interest Rate Sensitivity Report fails to precisely gauge how often an interest rate sensitive product reprices, nor is it able to measure the magnitude of potential future rate movements.

INTEREST RATE SENSITIVITY ANALYSIS continued

Net interest income simulation modeling, or earnings-at-risk, measures the sensitivity of net interest income to various interest rate movements. The Corporation's asset liability process monitors simulated net interest income under three separate interest rate scenarios; base, rising and falling. Estimated net interest income for each scenario is calculated over a 12-month horizon. The immediate and parallel changes to the base case scenario used in the model are presented below. The interest rate scenarios are used for analytical purposes and do not necessarily represent management's view of future market movements. Rather, these are intended to provide a measure of the degree of volatility interest rate movements may introduce into the earnings of the Corporation.

The base scenario is highly dependent on numerous assumptions embedded in the model, including assumptions related to future interest rates. While the base sensitivity analysis incorporates management's best estimate of interest rate and balance sheet dynamics under various market rate movements, the actual behavior and resulting earnings impact will likely differ from that projected. For mortgage-related assets, the base simulation model captures the expected prepayment behavior under changing interest rate environments. Assumptions and methodologies regarding the interest rate or balance behavior of indeterminate maturity products, e.g., savings, money market, NOW and demand deposits reflect management's best estimate of expected future behavior.

The comparative rising and falling scenarios for the period ended December 31, 2003 assume further interest rate changes in addition to the base simulation discussed above. These changes are immediate and parallel changes to the base case scenario. In addition, total rate movements (beginning point minus ending point) to each of the various driver rates utilized by management in the base simulation for the period ended December 31, 2003 are as follows:

Driver Rates	RISING	FALLING
Prime	200 Basis Points	(50) Basis Points
Federal Funds	200	(50)
One-Year T-Bill	200	(20)
Two-Year T-Bill	200	(59)
Interest Checking	100	--
MMIA Savings	100	--
First Flex	100	(25)
CD's	200	(53)

Results for the base, rising and falling interest rate scenarios are listed below, based upon the Corporation's rate sensitive assets at December 31, 2002. The net interest income shown represents cumulative net interest income over a 12-month time horizon. Balance sheet assumptions used for the base scenario are the same for the rising and falling simulations.

EARNING ASSETS

Earning assets increased \$767.4 million during 2002. The table below reflects the earning asset mix for the years 2002 and 2001 (at December 31).

Loans grew by \$666.0 million while investment securities increased by \$101.7 million. The acquisition of Lafayette combined with increased loan demand resulted in a 49.0% increase in the Corporation's loan portfolio. In addition, the increase in investment securities was primarily a result of the acquisition of Lafayette.

NET INTEREST INCOME

Net interest income is the primary source of the Corporation's earnings. It is a function of net interest margin and the level of average earning assets. The table below reflects the Corporation's asset yields, interest expense, and net interest income as a percent of average earning assets for the three-year period ending in 2002.

In 2002, asset yields decreased 97 basis points (FTE) and interest cost decreased 112 basis points, resulting in a 15 basis point (FTE) increase in net interest income. The Corporation aggressively repriced deposits downward in relation to market interest rates in an effort to mitigate declining asset yields resulting from a 4.5% decrease in the prime rate in 2001 and an additional 75 basis point decline in 2002.

(dollars in thousands)

	INTEREST INCOME (FTE) as a Percent of Average Earning Assets	INTEREST EXPENSE as a Percent of Average Earning Assets	NET INTEREST INCOME (FTE) as a Percent of Average Earning Assets	AVERAGE EARNING ASSETS	NET INTEREST INCOME On a Fully Taxable Equivalent Basis
2002	6.83%	2.44%	4.39%	\$2,198,943	\$96,599
2001	7.80	3.56	4.24	1,576,334	66,806
2000	8.19	4.16	4.03	1,453,795	58,619

Average earning assets include the average balance of securities classified as available for sale, computed based on the average of the historical amortized cost balances without the effects of the fair value adjustment.

OTHER INCOME

The Corporation has placed emphasis on the growth of non-interest income in recent years by offering a wide range of fee-based services. Fee schedules are regularly reviewed by a pricing committee to ensure that the products and services offered by the Corporation are priced to be competitive and profitable.

Other income in 2002 amounted to \$27,077,000 or 46.0 percent higher than in 2001. The increase of \$8,534,000 is primarily attributable to the following factors:

1. Service charges on deposit accounts increased \$3,601,000 or 62.9 percent due to increased number of accounts, price adjustments and approximately \$3,105,000 of additional service charge income related to the April 1, 2002 acquisition of Lafayette.
2. Net realized gains on sales of available-for-sale securities totaled \$739,000 in 2002, while net realized losses on sales of available-for-sale securities totaled \$(200,000) during 2001.
3. Revenues from fiduciary activities increased \$829,000 or 15.3 percent due primarily to additional fees received related to the acquisition of Lafayette.
4. The Corporation sold its purchase money order business in September of 2002, resulting in a net gain on sale of \$514,000.
5. Abstract, title insurance and other related income increased \$910,000 in 2002, related to the January 1, 2002 acquisition of Delaware County Abstract Company, Inc. and Beebe & Smith Title Insurance Company, Inc.
6. Gains on sale of mortgage loans included in other income increase by \$481,000, or 39.1 percent, due to increased mortgage volume. In addition, decreasing mortgage loan rates caused an increase in refinancing volume, which facilitated an increase in loan sales activity.

Other income in 2001 amounted to \$18,543,000 or 11.5 percent higher than in 2000. The increase of \$1,909,000 is primarily attributable to the following factors:

1. Service charges on deposit accounts increased \$953,000, or 20.0 percent due to increased number of accounts and price adjustments.
2. Gains on sale of mortgage loans included in other income increased by \$611,000, or 97.9 percent, due to increased mortgage volume. In addition, decreasing mortgage loan interest rates caused an increase in refinancing volume, which facilitated an increase in loan sales activity.

OTHER EXPENSES

Other expenses represent non-interest operating expenses of the Corporation. Other expenses in 2002 amounted to \$71,009,000, an increase of 57.1 percent from the prior year, or \$25,814,000.

The following factors account for most of the increase:

1. Salaries and benefit expense grew \$14,439,000, or 58.4 percent, due to normal salary increases, staff additions and additional salary and benefit cost of \$9,785,000 related to the April 1, 2002 acquisition of Lafayette.
2. Telephone expenses increased by \$1,497,000 or 140.9%, due to additional telephone costs related to the acquisition of Lafayette. In addition, increased service contract charges related to greater usage of telephone lines, contributed to this increase.
3. Equipment expenses increased by \$2,188,000 or 48.4%, primarily related to the April 1, 2002 acquisition of Lafayette.
4. Core deposit intangible amortization increased by \$907,000, due to utilization of the purchase method of accounting for the Corporation related to the April 1, 2002 acquisition of Lafayette.
5. Data processing fees increased by \$1,421,000, or 63.4 percent, primarily due to increases in processing expenses related to greater usage of debit/ATM cards by customers and increases in loans originated and processed during 2002.
6. Net occupancy expenses increased by \$903,000 or 33.1%, primarily related to the April 1, 2002 acquisition of Lafayette.

Other expenses amounted to \$45,195,000 in 2001, an increase of 12.8 percent from the prior year, or \$5,112,000.

Three major areas account for most of the increase:

1. Salary and benefit expenses grew by \$3,293,000, or 15.4 percent, due to normal salary increases, staff additions and additional salary cost related to the acquisition of Frances Slocum Bank and Trust Company.
2. Data processing fees increased by \$507,000, or 29.2 percent, primarily due to increases in processing expenses related to greater usage of debit/ATM cards by customers and increases in loans originated and processed during the year.
3. Goodwill and core deposit amortization increased by \$786,000, or 87.7 percent, due to utilization of the purchase method of accounting for the Corporation's June 1, 2000 acquisition of Decatur Bank and Trust Company and July 1, 2001 acquisition of Frances Slocum Bank and Trust Company.

INCOME TAXES

The increase in 2002 tax expense of \$2,057,000 is attributable primarily to the acquisition of Lafayette and an increase in pre-tax income of \$5,627,000. The increase in 2001 tax expenses of \$1,956,000 is attributable primarily to a \$4,225,000 increase in net pre-tax income. In addition, the effective tax rates for the periods ending December 31, 2002, 2001 and 2000 were 33.4%, 34.9% and 33.3%, respectively. The 150 basis point decrease is primarily a result of increases in tax exempt interest income and reduced state taxes, resulting from the effect of state income apportionment.

ACCOUNTING MATTERS

ACCOUNTING FOR A BUSINESS COMBINATION

Statement of Financial Accounting Standards ("SFAS") No. 141 requires that most all business combinations should be accounted for using the purchase method of accounting; use of the pooling method is prohibited.

This Statement requires that goodwill be initially recognized as an asset in the financial statement and measured as the excess of the cost of an acquired entity over the net of the amounts assigned to identifiable assets acquired and liabilities assumed. In addition, SFAS No. 141 requires all other intangibles, such as core deposit intangibles for a financial institution, to be identified.

The provisions of Statement No. 141 were effective for any business combination that was initiated after June 30, 2001.

ACCOUNTING FOR GOODWILL

Under the provisions of SFAS No. 142, goodwill should not be amortized but should be tested for impairment at the reporting unit level. Impairment test of goodwill should be done on an annual basis unless events or circumstances indicate impairment has occurred in the interim period. The annual impairment test can be performed at any time during the year as long as the measurement date is used consistently from year to year.

Impairment testing is a two step process, as outlined within the statement. If the fair value of goodwill is less than its carrying value, then the goodwill is deemed impaired and a loss recognized.

=====

MANAGEMENT'S DISCUSSION & ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

=====

The Corporation adopted these new accounting rules on January 1, 2002. As a result, the Corporation will not amortize the goodwill it has recorded prior to June 30, 2001, but will make an annual assessment of any impairment in goodwill and, if necessary, recognize an impairment loss at that time. The Corporation had goodwill of \$87,640,000 and \$26,081,000 at December 31, 2002 and 2001, respectively. Had Statement No. 142 been applied retroactively, the reported 2001 and 2000 net income would have increased by \$1,070,000 and \$724,000, respectively. At December 31, 2002, no impairment loss was identified.

ACQUISITIONS OF CERTAIN FINANCIAL INSTITUTIONS

SFAS No. 147 became effective October 1, 2002. This standard requires any intangible assets previously recorded under SFAS No. 72 to be included in the scope of SFAS No.s 141 and 142. This standard has no immediate impact on the financial position and results of operations of the Corporation, as the Corporation did not have any recorded unidentified intangible assets or goodwill that had continued to be amortized.

ACCOUNTING FOR STOCK-BASED COMPENSATION-TRANSITION AND DISCLOSURE-AN AMENDMENT OF FASB STATEMENT NO. 123

In December 2002, the Financial Accounting Standards Board issued SFAS No. 148. SFAS No. 148 amends FASB Statement No. 123, "Accounting for Stock Based Compensation" ("SFAS 123") and provides alternative methods for accounting for a change by registrants to the fair value method of accounting for stock-based compensation. Additionally, SFAS No. 148 amends the disclosure requirements of SFAS 123 to require disclosure in the significant accounting policy footnote of both annual and interim financial statements of the method of accounting for stock-based compensation and the related pro-forma disclosures when the intrinsic value method continues to be used. The statement is effective for fiscal years ending after December 15, 2002. Adoption of this statement did not have a material effect on the Corporation's financial position or results of operations.

INFLATION

Changing prices of goods, services and capital affect the financial position of every business enterprise. The level of market interest rates and the price of funds loaned or borrowed fluctuate due to changes in the rate of inflation and various other factors, including government monetary policy.

Fluctuating interest rates affect the Corporation's net interest income, loan volume and other operating expenses, such as employee salaries and benefits, reflecting the effects of escalating prices, as well as increased levels of operations and other factors. As the inflation rate increases, the purchasing power of the dollar decreases. Those holding fixed-rate monetary assets incur a loss, while those holding fixed-rate monetary liabilities enjoy a gain. The nature of a financial holding company's operations is such that there will generally be an excess of monetary assets over monetary liabilities, and, thus, a financial holding company will tend to suffer from an increase in the rate of inflation and benefit from a decrease.

To the Stockholders and Board of Directors  
First Merchants Corporation  
Muncie, Indiana

We have audited the accompanying consolidated balance sheets of First Merchants Corporation as of December 31, 2002 and 2001, and the related consolidated statements of income, comprehensive income, stockholders' equity and cash flows for each of the three years in the period ended December 31, 2002. These consolidated financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, based on our audits, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of First Merchants Corporation as of December 31, 2002 and 2001, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2002, in conformity with accounting principles generally accepted in the United States of America.

As more fully discussed in Note 7, the Corporation changed its method of accounting for goodwill in 2002.

NOTE 1

NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of First Merchants Corporation ("Corporation"), and its wholly owned subsidiaries, First Merchants Bank, N.A. ("First Merchants"), Madison Community Bank ("Madison"), First United Bank ("First United"), The Randolph County Bank ("Randolph County"), Union County National Bank ("Union National"), First National Bank ("First National"), Decatur Bank and Trust Company ("Decatur"), Frances Slocum Bank & Trust Company ("Frances Slocum"), and Lafayette Bank and Trust Company ("Lafayette"), (collectively the "Banks"), First Merchants Insurance Services, Inc. ("FMIS"), First Merchants Reinsurance Company ("FMRC"), Indiana Title Insurance Company ("ITIC"), First Merchants Capital Trust I ("FMC Trust I"), First Merchants Capital Trust II ("FMC Trust II"), and First Merchants Capital Trust III ("FMC Trust III"), conform to generally accepted accounting principles and reporting practices followed by the banking industry. The more significant of the policies are described below.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The Corporation is a financial holding company whose principal activity is the ownership and management of the Banks and operates in a single significant business segment. First Merchants, Union National and First National operate under national bank charters and provide full banking services, including trust services. As national banks, First Merchants, First National and Union National are subject to the regulation of the Office of the Comptroller of the Currency and the Federal Deposit Insurance Corporation ("FDIC"). Madison, First United, Randolph County, Decatur, Frances Slocum and Lafayette operate under state bank charters and provide full banking services, including trust services. As state banks, Madison, First United, Randolph County, Decatur, Frances Slocum and Lafayette are subject to the regulation of the Department of Financial Institutions, State of Indiana, and the FDIC.

The Banks generate commercial, mortgage, and consumer loans and receive deposits from customers located primarily in north-central and east-central Indiana and Butler County, Ohio. The Banks' loans are generally secured by specific items of collateral, including real property, consumer assets and business assets. Although the Banks have a diversified loan portfolio, a substantial portion of their debtors' ability to honor their contracts is dependent upon economic conditions in the automotive and agricultural industries.

NOTE 1

NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continued  
CONSOLIDATION

The consolidated financial statements include the accounts of the Corporation and all its subsidiaries, after elimination of all material intercompany transactions.

INVESTMENT SECURITIES-Debt securities are classified as held to maturity when the Corporation has the positive intent and ability to hold the securities to maturity. Securities held to maturity are carried at amortized cost. Debt securities not classified as held to maturity are classified as available for sale. Securities available for sale are carried at fair value with unrealized gains and losses reported separately in accumulated other comprehensive income, net of tax.

Amortization of premiums and accretion of discounts are recorded as interest income from securities. Realized gains and losses are recorded as net security gains (losses). Gains and losses on sales of securities are determined on the specific-identification method.

LOANS HELD FOR SALE are carried at the lower of aggregate cost or market. Market is determined using the aggregate method. Net unrealized losses, if any, are recognized through a valuation allowance by charges to income based on the difference between estimated sales proceeds and aggregate cost.

LOANS are carried at the principal amount outstanding. Certain nonaccrual and substantially delinquent loans may be considered to be impaired. A loan is impaired when, based on current information or events, it is probable that the Banks will be unable to collect all amounts due (principal and interest) according to the contractual terms of the loan agreement. In applying the provisions of Statement of Financial Accounting Standards ("SFAS") No. 114, the Corporation considers its investment in one-to-four family residential loans and consumer installment loans to be homogeneous and therefore excluded from separate identification for evaluation of impairment. Interest income is accrued on the principal balances of loans, except for installment loans with add-on interest, for which a method that approximates the level yield method is used. The accrual of interest on impaired loans is discontinued when, in management's opinion, the borrower may be unable to meet payments as they become due. When interest accrual is discontinued, all unpaid accrued interest is reversed when considered uncollectable. Interest income is subsequently recognized only to the extent cash payments are received. Certain loan fees and direct costs are being deferred and amortized as an adjustment of yield on the loans.

NOTE 1

NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continued

ALLOWANCE FOR LOAN LOSSES is maintained to absorb losses inherent in the loan portfolio and is based on ongoing, quarterly assessments of the probable losses inherent in the loan portfolio. The allowance is increased by the provision for loan losses, which is charged against current operating results. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance. The Corporation's methodology for assessing the appropriateness of the allowance consists of three key elements - the determination of the appropriate reserves for specifically identified loans, historical losses, and environmental or qualitative factors.

Specific allowances are established in those instances where management has identified significant conditions or circumstances related to a credit that management believes indicate the probability that a loss may be incurred. The loans that are reviewed for specific allowances are generally those internally classified as substandard, doubtful or loss, including nonaccrual loans, loans in the process of foreclosure and certain loans past due 90 days or more and still accruing interest. Additionally, management also specifically reviews any other loan with a significant loss exposure.

The Corporation's five-year average historical loss experience is used to estimate an appropriate allowance for those loans not individually reviewed. The historical loss experience is determined for each type of loan in the portfolio.

There are certain inherent risks in the Corporation's loan portfolio; accordingly, the Corporation includes certain environmental or qualitative factors in its determination of the adequacy of the allowance for loan losses. These factors include national and local economic conditions that could have an impact of the credit quality of the loan portfolio, lending policies and procedures, portfolio size and composition, delinquency and non-performing loan trends, lending management and staff, loan review systems and procedures, concentration of credit, among other factors. The evaluation of the inherent loss with respect to these factors is subject to a higher degree of uncertainty because they are not identified with specific credits.

NOTE 1

NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES continued

PREMISES AND EQUIPMENT are carried at cost net of accumulated depreciation. Depreciation is computed using the straight-line and declining balance methods based on the estimated useful lives of the assets. Maintenance and repairs are expensed as incurred, while major additions and improvements are capitalized. Gains and losses on dispositions are included in current operations.

FEDERAL RESERVE AND FEDERAL HOME LOAN BANK STOCK are required investments for institutions that are members of the Federal Reserve Bank ("FRB") and Federal Home Loan Bank ("FHLB") systems. The required investment in the common stock is based on a predetermined formula.

INTANGIBLE ASSETS that are subject to amortization, including core deposit intangibles, are being amortized on both the straight-line and accelerated basis over periods ranging from 7 to 25 years. Intangible assets are periodically evaluated as to the recoverability of their carrying value.

GOODWILL is maintained by applying the provisions of SFAS No. 142, which was adopted by the Corporation on January 1, 2002. Goodwill is reviewed for impairment annually in accordance with this statement with any loss recognized through the income statement, at that time.

INCOME TAX in the consolidated statements of income includes deferred income tax provisions or benefits for all significant temporary differences in recognizing income and expenses for financial reporting and income tax purposes. The Corporation files consolidated income tax returns with its subsidiaries.

STOCK OPTIONS are granted for a fixed number of shares to employees. At December 31, 2002, the Corporation has stock-based employee compensation plans, which are described more fully in Note 16. The Corporation's stock option plans are accounted for in accordance with Accounting Principles Board Opinion ("APB") No. 25, Accounting for Stock Issued to Employees, and related interpretations. APB No. 25 requires compensation expense for stock options to be recognized only if the market price of the underlying stock exceeds the exercise price on the date of the grant. Accordingly, the Corporation recognized compensation expense of \$23,000 in 2002, 2001 and 2000, related to specific grants in which the market price exceeded the exercise price. For all remaining grants, no stock-based employee compensation cost is reflected in net income, as options granted under those plans had an exercise price equal to the market value of the underlying common stock on the grant date.

EARNINGS PER SHARE have been computed based upon the weighted average common and common equivalent shares outstanding during each year and have been restated to give effect to a five percent (5%) stock dividend on its shares of outstanding common stock distributed to stockholders on September 13, 2002.

NOTE 2

BUSINESS COMBINATIONS

Effective September 6, 2002, the Corporation acquired Stephenson Insurance Service, Inc., which was merged into FMIS, a wholly-owned subsidiary of the Corporation. The Corporation issued 36,276 shares of its common stock at a cost of \$27.47 per share to complete the transaction. This acquisition was deemed to be an immaterial acquisition.

On August 28, 2002, the Corporation signed a definitive agreement to acquire CNBC Bancorp ("CNBC"), Columbus, Ohio. The acquisition will be accounted for under the purchase method of accounting. Under the terms of the agreement, the Corporation will exchange 1.01 shares of the Corporation's common stock or \$29.57 in cash for each of the outstanding shares of CNBC. However, no more than \$24,562,000 aggregate cash may be paid in the merger, and there may be allocations of stock to certain shareholders if this threshold is exceeded. The transaction is subject to approval by stockholders of CNBC, and appropriate regulatory agencies. The Corporation anticipates amortizing core deposit intangibles over ten years. As of December 31, 2002 CNBC had total assets and shareholders' equity of \$331,741,000 and \$24,265,000 respectively. To fund a portion of the cash consideration payable to the stockholders of CNBC, the Corporation will establish a wholly owned trust subsidiary that will issue and sell up to \$25,000,000 in trust preferred securities of the Corporation. The preferred securities will have a 30 year maturity and a coupon rate based upon three-month LIBOR, plus 325 basis points, but LIBOR

The proceeds from the sale of the preferred securities will be loaned to the Corporation by the trust subsidiary in exchange for subordinated debentures with terms that are similar to the preferred securities and will be recorded as debt in the Corporation's consolidated financial statements. The subordinated debentures will be the sole asset of the trust subsidiary. Issuance costs will be amortized over the life of the preferred securities. The Corporation will guarantee the preferred securities and distributions.

On April 1, 2002, the Corporation acquired 100% of the outstanding stock of Lafayette Bancorporation, the holding company of Lafayette, which is located in Lafayette, Indiana. Lafayette is a state chartered bank with branches located in central Indiana. Lafayette Bancorporation was merged into the Corporation, and Lafayette maintained its state charter as a subsidiary of First Merchants Corporation. The Corporation issued approximately 2,911,712 shares of its common stock at a cost of \$22.36 per share and approximately \$50,867,000 in cash to complete the transaction. As a result of the acquisition, the Corporation has an opportunity to increase its customer base and continue to increase its market share. The purchase had a recorded acquisition price of \$115,978,000, including goodwill of \$57,893,000 none of which is deductible for tax purposes. Additionally, core deposit intangibles totaling \$16,052,000 were recognized and will be amortized over 10 years using the 150% declining balance method.

The combination was accounted for under the purchase method of accounting. All assets and liabilities were recorded at their fair values as of April 1, 2002. The purchase accounting adjustments are being amortized over the life of the respective asset or liability. Lafayette's results of operations are included in the Corporation's consolidated income statement beginning April 1, 2002. NOTE 5

LOANS AND ALLOWANCE continued

Nonaccruing loans are loans which are reclassified to a nonaccruing status when in management's judgment the collateral value and financial condition of the borrower do not justify accruing interest. Interest previously recorded, but not deemed collectible, is reversed and charged against current income. Interest income on these loans is then recognized when collected.

Restructured loans are loans for which the contractual interest rate has been reduced or other concessions are granted to the borrower, because of a deterioration in the financial condition of the borrower resulting in the inability of the borrower to meet the original contractual terms of the loans.

Information on impaired loans is summarized below:	2002	2001	2000

The terms of a security agreement with the FHLB require the Corporation to pledge, as collateral for advances, qualifying first mortgage loans and all otherwise unpledged investment securities in an amount equal to at least 160 percent of these advances. Advances are subject to restrictions or penalties in the event of prepayment.

On April 12, 2002, the Corporation and FMC Trust I (the "Trust") entered into an Underwriting Agreement with Stifel, Nicolaus & Company, Incorporated and RBC Dain Rauscher Inc. for themselves and as co-representatives for several other underwriters (the "Underwriting Agreement"). On April 17, 2002 and pursuant to the Underwriting Agreement, the Trust issued 1,850,000 8.75% Cumulative Trust Preferred Securities (liquidation amount \$25 per Preferred Security) (the "Preferred Securities") with an aggregate liquidation value of \$46,250,000. On April 23, 2002 and pursuant to the Underwriting Agreement, the Trust issued an additional 277,500 Preferred Securities with an aggregate liquidation value of \$6,937,500 to cover over-allotments. The proceeds from the sale of the Preferred Securities were invested by the Trust in the Corporation's 8.75% Junior Subordinated Debentures due June 30, 2032 (the "Debentures"). The proceeds from the issuance of the Debentures were used by the Corporation to fund a portion of the cash consideration payable to the shareholders of Lafayette Bancorporation in connection with the acquisition of Lafayette. The Preferred Securities are recorded as borrowings in the Corporation's consolidated December 31, 2002, balance sheet. Issuance costs are being amortized over the life of the Preferred Securities. Distributions are paid quarterly on March 31, June 30, September 30 and December 31 of each year. The Debentures will mature and the Preferred Securities must be redeemed on June 30, 2032. The Trust has the option of shortening the maturity date to a date not earlier than June 30, 2007, requiring prior approval of the Board of Governors of the Federal Reserve System.

NOTE 13

COMMITMENTS AND CONTINGENT LIABILITIES

In the normal course of business there are outstanding commitments and contingent liabilities, such as commitments to extend credit and standby letters of credit, which are not included in the accompanying financial statements. The Corporation's exposure to credit loss in the event of nonperformance by the other party to the financial instruments for commitments to extend credit and standby letters of credit is represented by the contractual or notional amount of those instruments. The Banks use the same credit policies in making such commitments as they do for instruments that are included in the consolidated balance sheets.

Financial instruments whose contract amount represents credit risk as of December 31, were as follows:

	2002	2001
	-----	-----
Commitments to extend credit	\$312,146	\$199,656
Standby letters of credit	18,124	9,806

NOTE 13

COMMITMENTS AND CONTINGENT LIABILITIES continued

Commitments to extend credit are agreements to lend to a customer, as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Banks evaluate each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Banks upon extension of credit, is based on management's credit evaluation. Collateral held varies, but may include accounts receivable, inventory, property and equipment, and income-producing commercial properties.

Standby letters of credit are conditional commitments issued by the Banks to guarantee the performance of a customer to a third party.

The Corporation and subsidiaries are also subject to claims and lawsuits, which arise primarily in the ordinary course of business. It is the opinion of management that the disposition or ultimate resolution of such claims and lawsuits will not have a material adverse effect on the consolidated financial position of the Corporation.

NOTE 14

STOCKHOLDERS' EQUITY

National and state banking laws restrict the maximum amount of dividends that a bank may pay in any calendar year. National and state banks are limited to the bank's retained net income (as defined) for the current year plus those for the previous two years. At December 31, 2002, First United, Union National, Decatur and Frances Slocum, had no retained net profits available for 2003 dividends to the Corporation without prior regulatory approval. The amount at December 31, 2002, available for 2003 dividends from First Merchants, Madison, Randolph County, First National and Lafayette to the Corporation totaled \$6,279,000, \$758,000, \$903,000, \$962,000 and \$6,245,000, respectively.

Total stockholders' equity for all subsidiaries at December 31, 2002, was \$320,320,000, of which \$300,073,000 was restricted from dividend distribution to the Corporation.

The Corporation has a Dividend Reinvestment and Stock Purchase Plan, enabling stockholders to elect to have their cash dividends on all shares held automatically reinvested in additional shares of the Corporation's common stock. In addition, stockholders may elect to make optional cash payments up to an aggregate of \$2,500 per quarter for the purchase of additional shares of common stock. The stock is credited to participant accounts at fair market value. Dividends are reinvested on a quarterly basis. At December 31,

On August 13, 2002, the Board of Directors of the Corporation declared a five percent (5%) stock dividend on its outstanding common shares. The new shares were distributed on September 13, 2002, to holders of record on August 30, 2002.

On August 14, 2001, the Board of Directors of the Corporation declared a five percent (5%) stock dividend on its outstanding common shares. The new shares were distributed on September 24, 2001, to holders of record on September 3, 2001.

NOTE 15

REGULATORY CAPITAL

The Corporation and Banks are subject to various regulatory capital requirements administered by the federal banking agencies and are assigned to a capital category. The assigned capital category is largely determined by three ratios that are calculated according to the regulations: total risk adjusted capital, Tier 1 capital, and Tier 1 leverage ratios. The ratios are intended to measure capital relative to assets and credit risk associated with those assets and off-balance sheet exposures of the entity. The capital category assigned to an entity can also be affected by qualitative judgments made by regulatory agencies about the risk inherent in the entity's activities that are not part of the calculated ratios.

There are five capital categories defined in the regulations, ranging from well capitalized to critically undercapitalized. Classification of a bank in any of the undercapitalized categories can result in actions by regulators that could have a material effect on a bank's operations.

At December 31, 2002, the management of the Corporation believes that it meets all capital adequacy requirements to which it is subject. The most recent notifications from the regulatory agencies categorized the Corporation and Banks as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Banks must maintain a minimum total capital to risk-weighted assets, Tier I capital to risk-weighted assets and Tier I capital to average assets of 10 percent, 6 percent and 5 percent, respectively. There have been no conditions or events since that notification that management believes have changed this categorization.

NOTE 16

EMPLOYEE BENEFIT PLANS

The Corporation's defined-benefit pension plans cover substantially all of the Corporation's employees. The benefits are based primarily on years of service and employees' pay near retirement. Contributions are intended to provide not only for benefits attributed to service-to-date, but also for those expected to be earned in the future.

The 1994 Stock Option Plan reserved 520,931 shares of Corporation common stock for the granting of options to certain employees and non-employee directors. The exercise price of the shares may not be less than the fair market value of the shares upon the grant of the option. Options become 100 percent vested when granted and are fully exercisable generally six months after the date of the grant, for a period of ten years. There were no shares available for grant.

NOTE 16

EMPLOYEE BENEFIT PLANS continued

The 1999 Long-term Equity Incentive Plan reserved 1,323,000 shares of Corporation common stock for the granting of options to certain employees and non-employee directors. The maximum number of options granted in any given year cannot exceed 1.5% of the shares outstanding at the end of the prior fiscal year. Options, which have a ten year life, become 100 percent vested ranging from six month to two years and are fully exercisable when vested. There were 939,484 shares available for grant at December 31, 2002.

The table below is a summary of the status of the Corporation's stock option plans and changes in those plans as of and for the years ended December 31, 2002, 2001 and 2000. The number of shares and prices have been restated to give effect to the Corporation's 2002 stock dividend.

The fair value of each option grant was estimated on the grant date using an option-pricing model with the following assumptions:

	2002	2001	2000
Risk-free interest rates.....	4.78%	5.32%	6.01%
Dividend yields.....	3.63%	3.59%	3.38%
Volatility factors of expected market price common stock...	31.02%	30.95%	22.86%
Weighted-average expected life of the options .....	8.50 years	8.50 years	8.50 years

Under SFAS No. 123, compensation cost is recognized in the amount of the estimated fair value of the options and amortized to expense over the options' vesting period. The pro forma effect on net income and earnings per share of this statement are shown in Note 1 to the consolidated financial statements.

The 1999 Employee Stock Purchase Plan enables eligible employees to purchase the Corporation's common stock. A total of 275,625 shares of the Corporation's common stock were initially reserved for issuance pursuant to the plan. The price of the stock to be paid by the employees is determined by the Corporation's compensation committee, but may not be less than 85 percent of the lesser of the fair market value of the Corporation's common stock at the beginning or at the end of the offering period. Common stock purchases are made annually and are paid through advance payroll deductions of up to 20 percent of eligible compensation. Participants under the plan purchased 37,394 shares in 2002 at \$17.61 per share. The fair value on the purchase date was \$28.28.

NOTE 16

EMPLOYEE BENEFIT PLANS continued

At December 31, 2002, there were 195,217 shares of Corporation common stock reserved for purchase under the plan, and \$453,000 has been withheld from compensation, plus interest, toward the purchase of shares after June 30, 2003, the end of the annual offering period.

The Corporation's Employee Stock Purchase Plan is accounted for in accordance with APB No. 25. Although the Corporation has elected to follow APB No. 25, SFAS No. 123 requires pro forma disclosures of net income and earnings per share as if the Corporation had accounted for the purchased shares under that statement. The pro forma disclosures are included in Note 1 to the consolidated financial statements and were estimated using an option pricing model with the following assumptions for 2002, 2001 and 2000, respectively: dividend yield of 3.63, 3.59, and 3.38 percent; an expected life of one year for all years; expected volatility of 31.02, 30.95, and 22.86 percent; and risk-free interest rates of 4.78, 5.32 and 6.01 percent. The fair value of those purchase rights granted in 2002, 2001 and 2000 was \$10.65, \$5.36 and \$3.82 respectively.

The Corporation maintains retirement savings 401(k) plans in which substantially all employees may participate. The Corporation matches employees' contributions at the rate of 25 to 50 percent for the first 4 to 6 percent of base salary contributed by participants. The Corporations' expense for the plans was \$315,000 for 2002, \$190,000 for 2001 and \$182,000 for 2000.

FAIR VALUES OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

**CASH AND CASH EQUIVALENTS** The fair value of cash and cash equivalents approximates carrying value.

**INTEREST-BEARING TIME DEPOSITS** The fair value of interest-bearing time deposits approximates carrying value.

**INVESTMENT SECURITIES** Fair values are based on quoted market prices.

**MORTGAGE LOANS HELD FOR SALE** The fair value of mortgages held for sale approximates carrying values.

**LOANS** For both short-term loans and variable-rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values. The fair value for other loans is estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality.

**FEDERAL RESERVE AND FEDERAL HOME LOAN BANK STOCK** The fair value of FRB and FHLB stock is based on the price at which it may be resold to the FRB and FHLB.

**INTEREST RECEIVABLE/PAYABLE** The fair values of interest receivable/payable approximate carrying values.

**CASH SURRENDER VALUE OF LIFE INSURANCE** The fair value of cash surrender value of life insurance approximates carrying value.

**DEPOSITS** The fair values of noninterest-bearing demand accounts, interest-bearing demand accounts and savings deposits are equal to the amount payable on demand at the balance sheet date. The carrying amounts for variable rate, fixed-term certificates of deposit approximate their fair values at the balance sheet date. Fair values for fixed-rate certificates of deposit and other time deposits are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on such time deposits.

FAIR VALUES OF FINANCIAL INSTRUMENTS continued

FEDERAL FUNDS PURCHASED, U.S. TREASURY DEMAND NOTES AND OTHER BORROWED FUNDS

These financial instruments are short-term borrowing arrangements. The rates at December 31, approximate market rates, thus the fair value approximates carrying value.

SECURITIES SOLD UNDER REPURCHASE AGREEMENTS, FEDERAL HOME LOAN BANK ADVANCES AND TRUST PREFERRED SECURITIES

The fair value of the these borrowings is estimated using a discounted cash flow calculation, based on current rates for similar debt.

OFF-BALANCE SHEET COMMITMENTS

Loan commitments and letters-of-credit generally have short-term, variable-rate features and contain clauses which limit the Banks' exposure to changes in customer credit quality. Accordingly, their carrying values, which are immaterial at the respective balance sheet dates, are reasonable estimates of fair value.

The estimated fair values of the Corporation's financial instruments are as follows:

NOTE 21

SUBSEQUENT EVENT

Effective January 1, 2003, the Corporation formed Merchants Trust Company, National Association ("MTC"), a wholly-owned subsidiary of the Corporation, through a capital contribution totaling approximately \$2,038,000. On January 1, 2003, MTC purchased the trust operations of First Merchants, First National and Lafayette for a fair value acquisition price of \$20,687,000. MTC unites the trust and asset management services of all affiliate banks of the Corporation. All intercompany transactions related to this purchase by MTC will be eliminated in the consolidated financial statements of the Corporation.

STOCKHOLDER INFORMATION

=====

First Merchants Corporation is a financial holding company headquartered in Muncie, Indiana. It was organized in September, 1982, as the bank holding company for Merchants National Bank of Muncie, now First Merchants Bank, National Association. Since its organization, First Merchants Corporation has grown to include nine affiliate banks with 69 locations in 18 Indiana counties and one Ohio county, a multi-line insurance agency, a title insurance company and a trust company.

Subsidiaries of the Corporation include First Merchants Bank, National Association in Delaware and Hamilton Counties, The Madison Community Bank in Madison County, First United Bank in Henry County, The Union County National Bank of Liberty (with offices in Union, Fayette, Wayne and Oxford (OH) Counties), The Randolph County Bank, The First National Bank of Portland in Jay County, Decatur Bank & Trust Company in Adams County, Frances Slocum Bank and Trust Company (with offices in Wabash, Howard and Miami Counties) and Lafayette Bank and Trust Company (with offices in Carroll, Jasper, White and Tippecanoe Counties). The Corporation also operates First Merchants Insurance Services, a full-service property casualty, personal lines, and healthcare insurer, headquartered in Muncie, Indiana, and is a majority owner of the Indiana Title Insurance Company, LLC, a title insurance agency.

Effective January 1, 2003, First Merchants Corporation formed Merchants Trust Company, National Association. This unites the trust and asset management services of all affiliate banks of the Corporation and represents one of the largest trust companies in the state of Indiana, with assets in excess of \$1.3 billion. Merchants Trust Company provides a full range of trust and investment services for individuals, families, businesses, and not-for-profit organizations. In addition, Merchants Trust Company specializes in turn-key retirement plans, including pension plans, profit sharing, 401(k) and 403(b) plans, cross-tested plans, and cash balance plans.

First Merchants Corporation is one of only two Indiana-based companies listed among America's Finest Companies, an investment guide published by The Staton Institute. First Merchants continues to receive an A+ rating from Standard & Poor's for its common stock (NASDAQ symbol FRME) and Blue Ribbon status for all affiliate banks from independent bank-rating service Veribanc. At the end of 2002, First Merchants Corporation has accomplished 27 years of consecutive increased earnings.

First Merchants Corporation's operating philosophy is to be client focused, value driven, plan disciplined, and managed for achievers from both an employee and shareholder perspective.
