CALCULATION OF REGISTRATION FEE

Title of each class of securities to be registered	Amount to be registered (1)	Proposed maximum offering price per share (2)	Proposed maximum aggregate offering price (2)	Amount of registration fee (3)(4)
Common Stock, no par value	Up to 3,576,417 shares	\$20.57	\$73,558,839	\$2,891

(1) This represents the maximum number of shares to be offered to Lincoln Bancorp shareholders.

(2) The maximum offering price is based on an estimate solely for the purpose of calculating the registration fee and has been calculated in accordance with Rule 457(f)(1) under the Securities Act of 1933, as amended, using the average of the high and low prices of the Lincoln Bancorp common shares as reported on the NASDAQ Global Market System on September 22, 2008 (\$14.46) for all 5,319,731 Lincoln Bancorp common shares to be exchanged in the merger. This amount less the minimum amount of cash to be paid by First Merchants Corporation in connection with the merger (\$3,364,471.74) is the maximum offering price. The proposed maximum offering price per share has been determined by dividing the proposed maximum offering price by the number of shares being registered.

(3) The registration fee of \$2,891 for the securities registered hereby has been calculated pursuant to Rule 457(f) under the Securities Act of 1933, as amended, as \$73,558,839 multiplied by 0.0000393.

(4) Previously paid on September 24, 2008.

The registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the Registration Statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

LINCOLN BANCORP
YOUR VOTE IS VERY IMPORTANT
PROSPECTUS OF FIRST MERCHANTS CORPORATION FOR UP TO
3,576,417 SHARES OF COMMON STOCK
AND
PROXY STATEMENT OF LINCOLN BANCORP

Dear Shareholders of Lincoln Bancorp:

The Board of Directors of Lincoln Bancorp (**Lincoln**) and the Board of Directors of First Merchants Corporation (**First Merchants**) have agreed to merge Lincoln into First Merchants. This proposed strategic business combination will create a company with approximately 82 banking branches and combined assets of \$4.7 billion, \$3.6 billion in loans, \$3.5 billion in deposits and total shareholders' equity of \$405 million.

In the merger, each Lincoln common share that you own will be converted into the right to receive, at your election, either 0.7004 shares of First Merchants common stock, subject to possible upward or downward adjustment as provided in the Merger Agreement and described in this document, or \$15.76 in cash. The number of shares of First Merchants common stock and the amount of cash payable in connection with the merger is subject to various limitations and proration. Under certain circumstances, an election to receive cash or First Merchants common stock may be converted, in whole or in part, into an election to receive the other type of consideration. First Merchants will also pay cash for any fractional share interests resulting from an exchange of your shares.

We cannot complete the merger unless the shareholders of Lincoln approve it. Lincoln will hold a special meeting of its shareholders to vote on adoption of the Merger Agreement. **Your vote is very important.** Whether or not you plan to attend the special shareholders meeting, please take the time to vote by completing and mailing the enclosed proxy card to us. If you sign, date and mail your proxy card without indicating how you want to vote, your proxy will be counted as a vote in favor of the merger. Not returning your card or not instructing your broker how to vote any shares held for you in "street name" will have the same effect as a vote against the merger.

The date, time and place of the special shareholders meeting is as follows:

, 2008, : .m., local time
Guilford Township Community Center, Hummel Park,
1500 S. Center Street, Plainfield, Indiana

This document provides you with detailed information about this meeting and the proposed merger. You can also obtain information about Lincoln and First Merchants from publicly available documents that our companies have filed with the Securities and Exchange Commission. First Merchants common stock is quoted and traded on the NASDAQ Global Select Market System under the symbol "FRME." We strongly support the merger of our companies. The Lincoln Board of Directors unanimously recommends that you vote in favor of the merger.

We will hold a special meeting of the shareholders of Lincoln Bancorp on _____, _____, 2008, at _____: _____ .m. local time, at the Guilford Township Community Center, Hummel Park, 1500 S. Center Street, Plainfield, Indiana.

The purposes of the special meeting are the following:

1. To consider and vote upon a proposal to adopt the Agreement of Reorganization and Merger dated September 2, 2008, between First Merchants Corporation and Lincoln Bancorp, and to approve the transactions contemplated thereby. Pursuant to the Merger Agreement, Lincoln Bancorp will merge into First Merchants Corporation. The merger is more fully described in this proxy statement-prospectus and the Merger Agreement is attached as Appendix A to this proxy statement-prospectus;

3. To transact such other business which may properly be presented at the special meeting or any adjournment or postponement of the special meeting.

We have fixed the close of business on _____, 2008, as the record date for determining those shareholders who are entitled to notice of, and to vote at, the special meeting and any adjournment or postponement of the special meeting. The Lincoln Board of Directors unanimously recommends that you vote in favor of the merger.

Whether or not you plan to attend the special meeting in person, please complete, date, sign and return the enclosed proxy card in the enclosed envelope, which requires no postage if mailed in the United States. FORWARD-LOOKING STATEMENTS

This document contains certain forward-looking statements with respect to the financial condition, results of operations, and business of First Merchants and Lincoln and of First Merchants following completion of the merger. These statements are based on the beliefs and assumptions of each company's management, and on information currently available to management. Forward-looking statements are generally preceded by, followed by, or include the words "will," "believes," "expects," "anticipates," "intends," "plans," "estimates," or similar expressions.

In particular, we have made statements in this document relating to the cost savings and revenue enhancements that are expected to be realized from the merger and the expected effect of the merger on First Merchants' financial performance. These forward-looking statements describe certain risks and uncertainties. Actual results may differ materially from those contemplated by such forward-looking statements due to, among others, the following factors:

- expected cost savings from the merger that may not be fully realized;
- deposit attrition, customer loss, or revenue loss following the merger may be greater than expected;
- competitive pressure in the banking industry may increase significantly;
- costs or difficulties related to the integration of the businesses of First Merchants and Lincoln may be greater than expected;
- changes in the interest rate environment may reduce margins;
- a lack of liquidity in the financial markets may impede the ability to make loans and sell them in the secondary market;
- general economic conditions may decline, either nationally or regionally, resulting in, among other things, a deterioration in credit quality or a reduced demand for credit; and
- changes may occur in the regulatory environment, business conditions, inflation rate and the securities market.

Management of First Merchants and Lincoln believe these forward-looking statements are reasonable. However, you should not place undue reliance on such forward-looking statements, which are based on current expectations. Further information on other factors that could affect the financial results of First Merchants after the merger is included in the Securities and Exchange Commission filings incorporated by reference in this document. See "WHERE YOU CAN FIND ADDITIONAL INFORMATION" on page 145.

Forward-looking statements are not guarantees of performance. They involve risks, uncertainties, and assumptions. The future results and shareholder values of First Merchants following completion of the merger may differ materially from those expressed in these forward-looking statements. Many of the factors that will determine these results and values are beyond First Merchants' and Lincoln's ability to control or predict. For those statements, First Merchants and Lincoln claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

**QUESTIONS AND ANSWERS
ABOUT THE MERGER AND THE SHAREHOLDERS MEETING**

Q: Why are Lincoln and First Merchants proposing to merge?

A: We believe the merger is in the best interests of Lincoln and our shareholders. Lincoln and First Merchants believe that the merger will bring together two complementary institutions that share similar, community-oriented philosophies to create a strategically, operationally and financially strong company that is positioned for further growth. The merger will give the combined company greater scale, not only for serving existing customers more efficiently but also for future expansion. The combined institution is expected to be the sixth largest depository institution operating in the State of Indiana and the third largest based in the state. We believe the merger will enhance our capabilities to provide banking and financial services to our customers and strengthen the competitive position of the combined organization.

You should review the background and reasons for the merger described in greater detail at pages 33 and 35.

Q: What will Lincoln shareholders receive in the merger?

A: For each Lincoln common share you own before the merger, you will have the right to elect, on a share-by-share basis, to receive either:

- 0.7004 shares of First Merchants common stock (subject to adjustment as provided in the Merger Agreement), or
- \$15.76 in cash.

Lincoln shareholders may elect to receive First Merchants common stock for some or all of their shares and/or cash for some or all of their shares. First Merchants will also pay cash in lieu of issuing fractional shares. The Merger Agreement provides that First Merchants is not required to issue more than 3,576,417 shares of its common stock or pay more than \$16,800,000 in cash to Lincoln shareholders. \$16,800,000 represents approximately 20% of the total merger consideration. These limitations are designed to permit First Merchants to maximize and maintain its capital structure. If Lincoln shareholder elections require more than 3,576,417 shares of First Merchants common stock to be issued or cash payments of \$16,800,000 or more, your elections may be subject to proration as described under “THE MERGER—Exchange of Lincoln Common Shares” on page 48. As a result of the proration, you may receive a lesser amount of cash and a greater amount of First Merchants common stock, or a lesser amount of First Merchants common stock and a greater amount of cash, than you elected.

Because the exchange ratio for the stock consideration is fixed, the value of the stock consideration will fluctuate with the market price of First Merchants common stock. Accordingly, at the time of the merger, the per share value of the stock consideration may be greater or less than the per share value of the cash consideration. As of September 2, 2008, the closing price for a share of First Merchants common stock was \$19.89 and for a Lincoln common share was \$10.35. As of _____, 2008, the closing price for a share of First Merchants common stock was \$ _____ and for a Lincoln common share was \$ _____. You should obtain current market prices for shares of First Merchants common stock and Lincoln common shares. First Merchants common stock is quoted and traded on the NASDAQ Global Select Market System under the symbol “FRME.” Lincoln common shares are quoted and traded on the NASDAQ Global Market System under the symbol “LNCB.”

The 0.7004 conversion ratio is subject to possible upward or downward adjustment, if a chain of certain events occurs. The first of those events is that the average of the closing price of First Merchants common stock as reported in Bloomberg, L.P. for the 20 NASDAQ trading days preceding the 5th calendar day prior to the effective date of the merger must be either less than \$16.50 or greater than \$30.00. This calculation is defined in the Merger Agreement as the First Merchants Average Price. Since this calculation will be made just prior to the effective date of the merger, it is not possible to determine the First Merchants Average Price as of the date of this proxy statement-prospectus. The Merger Agreement may be terminated by

[Table of Contents](#)

Lincoln if the First Merchants Average Price falls below \$16.50 or by First Merchants if the First Merchants Average Price increases above \$30.00. The second event that must occur in order for the conversion ratio to be adjusted is either Lincoln or First Merchants must exercise its right to terminate the Merger Agreement based on the First Merchants Average Price. Finally, if either party exercises its right to terminate the Merger Agreement based on the First Merchants Average Price, then the other party has the right to adjust the conversion ratio according to a formula to avoid termination of the Merger Agreement. Upon termination by either party under this provision, a termination fee is not required. For a more detailed discussion of how the conversion ratio can be adjusted, see “THE MERGER—Conversion Ratio Adjustment.”

Q: What risks should I consider before I vote on the merger?

A: You should review “RISK FACTORS” beginning on page 24.

Q: When is the merger expected to be completed?

A: We are working to complete the merger as quickly as possible. We have received the necessary regulatory approvals and must now obtain the approval of Lincoln shareholders at the special shareholders meeting. We currently expect to complete the merger during the fourth quarter of 2008.

Q: What are the tax consequences of the merger to me?

A: We have structured the merger so that First Merchants, Lincoln and Lincoln shareholders will not recognize any gain or loss for federal income tax purposes on the exchange of Lincoln shares for First Merchants shares in the merger. In other words, to the extent a Lincoln shareholder receives First Merchants shares in the merger, it will generally be tax-free. However, to the extent a Lincoln shareholder receives cash instead of First Merchants common stock, any gain such Lincoln shareholder realizes on the exchange will be taxed, but generally not in an amount in excess of the cash received. At the closing, each of Lincoln and First Merchants are to receive an opinion confirming these tax consequences. See “MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES” beginning on page 63. Your tax consequences will depend on your personal situation. You should consult your tax advisor for a full understanding of the tax consequences of the merger to you.

Q: Will I have dissenters’ rights?

A: No. Lincoln shareholders are not entitled to dissenters’ rights under Indiana Code § 23-1-44, as amended, because the Lincoln common shares are traded on the NASDAQ Global Market System.

Q: What do I need to do now?

A: You should carefully read and consider the information contained in this document and any information incorporated by reference. Then, please fill out, sign and mail your proxy card in the enclosed return envelope as soon as possible so that your shares can be voted at the special shareholders meeting. If a returned proxy card is signed but does not specify a choice, your proxy will be voted “**FOR**” the merger proposal considered at the meeting and “**FOR**” adjournment or postponement of the special meeting to permit further solicitation of proxies in the event that an insufficient number of shares is present to approve the Merger Agreement. You should also complete your Election Form which will be forwarded to you in a separate mailing to specify the type of merger consideration you prefer (or provide instructions to your broker if you hold your shares in “street name” or to the trustee if you hold your shares through Lincoln’s employee stock ownership plan).

Q: What if I don’t vote or I abstain from voting?

A: If you do not vote or you abstain from voting, it will count as a “**NO**” vote on the merger.

[Table of Contents](#)

Q: If my shares are held by my broker in “street name,” will my broker vote my shares for me?

A: You should follow the directions provided by your broker to vote your shares. Your broker will vote your shares only if you instruct your broker on how to vote. If you do not provide your broker with instructions on how to vote your shares held in “street name,” your broker will not be permitted to vote your shares, which will have the effect of a “NO” vote on the merger.

Q: May I change my vote after I have mailed my signed proxy card?

A: Yes. You may change your vote at any time before your proxy is voted at the meeting. You can do this in one of three ways. First, you can send a written notice stating that you would like to revoke your proxy. Second, you can complete and submit a new proxy card. If you choose either of these two methods, you must submit your notice of revocation or your new proxy card to Lincoln at or before the special meeting. You should submit your notice of revocation or new proxy card to Lincoln Bancorp, 905 Southfield Drive, Plainfield, Indiana 46168, Attention: John M. Baer. Third, you may attend the meeting and vote in person. Simply attending the meeting, however, will not revoke your proxy. You must request a ballot and vote the ballot at the meeting. If you have instructed a broker to vote your shares, you must follow directions received from your broker to change your vote.

Q: How do I elect the form of payment that I prefer?

A: An Election Form will be forwarded to you through a separate mailing. You should complete the Election Form and send it in the envelope provided to the election agent, American Stock Transfer & Trust Company, LLC (**American Stock Transfer**). For you to make an effective election, your properly executed Election Form must be received by American Stock Transfer before 5:00 p.m. local time on _____, 2008, the election deadline. Please read the instructions on the Election Form prior to completing the form. If you hold your shares in “street name” with a broker, you should ask your broker for instructions on making your election and on tendering your Lincoln shares. Please read the instructions to the Election Form for information on completing the form. These instructions will also inform you what to do if your share certificates have been lost, stolen or destroyed. Please note that your proxy card and your Election Form must be returned to different addresses and must be mailed separately.

If you do not return a completed, properly executed Election Form by the election deadline, then you will be considered to have elected to receive First Merchants common stock for all of your Lincoln common shares, except that if the proration described herein is required, your Lincoln shares may be converted to cash before those shareholders who completed, signed and returned an Election Form by the deadline.

Q: Which form of payment should I choose? Why?

A: The form of payment you should elect will depend upon your personal financial and tax circumstances. We urge you to consult your financial or tax advisor if you have any questions about the form of payment you should elect.

Q: Can I change my election?

A: Yes. You can change your election by submitting a new Election Form to American Stock Transfer as provided in the Election Form. It must be received prior to the election deadline set forth on the Election Form. After the election deadline, no changes may be made.

[Table of Contents](#)

Q: Are shareholders guaranteed they will receive the form of merger consideration—cash, common stock or a combination thereof—they request on their Election Forms?

A: No. There is a limit on the number of shares First Merchants is required to issue and a limit on the aggregate amount of cash First Merchants is required to pay in exchange for Lincoln’s outstanding shares. Because First Merchants is not required to issue more than 3,576,417 shares of its common stock (a number which correlates to approximately 96% of Lincoln’s outstanding common shares) or pay more than \$16,800,000 in cash to Lincoln shareholders (a value which correlates to approximately 20% of Lincoln’s outstanding shares), it is possible that some shareholders may receive a form of consideration they did not elect. For example, if you elect to receive all or a portion of the consideration in cash and the holders of more than approximately 20% of the outstanding Lincoln common shares elect to receive cash, you may receive a portion of First Merchants common stock instead of the cash you elected. Please read a more complete description of the proration procedures under “THE MERGER—Exchange of Lincoln Common Shares” on page 48.

Q: Should I send in my stock certificate(s) now?

A: No. After the merger is completed, Lincoln shareholders will receive written instructions from First Merchants for exchanging their stock certificates for the consideration to be received by them in the merger.

Q: Whom should I contact if I have other questions about the Merger Agreement or the Merger?

A: If you are a Lincoln shareholder and you have more questions about the Merger Agreement or the merger, you should contact Georgeson Shareholder Communications, Inc., the Information Agent for the merger, at (800) - . Banks and brokerage firms should also call Georgeson Shareholder Communications, Inc. at (800) - .

Lincoln is a single bank holding company incorporated under Indiana law and headquartered in Plainfield, Indiana. Lincoln is the sole owner of Lincoln Bank, an Indiana state bank currently conducting its general banking business from 17 full-service offices located in Hendricks, Johnson, Morgan, Clinton, Montgomery, and Brown Counties, Indiana, with its main office located in Plainfield, Indiana.

At September 30, 2008, on a consolidated basis, Lincoln had assets of approximately \$831 million, deposits of approximately \$594 million, and shareholders' equity of approximately \$71 million. Lincoln common stock is quoted and traded on the NASDAQ Global Market System under the symbol “LNCB.” See “DESCRIPTION OF LINCOLN” on page 79.

The Merger (page 33)

*We have attached the Agreement of Reorganization and Merger (as amended by the First Amendment dated October 29, 2008) (**Merger Agreement**) to this document as Appendix A. Please read the Merger Agreement. It is the legal document that governs the merger.*

Lincoln will merge with First Merchants and, thereafter, Lincoln will cease to exist. We hope to complete the merger during the fourth quarter of 2008. Subsequent to the merger and subject to prior regulatory approvals, Lincoln Bank will merge with and into First Merchants Bank of Central Indiana, National Association.

Reasons for the Merger (page 35)

First Merchants. First Merchants' Board of Directors considered a number of financial and nonfinancial factors in making its decision to merge with Lincoln, including its respect for the ability and integrity of the Lincoln Board of Directors, management and staff. The Board believes that expanding First Merchants' operations in the markets in which Lincoln operates offers long-term strategic benefits to First Merchants. First Merchants also believes that several synergies exist between the banking businesses of the parties, making the transaction even more attractive.

Lincoln. In considering the merger with First Merchants, Lincoln's Board of Directors collected and evaluated a variety of economic, financial and market information regarding First Merchants and its subsidiaries, their respective businesses and First Merchants' reputation and future prospects. In the opinion of Lincoln's Board of Directors, favorable factors included:

- the fact that the value of the merger consideration represented a premium over the \$10.35 closing price of Lincoln's common stock on September 2, 2008 (the last trading day before the merger was announced);
- the increased level of competition within the banking sector generally and within the market areas served by Lincoln from other, larger financial institutions and non-bank competitors;
- the current and prospective economic climate for smaller financial institutions generally and Lincoln specifically, including declining net interest margins for many financial institutions, slower deposit growth and the increasing cost of regulatory burdens;
- the effect of the merger on Lincoln Bank's employees, including the prospect of continued employment and enhanced employment opportunities with a much larger and more diversified financial organization;
- the effect of the merger on Lincoln Bank's customers and community, including First Merchants' community banking orientation and its compatibility with Lincoln;
- more diverse financial products and services for Lincoln customers and an enhanced competitive position in the markets in which Lincoln operates;
- the desire to provide shareholders with the prospects for greater future appreciation on their investments in Lincoln common stock than Lincoln could likely achieve independently;
- the greater liquidity of First Merchants common stock, which is traded on the NASDAQ Global Select Market System;
- the higher level of dividends paid by First Merchants on its common stock than Lincoln would be likely to achieve in the near future;
- the potential tax advantage to Lincoln shareholders of accepting stock or stock and cash; and
- the opinion delivered by Sandler O'Neill & Partners, L.P. (**Sandler**) that the merger consideration is fair, from a financial point of view, to the shareholders of Lincoln.

Opinion of Lincoln's Financial Advisor (page 38)

The Board of Directors of Lincoln received the written opinion of Sandler dated September 2, 2008, stating that the merger consideration to be received by Lincoln shareholders is fair from a financial point of view. We have attached a copy of the fairness opinion to this document as *Appendix B*. Lincoln shareholders should read the fairness opinion in its entirety.

What Lincoln Shareholders Will Receive (page 48)

As a Lincoln shareholder, each of your Lincoln common shares will be converted into the right to receive, at your election, either (i) 0.7004 shares of First Merchants common stock, subject to possible upward or downward adjustment of the conversion ratio as provided in the Merger Agreement, or (ii) \$15.76 in cash. You may elect to receive a combination of First Merchants common stock for some of your Lincoln shares and cash for some of your Lincoln shares. The number of shares of First Merchants common stock and the amount of cash payable in connection with the merger is subject to various limitations and prorations. Under certain circumstances, an election to receive stock or cash may be converted into an election to receive the other type of consideration. If you fail to make an election, you will be considered to have elected to receive First Merchants common stock for your Lincoln shares, but if it is necessary to convert some stock elections to cash elections under the proration provisions of the Merger Agreement, Lincoln shares for which no election was made will be the first to be changed from receiving stock to receiving cash. Cash will be paid in lieu of issuing any fractional shares of First Merchants common stock.

Because the conversion ratio is fixed within certain parameters and because the market price of common stock of First Merchants will fluctuate, the market value of the stock of First Merchants you will receive in the merger is not fixed. See “SUMMARY—Comparative Market Price Information” on page 15.

Conversion Ratio Adjustment (page 50)

As mentioned above, the 0.7004 conversion ratio is subject to possible upward or downward adjustment, if a chain of certain events occurs. The first of those events is that the average of the closing price of First Merchants common stock as reported in Bloomberg, L.P. for the 20 NASDAQ trading days preceding the 5th calendar day prior to the effective date of the merger must be either less than \$16.50 or greater than \$30.00. This calculation is defined in the Merger Agreement as the First Merchants Average Price. Since this calculation will be made just prior to the effective date of the merger, it is not possible to determine the First Merchants Average Price as of the date of this proxy statement-prospectus. The Merger Agreement may be terminated by Lincoln if the First Merchants Average Price falls below \$16.50 or by First Merchants if the First Merchants Average Price increases above \$30.00. The second event that must occur in order for the conversion ratio to be adjusted is either Lincoln or First Merchants must exercise its right to terminate the Merger Agreement based on the First Merchants Average Price. Finally, if either party exercises its right to terminate the Merger Agreement based on the First Merchants Average Price, then the other party has the right to adjust the conversion ratio according to a formula to avoid termination of the Merger Agreement. For a more detailed discussion of how the conversion ratio can be adjusted, see “THE MERGER—Conversion Ratio Adjustment.”

Recommendation to Shareholders (page 37)

The Board of Directors of Lincoln believes that the merger is in your best interests and unanimously recommends that you vote “**FOR**” the proposal to adopt the Merger Agreement. In reaching its decision, the Lincoln Board of Directors considered a number of factors, which are described in the section titled “THE MERGER—Lincoln’s Reasons for the Merger”. Because of the wide variety of factors considered, the Lincoln Board of Directors did not believe it practicable, nor did it attempt, to quantify or otherwise assign relative weight to the specific factors it considered in reaching its decision.

The Shareholders Meeting (page 28)

The special meeting of Lincoln shareholders will be held on _____, _____, 2008, at _____: _____m. local time, at Guilford Township Community Center, Hummel Park, 1500 S. Center Street, Plainfield, Indiana. You will be asked at the special meeting to consider and vote upon the adoption of the

Merger Agreement and to act upon any other items of business that may be properly submitted to vote at the special meeting. In the event that an insufficient number of shares is present in person or by proxy at the special meeting to approve the merger, you may also be asked to vote to approve a proposal to adjourn or postpone the meeting to allow time for the solicitation of additional proxies.

Record Date; Votes Required (page 28)

You may vote at the Lincoln special meeting of shareholders if you owned common shares of Lincoln at the close of business on _____, 2008. You are entitled to cast one vote for each common share you owned on that date. The holders of at least a majority of the outstanding Lincoln common shares must vote in favor of adoption of the Merger Agreement. No approval by First Merchants shareholders is required to complete the merger. Approval of the proposal to adjourn or postpone the special meeting, if necessary, requires only that more votes be cast in favor of the proposal than are cast against it. Broker non-votes and abstentions from voting will not be treated as “NO” votes on this proposal (as they are with the approval of the Merger Agreement) and, therefore, will have no effect on the outcome. You can vote your shares by attending the special meeting or you can mark the enclosed proxy card with your vote, sign it and mail it in the enclosed return envelope.

As of September 18, 2008, Lincoln’s executive officers, directors and their affiliates owned 319,718 shares or approximately 6.01% of the Lincoln common shares outstanding. Each member of the Board of Directors of Lincoln and certain executive officers of Lincoln and Lincoln Bank signed a voting agreement as of September 2, 2008, the date the Merger Agreement was executed, in which they agreed to cause all Lincoln common shares owned by them of record or beneficially to be voted in favor of the merger. As of _____, 2008, Lincoln’s executive officers, directors and their affiliates owned _____ shares or approximately _____ % of the Lincoln common shares outstanding.

No Dissenters’ Rights (page 51)

Under Indiana Code § 23-1-44, dissenters’ rights are not available to holders of shares quoted and traded on the NASDAQ Global Market System or a similar market. Because Lincoln’s common shares are presently quoted and traded on the NASDAQ Global Market System, shareholders of Lincoln presently have no dissenters’ rights in respect of their shares. See “THE MERGER—Rights of Dissenting Shareholders” on page 51.

What We Need to Do to Complete the Merger (page 52)

Completion of the merger depends on a number of conditions being met. In addition to our compliance with the Merger Agreement, these conditions include among others:

- adoption of the Merger Agreement by the shareholders of Lincoln;
- approval of the merger by the Board of Governors of the Federal Reserve System (which has been obtained) and the expiration of any regulatory waiting period;
- approval of the merger by the Indiana Department of Financial Institutions (which has been obtained);
- the receipt by Lincoln of an opinion of Bose McKinney & Evans LLP that the merger will be treated, for U.S. federal income tax purposes, as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended, and that no gain or loss will be recognized by Lincoln shareholders in the merger to the extent they receive shares of First Merchants common stock as consideration for their Lincoln common shares;
- the receipt by First Merchants of an opinion of Bingham McHale LLP that the merger will be treated, for U.S. federal income tax purposes, as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended;
- other customary conditions and obligations of the parties set forth in the Merger Agreement.

Regulatory Approvals (page 56)

The merger has been approved by the Board of Governors of the Federal Reserve System (**Federal Reserve**) and the Indiana Department of Financial Institutions (**DFI**).

Conduct of Business Pending Merger (page 55)

Under the Merger Agreement, Lincoln must carry on its business in the ordinary course and may not take certain extraordinary actions without first obtaining First Merchants' approval.

We have agreed that Lincoln will continue to pay quarterly dividends at no more than the current rate of \$0.14 per share until the merger closes. We will each cooperate to insure that Lincoln shareholders will receive only one quarterly dividend for the quarter in which the merger closes, and not one from both First Merchants and Lincoln.

Agreements of First Merchants (pages 56, 57, 58, and 59)

In the Merger Agreement, First Merchants has agreed to:

- Proceed and use its best efforts to obtain any consents and approvals and use its best efforts to raise any additional capital that may be required in order to obtain regulatory approvals of the merger. See "THE MERGER—Regulatory Approvals" on page 56.
- Cover Lincoln and subsidiaries' employees, no later than the effective date of the Merger, under any tax-qualified retirement plan that First Merchants maintains for its employees, so long as such employees meet any applicable participation requirements, and provide for waiver of all restrictions and limitations for pre-existing conditions under First Merchants health plans. See "THE MERGER—Employee Benefit Plans" on page 59.
- Take the action necessary to cause Jerry R. Engle and another current Director of Lincoln as chosen by First Merchants to be nominated for a position on the First Merchants Board of Directors for a three-year term and allow current members of the Lincoln Bank Board of Directors to remain as directors of the merged bank. See "THE MERGER—Management After the Merger" on page 57.
- Provide, or allow for, director and officer liability insurance and indemnification. See "THE MERGER—Indemnification and Insurance" on page 58.

Management and Operations After the Merger (page 57)

Lincoln's corporate existence will cease after the merger. Accordingly, directors and officers of Lincoln will not serve in such capacities after the effective date of the merger. Upon completion of the merger, the current officers and directors of First Merchants will continue to serve in such capacities. In addition, Jerry R. Engle, who currently serves as Chairman of the Board and President and Chief Executive Officer of Lincoln, and another director of Lincoln chosen by First Merchants will be nominated for election to the Board of Directors of First Merchants to each serve for a three-year term following the merger. A condition of the completion of the merger is the effectiveness of new employment agreements between First Merchants and Jerry R. Engle and John B. Ditmars. In addition, First Merchants has agreed to allow current members of the Lincoln Bank Board of Directors to remain as directors of the merged bank if they choose to do so.

Interests of Directors and Officers in the Merger That Are Different From Your Interests (page 60)

You should be aware that some of Lincoln's and Lincoln Bank's directors and executive officers may have interests in the merger that are different from, or in addition to, their interests as shareholders. Both Lincoln's Board of Directors and First Merchants' Board of Directors were aware of these interests and took them into account in approving the merger. These interests are as follows:

- In the Merger Agreement, First Merchants has agreed that it will cause Jerry R. Engle, who currently serves as Chairman of the Board and President and Chief Executive Officer of Lincoln and President and Chief Executive Officer of Lincoln Bank, and another current director of Lincoln as chosen by First Merchants, to be nominated for election to the First Merchants Board of Directors for a three-year term at the first annual meeting of First Merchants' shareholders following the merger. Mr. Engle will not be separately compensated for his services as a director of First Merchants. If the First Merchants Board meets after the merger but before the next annual meeting of First Merchants' shareholders, the Board must appoint each of Mr. Engle and such other person as chosen by First Merchants as a director to serve until the next annual meeting of First Merchants' shareholders and then nominate each individual for election to a three-year term as a director at such annual meeting. See "THE MERGER—Management After the Merger," page 57.
- First Merchants has indicated its intention to offer two year employment or other agreements to at least two current officers of Lincoln (Jerry R. Engle and John Ditmars), to be effective following the effective time of the merger, and the closing of the merger is conditioned upon the signing of those agreements. Under his Employment Agreement, Mr. Engle will be paid an annual salary of \$297,000. Mr. Ditmars will be paid an annual salary of \$188,000. In addition, the Merger Agreement provides that the officers and directors of Lincoln Bank immediately prior to the merger will remain the officers and directors of Lincoln Bank after the merger until they resign or until their successors are duly elected and qualified. Lincoln Bank directors who desire to continue to serve in that capacity shall serve for at least the remainder of the term to which they have been elected as a director of the merged bank.
- Directors and officers of Lincoln and Lincoln Bank held stock options that entitled them to purchase, in the aggregate, up to 561,622 shares of Lincoln's common stock as of September 2, 2008. Options for 69,400 of these shares are not currently exercisable. The Merger Agreement provides that Lincoln must use reasonable efforts to cause each option to acquire Lincoln common shares to become exercisable and be exercised prior to the merger. The exercise prices of these options range from \$7.32 to \$19.40 per share and, therefore, not all of them may have any value as of the effective time of the merger. Under the Merger Agreement, the value of these options is tied to the market value of First Merchants' common stock. Assuming a \$19.49 market value for First Merchants' common stock (the equivalent of a \$13.65 market value for Lincoln's common stock), options for approximately 271,826 shares would be "in the money." However, assuming all of such options are exercised, the directors and officers holding these options will receive, prior to tax withholdings but net of approximately \$3.0 million in exercise prices, a net aggregate of 190,387 shares of First Merchants common stock or \$4.3 million in cash at the effective time of the merger, depending on their election.
- As of September 2, 2008, certain of the directors and executive officers of Lincoln and Lincoln Bank had a right to receive, in the aggregate, 15,251 shares of Lincoln's common stock under Lincoln's Recognition and Retention Plan. An additional 17,637 unallocated shares under the plan were subsequently allocated to directors of Lincoln and Lincoln Bank. Under the Merger Agreement, all of the allocated shares will vest before closing, and assuming none of such shares are otherwise forfeited before the effective date of the merger, the directors and executive officers holding these shares will receive, prior to tax withholdings and depending on their elections, an aggregate of 23,033 shares of First Merchants common stock or approximately \$518,000 in cash at the effective time of the merger.

- As of September 2, 2008, certain of the directors of Lincoln and Lincoln Bank had a right to receive, in the aggregate, approximately \$1.1 million in future cash payments under Lincoln's Unfunded Deferred Compensation Plan. As a result of the change-in-control provisions in the plan, these directors will have a right to receive this amount within 30 days after the effective time of the merger. In addition, the directors of Lincoln are participants in a nonqualified supplemental pension plan, the benefits under which become fully vested upon termination of the plan or upon the occurrence of a change in control. Under the Merger Agreement, this plan is to be frozen at or before the effective time of the merger. Assuming benefit accruals under the plan cease as of December 31, 2008 and assuming the plan is terminated and all of such participants elect to receive lump sum distributions on January 2, 2009 equal to the then present value of their accrued pension benefits under the plan, these participants would receive cash distributions on January 2, 2009 in the aggregate amount of approximately \$1.4 million.
- Certain executive officers of Lincoln and Lincoln Bank have change in control agreements or employment agreements that provide for the executive to receive, following a change in control, a multiple of the executive's compensation prior to the change in control, subject to certain limitations. Under these agreements, 11 of such executive officers would be entitled to receive an aggregate of approximately \$3.1 million.
- First Merchants has agreed to offer Mr. Engle, Mr. Ditmars and certain other Lincoln executives an aggregate of 32,000 shares of restricted First Merchants common stock or options to acquire 120,000 shares of First Merchants common stock, or a combination of both, following the merger. Approximately 40% of these shares or options will be split evenly between Mr. Engle and Mr. Ditmars with the balance to be distributed among certain other Lincoln executives. Assuming a \$19.49 per share price for First Merchants common stock, the 32,000 shares of restricted stock would be worth approximately \$623,680. If stock options are issued in lieu of the restricted stock, they would be issued at an exercise price equal to the then current fair market value of First Merchants common stock.
- First Merchants has agreed that for a period of six years after the effective time of the merger, it will succeed to Lincoln's obligations with respect to indemnification or exculpation now existing in favor of the directors and officers of Lincoln and Lincoln Bank as provided in Lincoln's articles of incorporation and by-laws. First Merchants has also agreed to maintain directors' and officers' liability insurance in force for the directors and officers of Lincoln for a period of three years following the effective time of the merger, subject to certain conditions in the Merger Agreement.

For additional information regarding these interests in the proposed merger, see "THE MERGER—Interests of Certain Persons in the Merger" beginning on page 60.

Termination of the Merger (page 54)

We can mutually agree to terminate the Merger Agreement before we complete the merger. In addition, either Lincoln or First Merchants acting alone can terminate the Merger Agreement under the circumstances described on page 54.

Lincoln has agreed to pay First Merchants the amount of \$3,200,000 in liquidated damages if:

- Lincoln's Board of Directors terminates the Merger Agreement in the exercise of its fiduciary duties after receipt of an unsolicited acquisition proposal from a third party;
- First Merchants terminates the Merger Agreement because Lincoln's Board of Directors withdraws or modifies its recommendation to Lincoln's shareholders to vote for the merger following receipt of a written proposal for an acquisition from a third party; or
- First Merchants terminates the Merger Agreement because Lincoln fails to give First Merchants written notice that it intends to furnish information to or enter into discussions or negotiations with a third party relating to a proposed acquisition of Lincoln, or if Lincoln, within 20 days after giving such

written notice to First Merchants of Lincoln's intent to furnish information to or enter into discussions or negotiations with another person or entity, does not terminate all discussions, negotiations and information exchanges related to such acquisition proposal.

First Merchants has agreed to pay Lincoln the amount of \$2,000,000 in liquidated damages if First Merchants terminates the Merger Agreement because the merger has not been consummated before January 1, 2009.

First Merchants has agreed to pay Lincoln the amount of \$3,200,000 in liquidated damages if Lincoln terminates the Merger Agreement because First Merchants enters into a definitive agreement in which it is the target company or the company to be acquired which would result in a change of control of First Merchants or require approval pursuant to the Bank Holding Company Act of 1956, as amended.

Material U.S. Federal Income Tax Consequences (page 63)

It is a condition to the closing of the merger that Bose, McKinney & Evans LLP and Bingham McHale LLP deliver opinions, effective as of the date of the merger, to Lincoln and First Merchants, respectively, substantially to the effect that:

- the merger will be treated for United States tax purposes as a "reorganization" within the meaning of Section 368 of the Internal Revenue Code; and
- First Merchants and Lincoln will be treated as a "party" to the reorganization within the meaning of Section 368(b) of the Internal Revenue Code.

These opinions will not, however, bind the Internal Revenue Service which could take a different view.

Determining the actual tax consequences of the merger to you can be complicated. We suggest you consult with your own tax advisors with respect to the tax consequences of the merger to you.

For a more detailed description of certain federal income tax consequences of the merger to Lincoln shareholders, see "MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES" on page 60.

Accounting Treatment (page 62)

The merger will be accounted for as a purchase transaction for accounting and financial reporting purposes. As a result, Lincoln's assets, including identified intangible assets, and liabilities will be recorded by First Merchants on its books at their fair market values and added to those of First Merchants. Any excess payment by First Merchants over the fair market value of the net assets and identifiable intangibles of Lincoln will be recorded as goodwill on the financial statements of First Merchants. Conversely, any excess of the fair value of the net assets acquired over the payment made by First Merchants will be reflected as a reduction of certain long-lived assets.

Comparative Rights of First Merchants Shareholders and Lincoln Shareholders (page 134)

The rights of shareholders of First Merchants and Lincoln differ in some respects. The rights of holders of First Merchants common stock are governed by First Merchants' Articles of Incorporation and By-Laws. Your rights as holders of Lincoln common shares are governed by Lincoln's Articles of Incorporation and By-Laws. Upon completion of the merger, Lincoln shareholders who receive First Merchants common stock will take such stock subject to First Merchants Articles of Incorporation and By-Laws.

The following are material differences in shareholder rights:

First Merchants

Lincoln

Authorized But Unissued Shares

First Merchants' Articles of Incorporation authorize the issuance of 50,000,000 shares of common stock, of which 18,272,085 shares were outstanding as of July 31, 2008. First Merchants' Board of Directors may authorize the issuance of additional shares of common stock up to the amounts authorized in First Merchants' Articles of Incorporation without shareholder approval. First Merchants has 500,000 shares of preferred stock authorized. No shares of preferred stock are currently outstanding. These shares are available to be issued, without prior shareholder approval, in classes with the rights, privileges and preferences determined for each class by the Board of Directors of First Merchants.

As of September 18, 2008, First Merchants had 248,774 shares of its common stock reserved and remaining available for issuance under its 1999 Long-term Equity Incentive Plan; and 264,266 shares of its common stock reserved and remaining available for issuance under its Dividend Reinvestment and Stock Purchase Plan. In addition, as of September 18, 2008, First Merchants had 3,474 options granted, but unexercised, under its 1994 Stock Option Plan and 919,867 options granted, but unexercised, under its 1999 Long-term Equity Incentive Plan, with shares reserved and remaining available equal to the outstanding options under each plan.

The issuance of additional shares of First Merchants common stock or the issuance of First Merchants preferred stock may adversely affect the interests of First Merchants shareholders by diluting their voting and ownership interests.

The Articles of Incorporation of Lincoln authorize the issuance of 22,000,000 shares of capital stock. The shares of authorized capital stock are divided into 20,000,000 shares of common stock and 2,000,000 shares of preferred stock. As of September 18, 2008, there were 5,319,731 shares of common stock outstanding. No shares of preferred stock are currently outstanding. The Lincoln Board of Directors may authorize and direct the issuance of shares of common and preferred stock up to the authorized amounts, subject only to the restrictions of the Indiana Business Corporation Law and the Articles of Incorporation. The preferred shares may be issued by the Board of Directors, without prior shareholder approval, in classes with designations, privileges, limitations and rights determined for each class by the Board of Directors of Lincoln.

As of August 31, 2008, Lincoln had a total of 492,222 shares of its common stock reserved and remaining available for issuance under its 1999 and 2005 Stock Option Plans.

Number of Directors and Term of Office

First Merchants' Articles of Incorporation provide that the number of directors shall be set in the By-Laws by the Board of Directors and shall be at least 9 and no more than 21. First Merchants' Articles of Incorporation also provide for classes of directors with staggered terms. Amendment of this provision of First Merchants' Articles of Incorporation requires the approval of three-fourths

The Articles of Incorporation of Lincoln provide that the total number of directors shall not be less than five nor more than 15 as may be specified from time to time by resolution adopted by a majority of members of the Board of Directors. If the Board of Directors has not specified the number of directors, the number shall be nine. The Articles of

First Merchants

(3/4) of the voting stock. First Merchants' By-Laws specify that the number of directors is 10. The By-Laws provide that the number of directors may be amended only by a two-thirds (2/3) vote of the entire Board of Directors. Consistent with its Articles of Incorporation, First Merchants' By-Laws provide that the Board of Directors is divided into 3 classes with 4 directors in 1 of the classes and 3 directors in the other 2 classes. The directors in each class are elected for 3-year staggered terms. Thus, approximately only one-third (1/3) of First Merchants' Board of Directors is elected at each annual meeting of shareholders. Because First Merchants' Board of Directors is divided into classes, a majority of First Merchants' directors can be replaced only after 2 annual meetings of shareholders. A two-thirds (2/3) vote of the entire Board of Directors is required to amend this provision of First Merchants' By-Laws.

Lincoln

Incorporation also provide for three classes of directors with staggered three-year terms. Amendment of this provision of the Lincoln Articles of Incorporation requires the affirmative vote of the holders of at least 80% of the voting power of all of the then-outstanding shares of voting stock, voting together as a single class. The By-Laws of Lincoln also require that the Directors have (a) their primary domicile in Brown, Clinton, Hendricks, Montgomery, Morgan or Johnson Counties, Indiana, and (b) a loan or deposit relationship with Lincoln Bank which they have maintained for at least a continuous period of nine months immediately prior to their nomination to the Board of Directors. In addition, each Director who is not an employee of Lincoln or its subsidiaries must have served as a member of a civic or community organization based in one of the aforementioned Indiana counties for at least a continuous period of 12 months during the five years prior to his or her nomination to the Board of Directors. The Board of Directors may waive one more of the foregoing requirements in connection with the acquisition of another financial institution or the acquisition or opening of a new branch by its subsidiary. The By-Laws may be altered, amended or repealed by the affirmative vote of a majority of the full Board of Directors of Lincoln.

Nomination of Directors

Under First Merchants' By-Laws, only the Nominating and Governance Committee of the Board of Directors may nominate a candidate for the Board of Directors. Shareholders may suggest a person for nomination by sending a notice to the Committee setting forth at a minimum:

- the name and address of each suggested nominee;
- the principal occupation of each suggested nominee;
- the total number of shares of First Merchants capital stock held by the notifying shareholder; and
- the name and residence address of the notifying shareholder.

Pursuant to the Articles of Incorporation and By-Laws of Lincoln, nominations to the Board of Directors may be made by any nominating committee or person appointed by the Board of Directors or by any shareholder entitled to vote for the election of directors. Nominations, other than those made by or at the direction of the Board of Directors, may be made by written notice to the Secretary of Lincoln setting forth at a minimum:

- the name, age, business and residence addresses of each suggested nominee;
- the principal occupation of each suggested nominee;
- the class and number of shares of Lincoln capital stock held by the nominee;

First Merchants

- the class and number of shares of Lincoln capital stock held by the notifying shareholder; and
- the name and record address of the notifying shareholder.

See “COMPARISON OF COMMON STOCK” on page 134 to learn more about the differences between the rights of holders of First Merchants common stock and holders of Lincoln common shares.

Recent Developments (page 104)

On September 3, 2008, the date Lincoln and First Merchants announced the signing of the Merger Agreement, Lincoln determined that goodwill with a carrying amount of \$23.9 million would need to be evaluated for impairment in accordance with Statement of Financial Accounting Standards No. 142 (SFAS 142). This evaluation required an extensive fair value determination of Lincoln’s assets and liabilities to determine an estimate of the implied fair value of goodwill. Upon conclusion of the evaluation, Lincoln determined that the full \$23.9 million of goodwill should be eliminated from its books. This elimination will be recognized as a noncash expense as part of Lincoln’s results of operations for the three month and nine month periods ending September 30, 2008.

This charge has no effect on Lincoln’s cash flow or the regulatory capital or regulatory capital ratios of Lincoln or Lincoln Bank. Regulatory capital measurements used to assess the strength of individual banks, as well as the safety and soundness of the entire banking system, exclude goodwill as a component of capital.

Comparative Market Price Information

Shares of First Merchants common stock are quoted and traded on the NASDAQ Global Select Market System under the symbol “FRME.” Lincoln common shares are quoted and traded on the NASDAQ Global Market System under the symbol “LNCB.” The following table presents quotation information for First Merchants common stock on the NASDAQ Global Select Market System and for Lincoln common stock on the NASDAQ Global Market System on September 2, 2008, the business day before the merger was publicly announced, and _____, 2008, the last practicable trading day for which information was available prior to the date of this proxy statement-prospectus.

	First Merchants Common Stock			Lincoln Common Shares		
	High	Low	(Dollars Per Share) Close	High	Low	Close
September 2, 2008	\$ 20.80	\$ 19.32	\$ 19.89	\$ 10.35	\$ 9.92	\$ 10.35
_____, 2008	\$	\$	\$	\$	\$	\$

The market value of the aggregate consideration that Lincoln shareholders will receive in the merger is approximately \$75 million (or \$14.01 per Lincoln common share) based on 5,319,731 Lincoln common shares outstanding, First Merchants’ closing stock price of \$19.89 on September 2, 2008, the business day before the merger was publicly announced, and the maximum number of Lincoln common shares being exchanged for shares of First Merchants common stock (subject to the 3,576,417 limitation) and the balance for cash. The assumption of 5,319,731 Lincoln common shares outstanding was calculated under the assumption all outstanding stock options are exchanged for cash. Using this same First Merchants’ closing stock price and number of outstanding Lincoln common shares, but assuming that 80% of Lincoln’s common shares are

exchanged for First Merchants common stock and 20% of Lincoln's common shares are exchanged for cash in the merger, the market value of the aggregate consideration that Lincoln shareholders will receive in the merger is approximately \$76 million (or \$14.30 per Lincoln common share).

The market value of the aggregate consideration that Lincoln shareholders will receive in the merger is approximately \$ million (or \$ per Lincoln common share) based on Lincoln common shares outstanding, First Merchants' closing stock price of \$ on , 2008, the last practicable trading day for which information was available prior to the date of this proxy statement-prospectus, and the maximum number of Lincoln common shares being exchanged for shares of First Merchants common stock (subject to the 3,576,417 limitation) and the balance for cash. The assumption of Lincoln common shares outstanding was calculated by adding the outstanding stock options and the outstanding common shares as of , 2008. Using this same First Merchants' closing stock price and number of outstanding Lincoln common shares, but assuming that 80% of Lincoln's common shares are exchanged for First Merchants common stock and 20% of Lincoln's common shares are exchanged for cash in the merger, the market value of the aggregate consideration that Lincoln shareholders will receive in the merger is approximately \$ million (or \$ per Lincoln common share).

Also set forth below for each of the closing prices of First Merchants common stock on September 2, 2008, and , 2008, is the equivalent pro forma price of Lincoln common shares, which we determined by multiplying the applicable price of First Merchants common stock by the number of shares of First Merchants common stock we are issuing for a Lincoln common share in the merger, which is the conversion ratio of 0.7004. The equivalent pro forma price of Lincoln common shares shows the implied value to be received in the merger by Lincoln shareholders who receive First Merchants common stock in exchange for a Lincoln common share on these dates.

We urge you to obtain current market quotations for First Merchants common stock and Lincoln common shares. We expect that the market price of First Merchants common stock will fluctuate between the date of this document and the date on which the merger is completed and thereafter. Because the market price of First Merchants common stock is subject to fluctuation, the value of the shares of First Merchants common stock that Lincoln shareholders will receive in the merger may increase or decrease prior to and after the merger, while the conversion ratio is fixed within certain parameters. Lincoln shareholders who receive cash will receive a fixed amount of \$15.76 per share.

Comparative Per Share Data

The following table shows historical information about our companies' earnings per share, dividends per share and book value per share, and similar information reflecting the merger, which we refer to as "pro forma" information. In presenting the comparative pro forma information, we have assumed that we were merged through the periods shown in the table. The pro forma information reflects the "purchase" method of accounting. The information is presented under two separate assumptions relating to the level of Lincoln common shares which are exchanged for First Merchants common stock in the merger. The financial information presented under "Alternative A" was compiled assuming the maximum number of Lincoln common shares are exchanged for shares of First Merchants common stock (subject to the 3,576,417 limitation) and the balance for cash. The financial information presented under "Alternative B" was compiled assuming 80% of the outstanding Lincoln common shares are exchanged for shares of First Merchants common stock and 20% of the outstanding Lincoln

common shares are exchanged for cash in the merger. For a more detailed description of these assumptions and how we derived the First Merchants and Lincoln pro forma data, see “Notes to Unaudited Pro Forma Summary of Selected Consolidated Financial Data” on page 23 and “UNAUDITED PRO FORMA COMBINED CONSOLIDATED FINANCIAL INFORMATION” on page 67.

The information listed as “equivalent pro forma” was obtained by multiplying the pro forma amounts by the conversion ratio of 0.7004. This information is presented to reflect the value of shares of First Merchants common stock that Lincoln shareholders will receive in the merger for each share of Lincoln common stock exchanged.

We expect that we will incur reorganization and restructuring expenses as a result of combining our companies. We also anticipate that the merger will provide the combined company with financial benefits that include reduced operating expenses and the opportunity to earn more revenue. The pro forma information, while helpful in illustrating the financial characteristics of the new company under two sets of assumptions, does not take into account these expected expenses or these anticipated financial benefits, and does not attempt to predict or suggest future results. It also does not necessarily reflect what the historical results of the merged company would have been had our companies been merged during the periods presented.

The information in the following table is based on historical financial information of Lincoln and of First Merchants which are included in each company’s respective prior Securities and Exchange Commission filings. The historical financial information of First Merchants has been incorporated into this document by reference. Certain historical financial information for Lincoln is included in this document. Additional historical financial information of Lincoln has been incorporated into this document by reference. See “WHERE YOU CAN FIND ADDITIONAL INFORMATION” on page 145 for a description of documents that we incorporate by reference into this document and how to obtain copies of them.

**SELECTED HISTORICAL AND UNAUDITED PRO FORMA
CONSOLIDATED FINANCIAL DATA**

The following tables set forth certain summary historical consolidated financial data for First Merchants and Lincoln. First Merchants' and Lincoln's balance sheet data and income statement data as of and for the five years ended December 31, 2007 are taken from each of their respective audited consolidated financial statements. First Merchants' and Lincoln's balance sheet data and income statement data as of and for the nine months ended September 30, 2008 and 2007 are taken from their respective unaudited consolidated financial statements. Results for the nine months ended September 30, 2008 do not necessarily indicate results for the entire year.

The following tables also set forth certain summary unaudited pro forma consolidated financial information for First Merchants and Lincoln reflecting the merger. The income statement information presented gives effect to the merger as if it occurred on the first day of each period presented. The balance sheet information presented gives effect to the merger as if it occurred on September 30, 2008. The information is presented under two separate assumptions relating to the level of Lincoln common shares which are exchanged for First Merchants common stock in the merger. The financial information presented under "Alternative A" was compiled assuming the maximum number of Lincoln common shares are exchanged for shares of First Merchants common stock (subject to the 3,576,417 limitation) and the balance for cash. The financial information presented under "Alternative B" was compiled assuming 80% of the outstanding Lincoln common shares are exchanged for shares of First Merchants common stock and 20% of the outstanding Lincoln common shares are exchanged for cash in the merger. For a more detailed description of these assumptions, see "Notes to Unaudited Pro Forma Summary of Selected Consolidated Financial Data" on page 23.

The pro forma information reflects the "purchase" method of accounting, with Lincoln's assets and liabilities recorded at their estimated fair values as of September 30, 2008. The actual fair value adjustments to the assets and the liabilities of Lincoln will be made on the basis of appraisals and evaluations that will be made as of the date the merger is completed. Thus, the actual fair value adjustments may differ significantly from those reflected in these pro forma financial statements. In the opinion of First Merchants' management, the estimates used in the preparation of these pro forma financial statements are reasonable under the circumstances.

We expect that we will incur reorganization and restructuring expenses as a result of combining our companies. We also anticipate that the merger will provide the combined company with financial benefits that include reduced operating expenses and the opportunity to earn more revenue. The pro forma information, while helpful in illustrating the financial characteristics of the new company under two sets of assumptions, does not take into account these expected expenses or these anticipated financial benefits, and does not attempt to predict or suggest future results.

This selected financial data is only a summary and you should read it in conjunction with First Merchants' consolidated financial statements and related notes incorporated into this document by reference and Lincoln's consolidated financial statements and related notes included in this document, and in conjunction with the Unaudited Pro Forma Combined Consolidated Financial Information appearing on page 20 in this document. See "WHERE YOU CAN FIND ADDITIONAL INFORMATION" on page 145 for a description of documents that we incorporate by reference into this document and how to obtain copies of such documents.

**NOTES TO UNAUDITED PRO FORMA SUMMARY OF SELECTED
CONSOLIDATED FINANCIAL DATA**

(Dollars in Thousands, Except Per Share Amounts)

(1) Alternative A—Issuance of 3,576,417 shares of First Merchants common stock:

Assumes the maximum number of Lincoln common shares being exchanged for shares of First Merchants common stock (subject to the 3,576,417 limitation) and the balance for cash. The average of the closing prices of First Merchants common stock on August 29, September 2, 3, 4 and 5, 2008, the two days before public announcement of the merger, the day of such public announcement, and the two days after such public announcement, was \$19.49. Such amount is less than or equal to \$30.00 per share and greater than or equal to \$16.50 per share. Accordingly, it has been assumed for the purposes of this pro forma consolidated financial data that there will be no adjustment to the conversion ratio and 0.7004 shares of First Merchants common stock will be issued for each share of Lincoln common stock subject to a stock election. Whether the conversion ratio is actually adjusted will be determined at the time of closing of the merger pursuant to the adjustment mechanism described in greater detail in “THE MERGER—Conversion Ratio Adjustment,” on page 50. Using the assumptions outlined above, Lincoln shareholders would receive an aggregate of \$4,684,896 in cash payments. Based on such assumptions and a \$19.49 per share price for First Merchants common stock, the purchase price is computed as follows:

Common stock (3,576,417 shares at stated value of \$0.125 per share)	\$ 447
Capital surplus (3,576,417 shares at \$19.365 per share)	69,258
Total stock issued (3,576,417 shares at \$19.49 per share)	69,705
Transaction costs (estimated)	500
Cash price	<u>4,685</u>
Total purchase price	<u>\$ 74,890</u>

(2) Alternative B—Issuance of 3,038,003 shares of First Merchants common stock:

Assumes 4,337,525 Lincoln common shares (80%) become subject to stock elections and 1,065,990 Lincoln common shares (20%) become subject to cash elections. The average of the closing prices of First Merchants common stock on August 29, September 2, 3, 4 and 5, 2008, the two days before public announcement of the merger, the day of such public announcement, and the two days after such public announcement, was \$19.49. Such amount is less than or equal to \$30.00 per share and greater than or equal to \$16.50 per share. Accordingly, it has been assumed that there would be no adjustment to the conversion ratio and 0.7004 shares of First Merchants common stock would be issued for each Lincoln common share subject to a stock election and \$15.76 cash is issued for each Lincoln common share subject to a cash election. Whether the conversion ratio is actually adjusted will be determined at the time of closing of the merger pursuant to the adjustment mechanism described in greater detail in “THE MERGER—Conversion Ratio Adjustment,” on page 50. Assuming 80% of the outstanding Lincoln common shares become subject to elections to receive First Merchants common stock and a \$19.49 per share price for First Merchants common stock, the purchase price is computed as follows:

Common stock (3,038,003 shares at stated value of \$0.125 per share)	\$ 380
Capital surplus (3,038,003 shares at \$19.365 per share)	58,831
Total stock issued (2,979,320 shares at \$19.49 per share)	59,211
Cash price:	
1,065,990 Lincoln common shares at \$15.76 per share	16,800
Transaction costs (estimated)	500
Total purchase price	<u>\$ 76,511</u>

RISK FACTORS

In determining whether to vote to adopt the Merger Agreement and the merger, along with the other information contained in this prospectus, you should carefully consider the following risk factors as well as those listed under the heading "Risk Factors" contained in First Merchants' Annual Report on Form 10-K for the year ended December 31, 2007, which is incorporated by reference into this prospectus.

- **The integration of Lincoln's business with First Merchants' business may be difficult.**

Even though First Merchants has acquired other financial services businesses in the past, the success of the merger with Lincoln will depend on a number of factors, including, but not limited to, the merged company's ability to:

- integrate Lincoln's operations with the operations of First Merchants;
- maintain existing relationships with First Merchants' depositors and the depositors of Lincoln to minimize withdrawals of deposits subsequent to the acquisition;
- maintain and enhance existing relationships with borrowers from First Merchants and Lincoln;
- achieve projected net income of Lincoln and expected cost savings and revenue enhancements from the merged company;
- control the incremental non-interest expense to maintain overall operating efficiencies;
- retain and attract key and qualified management, lending and other banking personnel; and
- compete effectively in the communities served by First Merchants and Lincoln, and in nearby communities.

The merged company's failure to successfully integrate Lincoln with First Merchants may adversely affect its financial condition and results of operations.

- **The First Merchants common stock and cash received by Lincoln shareholders may differ from their elections.**

The Merger Agreement provides that Lincoln shareholders may elect to receive all First Merchants common stock for their shares, all cash for their shares or a combination of First Merchants common stock for a portion of their shares and cash for a portion of their shares. Although Lincoln shareholders will have the opportunity to elect the form of merger consideration they prefer to receive, the Merger Agreement provides that First Merchants is not required to issue more than 3,576,417 shares of its common stock or pay more than \$16,800,000 in cash to Lincoln shareholders in connection with the merger. As a result, you may not receive all of the stock or cash merger consideration you elect. This may result in adverse financial or tax consequences to you. You will not know the mix of stock and cash consideration you will receive until after we complete the merger.

If it is necessary to reduce the amount of stock or cash elections under the Merger Agreement, the cash elections will be reduced on a pro rata basis only to the extent necessary to reduce the aggregate cash payment to less than \$16,800,000, and the stock elections will be reduced by first converting all non-electing shares to cash elections and then reducing stock elections on a pro rata basis only to the extent necessary to reduce the aggregate shares being issued to less than 3,576,417, as applicable. You should also be aware that The Lincoln Bank Employee Stock Ownership Plan and 401(k) Saving Plan and Trust Agreement (**Lincoln ESOP**) may be exempt from this adjustment of its election if its trustee(s) determine that the adjustment will violate certain ERISA requirements.

- **The value of merger consideration for those Lincoln shareholders who receive First Merchants common stock will fluctuate.**

If the merger is completed, Lincoln shareholders who do not receive \$15.76 in cash per share for their Lincoln common shares will receive a number of shares of First Merchants common stock based on a fixed

[Table of Contents](#)

exchange ratio of 0.7004 shares of First Merchants common stock for each Lincoln common share, subject to the possibility of an adjustment upward or downward to the conversion ratio as provided in the Merger Agreement. Because the market value of First Merchants common stock may fluctuate, the value of the consideration you receive for your shares may also fluctuate. The market value of First Merchants common stock could fluctuate for any number of reasons, including those specific to First Merchants and those that influence trading prices of equity securities generally. As a result, you will not know the exact value of the shares of First Merchants common stock you would receive at the time you must make your election. The value of the First Merchants common stock on the closing date of the merger may be greater or less than the market price of First Merchants common stock on the record date, on the date of this proxy statement-prospectus, on the date of the special meeting or on the date you submit your election. Moreover, the fairness opinion of Sandler is dated as of September 2, 2008. Lincoln does not intend to obtain any further update of the Sandler fairness opinion. Changes in the operations and prospects of First Merchants and Lincoln, general market and economic conditions and other factors which are both within and outside of the control of First Merchants and Lincoln, on which the opinion of Sandler is based, may alter the relative value of the companies. Therefore, the Sandler opinion does not address the fairness of the merger consideration at the time the merger will be completed.

We urge you to obtain current market quotations for First Merchants common stock and Lincoln common shares because the value of the shares you receive may be more or less than the value of such shares as of the date of this document.

- **The merged company will have increased its leverage and reduced its borrowing capacity.**

To fund the cash paid to Lincoln shareholders in the merger, First Merchants expects to incur a maximum \$17 million of additional indebtedness through increased borrowing on its existing line of credit. Increased indebtedness may reduce the merged company's flexibility to respond to changing business and economic conditions or fund the capital expenditure or working capital needs of its subsidiaries. In addition, covenants the merged company makes in connection with the financing may limit the merged company's ability to incur additional indebtedness, and the leverage may cause potential lenders to be unwilling to loan funds to the merged company in the future. To the extent permitted by the merged company's regulators, it will require greater dividends from its subsidiaries than those historically received in order to satisfy its debt service requirements. If its subsidiaries pay dividends to the merged company, they will have less capital to address their capital expenditures and working capital needs.

- **The merged company's allowance for loan losses may not be adequate to cover actual loan losses.**

The merged company's loan customers may not repay their loans according to their terms, and the customers' collateral securing the payment of their loans may be insufficient to assure repayment. Approximately 59% of the merged company's loans are comprised of commercial real estate and commercial lines of credit and term and development loans, which can result in higher loan loss experience than residential loans in economic downturns. The underwriting, review and monitoring that will be performed by the merged company's officers and directors cannot eliminate all of the risks related to these loans.

Each of First Merchants and Lincoln make various assumptions and judgments about the collectability of loan portfolios and provide allowances for potential losses based on a number of factors. If the assumptions are wrong or the facts and circumstances subsequently change, the allowance for loan losses may not be sufficient to cover the merged company's loan losses. The merged company may have to increase the allowance in the future. Increases in the merged company's allowance for loan losses would decrease its net income.

- **Loan quality deterioration will adversely affect the merged company's results of operations and financial condition.**

Each of First Merchants and Lincoln seeks to mitigate the risks inherent in their respective loan portfolios by adhering to sound underwriting practices. Their lending strategies also include emphasizing diversification on a geographic, industry and customer level, regular credit quality reviews and management reviews of large credit

[Table of Contents](#)

exposures and loans experiencing deterioration of credit quality. There is continuous review of their loan portfolios, including internally administered loan “watch” lists and independent loan reviews. The evaluations take into consideration identified credit problems, as well as the possibility of losses inherent in the loan portfolio that are not specifically identified. In connection with recent negative economic developments, many financial institutions, including First Merchants and Lincoln, have experienced unusual and significant declines in the performance of their loan portfolios, and the values of real estate collateral supporting many loans have declined. If current trends in the housing and real estate markets continue, we expect that loan delinquencies and credit losses may increase. Although First Merchants and Lincoln believe their underwriting and loan review procedures are appropriate for the various kinds of loans they make, the merged company’s results of operation and financial condition will be adversely affected in the event the quality of their respective loan portfolios deteriorates. As of September 30, 2008, First Merchants had \$38,014,000 and Lincoln had \$13,223,000 in non-performing loans. As of December 31, 2007, First Merchants had \$29,176,000 and Lincoln had \$7,900,000 in non-performing loans.

- **Changes in interest rates may reduce the merged company’s net interest income.**

Like other financial institutions, the merged company’s net interest income is its primary revenue source. Net interest income is the difference between interest earned on loans and investments and interest expense incurred on deposits and other borrowings. The merged company’s net interest income will be affected by changes in market rates of interest, the interest rate sensitivity of its assets and liabilities, prepayments on its loans and investments and limits on increases in the rates of interest charged on its residential real estate loans.

The merged company will not be able to predict or control changes in market rates of interest. Market rates of interest are affected by regional and local economic conditions, as well as monetary policies of the Federal Reserve Board. The following factors also may affect market interest rates:

- inflation;
- slow or stagnant economic growth or recession;
- unemployment;
- money supply;
- international disorders;
- instability in domestic and foreign financial markets; and
- others factors beyond the merged company’s control.

Each of First Merchants and Lincoln has policies and procedures designed to manage the risks from changes in market interest rates; however, despite risk management, changes in interest rates could adversely affect the merged company’s results of operations and financial condition.

- **Changes in economic conditions and the geographic concentration of the merged company’s markets could adversely affect the merged company’s financial condition.**

The merged company’s success will depend to a great extent upon the general economic conditions of the Central Indiana and Central Ohio areas. Unlike larger banks that are more geographically diversified, the merged company will provide banking and financial services to customers primarily in the Central Indiana and Central Ohio areas. Favorable economic conditions may not exist in the merged company’s markets.

An economic slowdown could have the following consequences:

- loan delinquencies may increase;
- problem assets and foreclosures may increase;
- demand for the products and services of Lincoln and First Merchants may decline; and

[Table of Contents](#)

- collateral for loans made by Lincoln and First Merchants may decline in value, in turn reducing customers' borrowing power, and reducing the value of assets and collateral associated with existing loans.
- **Anti-takeover defenses may delay or prevent future mergers.**

Provisions contained in First Merchants' Articles of Incorporation and By-Laws and certain provisions of Indiana law could make it more difficult for a third party to acquire First Merchants, even if doing so might be beneficial to First Merchants shareholders. See "COMPARISON OF COMMON STOCK—Anti-Takeover Provisions" on page 140. These provisions could limit the price that some investors might be willing to pay in the future for shares of First Merchants common stock and may have the effect of delaying or preventing a change in control.

- **If the merger is not completed, Lincoln will have incurred substantial expenses without realizing the expected benefits.**

Lincoln has incurred substantial expenses in connection with the transactions described in this proxy statement-prospectus. The completion of the merger depends on the satisfaction of several conditions. We cannot guarantee that these conditions will be met. Lincoln expects to incur approximately \$ in merger related expenses, which include legal, accounting and financial advisory expenses and which excludes the investment banker's commission on the sale and any termination fees, if applicable. These expenses could have a material adverse impact on the financial condition of Lincoln because it would not have realized the expected benefits of the merger. There can be no assurance that the merger will be completed.

- **The termination fee and the restrictions on solicitation contained in the Merger Agreement may discourage other companies from trying to acquire Lincoln.**

Until the completion of the merger, with some exceptions, Lincoln is prohibited from soliciting, initiating, encouraging or participating in any discussion of or otherwise considering any inquiries or proposals that may lead to an acquisition proposal, such as a merger or other business combination transaction, with any person other than First Merchants. In addition, Lincoln has agreed to pay a termination fee and expenses of \$3,200,000 to First Merchants if the Lincoln Board of Directors does not recommend approval of the Merger Agreement to the Lincoln shareholders. These provisions could discourage other companies from trying to acquire Lincoln even though such other companies might be willing to offer greater value to Lincoln's shareholders than First Merchants has offered in the Merger Agreement. The payment of the termination fee also could have a material adverse effect on Lincoln's financial condition.

- **The merger may not be completed based on fluctuations in the market price of First Merchants common stock.**

If the First Merchants Average Price is less than \$16.50 and First Merchants chooses not to adjust the 0.7004 exchange ratio, Lincoln may choose to terminate the Merger Agreement. If the First Merchants Average Price is greater than \$30.00 and Lincoln chooses not to adjust the 0.7004 exchange ratio, First Merchants may choose to terminate the Merger Agreement. Neither party will owe a termination fee to the other party if the termination is pursuant to these provisions.

THE LINCOLN SPECIAL MEETING

Special Meeting of Shareholders of Lincoln Bancorp

General Information

We are furnishing this document to the shareholders of Lincoln in connection with the solicitation by the Board of Directors of Lincoln of proxies for use at the Lincoln special meeting of shareholders to be held on _____, 2008, at _____: _____ .m., local time, at Guilford Township Community Center, Hummel Park, 1500 S. Center Street, Plainfield, Indiana. This document is first being mailed to Lincoln shareholders on _____, 2008, and includes the notice of Lincoln special meeting, and is accompanied by a form of proxy. The Election Form will be sent to you through a separate mailing.

Matters To Be Considered

The purposes of the special meeting are for you to consider and vote upon adoption of the Merger Agreement, by and between First Merchants and Lincoln, to consider and vote upon a proposal to adjourn or postpone the meeting to permit further solicitation of proxies, and to consider and vote upon any other matters that properly come before the special meeting or any adjournment or postponement of the special meeting. Pursuant to the Merger Agreement, Lincoln will merge into First Merchants. The Merger Agreement is attached to this document as Appendix A and is incorporated in this document by this reference. For a description of the Merger Agreement, see "THE MERGER," beginning on page 33.

Votes Required

Adoption of the Merger Agreement requires the affirmative vote of at least a majority of the outstanding Lincoln common shares. Lincoln has fixed _____, 2008, as the record date for determining those Lincoln shareholders entitled to notice of, and to vote at, the special meeting. Accordingly, if you were a Lincoln shareholder of record at the close of business on _____, 2008, you will be entitled to notice of and to vote at the special meeting. If you are not the record holder of your shares and instead hold your shares in a "street name" through a bank, broker or other record holder, that person will vote your shares in accordance with the instructions you provide them on the enclosed proxy. Each Lincoln common share you own on the record date entitles you to one vote on each matter presented at the special meeting. At the close of business on the record date of _____, 2008, there were approximately _____ Lincoln common shares outstanding held by approximately _____ shareholders.

As of the record date, Lincoln's executive officers, directors and their affiliates had voting power with respect to an aggregate of _____ shares or approximately _____ % of the Lincoln common shares outstanding. Each member of the Board of Directors of Lincoln as of September 2, 2008, the date the Merger Agreement was executed, signed a voting agreement with First Merchants to cause all Lincoln common shares owned by them of record or beneficially to be voted in favor of the merger. See "THE MERGER—Voting Agreement" on page 61. As of the record date, the members of the Lincoln Board of Directors and their affiliates had power to vote an aggregate of _____ Lincoln common shares outstanding. In addition, we also currently expect that the executive officers of Lincoln will vote all of their shares in favor of the proposal to adopt the Merger Agreement.

Proxies

If you are a Lincoln shareholder, you should have received a proxy card for use at the Lincoln special meeting with this proxy statement-prospectus. The accompanying proxy card is for your use at the special meeting if you are unable or do not wish to attend the special meeting in person. The shares represented by proxies properly signed and returned will be voted at the special meeting as instructed by the Lincoln shareholders giving the proxies. Proxy cards that are properly signed and returned but do not have voting

Table of Contents

instructions will be voted “**FOR**” adoption of the Merger Agreement and “**FOR**” adjournment or postponement of the special meeting to permit further solicitation of proxies in the event that an insufficient number of shares is present to approve the Merger Agreement.

If you deliver a properly signed proxy card, you may revoke your proxy at any time before it is exercised by:

- delivering to the Secretary of Lincoln at or prior to the special meeting a written notice of revocation addressed to John M. Baer, Lincoln Bancorp, 905 Southfield Drive, Plainfield, Indiana 46168; or
- delivering to Lincoln at or prior to the special meeting a properly executed proxy having a later date; or
- voting in person by ballot at the special shareholders meeting.

Therefore, your right to attend the special meeting and vote in person will not be affected by executing a proxy. If your shares are held in the name of your broker, bank or other nominee, and you wish to vote in person, you must bring an account statement and authorization from your nominee so that you may vote your shares in person or by proxy at the special meeting. In addition, to be effective, Lincoln must receive the revocation before the proxy is exercised.

Because adoption of the Merger Agreement requires the affirmative vote of at least a majority of the outstanding Lincoln common shares, abstentions and broker non-votes will have the same effect as voting against adoption of the Merger Agreement. Accordingly, your Board of Directors urges all Lincoln shareholders to complete, date and sign the accompanying proxy and return it promptly in the enclosed postage-paid envelope. You should not send stock certificates with your proxy card.

Participants in Lincoln’s ESOP

If you participate in the Employee Stock Ownership Plan portion of Lincoln’s 401(k) plan, you will receive a voting instruction form that reflects all shares you may vote under the employee stock ownership plan. Under its terms, all shares held in the employee stock ownership plan will be voted by the employee stock ownership plan trustee, but each participant in the employee stock ownership plan may direct the trustee how to vote the shares of Lincoln common stock allocated to his or her employee stock ownership plan account. Unallocated shares of Lincoln common stock held by the employee stock ownership plan trust and allocated shares for which no timely voting instructions are received will be voted by the trustee in the same proportion as shares for which the trustee has received voting instructions, subject to the exercise of its fiduciary duties. The deadline for returning your voting instructions to the trustee is _____, 2008.

Participants in Lincoln’s Dividend Reinvestment Plan

If you participate in Lincoln’s dividend reinvestment plan, you will receive a voting instruction form that reflects all shares you may vote under the plan. Under the terms of the plan, all shares will be voted by the plan trustee, but each participant in the dividend reinvestment plan may direct the trustee how to vote the shares of Lincoln common stock allocated to his or her dividend reinvestment plan account.

Solicitation of Proxies

Lincoln will bear the entire cost of soliciting proxies from Lincoln shareholders. In addition, Lincoln will bear the cost of printing and mailing this document. Lincoln will request that banks, brokers and other record holders send proxies and proxy material to the beneficial owners of stock held by them and secure their voting instructions, if necessary. Lincoln will reimburse these banks, brokers and other record holders for their reasonable expenses. In addition to solicitation of proxies by mail, proxies may be solicited personally or by telephone by directors, officers and certain employees of Lincoln, who will not be specially compensated for such soliciting. In addition, Georgeson Shareholder Communications, Inc. has been engaged to assist with the solicitation of proxies and the return of election forms and will receive fees estimated at \$ _____ plus reimbursement of out-of-pocket expenses. Lincoln will also make arrangements with brokerage firms, fiduciaries

[Table of Contents](#)

and other custodians who hold shares of record to forward solicitation materials to the beneficial owners of these shares. Lincoln will reimburse these brokerage firms, fiduciaries and other custodians for their reasonable out-of-pocket expenses in connection with this solicitation.

In soliciting proxies, no one has any authority to make any representations and warranties about the merger or the Merger Agreement in addition to or contrary to the provisions stated in this document. No statement regarding the merger or the Merger Agreement should be relied upon except as expressly stated in this document.

Recommendation of the Board of Directors

Lincoln's Board of Directors has unanimously approved the Merger Agreement and the merger. Lincoln's Board believes that the merger is fair to and in the best interests of Lincoln and its shareholders. The Board unanimously recommends that the Lincoln shareholders vote "**FOR**" the Merger Agreement. See "THE MERGER—Lincoln's Reasons for the Merger" on page 35 and "THE MERGER—Recommendation of the Board of Directors" on page 37.

Proposal to Adjourn or Postpone the Special Meeting

In addition to the proposal to approve the merger, you are also being asked to approve a proposal to adjourn or postpone the special meeting to permit further solicitation of proxies in the event that an insufficient number of shares is present in person or by proxy to approve the merger.

Pursuant to Indiana law, the holders of at least a majority of the outstanding shares of Lincoln's common stock are required to approve the merger. It is rare for a company to achieve 100% (or even 90%) shareholder participation at a meeting of shareholders, and only a majority of the holders of the outstanding shares of common stock of Lincoln are required to be represented at the special meeting, in person or by proxy, in order for a quorum to be present. In the event that shareholder participation at the special meeting is lower than expected, Lincoln would like the flexibility to adjourn or postpone the meeting in order to attempt to secure broader shareholder participation in the decision to merge the two companies.

Approval of the proposal to adjourn or postpone the special meeting to allow extra time to solicit proxies (Proposal 2 on your proxy card) requires more votes to be cast in favor of the proposal than are cast against it. Abstentions and broker non-votes will not be treated as "NO" votes (as they are with respect to the merger) and, therefore, will have no effect on this proposal.

Lincoln's Board of Directors recommends that you vote "**FOR**" this proposal.

Other Matters

The special meeting of Lincoln shareholders has been called for the purposes set forth in the Notice to Lincoln shareholders included in this document. Your Board of Directors is unaware of any other matter for action by shareholders at the special meeting other than the proposal to adopt the Merger Agreement. However, the enclosed proxy will give discretionary authority to the persons named in the proxy with respect to matters which are not known to your Board of Directors as of the date hereof and which may properly come before the special meeting. It is the intention of the persons named in the proxy to vote with respect to such matters in accordance with the recommendations of the management of Lincoln.

Security Ownership of Lincoln Management

The following table shows, as of November 19, 2008, the number and percentage of shares of common stock held by Lincoln's directors, executive officers, holders of more than five percent of Lincoln's common stock, and directors and executive officers as a group.

The information provided in the table is based on our records, information filed with the U.S. Securities and Exchange Commission, and information provided to us, except where otherwise noted.

THE MERGER

At the special meeting, the shareholders of Lincoln will consider and vote upon adoption of the Merger Agreement. The following summary highlights some of the terms of the Merger Agreement. Because this is a summary of the Merger Agreement, it does not contain a description of all of the terms of the Merger Agreement and is qualified in its entirety by reference to the Merger Agreement. To understand the merger, you should read carefully the entire Merger Agreement, which is attached to this document as Appendix A and is incorporated herein by reference.

Description of the Merger

Under the terms of the Merger Agreement, Lincoln will merge with First Merchants and the separate corporate existence of Lincoln will cease. The Articles of Incorporation and By-Laws of First Merchants, as in effect prior to the merger, will continue to be the Articles of Incorporation and By-Laws of First Merchants after the merger.

Background of the Merger

The Board of Directors and management of Lincoln have periodically explored and discussed strategic options potentially available to Lincoln in light of the growing competition and continuing consolidation in the banking and financial services industry and the increasing difficulty financial institutions such as Lincoln have in competing effectively with larger financial institutions. These strategic discussions have included, among other things, continuing as an independent institution, pursuing strategies for organic growth and acquiring, affiliating or merging with other financial institutions. On certain occasions, representatives of Lincoln have had informal exploratory discussions with representatives of other financial institutions concerning the possibility of a business combination. Until early 2008, the Lincoln Board of Directors had concluded that Lincoln's shareholders, customers and employees were best served by Lincoln remaining as an independent financial institution.

At its January 22, 2008 meeting, the Lincoln Board of Directors met with representatives of Sandler O'Neill & Partners, L.P. (**Sandler**) and determined to engage Sandler to render financial advisory and investment banking services in connection with the evaluation of strategic alternatives, including a possible combination with another financial institution. At this meeting, Lincoln and Sandler discussed the universe of potential buyers, compiled preliminary information on Lincoln and examined the financial impact of a potential business combination. By letter dated January 23, 2008, Lincoln retained Sandler.

In a series of meetings of the Lincoln Board of Directors held between January and April, 2008, the Board continued to consider the advantages and disadvantages of engaging in a business combination at the present time. Lincoln's Board and senior management also worked with Sandler to prepare a Confidential Information Memorandum to be used to determine the level of interest of other financial institutions in acquiring Lincoln.

In late April 2008, Sandler began contacting on behalf of Lincoln potential strategic partners, including First Merchants, and distributed confidentiality agreements to those who expressed an initial interest. Seven financial institutions executed confidentiality agreements. In early May 2008, Confidential Information Memoranda were distributed to the seven parties that executed confidentiality agreements. Each of the parties receiving Confidential Information Memoranda were asked to review the information provided in that document in conjunction with publicly available information regarding Lincoln in order to provide an initial, non-binding indication of interest by May 22, 2008.

On May 27, 2008, Sandler reviewed the results of the solicitation process with management and the Board of Directors of Lincoln. In that meeting, Sandler detailed each non-binding indication of interest submitted, the pro forma impact of a business combination with each institution that submitted a non-binding indication of interest, the general banking environment and the current merger and acquisition environment. Of the seven

[Table of Contents](#)

parties receiving Confidential Information Memoranda, three financial institutions submitted a written, non-binding indication of interest for an affiliation with Lincoln, subject to due diligence and negotiation of a definitive agreement. After reviewing these preliminary indications of interest with Sandler, the Board of Directors of Lincoln elected to invite those three institutions to interview with the Board of Directors of Lincoln. At a meeting on June 4, 2008, the Lincoln Board of Directors did interview the three institutions, and after consideration of each institution's indication of interest, organizational background, strategic objectives and potential approach to integration of a potential acquisition with Lincoln, the Board of Directors of Lincoln elected to invite two of the three financial institutions to conduct due diligence investigations of Lincoln.

During the period between June 16, 2008 and June 28, 2008 the two financial institutions conducted their due diligence reviews of Lincoln. First Merchants submitted a revised indication of interest on July 23, 2008. The other financial institution notified Lincoln that it was withdrawing from the process.

The revised indication of interest submitted by First Merchants differed in many respects from the Merger Agreement ultimately signed by the parties. For example, the upper limit on the range of stock prices within which the transaction could be completed was increased significantly, in the final Merger Agreement, which allowed Lincoln shareholders more potential upside from pre-closing improvements in the First Merchants stock price. The indication of interest would have imposed \$4 million in liquidated damages on Lincoln if the Lincoln Board of Directors had subsequently accepted a better acquisition proposal as opposed to \$3.2 million in the Merger Agreement. First Merchants also proposed that it should be able to abandon the transaction without any consequences if for any reason the merger were not completed by December 31, 2008, compared to the \$2 million in liquidated damages owed by First Merchants under the Merger Agreement if it is terminated for this reason.

On July 29, 2008, with the assistance of Sandler, the Lincoln Board of Directors reviewed the revised indication of interest from First Merchants. Sandler made a presentation summarizing the perceived advantages and disadvantages of the proposal and provided an update on prevailing market conditions for publicly-traded financial stocks. The Lincoln Board of Directors determined that a transaction with First Merchants might present the best strategic opportunity for Lincoln and its shareholders and directed management to proceed with negotiation of the exchange ratio and other terms set forth in First Merchants' indication of interest.

As negotiations progressed, Lincoln began conducting an on-site due diligence investigation of First Merchants on August 11, 2008. During the next several days, management of Lincoln, Sandler and legal counsel conducted additional due diligence reviews of First Merchants.

During the month of August, Lincoln, through its legal counsel and Sandler, negotiated a Merger Agreement with First Merchants and its legal counsel. During that period, the parties also prepared disclosure letters to accompany the Merger Agreement, conducted additional due diligence investigations and negotiated the voting agreement that First Merchants requested the directors and certain executive officers of Lincoln and Lincoln Bank to sign. The management of Lincoln provided the Board of Directors with an update on the status of the negotiations at its regularly scheduled board meeting on August 19, 2008.

On August 27, 2008, drafts of the Merger Agreement were sent by overnight delivery to the members of the Board of Directors of Lincoln for their initial review. At a meeting of the Board of Directors on August 29, 2008, legal counsel, together with Sandler, led the Board of Directors of Lincoln through a page-by-page, detailed review and discussion of the Merger Agreement, including additional changes from the drafts sent to the directors for their review, and outlined relevant outstanding issues. Following that meeting, members of the management teams of Lincoln and First Merchants and their respective legal counsel engaged in further negotiations on the outstanding issues, including principally the circumstances under which First Merchants or Lincoln could terminate the Merger Agreement and the amount of liquidated damages that either party would owe the other if it chose to terminate the Merger Agreement for various reasons.

On August 29, 2008, the First Merchants Board of Directors approved the terms of the Merger Agreement and authorized its executive officers to complete any further negotiations of the terms of the Merger Agreement within certain parameters.

On September 2, 2008, the Board of Directors of Lincoln held a special meeting with legal counsel and Sandler to receive an update on the events that had transpired to date and further review and discuss the finalized Merger Agreement and voting agreement. At that meeting, legal counsel reviewed the terms of the Merger Agreement and pointed out changes from the drafts previously reviewed by the Lincoln Board of Directors. Additionally, legal counsel discussed the directors' fiduciary duties under Indiana law. Also at that meeting, Sandler rendered its opinion to the Board of Directors of Lincoln that the consideration to be received under the terms of First Merchants' offer was fair to the shareholders of Lincoln from a financial point of view. Following review and discussion, the Board of Directors of Lincoln, by a unanimous vote, (1) determined that the Merger Agreement and the transactions contemplated under the Merger Agreement, including the merger, were in the best interests of Lincoln and its shareholders, (2) authorized management to execute and deliver the Merger Agreement, (3) recommended that the shareholders of Lincoln adopt and approve the Merger Agreement and the merger and (4) directed that the Merger Agreement and the merger be submitted to the shareholders at a special meeting. The directors and executive officers of Lincoln and Lincoln Bank also executed the proposed voting agreement.

The Merger Agreement was finalized and executed by all parties following the Lincoln board meeting in the evening of September 2, 2008. On the morning of September 3, 2008, Lincoln and First Merchants issued a joint press release announcing the signing of the Merger Agreement.

First Merchants' Reasons for the Merger

In reaching its decision to approve the Merger Agreement and the merger, the First Merchants Board of Directors considered a number of factors concerning First Merchants' benefits from the merger. Without assigning any relative or specific weights to the factors, the First Merchants Board considered the following material factors:

- First Merchants' respect for the ability and integrity of the Lincoln Board of Directors, management, and staff, and their affiliates;
- First Merchants' belief that expanding its operations offers important long-term strategic benefits to First Merchants;
- Lincoln's community banking orientation and its compatibility with First Merchants and its subsidiaries;
- management's view that the acquisition of Lincoln provides an attractive opportunity to enhance First Merchants' presence in Central Indiana and the greater Indianapolis market, which is consistent with its strategic objectives to expand in desirable markets;
- the likelihood of a successful integration of Lincoln's business, operations and workforce with those of First Merchants and of successful operation of the combined company despite the challenges of this integration;
- a review of (i) the business, operations, earnings, and financial condition including the capital levels and asset quality, of Lincoln on a historical, prospective, and pro forma basis in comparison to other financial institutions in the area, (ii) the demographic, economic, and financial characteristics of the market in which Lincoln operates, including existing competition, history of the market areas with respect to financial institutions, and average demand for credit, on a historical and prospective basis, and (iii) the results of First Merchants' due diligence review of Lincoln; and
- a variety of factors affecting and relating to the overall strategic focus of First Merchants.

Lincoln's Reasons for the Merger

The Lincoln Board of Directors determined that the Merger Agreement and the merger consideration are in the best interests of Lincoln and its shareholders and recommends that Lincoln shareholders vote in favor of the approval of the Merger Agreement and the transactions contemplated by the Merger Agreement, including the merger.

[Table of Contents](#)

In its deliberations and in making its determination, the Lincoln Board of Directors considered many factors including, without limitation, the following:

- the fact that the value of the merger consideration represented a premium over the \$10.35 closing price of Lincoln's common stock on September 2, 2008 (the last trading day before the merger was announced);
- the information that was included in the Sandler presentation to the Lincoln Board of Directors that indicated that the merger consideration represented a multiple to last twelve months earnings per share which was higher than the median for selected bank merger transactions in the Midwest and for selected bank merger transactions nationwide;
- the increased level of competition within the banking sector generally and within the market areas served by Lincoln from other, larger financial institutions and non-bank competitors;
- the current and prospective economic climate for smaller financial institutions generally and Lincoln specifically, including declining net interest margins for many financial institutions, slower deposit growth and the increasing cost of regulatory burdens;
- the effect of the merger on Lincoln Bank's employees, including the prospect of continued employment and enhanced employment opportunities with a much larger and more diversified financial organization;
- the effect of the merger on Lincoln Bank's customers and community, including First Merchants' community banking orientation and its compatibility with Lincoln;
- more diverse financial products and services for Lincoln customers and an enhanced competitive position in the markets in which Lincoln operates;
- the desire to provide shareholders with the prospects for greater future appreciation on their investments in Lincoln common stock than Lincoln could likely achieve independently;
- the greater liquidity of First Merchants common stock, which is traded on the NASDAQ Global Select Market System;
- the higher level of dividends paid by First Merchants on its common stock than Lincoln would be likely to achieve in the near future;
- the potential tax advantage to Lincoln shareholders of accepting stock or stock and cash; and
- the opinion delivered by Sandler that the merger consideration is fair, from a financial point of view, to the shareholders of Lincoln.

The Lincoln Board of Directors also identified several risks, uncertainties and disadvantages of the proposed transaction including, without limitation, the following:

- the potential risks to Lincoln shareholders of accepting First Merchants stock for their Lincoln shares and thereby continuing to be subject to the uncertain market for financial institution stocks;
- the possibility that by remaining independent Lincoln might obtain a higher price for shareholders at some time in the future;
- the information that was included in the Sandler presentation to the Lincoln Board of Directors that indicated that the merger consideration represented a core deposit premium of 0.8% and was 104.9% of tangible book value, which were each lower than the corresponding median for selected bank merger transactions in the Midwest and for selected bank merger transactions nationwide;
- the possible negative effects of the transaction on Lincoln's employees, customers and local community;
- the possible disruption to Lincoln's business that might result from the announcement of the transaction, the distractions of its management's attention from the day-to-day operation of Lincoln's

[Table of Contents](#)

- business and certain restrictions in the Merger Agreement on Lincoln's operations pending the completion of the merger; and
- the liquidated damages to be paid by Lincoln if the Merger Agreement were terminated under certain circumstances.

In its deliberations and in making its determination, the Lincoln Board of Directors specifically considered the information that was included in the Sandler presentation to the Lincoln Board of Directors and concluded that in view of Lincoln's recent stock trading prices, the positive factors in the Sandler presentation that the merger consideration represented a premium over market price and a multiple to last twelve months earnings per share which was higher in each case than the median for selected bank merger transactions in the Midwest and for selected bank merger transactions nationwide outweighed the negative factors in the Sandler presentation that the merger consideration represented a core deposit premium and a multiple of tangible book value which were lower in each case than the median for selected bank merger transactions in the Midwest and for selected bank merger transactions nationwide.

The foregoing discussion of the information and factors considered by Lincoln is not intended to be exhaustive. In reaching its determination to enter into the Merger Agreement, Lincoln did not assign any relative or specific weights to the foregoing factors.

Recommendation of the Board of Directors

Lincoln's Board of Directors has carefully considered and unanimously approved the Merger Agreement and unanimously recommends to Lincoln shareholders that you vote FOR the adoption of the Merger Agreement.

Funding of the Merger

First Merchants will need cash in the amount of approximately \$4 million to \$17 million, depending on Lincoln shareholder elections, to fund the cash consideration portion of the merger consideration. First Merchants proposes to obtain the necessary funds to acquire the common stock of Lincoln through borrowings under its existing line of credit with Bank of America and from internal cash sources.

Effects of the Merger

The respective Boards of Directors of First Merchants and Lincoln believe that, over the long-term, the merger will be beneficial to First Merchants shareholders, including the current shareholders of Lincoln who will become First Merchants shareholders if the merger is completed. The First Merchants Board of Directors believes that one of the potential benefits of the merger is the cost savings that may be realized by combining the two companies, which savings are expected to enhance First Merchant's earnings.

First Merchants expects to reduce expenses by combining accounting, data processing, retail and lending support, and other administrative functions after the merger, which will enable First Merchants to achieve economies of scale in these areas. First Merchants estimates these reductions will be approximately \$26 million over the first three years following the merger. Promptly following the completion of the merger, which is expected to occur during the fourth quarter of 2008, First Merchants plans to begin the process of eliminating redundant functions, and eliminating duplicative expenses. The amount of any cost savings First Merchants may realize in 2009 will depend upon how quickly and efficiently First Merchants is able to implement the processes outlined above during the year.

First Merchants believes that it will achieve cost savings based on the assumption that it will be able to:

- reduce data processing costs;
- reduce staff;

[Table of Contents](#)

- achieve economies of scale in advertising and marketing budgets;
- reduce legal and accounting fees; and
- achieve other savings through reduction or elimination of miscellaneous items such as insurance premiums, travel and automobile expense, and investor relations expenses.

First Merchants has based these assumptions on its present assessment of where savings could be realized based upon the present independent operations of the two companies. Actual savings in some or all of these areas could be higher or lower than is currently expected.

First Merchants also believes that the merger will be beneficial to the customers of Lincoln as a result of the additional products and services offered by First Merchants and its subsidiary banks and because of the increased lending capability.

Opinion of Lincoln's Financial Advisor

As described above, the opinion of Sandler was among the many factors taken into consideration by the Lincoln Board of Directors in making its determination to approve the merger.

By letter dated January 23, 2008, Lincoln retained Sandler to act as its financial advisor in connection with a possible business combination. Sandler is a nationally recognized investment banking firm whose principal business specialty is financial institutions. In the ordinary course of its investment banking business, Sandler is regularly engaged in the valuation of financial institutions and their securities in connection with mergers and acquisitions and other corporate transactions.

Sandler acted as financial advisor to Lincoln in connection with the proposed transaction and participated in certain of the negotiations leading to the execution of the Merger Agreement on September 2, 2008. At the September 2, 2008 meeting at which the Lincoln Board of Directors considered and approved the Merger Agreement, Sandler delivered to the Lincoln Board of Directors its oral opinion, later confirmed in writing, that, as of such date, the merger consideration was fair to the holders of Lincoln common stock, from a financial point of view. **The full text of Sandler's opinion is attached as Appendix B to this proxy statement-prospectus and Sandler has consented thereto in writing. The opinion outlines the procedures followed, assumptions made, matters considered and qualifications and limitations on the review undertaken by Sandler in rendering its opinion. The description of the opinion set forth below is qualified in its entirety by reference to the full text of the opinion. Lincoln's shareholders are urged to read the entire opinion carefully in connection with their consideration of the proposed merger.**

Sandler's opinion speaks only as of the date of the opinion. The opinion was directed to the Lincoln Board of Directors and is directed only to the fairness of the merger consideration to the holders of Lincoln common stock from a financial point of view. The opinion does not address the underlying business decision of Lincoln to engage in the merger or any other aspect of the merger and is not a recommendation to any Lincoln shareholder as to how such shareholder should vote at the special meeting with respect to the merger or any other matter. Sandler has reviewed the proxy statement prospectus and has approved the attachment of its opinion to this proxy statement prospectus and the references to and quotes from its opinion contained herein.

In connection with rendering its September 2, 2008 opinion, Sandler reviewed and considered, among other things:

- (i) the Merger Agreement;
- (ii) certain publicly available financial statements and other historical financial information of Lincoln that Sandler deemed relevant;
- (iii) certain publicly available financial statements and other historical financial information of First Merchants that Sandler deemed relevant;

Table of Contents

- (iv) internal financial projections for Lincoln for the year ending December 31, 2008 and an estimated growth rate for the years thereafter as prepared by and reviewed with management of Lincoln;
- (v) internal earnings estimates for First Merchants for the years ending December 31, 2008 and December 31, 2009 as discussed with senior management of First Merchants and an estimated long-term growth rate for the years thereafter as reviewed with senior management of First Merchants;
- (vi) the pro forma financial impact of the merger on First Merchants based on assumptions relating to transaction expenses, purchase accounting adjustments and cost savings determined by the senior managements of Lincoln and First Merchants;
- (vii) the publicly reported historical price and trading activity for Lincoln's and First Merchants' respective common stock, including a comparison of certain financial and stock market information for Lincoln and First Merchants with similar publicly available information for certain other companies the securities of which are publicly traded;
- (viii) the financial terms of certain recent business combinations in the commercial banking and savings institution industry, to the extent publicly available;
- (ix) the current market environment generally and the banking environment in particular; and
- (x) such other information, financial studies, analyses and investigations and financial, economic and market criteria that Sandler considered relevant.

Sandler also discussed with certain members of senior management of Lincoln the business, financial condition, results of operations and prospects of Lincoln and held similar discussions with certain members of senior management of First Merchants regarding the business, financial condition, results of operations and prospects of First Merchants.

In performing its review, Sandler relied upon the accuracy and completeness of all the financial and other information that was available to them from public sources, that was provided to Sandler by Lincoln and First Merchants or their respective representatives or that was otherwise reviewed by Sandler, and Sandler has assumed such accuracy and completeness for purposes of rendering this opinion. Sandler further relied on the assurances of the respective managements of Lincoln and First Merchants that they are not aware of any facts or circumstances that would make any of such information inaccurate or misleading. Sandler has not been asked to and has not undertaken an independent verification of any of such information and Sandler does not assume any responsibility or liability for the accuracy or completeness thereof. Sandler did not make an independent evaluation or appraisal of the specific assets, the collateral securing the assets or the liabilities (contingent or otherwise) of Lincoln and First Merchants or any of their respective subsidiaries, or the collectibility of any such assets, nor has Sandler been furnished with any such evaluations or appraisals. Sandler did not make an independent evaluation of the adequacy of the allowance for loan losses of Lincoln and First Merchants nor has Sandler reviewed any individual credit files relating to Lincoln and First Merchants. Sandler has assumed, with Lincoln's consent, that the respective allowances for loan losses for both Lincoln and First Merchants are adequate to cover such losses and will be adequate on a pro forma basis for the combined entity.

In preparing its analyses, Sandler received internal estimates for Lincoln and First Merchants from the respective managements of Lincoln and First Merchants. The projections of transaction costs, purchase accounting adjustments and expected cost savings used by Sandler in its analyses were prepared by and/or reviewed with the managements of Lincoln and First Merchants and were confirmed to Sandler that they reflected the best currently available estimates and judgments of such management of the future financial performance of Lincoln and First Merchants, respectively, and Sandler assumed that such performance would be achieved. Sandler expresses no opinion as to such estimates or the assumptions on which they are based. Sandler has also assumed that there has been no material change in Lincoln's and First Merchants' assets, financial condition, results of operations, business or prospects since the date of the most recent financial statements made available to Sandler. Sandler has assumed in all respects material to its analysis that Lincoln and First Merchants will remain as going concerns for all periods relevant to its analyses, that all of the representations and warranties

[Table of Contents](#)

contained in the Merger Agreement and all related agreements are true and correct, that each party to the agreements will perform all of the covenants required to be performed by such party under the agreements, that the conditions precedent in the agreements are not waived and that the merger will qualify as a tax-free reorganization for federal income tax purposes. Finally, with Lincoln's consent, Sandler relied upon the advice Lincoln has received from its legal, accounting and tax advisors as to all legal, accounting and tax matters relating to the merger and the other transactions contemplated by the Merger Agreement.

Sandler's opinion was necessarily based on financial, economic, market and other conditions as in effect on, and the information made available to them of the date of its opinion. Events occurring after the date of its opinion could materially affect its opinion. Sandler has not undertaken to update, revise, reaffirm or withdraw its opinion or otherwise comment upon events occurring after the date of its opinion. Sandler expressed no opinion as to what the value of First Merchants' common stock will be when issued to Lincoln's shareholders pursuant to the Merger Agreement or the prices at which Lincoln's and First Merchants' common stock may trade at any time. Sandler's opinion was approved by its fairness opinion committee and the opinion does not address in any way the fairness of the amount or nature of the compensation to be received in the merger by Lincoln's officers, directors, or employees, or class of such persons, relative to the compensation to be received in the merger by any other shareholders of Lincoln.

In rendering its September 2, 2008 opinion, Sandler performed a variety of financial analyses. The following is a summary of the material analyses performed by Sandler, but is not a complete description of all the analyses underlying Sandler's opinion. The summary includes information presented in tabular format. **In order to fully understand the financial analyses, these tables must be read together with the accompanying text. The tables alone do not constitute a complete description of the financial analyses.** The preparation of a fairness opinion is a complex process involving subjective judgments as to the most appropriate and relevant methods of financial analysis and the application of those methods to the particular circumstances. The process, therefore, is not necessarily susceptible to a partial analysis or summary description. Sandler believes that its analyses must be considered as a whole and that selecting portions of the factors and analyses to be considered without considering all factors and analyses, or attempting to ascribe relative weights to some or all such factors and analyses, could create an incomplete view of the evaluation process underlying its opinion. Also, no company included in Sandler's comparative analyses described below is identical to Lincoln or First Merchants and no transaction is identical to the merger. Accordingly, an analysis of comparable companies or transactions involves complex considerations and judgments concerning differences in financial and operating characteristics of the companies and other factors that could affect the public trading values or merger transaction values, as the case may be, of Lincoln and First Merchants and the companies to which they are being compared.

In performing its analyses, Sandler also made numerous assumptions with respect to industry performance, business and economic conditions and various other matters, many of which cannot be predicted and are beyond the control of Lincoln, First Merchants and Sandler. The analyses performed by Sandler are not necessarily indicative of actual values or future results, both of which may be significantly more or less favorable than suggested by such analyses. Sandler prepared its analyses solely for purposes of rendering its opinion and provided such analyses to the Lincoln Board of Directors at its September 2, 2008 meeting. Estimates on the values of companies do not purport to be appraisals or necessarily reflect the prices at which companies or their securities may actually be sold. Such estimates are inherently subject to uncertainty and actual values may be materially different. Accordingly, Sandler's analyses do not necessarily reflect the value of Lincoln's common stock or the prices at which Lincoln's common stock may be sold at any time. The combined analyses of Sandler and the opinion provided were among a number of factors taken into consideration by the Lincoln Board of Directors in making its determination to adopt the plan of merger contained in the Merger Agreement and the analyses described below should not be viewed as determinative of the decision of the Lincoln Board of Directors or management with respect to the fairness of the merger.

In arriving at its opinion Sandler did not attribute any particular weight to any analysis or factor that it considered. Rather it made qualitative judgments as to the significance and relevance of each analysis and factor. Sandler did not form an opinion as to whether any individual analysis or factor (positive or negative) considered

[Table of Contents](#)

in isolation supported or failed to support its opinion; rather Sandler made its determination as to the fairness of the per share consideration on the basis of its experience and professional judgment after considering the results of all its analyses taken as a whole. Accordingly, Sandler believes that the analyses and the summary of the analyses must be considered as a whole and that selecting portions of the analyses and factors or focusing on the information presented below in tabular format, without considering all analyses and factors or the full narrative description of the financial analyses, including methodologies and assumptions underlying the analyses, could create a misleading or incomplete view of the process underlying its analyses and opinions. The financial analyses summarized below include information presented in tabular format. The tables alone do not constitute complete descriptions of the financial analyses presented in such tables.

Summary of Proposal. Sandler reviewed the financial terms of the proposed transaction. Based on the right to elect a cash consideration of \$15.76 per share or a fixed exchange ratio of 0.7004 shares of First Merchants common stock for each share of Lincoln, subject to proration such that the cash portion will not exceed \$16,800,000, Sandler calculated a transaction value of \$13.96 per share. The calculation of transaction value was based on First Merchants' stock price of \$19.92 on August 29, 2008, and assumed Lincoln shareholders would elect to receive the maximum amount of cash. The transaction value was based on 5,319,731 Lincoln common shares outstanding and 527,722 options outstanding with a weighted-average exercise price of \$13.29. Based upon draft financial information for Lincoln as of and for the twelve month period ended June 30, 2008, Sandler calculated the following transaction ratios:

Net Present Value Analysis. Sandler performed an analysis that estimated the net present value per share of Lincoln's common stock under various circumstances. In the analysis, Sandler assumed Lincoln performed in accordance with the financial projections for December 31, 2008 through 2012 discussed with Lincoln management. To approximate the terminal value of Lincoln's common stock at December 31, 2012, Sandler applied price to earnings multiples of 8.0x to 18.0x and multiples of tangible book value ranging from 60% to 160%. The terminal values were then discounted to present values using different discount rates ranging from 12.0% to 16.0%, chosen to reflect different assumptions regarding required rates of return of holders or prospective buyers of Lincoln's common stock. In addition, the net present value of Lincoln's common stock at December 31, 2012 was calculated using the same range of price to earnings multiples (8.0x to 18.0x) applied to a range of discounts and premiums to budget projections. The range applied to the budgeted net income was 25% under budget to 25% over budget, using a discount rate of 14.08% for tabular analysis.

[Table of Contents](#)

As illustrated in the following tables, the analysis indicated an imputed range of values per share for Lincoln's common stock of \$6.38 to \$13.87 when applying the price to earnings multiples to the matched budget, \$6.99 to \$17.40 when applying multiples of tangible book value to the matched budget, and \$5.59 to \$15.56 when applying the price to earnings multiples to the 25% under budget to the 25% over budget range.

Sandler also performed an analysis that estimated the net present value per share of First Merchants' common stock under various circumstances. In the analysis, Sandler assumed First Merchants performed in accordance with the financial projections for December 31, 2008 through 2012 provided by First Merchants management. To approximate the terminal value of First Merchants' common stock at December 31, 2012, Sandler applied price to earnings multiples of 12.0x to 18.0x and multiples of tangible book value ranging from 120% to 200%. The terminal values were then discounted to present values using different discount rates ranging from 12.0% to 16.0% chosen to reflect different assumptions regarding required rates of return of holders or prospective buyers of First Merchants' common stock. In addition, the net present value of First Merchants' common stock at December 31, 2012 was calculated using the same range of price to earnings multiples (12.0x to 18.0x) applied to a range of discounts and premiums to budget projections. The range applied to the budgeted net income was 25% under budget to 25% over budget, using a discount rate of 14.08% for tabular analysis.

[Table of Contents](#)

As illustrated in the following tables, the analysis indicated an imputed range of values per share for First Merchants' common stock of \$18.25 to \$30.13 when applying the price/earnings multiples to the matched budget, \$14.50 to \$25.36 when applying multiples of tangible book value to the matched budget, and \$15.44 to \$34.04 when applying the price/earnings multiples to the 25% under budget to the 25% over budget range.

In connection with its analyses, Sandler considered and discussed with the Lincoln Board of Directors how the present value analyses would be affected by changes in the underlying assumptions, including variations with respect to net income. Sandler noted that the terminal value analysis is a widely used valuation methodology, but the results of such methodology are highly dependent upon the numerous assumptions that must be made, and the results thereof are not necessarily indicative of actual values or future results.

Analysis of Selected Merger Transactions. Sandler reviewed 10 merger transactions announced in the Midwest from October 1, 2007 through August 29, 2008 involving commercial banks and savings institutions as acquired institutions with announced transaction values greater than \$20 million and less than \$200 million. Sandler also reviewed 7 merger transactions announced Nationwide from October 1, 2007 through August 29, 2008 involving commercial banks and savings institutions as acquired institutions with announced transaction

values greater than \$10 million and less than \$200 million, sellers' return on average assets between 0.00% and 0.80%, sellers' return on average equity between 0.00% and 8.00%, and sellers' non-performing assets (NPAs)/ total assets greater than 1.00%. Sandler reviewed the following multiples: transaction price to last twelve months' earnings per share, transaction price to tangible book value, core deposit premium and premium to market. As illustrated in the following table, Sandler compared the proposed merger multiples to the median multiples of the aforementioned groups of comparable transactions.

Pro Forma Merger Analysis. Sandler analyzed certain potential pro forma effects of the merger, assuming the following: (i) the merger closes in the 4th quarter of 2008; (ii) 5% to 20% of Lincoln's shares are exchanged for \$15.76 per share in cash and 80% to 95% of Lincoln's shares are exchanged for common stock; (iii) options for Lincoln's stock will be exchanged for cash or stock; (iv) Lincoln and First Merchants financial projections for 2008 through 2012 as provided by and reviewed with the senior management of both Lincoln and First Merchants; (v) the purchase accounting adjustments, transaction costs and charges associated with the merger and cost savings determined by the senior management of First Merchants. The analyses indicated that for the year ending December 31, 2010 (the first full year of fully phased-in operations), the merger would be accretive to First Merchants' projected earnings per share, at December 31, 2008 (the assumed closing date of the merger), the merger would be accretive to First Merchants' tangible book value per share, and at December 31, 2009 the merger would be accretive to Lincoln's projected dividend per share. The actual results achieved by the combined company may vary from projected results and the variations may be material.

Miscellaneous. Lincoln has agreed to pay Sandler a transaction fee in connection with the merger; of which \$150,000 became due upon the signing of a definitive agreement. Sandler also received a fee of \$150,000 in connection with the delivery of this opinion, which shall be credited against the transaction fee. The balance of the transaction fee is contingent, and payable, upon closing of the merger. Lincoln has also agreed to reimburse certain of Sandler reasonable out-of-pocket expenses incurred in connection with its engagement and to indemnify Sandler and its affiliates and their respective partners, directors, officers, employees, agents, and controlling persons against certain expenses and liabilities, including liabilities under the securities laws.

In the ordinary course of its respective broker and dealer businesses, Sandler may purchase securities from and sell securities to Lincoln and First Merchants and their affiliates. Sandler may also actively trade the debt and/or equity securities of Lincoln or their affiliates for their own accounts and for the accounts of their customers and, accordingly, may at any time hold a long or short position in such securities.

Exchange of Lincoln Common Shares

As of the effective date of the merger, you will be entitled to receive for each outstanding Lincoln common share you own, at your election, either (i) 0.7004 shares of First Merchants common stock (**Share Option**), or (ii) \$15.76 in cash (**Cash Option**). You may elect to receive a combination of First Merchants common stock for some of your Lincoln shares and cash for some of your Lincoln shares. The 0.7004 conversion ratio is subject to upward or downward adjustment under certain circumstances. See “THE MERGER—Conversion Ratio Adjustment” on page 50.

You should obtain current market quotations for First Merchants common stock and Lincoln common shares. We expect that the market price of First Merchants common stock will fluctuate between the date of this document and the date of the merger and thereafter. Because the number of shares of First Merchants common stock which you may elect to receive in exchange for each of your Lincoln shares is fixed, subject to upward or downward adjustment as described below, and the market price of First Merchants common stock may fluctuate, the value of the shares of First Merchants common stock that you may elect to receive in the merger may increase or decrease prior to and after the merger.

If First Merchants changes the number of outstanding shares of First Merchants common stock before the merger through any stock split, stock dividend, recapitalization or similar transaction, then First Merchants will proportionately adjust the 0.7004 conversion ratio.

An Election Form is being mailed to you through a separate mailing. You must elect either the Share Option or the Cash Option with respect to each of the Lincoln common shares you own by completing the Election Form. You may elect a combination of the Share Option or the Cash Option for your Lincoln common shares. To be effective, American Stock Transfer & Trust Company, LLC (**American Stock Transfer**), must receive a properly completed Election Form by 5:00 p.m. local time on _____, 2008.

If a properly completed Election Form is not timely received for your Lincoln shares, you will be treated as if you elected the Share Option for all shares you own, subject to certain circumstances in which the shares will be treated as if you elected the Cash Option.

In the event the Share Option and Cash Option elections submitted by Lincoln shareholders would entitle Lincoln’s shareholders to receive in the aggregate 3,576,417 or less shares of First Merchants common stock and \$16,800,000 or less in cash, all valid Share Option elections and Cash Option elections of Lincoln shareholders will be honored. In the event: (i) the Share Option elections would entitle Lincoln shareholders to receive in the aggregate more than 3,576,417 shares of its common stock; (ii) the Cash Option elections would entitle Lincoln shareholders to receive more than \$16,800,000 in cash or (iii) the merger would not satisfy the “continuity of interest” rule applicable to tax-free reorganizations under the Internal Revenue Code of 1986, as amended (**Continuity of Interest Rule**), due to the amount of stock or cash that would be issuable in connection with the merger, certain of the Cash Option elections of the Lincoln shareholders may be converted into Share Option elections or certain of the Share Option elections of the Lincoln shareholders may be converted into Cash Option elections, as applicable.

In the event the Cash Option elections would entitle Lincoln shareholders to receive more than \$16,800,000 in cash, the Cash Option elections will be converted to Share Option elections on a pro rata basis based on the number of Cash Option elections made by each shareholder (including the Lincoln ESOP only in limited circumstances as described below), but only to the extent necessary so that the total remaining number of Lincoln common shares covered by the Cash Option elections is such that the merger will result in cash payments of less than \$16,800,000 in the aggregate and will satisfy the Continuity of Interest Rule. As a result of such provisions, certain Lincoln shareholders may receive less cash and more First Merchants common stock for their shares than they elected based on the choices made by the other Lincoln shareholders.

[Table of Contents](#)

In the event the Share Option elections would entitle Lincoln shareholders to receive more than 3,576,417 shares of First Merchants common stock, all shares as to which no valid election was made (and which absent proration would be treated the same as Share Option elections) will be converted to Cash Option elections on a pro rata basis and, after all such shares are converted, the Share Option elections will be converted to Cash Option elections on a pro rata basis based on the number of Share Option elections made by each shareholder (including the Lincoln ESOP only in limited circumstances as described below), but only to the extent necessary so that the total remaining number of Lincoln common shares covered by the Share Option elections (and the non-elections, to the extent they are not all converted to Cash Option elections) is such that the merger will result in approximately 3,576,417 shares of First Merchants common stock being issued in connection with the merger and will satisfy the Continuity of Interest Rule. As a result of such provisions, certain Lincoln shareholders may receive less First Merchants common stock and more cash for their shares than they elected, and non-electing shareholders may receive a portion of their payment in cash, based on the choices made by the other Lincoln shareholders.

Shares held by the Lincoln ESOP are subject to the adjustments described above, but only to the extent that no less than Adequate Consideration (as defined in section 3(18) of Employee Retirement Income Security Act of 1974, as amended and the regulations promulgated thereunder).

First Merchants will not issue fractional shares of First Merchants common stock to Lincoln shareholders. Each Lincoln shareholder who otherwise would be entitled to a fractional interest in a First Merchants share as a result of the conversion ratio will be paid a cash amount for the fractional interest. The amount of cash Lincoln shareholders will receive for any fractional interest will be calculated by multiplying the fractional interest by the average of the closing price of the common stock of First Merchants as reported in Bloomberg, L.P., for the 20 NASDAQ trading days preceding the 5th calendar day prior to the effective date of the merger (**First Merchants Average Price**).

If you hold your Lincoln common shares in “street name” through a bank or broker, your bank or broker is responsible for ensuring that the certificate or certificates representing your shares are properly surrendered and that the appropriate amount of cash or number of First Merchants shares are credited to your account. However, you must complete and return the Election Form (or a substitute form provided by your bank or broker) to your bank or broker in order to make a valid election for your shares.

After completion of the merger, your stock certificates previously representing Lincoln common shares will represent only the right for you to receive shares of First Merchants common stock and/or cash, as applicable. Prior to the surrender of Lincoln stock certificates for exchange subsequent to completion of the merger, the holders of such shares entitled to receive shares of First Merchants common stock will not be entitled to receive payment of dividends or other distributions declared on such shares of First Merchants common stock. However, upon the subsequent exchange of such certificates, First Merchants will pay, without interest, any accumulated dividends or distributions previously declared and withheld on the shares of First Merchants common stock. On the effective date of the merger, the stock transfer books of Lincoln will be closed and no transfer of Lincoln common shares will be made thereafter. If, after the effective date of the merger, you present certificates representing Lincoln common shares for registration or transfer, the certificates will be cancelled and exchanged for shares of First Merchants’ common stock and/or cash, as applicable.

Following completion of the merger, First Merchants will mail a letter of transmittal to each Lincoln shareholder. This transmittal letter will contain instructions on how to surrender your certificates representing Lincoln common shares. **You should not return your Lincoln stock certificates with the enclosed proxy or the Election Form, but should retain them until you receive a letter of transmittal from First Merchants.**

First Merchants will distribute stock certificates representing shares of First Merchants common stock and/or cash payments to each former shareholder of Lincoln within 15 business days after the later of (i) the effective

date of the merger or (ii) the date the shareholder delivers his/her/its Lincoln stock certificates to American Stock Transfer accompanied by a properly completed and executed letter of transmittal. Delivery of Lincoln shares for conversion will not be taken until after completion of the merger. American Stock Transfer will act as conversion agent in the merger.

If your certificate for your Lincoln common shares has been lost, stolen or destroyed, First Merchants will issue the First Merchants common stock and/or make any cash payments to you after First Merchants receives from you an agreement to indemnify First Merchants against loss from such lost, stolen or destroyed certificate and an affidavit evidencing the loss, theft or destruction of your certificates.

Conversion Ratio Adjustment

If the First Merchants Average Price (as defined in the preceding section) is less than or greater than certain target prices set forth in the Merger Agreement, then First Merchants and Lincoln have the right to terminate the Merger Agreement. See “THE MERGER—Termination; Waiver; Amendment” on page 54. If either party exercises its right of termination, the other party then has the right to adjust the conversion ratio. If adjusted, the new conversion ratio will be determined by taking the target price triggering the adjustment times the existing conversion ratio of 0.7004, divided by the First Merchants Average Price. Provided below are a description of the target prices triggering a possible termination of the Merger Agreement or adjustment in the conversion ratio, followed by a scenario detailing how the conversion ratio may be adjusted. The scenarios are provided only as examples to assist you in understanding the conversion ratio adjustment provisions.

First, if the First Merchants Average Price is less than \$16.50, then Lincoln may terminate the Merger Agreement. If the Lincoln Board of Directors exercises its right to terminate the Merger Agreement, it must give written notice to First Merchants of its election to terminate the merger within 48 hours after the 5th calendar day prior to the closing date of the merger. Within 3 business days after the receipt of such notice, First Merchants may elect to increase the conversion ratio to a number equal to \$16.50 times the existing conversion ratio of 0.7004, divided by the First Merchants Average Price. If First Merchants elects to adjust the conversion ratio, the Merger Agreement will remain in effect with the adjusted conversion ratio and will not be terminated. If First Merchants does not elect to adjust the conversion ratio within 3 business days following Lincoln’s notice, then the Merger Agreement will terminate.

SCENARIO 1: If the First Merchants Average Price is \$15.00 (which is less than \$16.50) and the Lincoln Board of Directors elects to terminate the Merger Agreement by providing the required notice, then, at First Merchants’ election, the conversion ratio would be adjusted as follows by First Merchants and Lincoln:

$$\frac{16.50 \times 0.7004}{15.00} = 0.7704$$

Thus, the adjusted conversion ratio would be 0.7704 to 1, which would impact the number of shares of First Merchants common stock you would receive under the Share Option. The amount of cash to be received under the Cash Option would not be changed. Thus, under this scenario, after adjustment, you would be entitled to receive for each outstanding Lincoln common share you own at your election, either (i) 0.7704 shares of First Merchants common stock under the Share Option, or (ii) \$15.76 in cash under the Cash Option.

Second, if the First Merchants Average Price is greater than \$30.00, then First Merchants may terminate the Merger Agreement. If First Merchants’ Board exercises its right to terminate the Merger Agreement, it must give written notice to Lincoln of its election to terminate the merger within 48 hours after the 5th calendar day prior to the closing date of the merger. Within 3 business days after the receipt of such notice, Lincoln may elect to decrease the conversion ratio to a number equal to \$30.00 times the existing conversion ratio of 0.7004, divided by the First Merchants Average Price. If Lincoln elects to adjust the conversion ratio, the Merger Agreement will

Table of Contents

remain in effect with the adjusted conversion ratio and will not be terminated. If Lincoln does not elect to adjust the conversion ratio within 3 business days following First Merchant's notice, then the Merger Agreement will terminate.

SCENARIO 2: If the First Merchants Average Price is \$31.50 (which is greater than \$30.00) and First Merchants Board elects to terminate the Merger Agreement by providing the required notice, then, at Lincoln's election, the conversion ratio would be adjusted as follows by First Merchants and Lincoln:

$$\frac{30.00 \times 0.7004}{\$31.50} = 0.6670$$

Thus, the adjusted conversion ratio would be 0.6670 to 1, which would impact the number of shares of First Merchants common stock you would receive under the Share Option. The amount of cash to be received under the Cash Option would not be changed. Thus, under this scenario, after adjustment, you would be entitled to receive for each outstanding Lincoln common share you own at your election, either (i) 0.6670 shares of First Merchants common stock under the Share Option, or (ii) \$15.76 in cash under the Cash Option.

The scenarios set forth above are provided as examples only and do not reflect what the actual First Merchants Average Price will be. The scenarios have been included in this document to help you understand how the conversion ratio adjustment works at various arbitrarily chosen prices. First Merchants and Lincoln will determine if an adjustment to the conversion ratio will be made in the 5 days preceding completion of the merger.

Rights of Dissenting Shareholders

Lincoln shareholders are not entitled to dissenters' rights under Indiana Code § 23-1-44, as amended, because the Lincoln common shares are traded on the NASDAQ Global Market System.

These shares may be traded freely and without restriction by those Lincoln shareholders not considered to be "affiliates" of First Merchants under the Securities Act. At the present time, the only persons who are anticipated to be "affiliates" of First Merchants after the merger are Mr. Engle and the second individual director of Lincoln who joins the Board of Directors of First Merchants.

First Merchants' and Lincoln's obligations to complete the merger are subject to the satisfaction of the following conditions, among other things, at or prior to the effective date of the merger:

- the adoption of the Merger Agreement by the shareholders of Lincoln;
- the registration statement relating to the issuance of First Merchants common stock being declared effective by the SEC and First Merchants receiving any state securities and blue sky approvals required for the offer and sale of First Merchants common stock to Lincoln shareholders;
- notification to the NASDAQ Global Select Market System regarding the shares of First Merchants common stock to be issued to the Lincoln shareholders in connection with the merger;

[Table of Contents](#)

- the receipt of the approval of the Board of Governors of the Federal Reserve System and the Indiana Department of Financial Institutions of the merger and the expiration of any regulatory waiting period prior to consummation of the merger;
- there being no order, decree or injunction of any court or agency in effect which enjoins or prohibits the consummation of the merger; and
- the receipt of all consents and approvals of persons other than governmental and regulatory authorities that are required for consummation of the merger.

The obligation of First Merchants to consummate the merger is also subject to fulfillment of other conditions, including the following:

- the receipt of an opinion of First Merchants' counsel, Bingham McHale LLP, that the merger will be treated as a "reorganization" for the purposes of Section 368 of the Internal Revenue Code of 1986, as amended;
- the representations and warranties of Lincoln set forth in the Merger Agreement being true and correct as of the effective date of the merger or any inaccuracies in any such representations and warranties of Lincoln set forth in the Merger Agreement not having a material adverse effect on the financial position, results of operations or business of Lincoln and its subsidiaries taken as a whole;
- the performance in all material respects by Lincoln of all obligations required by the Merger Agreement to be performed by it at or prior to the effective date of the merger;
- the receipt by First Merchants of an officer's certificate, a legal opinion and various closing documents;
- the exercise of all of the outstanding stock options of Lincoln, no stock options being outstanding and all stock option plans of Lincoln having been terminated;
- Lincoln having no more than 5,319,731 shares of common stock issued and outstanding as of the effective date of the merger, not including any Lincoln shares issued in connection with the exercise of options previously issued and outstanding;
- Jerry R. Engle and John B. Ditmars having entered into executive employment agreements with First Merchants Bank of Central Indiana, National Association on the effective date of the merger; and
- First Merchants having delivered a legal opinion of its counsel, Bingham McHale LLP, to Lincoln.

The obligation of Lincoln to consummate the merger is also subject to the fulfillment of other conditions, including the following:

- the receipt of an opinion of Lincoln's counsel, Bose McKinney & Evans LLP, that the merger will be treated as a "reorganization" for purposes of Section 368 of the Internal Revenue Code of 1986, as amended, and that no gain or loss will be recognized by Lincoln shareholders to the extent they receive shares of First Merchants common stock as consideration for Lincoln common shares;
- the representations and warranties of First Merchants set forth in the Merger Agreement being true and correct as of the effective date of the merger or any inaccuracies in any such representations and warranties of First Merchants set forth in the Merger Agreement not having a material adverse effect on the financial position, results of operations or business of First Merchants and its subsidiaries taken as a whole;
- the performance in all material respects by First Merchants of all obligations required to be performed by it under the Merger Agreement at or prior to the effective date of the merger;
- the receipt by Lincoln of an officer's certificate, a legal opinion and various closing documents;
- First Merchants Bank of Central Indiana, National Association having entered into executive employment agreements with Jerry R. Engle and John B. Ditmars prior to the effective date of the merger; and

[Table of Contents](#)

- Lincoln having delivered an opinion of its counsel, Bose McKinney & Evans LLP, to First Merchants, including an opinion that the Lincoln ESOP termination and distribution was conducted in accordance with all applicable plan documents, statutes, rules and regulations.

The conditions to completion of the merger are subject to waiver by the party benefiting from such condition. The conditions may also be altered by the written agreement of both parties. If these conditions are not satisfied or waived, First Merchants and/or Lincoln may terminate the Merger Agreement. See “THE MERGER—Termination; Waiver; Amendment,” page 54, “THE MERGER—Resale of First Merchants Common Stock by Lincoln Affiliates,” page 51, “THE MERGER—Regulatory Approvals,” page 56, “THE MERGER—Interests of Certain Persons in the Merger,” page 60, “MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES,” page 63, and Appendix A.

Termination; Waiver; Amendment

First Merchants and Lincoln may terminate the Merger Agreement at any time before the merger is completed, including after the Lincoln shareholders have adopted the Merger Agreement, if one of the events which gives the party the right to terminate occurs. The Merger Agreement may be terminated:

- 1) by mutual consent of First Merchants and Lincoln in writing, if the Board of Directors of each company approves termination of the Merger Agreement by a vote of a majority of its members;
- 2) by either First Merchants or Lincoln, if its respective Board of Directors determines by a majority vote that there has been a breach by the other of any of the covenants or any of the representations or warranties set forth in the Merger Agreement, which is not cured within 30 days following written notice given by the non-breaching party to the party committing the breach, provided the breach, individually or in the aggregate with other breaches, would result in a material adverse effect on the financial position, results of operations or business of the other party and its subsidiaries taken as a whole;
- 3) by either First Merchants or Lincoln, if its respective Board of Directors determines by a majority vote that there has been the occurrence of an event, fact or circumstance which has or may have a material adverse effect on the financial position, results of operations or business of the other party and its subsidiaries taken as a whole;
- 4) by either First Merchants or Lincoln, if the terminating party determines in its sole discretion that completion of the merger is inadvisable or impracticable due to the commencement of material litigation or proceedings against one of the parties;
- 5) by First Merchants, if the merger has not been completed before January 1, 2009 (provided that First Merchants is not then in material breach of the Merger Agreement);
- 6) by First Merchants, in the event that the average of the closing price of First Merchants common stock as reported in Bloomberg, L.P. for the 20 trading days preceding the 5th calendar day prior to the effective date of the merger is greater than \$30.00 and Lincoln does not elect to adjust the conversion ratio, as described in more detail in this document under “THE MERGER—Conversion Ratio Adjustment,” page 50;
- 7) by Lincoln, in the event that the average of the closing price of First Merchants common stock as reported in Bloomberg, L.P. for the 20 trading days preceding the 5th calendar day prior to the effective date of the merger is less than \$16.50 and First Merchants does not elect to adjust the conversion ratio, as described in more detail in this document under “THE MERGER—Conversion Ratio Adjustment,” page 50;
- 8) by First Merchants, if Lincoln fails to give First Merchants written notice that it intends to furnish information to or enter into discussions or negotiations with a third party relating to a proposed

Table of Contents

acquisition of Lincoln or Lincoln Bank prior to engaging in discussions or negotiations, or if Lincoln, within 20 days after giving written notice to First Merchants of Lincoln's intent to furnish information to or enter into discussions or negotiations with another person or entity, does not terminate all discussions, negotiations and information exchanges related to such acquisition proposal and provide First Merchants with written notice of such termination;

- 9) by First Merchants, if Lincoln's Board of Directors withdraws or modifies its recommendation to Lincoln's shareholders to vote in favor of the merger following receipt of a written proposal for an acquisition from a third party;
- 10) by Lincoln, if Lincoln's Board of Directors determines, in the appropriate discharge of its fiduciary duties, that it must terminate the Merger Agreement following receipt of an unsolicited acquisition proposal from a third party;
- 11) by either First Merchants or Lincoln, if such party is unable to satisfy the conditions precedent to the merger by June 30, 2009 (provided that such party is not then in material breach of the Merger Agreement);
- 12) by Lincoln, if First Merchants enters into a definitive agreement in which it is the company to be acquired which would result in a change in control of First Merchants or require approval pursuant to the Bank Holding Company Act of 1956, as amended; or
- 13) by First Merchants or Lincoln if the merger is not consummated by June 30, 2009 (provided that the terminating party is not then in material breach of the Merger Agreement).

Upon termination for any of these reasons, the Merger Agreement will be void and of no further force or effect. However, if either First Merchants or Lincoln willfully breaches any of the provisions of the Merger Agreement, then the other party will be entitled to recover appropriate damages for the breach. Notwithstanding the foregoing, if First Merchants terminates the Merger Agreement after Lincoln takes the action described in items 8 or 9 above or if Lincoln terminates the Merger Agreement in accordance with item 10 above, Lincoln must pay First Merchants \$3,200,000 as liquidated damages. Further, if First Merchants terminates the Merger Agreement in accordance with item 5 above, First Merchants must pay Lincoln \$2,000,000 as liquidated damages. If Lincoln terminates the Merger Agreement in accordance with item 12 above, First Merchants must pay Lincoln \$3,200,000 as liquidated damages.

First Merchants and Lincoln can agree to amend the Merger Agreement and can waive their right to require the other party to adhere to the terms and conditions of the Merger Agreement, where the law allows. However, First Merchants and Lincoln cannot amend the Merger Agreement after the Lincoln shareholders adopt the Merger Agreement without their further approval if the amendment would decrease the merger consideration or have a material adverse effect on the Lincoln shareholders.

Restrictions Affecting Lincoln Prior to Completion of the Merger

The Merger Agreement contains a number of restrictions regarding the conduct of the business of Lincoln and its subsidiaries until the merger is completed. Among other items, Lincoln and its subsidiaries may not take or agree to take any of the following actions, without the prior written consent of First Merchants:

- change their capital structure including redeeming any Lincoln common shares;
- authorize any additional class of stock or issue or authorize the issuance of stock other than stock issued pursuant to the exercise of options currently outstanding;
- declare or pay any dividends, authorize a stock split or make any other distribution to their shareholders, except that (i) Lincoln's subsidiaries may pay cash dividends to Lincoln to pay Lincoln's expenses of operation and payment of fees and expenses incurred in connection with the merger, and (ii) Lincoln may pay a cash dividend of no more than \$0.14 per share for any quarter in accordance with past practice;

Table of Contents

- merge, combine, consolidate with or sell their assets or securities to any other person or entity or effect a share exchange or enter into any transaction not in the ordinary course of business;
- incur any indebtedness for borrowed money or assume, guarantee, endorse or become responsible or liable for the obligations of any other individual or entity, except in the ordinary course of business consistent with past practice;
- incur any liability or obligation, make any commitment, payment or disbursement, enter into any contract or agreement, or acquire or dispose of any property or asset having a fair market value in excess of \$100,000 (except for property acquired or disposed of in connection with foreclosures of mortgages, enforcement of security interests and loans in the ordinary course of business or acceptance of deposits and borrowings in the ordinary course of business);
- subject any of their assets or properties to any mortgage, lien, or encumbrance;
- promote or increase or decrease the rate of compensation or enter into any agreement to promote or increase or decrease the rate of compensation of any director, officer, or employee of Lincoln or its subsidiaries, except for promotions and increases in the ordinary course of business and in accordance with their past practices;
- amend their Articles of Incorporation or By-Laws;
- modify, amend or institute new employment practices or enter into, renew or extend any employment or severance agreement with any present or former directors, officers or employees of Lincoln or its subsidiaries;
- give, dispose, sell, convey, assign, hypothecate, pledge, encumber or otherwise transfer or grant a security interest in any common stock of any of Lincoln's subsidiaries;
- execute, create, institute, modify or amend any employee benefit plan or agreement for current or former directors, officers or employees of Lincoln or its subsidiaries, change the level of benefits or payments under any such employee benefit plan or agreement or increase or decrease any severance or termination pay benefits or any other fringe or employee benefits other than as required by law or regulatory authorities or as specifically provided in the Merger Agreement; or
- fail to make additions to Lincoln Bank's reserve for loan losses, or any other reserve account, in the ordinary course of business and in accordance with sound banking practices and not inconsistent with generally accepted accounting principles applied on a consistent basis.

As to certain of these restrictions, the Federal Reserve has required First Merchants to commit that it will not enforce the restrictions against Lincoln; provided, however, this commitment does not prevent First Merchants from terminating the Merger Agreement in the event Lincoln takes these actions without First Merchants' consent.

In addition, until the merger is consummated or the Merger Agreement is terminated, Lincoln and its subsidiaries shall carry on their business substantially in the same manner as previously conducted and use their reasonable best efforts to preserve their business organizations and existing business relationships intact.

Regulatory Approvals

The merger requires prior approval of the Board of Governors of the Federal Reserve System (**Federal Reserve**), under the Bank Holding Company Act of 1956, as amended and the Indiana Department of Financial Institutions (**DFI**) under the Indiana Financial Institutions Act. On November 13, 2008, both the Federal Reserve and the DFI approved the merger.

[Table of Contents](#)

After the Federal Reserve's approval is received, the merger cannot be completed for 15 days (i.e., November 28, 2008). During this 15 day waiting period, the United States Department of Justice has the authority to challenge the merger on antitrust grounds.

The approvals of the Federal Reserve and the DFI are not the opinions of such regulatory authorities that the merger is favorable to the Lincoln shareholders from a financial point of view or that such regulatory authorities have considered the adequacy of the terms of the merger. The approvals in no way constitute an endorsement or a recommendation of the merger by the Federal Reserve or the DFI.

Effective Date of the Merger

The merger will be consummated if the Merger Agreement is adopted by the Lincoln shareholders, all required consents and approvals are obtained and all other conditions to the merger are either satisfied or waived. The merger will become effective when Articles of Merger are filed with the Secretary of State of the State of Indiana or at such later date and time as may be specified in the Articles of Merger. The closing of the merger will occur in the month in which any applicable waiting period following the last approval of the merger expires or on such other date as agreed to by the parties, but not earlier than December 31, 2008 unless agreed otherwise by First Merchants and Lincoln. We currently anticipate that the merger will be completed during the fourth quarter of 2008. However, completion of the merger could be delayed if there is a delay in satisfying the conditions to completion of the merger. If the merger is not completed by January 1, 2009, First Merchants has the right to terminate the Merger Agreement upon payment of a \$2,000,000 termination fee to Lincoln.

Fees and Expenses

First Merchants and Lincoln will pay their own fees, costs, and expenses incurred in connection with the merger. For Lincoln, these costs will include the printing and postage expenses for this document in connection with the Lincoln special shareholders meeting and the fees and expenses of the Information Agent. In addition, Lincoln will pay for certain nonrefundable fees and costs of Lincoln's financial advisor, including the cost of the opinion of its financial advisor, whether or not the merger is consummated.

Management After the Merger

First Merchants will be the surviving corporation in the merger and Lincoln's separate corporate existence will cease. Accordingly, the directors and officers of Lincoln will no longer serve in such capacities after the completion of the merger.

Subsequent to the merger and subject to regulatory approvals, Lincoln Bank will be merged into First Merchants Bank of Central Indiana, National Association (**FMBCI**). The directors of Lincoln who so desire shall be offered the opportunity to serve on the Board of Directors of First Merchants Bank of Central Indiana. However, Lincoln Bank's directors will be subject to First Merchants' policy of mandatory retirement at age 70, but the policy of mandatory retirement will not apply to any of Lincoln Bank's current directors until 24 months after completion of the merger. Thus, 24 months after the merger, all directors of Lincoln Bank age 70 or older will retire.

In addition, FMBCI has agreed to enter into, prior to the effective date of the merger, executive employment agreements with Jerry R. Engle, currently the Chairman of the Board and President and Chief Executive Officer of Lincoln and President and Chief Executive Officer of Lincoln Bank, and John B. Ditmars, currently the Executive Vice President of Lincoln and Executive Vice President and Chief Operating Officer of Lincoln Bank. These executive employment agreements will supersede their current employment agreements with Lincoln Bank. The form of these agreements are attached to the Merger Agreement. See "THE MERGER—Interests of Certain Persons in the Merger," page 60.

Table of Contents

The directors of First Merchants immediately prior to the merger will continue to be the directors of First Merchants following the merger until they resign or until their respective successors are duly elected and qualified. In addition, Jerry R. Engle and another current Director of Lincoln as chosen by First Merchants, will either (i) be nominated for election as a member of the First Merchants Board of Directors for a three-year term at the first annual meeting of First Merchants' shareholders following the merger, or (ii) be appointed as a director at the First Merchants Board's first meeting following completion of the merger. As appointed directors, Mr. Engle and the second Lincoln director, would serve as directors of First Merchants until the next annual meeting of First Merchants shareholders and then be nominated for election to a three-year term as a director at such annual meeting. The option that will be chosen is the one that can be accomplished first and will depend on the timing of the merger's completion. The two individuals from the Board of Directors of Lincoln elected to the Board of Directors of First Merchants will be subject to First Merchants' policy of mandatory retirement at age 70, except that the policy of mandatory retirement will not apply to these individuals until 24 months after the effective date of the merger.

The officers of First Merchants immediately prior to the merger will continue to be the officers of First Merchants following the merger until they resign or until their successors are duly elected and qualified.

Indemnification and Insurance

First Merchants has agreed to indemnify and hold harmless each present and former director and officer of Lincoln and its subsidiaries for 6 years after the effective date of the merger in connection with any losses arising out of the fact that any such person is or was a director or officer of Lincoln or its subsidiaries at or prior to the effective date of the merger, including all indemnified liabilities based on, or arising out of, or pertaining to the merger or the transactions contemplated by the Merger Agreement, to the full extent permitted under Indiana law, and by First Merchants' or Lincoln's Articles of Incorporation or By-Laws as in effect on September 2, 2008 (whichever was more favorable to such officers and directors); provided, however, First Merchants' obligation is limited by federal banking law restrictions.

In addition, First Merchants has agreed to use its reasonable best efforts to include Lincoln's and Lincoln Bank's present and former directors and officers on its existing insurance, or to obtain directors' and officers' liability insurance "tail" policy coverage for Lincoln's and Lincoln Bank's present and former directors and executive officers, for a period of 3 years, which will provide the directors and officers with coverage on substantially similar terms as currently provided by Lincoln to such directors and officers for claims based on activity prior to the effective time of the merger. However, First Merchants has no obligation during the 3-year period to pay an aggregate amount in premiums which is more than 2 times the current annual amount spent by Lincoln to maintain its current directors' and officers' insurance coverage. If First Merchants is unable to obtain the coverage described above, First Merchants has agreed to use its reasonable best efforts to obtain as much comparable insurance as is available for the price.

After the merger, Lincoln and its subsidiaries' officers, directors and employees who become officers, directors or employees of First Merchants or its subsidiaries shall have the same directors and officers insurance coverage and indemnification protection that First Merchants provides to other officers, directors and employees of First Merchants or its subsidiaries.

Treatment of Options to Acquire Lincoln Common Shares

All stock option plans currently maintained by Lincoln will be amended so that all options issued thereunder will become immediately vested and exercisable prior to closing of the merger. The Merger Agreement provides that Lincoln will use reasonable efforts to cause each outstanding stock option to acquire Lincoln common shares to be exercised by the optionee on or immediately before the effective date of the merger. On or prior to the calendar day immediately preceding the effective date of the merger (**Option Deadline**), Lincoln shall take all

[Table of Contents](#)

action necessary to terminate all stock option plans of Lincoln outstanding as of the Option Deadline and shall use reasonable efforts to obtain necessary consents from optionees to permit such termination. No Lincoln stock options shall continue to be outstanding after the Option Deadline.

Instead, as of the Option Deadline, any outstanding Lincoln stock options that have not been previously exercised are to be terminated in return for either cash or common stock.

The cash amount shall be equal to the product of (the First Merchants Average Price times the Conversion Ratio) minus the exercise price of the applicable stock option times the number of Lincoln common shares issuable upon exercise of such stock option.)

An optionee must make an election to receive cash or common stock no later than two (2) days prior to the Option Deadline. If an election is not made by such time, a non-electing optionee shall be deemed to have elected to receive cash. In addition, if the cash amount, as calculated above, is negative, a non-electing optionee shall be entitled to nothing upon termination of the previously unexercised Lincoln stock option.

Employee Benefit Plans

- **General**

Following the effective date of the merger, employees of Lincoln's subsidiaries will receive employee benefits that in the aggregate are substantially similar to the employee benefits provided to First Merchants employees on the effective date of the merger. The service of an employee of Lincoln or its subsidiaries with Lincoln or its subsidiaries will be treated as service with First Merchants for purposes of determining entry into and benefits in First Merchants employee benefit plans. However, service of an employee of Lincoln or its subsidiaries with Lincoln or its subsidiaries will not be treated as service with First Merchants for purposes of benefit accrual under First Merchants' defined benefit plan or under certain defined benefit provisions of First Merchants' 401(k) Plan.

- **Coverage under First Merchants' Health Plan**

First Merchants will waive all restrictions and limitations for pre-existing conditions of employees of Lincoln's subsidiaries who become participants in First Merchants' health plan.

- **Treatment of Tax-Qualified Retirement Plans**

In lieu of Lincoln's subsidiaries' current tax-qualified retirement plan, First Merchants will cover employees of Lincoln's subsidiaries under any tax-qualified retirement plans which First Merchants maintains for its employees no later than the effective date of the merger, provided that each such individual employee meets the applicable participation requirements of such plan.

- **Employee Stock Ownership Plan**

Lincoln will freeze and terminate the Lincoln Bancorp Employee Stock Ownership and 401(k) Plan and Trust no later than the day prior to the effective date of the merger, and file the appropriate applications with the Internal Revenue Service. Upon the effective date of the merger, all shares of Lincoln common stock then held in the Lincoln ESOP will be converted into the merger consideration payable to holders of Lincoln common stock. If not previously repaid, any outstanding indebtedness of the Lincoln ESOP which is owed to Lincoln will be repaid (which outstanding principal balance was \$3,084,070) at September 30, 2008 by surrender of unallocated shares to Lincoln, and any assets remaining in the suspense account under the Lincoln ESOP will then be allocated to the respective participants' accounts.

The net assets of the Lincoln ESOP will be distributed to the participants and their beneficiaries, subject to the receipt of a favorable tax determination letter from the Internal Revenue Service on the termination of the Lincoln ESOP. If the Internal Revenue Service does not permit termination and distribution of the Lincoln

[Table of Contents](#)

ESOP, First Merchants, in its sole discretion, may decide to either merge the Lincoln ESOP into a First Merchants' tax-qualified retirement plan or maintain the frozen Lincoln ESOP for up to three years following the effective date of the merger. In no event shall First Merchants or Lincoln be required to make any contributions to the Lincoln ESOP following the effective date of the merger. However, prior to the merger Lincoln will continue to make employee elective contributions and matching contributions as required by the Lincoln ESOP.

- **COBRA Coverage**

First Merchants will be responsible for providing COBRA continuation coverage to any qualified employee or former employee of Lincoln or its subsidiaries and to their respective qualified beneficiaries on and after the effective date of the merger, regardless of when the COBRA qualifying event occurred.

Interests of Certain Persons in the Merger

You should be aware that some of Lincoln's and Lincoln Bank's directors and executive officers may have interests in the merger that are different from, or in addition to, their interests as shareholders. Both Lincoln's Board of Directors and First Merchants' Board of Directors were aware of these interests and took them into account in approving the merger. These interests are as follows:

- In the Merger Agreement, First Merchants has agreed that it will cause Jerry R. Engle, who currently serves as Chairman of the Board and President and Chief Executive Officer of Lincoln and President and Chief Executive Officer of Lincoln Bank, and another current director of Lincoln as chosen by First Merchants, to be nominated for election to the First Merchants Board of Directors for a three-year term at the first annual meeting of First Merchants' shareholders following the merger. Mr. Engle will not be separately compensated for his services as a director of First Merchants. If the First Merchants Board meets after the merger but before the next annual meeting of First Merchants' shareholders, the Board must appoint each of Mr. Engle and such other person as chosen by First Merchants as a director to serve until the next annual meeting of First Merchants' shareholders and then nominate each individual for election to a three-year term as a director at such annual meeting. See "THE MERGER—Management After the Merger," page 57.
- First Merchants has indicated its intention to offer employment or other agreements to at least two current officers of Lincoln (Jerry R. Engle and John Ditmars), to be effective following the effective time of the merger. The execution of the new employment agreements with Mr. Engle and Mr. Ditmars is a condition that must be met prior to the completion of the merger. See "THE MERGER—Management After the Merger," page 57. Under his Employment Agreement, Mr. Engle will be paid an annual salary of \$297,000. Mr. Ditmars will be paid an annual salary of \$188,000. In addition, the Merger Agreement provides that the officers and directors of Lincoln Bank immediately prior to the merger will remain the officers and directors of Lincoln Bank after the merger until they resign or until their successors are duly elected and qualified. Lincoln Bank directors who desire to continue to serve in that capacity shall serve for at least the remainder of the term to which they have been elected as a director of the merged bank.
- Directors and officers of Lincoln and Lincoln Bank held stock options that entitled them to purchase, in the aggregate, up to 561,622 shares of Lincoln's common stock as of September 2, 2008. Options for 69,400 of these shares are not currently exercisable. The Merger Agreement provides that Lincoln must use reasonable efforts to cause each option to acquire Lincoln common shares to become exercisable and be exercised prior to the merger. The exercise prices of these options range from \$7.32 to \$19.40 per share and, therefore, not all of them may have any value as of the effective time of the merger. Under the Merger Agreement, the value of these options is tied to the market value of First Merchants' common stock. Assuming a \$19.49 market value for First Merchants' common stock (the equivalent of a \$13.65 market value for Lincoln's common stock), options for approximately 271,826 shares would be "in the money." However, assuming all of such options are exercised, the directors and officers holding these options will receive, prior to tax withholdings but net of approximately \$3.0 million in

[Table of Contents](#)

exercise prices, a net aggregate of 190,387 shares of First Merchants common stock or \$4.3 million in cash at the effective time of the merger, depending on their elections. See “THE MERGER—Treatment of Options to Acquire Lincoln Common Shares,” page 58.

- As of September 2, 2008, certain of the directors and executive officers of Lincoln and Lincoln Bank had a right to receive, in the aggregate, 15,251 shares of Lincoln’s common stock under Lincoln’s Recognition and Retention Plan. An additional 17,637 unallocated shares were subsequently allocated under the plan to directors of Lincoln and Lincoln Bank. Under the Merger Agreement, all of the allocated shares will vest before closing, and assuming none of such shares are otherwise forfeited before the effective date of the merger, the directors and executive officers holding these shares will receive, prior to tax withholdings and depending on their elections, an aggregate of 23,033 shares of First Merchants common stock or approximately \$518,000 in cash at the effective time of the merger.
- As of September 2, 2008, certain of the directors of Lincoln and Lincoln Bank had a right to receive, in the aggregate, approximately \$1.1 million in future cash payments under Lincoln’s Unfunded Deferred Compensation Plan. As a result of the change-in-control provisions in the plan, these directors will have a right to receive this amount within 30 days after the effective time of the merger. In addition, the directors of Lincoln are participants in a nonqualified supplemental pension plan, the benefits under which become fully vested upon termination of the plan or upon the occurrence of a change in control. Under the Merger Agreement, this plan is to be frozen at or before the effective time of the merger. Assuming benefit accruals under the plan cease as of December 31, 2008 and assuming the plan is terminated and all of such participants elect to receive lump sum distributions on January 2, 2009 equal to the then present value of their accrued pension benefits under the plan, these participants would receive cash distributions on January 2, 2009 in the aggregate amount of approximately \$1.4 million.
- Certain executive officers of Lincoln and Lincoln Bank have change in control agreements or employment agreements that provide for the executive to receive, following a change in control, a multiple of the executive’s compensation prior to the change in control, subject to certain limitations. Under these agreements, 11 of such executive officers would be entitled to receive an aggregate of approximately \$3.1 million.
- First Merchants has agreed that upon the effective time of the merger it will issue (1) 6,400 restricted shares of First Merchants common stock or options to acquire 24,000 shares of First Merchants common stock, or a combination of both, to Mr. Engle, (2) 6,400 restricted shares of First Merchants common stock or options to acquire 24,000 shares of First Merchants common stock, or a combination of both, to Mr. Ditmars and (3) an aggregate of 19,200 restricted shares of First Merchants common stock or options to acquire an aggregate of 72,000 shares of First Merchants common stock, or a combination of both, to the remaining members of the senior management of Lincoln and Lincoln Bank, to be allocated by First Merchants after consultation with Mr. Engle and Mr. Ditmars. Assuming a \$19.49 per share price for First Merchants common stock, the 32,000 shares of restricted stock would be worth approximately \$623,680. If stock options are issued in lieu of the restricted stock, they would be issued at an exercise price equal to the then current fair market value of First Merchants common stock.
- First Merchants has agreed that for a period of six years after the effective time of the merger, it will succeed to Lincoln’s obligations with respect to indemnification or exculpation now existing in favor of the directors and officers of Lincoln and Lincoln Bank as provided in Lincoln’s articles of incorporation and by-laws. First Merchants has also agreed to maintain directors’ and officers’ liability insurance in force for the directors and officers of Lincoln for a period of three years following the effective time of the merger, subject to certain conditions in the Merger Agreement. See “THE MERGER—Indemnification and Insurance,” page 58.

Voting Agreement

Each member of the Board of Directors of Lincoln and certain executive officers of Lincoln or Lincoln Bank have executed a voting agreement with First Merchants as of the date of the Merger Agreement whereby

[Table of Contents](#)

the directors and such officers have agreed to vote all of their Lincoln common shares and shares owned by certain affiliates over which they have voting control in favor of the merger with First Merchants.

NASDAQ Global Select Market Listing

First Merchants will file a notification with the NASDAQ Global Select Market System, regarding the issuance of First Merchants common stock in the merger. This notification must be filed for the merger to proceed. Following the merger, the First Merchants shares issued to Lincoln shareholders will be eligible for trading on the NASDAQ Global Select Market.

Accounting Treatment

The merger will be accounted for as a purchase transaction for accounting and financial reporting purposes. As a result, Lincoln's assets, including identified intangible assets, and liabilities will be recorded by First Merchants on its books at their fair market values and added to those of First Merchants. Any excess payment by First Merchants over the fair market value of the net assets and identifiable intangibles of Lincoln will be recorded as goodwill on the financial statements of First Merchants. Conversely, any excess of the fair value of the net assets acquired over the payment made by First Merchants will be reflected as a reduction of certain long-lived assets.

Registration Statement

First Merchants has filed a Registration Statement on Form S-4 with the Securities and Exchange Commission registering under the Securities Act the shares of First Merchants common stock to be issued pursuant to the merger. While First Merchants common stock is quoted and traded on the NASDAQ Global Select Market System, it is exempt from the statutory registration requirements of each state in the United States. Therefore, First Merchants has not taken any steps to register its stock under state laws.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

The following discussion is the opinion of the First Merchants' counsel, Bingham McHale LLP, regarding the material federal income tax consequences of the merger. The following is based on the Internal Revenue Code of 1986, as amended (Code), Treasury regulations, published positions of the Internal Revenue Service (IRS) and case law, all as currently in effect and which may be subject to change or differing interpretations, possibly with retroactive effect. This discussion is limited to U.S. holders (as defined below) who hold their shares of Lincoln stock as capital assets for U.S. federal income tax purposes (generally, assets held for investment).

This discussion does not address the federal income tax consequences of shareholders who are not U.S. holders, nor does it address all of the tax consequences relevant to certain U.S. holders such as, but not limited to, foreign persons, S corporations, partnerships, financial institutions, insurance companies, tax-exempt organizations, dealers in securities or currencies, traders in securities that use a mark to market method of accounting, persons who hold Lincoln stock as part of a straddle, hedge, constructive sale or conversion transaction and persons who acquired their shares of Lincoln common stock through the exercise of an employee stock option or otherwise as compensation or through a tax-qualified plan. This discussion also does not address the tax consequences of the merger under state, local or foreign tax laws or the potential application of the alternative minimum tax to a specific shareholder.

For purposes of this section, the term "U.S. holder" means a beneficial owner of Lincoln common stock that for U.S. federal income tax purposes is a citizen or resident of the United States, a corporation or entity taxed as a corporation that was organized under the laws of the U.S. or any state or the District of Columbia, an estate that is subject to U.S. federal income tax or a trust taxable in the U.S.

Tax Consequences of the Merger Generally

First Merchants has requested the law firm of Bingham McHale LLP to render an opinion to First Merchants that the merger to be effected pursuant to the Merger Agreement constitutes a tax-free reorganization under the Code and that the discussion regarding tax effects contained in this proxy statement-prospectus is accurate in all material respects. Lincoln has requested the law firm of Bose McKinney & Evans LLP to render an opinion to Lincoln that the merger to be effected pursuant to the Merger Agreement constitutes a tax-free reorganization under the Code and that no gain or loss will be recognized by shareholders of Lincoln to the extent they receive shares of First Merchants common stock in the merger in exchange for their Lincoln shares, other than gain or loss to be recognized as to cash received in lieu of fractional share interests and cash received in exchange for Lincoln common shares. Under the Merger Agreement, receipt of these opinions with respect to the above consequences is a condition to completion of the merger for each of First Merchants and Lincoln.

These opinions will be subject to customary qualifications and assumptions, including that the merger will be completed according to the terms of the Merger Agreement. In rendering the tax opinions, each counsel may require and rely on factual representations of First Merchants and Lincoln. If any of such assumptions or representations is or becomes inaccurate, the U.S. federal income tax consequences of the merger could be adversely affected. Neither of these tax opinions will be binding on the IRS. First Merchants and Lincoln do not intend to request any ruling from the IRS as to the U.S. federal income tax consequences of the merger. Consequently, no assurance can be given that the IRS will not assert, or that a court will not sustain, a position contrary to any of the tax consequences set forth below or any of the tax consequences described in the tax opinions.

The following discussion is the opinion of Bingham McHale LLP, as to the material federal income tax consequences of the merger. Bingham McHale LLP has also consented to the inclusion of its opinion in this proxy statement-prospectus. Lincoln shareholders should consult their tax advisors as to their specific tax consequences of the merger.

Tax Consequences to First Merchants, First Merchants Stockholders and Lincoln

No gain or loss will be recognized by First Merchants, First Merchants stockholders or Lincoln.

Tax Consequences of the Merger to U.S. Holders of Lincoln Common Stock

The U.S. federal income tax consequences of the merger to a U.S. holder will depend upon whether that holder receives cash, common stock or a mixture thereof. At the time an election is made by a U.S. holder, the mix of cash and shares will not be known, as such mix may be altered by the adjustment procedures described in the Merger Agreement. At the time a U.S. holder knows the amount of cash and shares of First Merchants Common Stock the holder will receive, the tax consequences can be determined, subject to the qualifications discussed above.

- **Exchange of Lincoln Common Stock Solely for First Merchants Common Stock**

In general, a U.S. holder who receives only First Merchants common stock in exchange for Lincoln common shares will not recognize any gain or loss on the exchange for federal income tax purposes. However, gain or loss for federal income tax purposes will be recognized with respect to cash payments received by a U.S. Holder in lieu of fractional share interests resulting from the conversion ratio. See “Cash in Lieu of Fractional Shares of First Merchants Common Stock” below for a more detailed discussion of the tax consequences of the receipt of cash in lieu of fractional share interests of First Merchants common stock.

The basis of First Merchants common stock received by U.S. Holders in exchange for their Lincoln common stock will be equal to the holder’s tax basis in the Lincoln common stock exchanged, decreased by any cash received, and increased by any gain recognized on the exchange.

In addition, the holding period of the First Merchants common stock received generally will include the holding period of Lincoln common stock surrendered in the exchange.

- **Exchange of Lincoln Common Stock Solely for Cash**

A U.S. holder receiving all cash generally will recognize capital gain or loss measured by the difference between the amount of cash received and the adjusted tax basis of the Lincoln common shares surrendered. The resultant capital gain or loss will be long-term capital gain or loss if the U.S. holder held the shares of Lincoln common stock for more than one year at the effective date of the merger. Long-term capital gains of an individual generally are subject to a maximum U.S. federal income tax rate of 15%. Short-term capital gains of an individual generally are subject to a maximum U.S. federal income tax rate of 35%. The deductibility of capital losses is subject to limitations.

- **Exchange of Lincoln Common Stock for a Combination of First Merchants Common Stock and Cash**

Generally, a U.S. holder who exchanges shares of Lincoln common stock for a combination of First Merchants common stock and cash will recognize gain, limited to the amount of cash received in the merger, less the cash received in lieu of a fractional share. However, if smaller in amount than the net cash received, a U.S. holder’s gain will be limited to the excess of the amount of cash received plus the fair market value of First Merchants Stock over the holder’s adjusted tax basis in the Lincoln stock surrendered. Loss cannot be recognized as a consequence of the exchange, and each block of Lincoln stock that is acquired at different times and prices must be evaluated for the potential to produce gain or loss, and losses associated with individual blocks of stock may not offset gains from other blocks of stock.

Generally, any gain that results will be long-term capital gain, if the Lincoln stock has been held for more than one year at the effective date of the merger. Long term capital gains of an individual are subject to a maximum tax rate of 15% and short term gains are subject to ordinary income tax rates, the maximum rate of which is 35%.

In certain instances, such as if a U.S. Holder actually or constructively owns First Merchants stock immediately after the merger, such gain may be treated as having the effect of a dividend to such holder, under the tests set forth in Section 302 of the Code, and such gain would be characterized as ordinary dividend income.

[Table of Contents](#)

In general, the determination as to whether the receipt of cash has the effect of a distribution of a dividend depends upon whether and to what extent the transactions related to the merger will be deemed to reduce a holder's percentage ownership of First Merchants immediately following the merger. In making a determination as to whether or not the receipt of cash has the effect of a distribution of a dividend, certain constructive ownership rules must be taken into account. For purposes of this determination, a holder will be treated as if it first exchanged all of its Lincoln stock solely for First Merchants common stock, and then a portion of the First Merchants stock so received was immediately redeemed by First Merchants for the cash (excluding cash received instead of a fractional share of First Merchants common stock) that the holder actually received in the merger. The Internal Revenue Service has indicated that a reduction in the interest of a minority stockholder that owns a small number of shares in a publicly traded and widely held corporation and that exercises no control over corporate affairs would result in capital gain (as opposed to dividend) treatment.

Further, capital gains treatment should be available to any U.S. holder who receives both cash and First Merchants common stock in the merger if the percentage of First Merchants common stock actually and constructively owned by such U.S. holder immediately after the merger is less than 80% of the percentage of First Merchants common stock which such U.S. holder would have owned (actually and constructively) were such U.S. holder to have received solely First Merchants common stock in the merger. A holder is urged to consult its tax advisers about the possibility that all or a portion of any cash received in exchange for Lincoln stock will be treated as a dividend.

Generally, a U.S. holder's aggregate tax basis in the First Merchants common stock and cash received in lieu of a fractional share will equal the holder's tax basis in the Lincoln shares exchanged, increased by any income recognized, and decreased by the amount of any cash received. The holding period of First Merchants shares received generally will include the holding period of Lincoln shares exchanged.

Generally, any gain that results will be long-term capital gain, if the Lincoln stock has been held for more than one year at the effective date of the merger. Long term capital gains of an individual are subject to a maximum tax rate of 15% and short term gains are subject to ordinary income tax rates, the maximum rate of which is 35%.

- **Cash in Lieu of Fractional Shares of First Merchants Common Stock**

A U.S. Holder who receives cash in lieu of fractional shares of First Merchants will be taxed as having sold that fractional share. The resultant gain or loss will be measured by the difference between the amount of cash received for the fractional share over the portion of the basis of Lincoln stock allocable to that fractional share. Any resultant gain or loss will be capital in nature, and will be long or short term, depending on the period of time the exchanged Lincoln shares were held. See page 64 for additional information on capital gains and losses.

Reporting Requirements

U.S. Holders who are "significant shareholders" are required to file a statement with their United States federal income tax return setting forth their tax basis in the Lincoln common stock exchanged in the merger and the fair market value of the First Merchants common stock and the amount of cash received in the merger. A "significant holder" is U.S. Holder who, immediately before the merger, owned at least 5% of the outstanding stock of securities of Lincoln, with a tax basis of least \$1 million.

All other Lincoln shareholders will be required to retain permanent tax records of the tax basis of stock exchanged and the shares and cash received in the merger.

Backup Withholding

Cash payments made to Lincoln shareholders pursuant to the merger may, under certain circumstances, be subject to backup withholding at a rate of 28%. There is no withholding for Lincoln shareholders who provide

[Table of Contents](#)

American Stock Transfer, the conversion agent, with their correct United States federal taxpayer identification number and who certify that no loss of exemption from backup withholding has occurred on the Internal Revenue Service Form W-9 or its substitute. A Form W-9 will be included as part of the Election Form to be sent to you under separate mailing. Certain categories of Lincoln shareholders (for example, corporations and some foreign individuals) are not subject to backup withholding. In order for a foreign individual to qualify as an exempt recipient, such individual must generally provide American Stock Transfer, as the conversion agent, with a completed Internal Revenue Service Form W-8BEN or its substitute. Any amounts withheld from a Lincoln shareholder under the backup withholding rules are not an additional tax. Rather, any such amounts will be allowed as a credit or refund against such shareholder's United States federal income tax liability provided that the shareholder furnishes to the Internal Revenue Service all required information.

The Internal Revenue Service has not verified the federal income tax consequences discussion set forth above. The foregoing is only a general description of the material federal income tax consequences of the merger and does not consider the facts and circumstances of any particular Lincoln shareholder. First Merchants and Lincoln suggest you consult with your own tax advisor with respect to the specific tax consequences to you of the merger, including the application and effect of existing and proposed federal, state, local, foreign and other tax laws and the application of any alternative minimum tax.

**UNAUDITED PRO FORMA COMBINED
CONSOLIDATED FINANCIAL INFORMATION**

The following is the unaudited pro forma combined financial information for First Merchants and for Lincoln giving effect to the merger. The information is presented under two separate assumptions relating to the level of Lincoln common shares which are exchanged for First Merchants common stock in the merger. The financial information presented under "Alternative A" was compiled assuming the maximum number of Lincoln common shares are exchanged for shares of First Merchants common stock (subject to the 3,576,417 limitation) and the balance for cash. The financial information presented under "Alternative B" was compiled assuming 80% of the outstanding Lincoln common shares are exchanged for shares of First Merchants common stock and 20% of the outstanding Lincoln common shares are exchanged for cash in the merger. For a more detailed description of these assumptions, see "Notes to Unaudited Pro Forma Summary of Selected Consolidated Financial Data" on page 23.

The balance sheet information presented gives effect to the merger as if it occurred on September 30, 2008. The income statement information presented gives effect to the merger as if it occurred on the first day of each period presented.

The pro forma combined figures are simply arithmetical combinations of First Merchants' and Lincoln's separate financial results in order to assist you in analyzing the future prospects of First Merchants. The pro forma combined figures illustrate the possible scope of the change in First Merchants' historical figures caused by the merger. You should not assume that First Merchants and Lincoln would have achieved the pro forma combined results if the merger had actually occurred during the periods presented.

The combined company expects to achieve merger benefits in the form of operating cost savings. The pro forma earnings, which do not reflect any potential savings that are expected to result from the consolidation of the operations of First Merchants and Lincoln, are not indicative of the results of future operations. No assurances can be given with respect to the ultimate level of expense savings. See "FORWARD-LOOKING STATEMENTS" and "RISK FACTORS-The Integration Of Lincoln's Business With First Merchants' Business May Be Difficult," page 24.

The pro forma information reflects the "purchase" method of accounting, with Lincoln's assets and liabilities recorded at their estimated fair values as of September 30, 2008. The actual fair value adjustments to the assets and the liabilities of Lincoln will be made on the basis of appraisals and evaluations that will be made as of the date the merger is completed. Thus, the actual fair value adjustments may differ significantly from those reflected in these pro forma financial statements. In the opinion of First Merchants' management, the estimates used in the preparation of these pro forma financial statements are reasonable under the circumstances.

You should read the unaudited pro forma combined consolidated financial information in conjunction with the accompanying notes and with First Merchants' historical financial statements and related notes which are incorporated by reference in this document and Lincoln's historical financial statements and related notes which are included as part of this document.

Table of Contents

The following table sets forth certain information at December 31, 2007, regarding the dollar amount of loans maturing in Lincoln Bank's loan portfolio based on the contractual terms to maturity. Demand loans having no stated schedule of repayments and no stated maturity and overdrafts are reported as due in one year or less. This schedule does not reflect the effects of possible prepayments or enforcement of due-on-sale clauses. Management expects prepayments will cause actual maturities to be shorter.

Commercial Real Estate and Multi-Family Loans. Lincoln Bank's commercial real estate loans are secured by churches, warehouses, office buildings, hotels, retail centers and other commercial properties. Lincoln Bank generally issues commercial real estate loans as either five-year balloon loans amortized over a 15- or 20-year period, with a fixed interest rate, or as three- or five-year variable rate loans with a final maturity of fifteen to

[Table of Contents](#)

twenty years. At December 31, 2007, Lincoln Bank had \$233.7 million in outstanding commercial and multi-family real estate. Lincoln Bank generally requires a Loan-to-Value Ratio of at least 80% on commercial real estate loans, although it may make loans with a higher Loan-to-Value Ratio on loans secured by retail centers, owner-occupied commercial real estate or by multi-family residential properties. Commercial real estate loans generally are larger than one- to four-family residential loans and involve a greater degree of risk. Commercial real estate loans often involve large loan balances to single borrowers or groups of related borrowers. Payments on these loans depend to a large degree on results of operations and management of the properties and may be affected to a greater extent by adverse conditions in the real estate market or the economy in general. Accordingly, the nature of the loans makes them more difficult for management to monitor and evaluate. In addition, balloon loans may involve a greater degree of risk to the extent the borrower is unable to obtain financing or cannot repay the loan when the loan matures and the balloon payment is due.

At December 31, 2007, Lincoln Bank's largest commercial real estate borrower had a single loan outstanding in the amount of \$10.6 million which was secured by a hotel property in Lafayette, Indiana. At December 31, 2007, approximately \$225.0 million, or 34.2% of Lincoln Bank's total loan portfolio, consisted of commercial real estate loans. On the same date, there were \$1.2 million in commercial real estate loans included in non-performing assets.

At December 31, 2007, approximately \$8.7 million, or 1.3% of Lincoln Bank's total loan portfolio, consisted of multi-family loans (those consisting of more than four units). Lincoln Bank writes multi-family loans on terms and conditions similar to its commercial real estate loans. The largest multi-family loan as of December 31, 2007, was \$2.4 million and was secured by an apartment complex in Greenwood, Indiana. On the same date, there were \$1.9 million multi-family loans included in non-performing assets.

Multi-family loans, like commercial real estate loans, generally involve greater risk than do one- to four-family residential loans.

Construction Loans. Lincoln Bank offers construction loans to developers for the acquisition and development of residential and nonresidential real estate and to builders of one- to four-family residential properties. A significant portion of these loans are made on a speculative basis (i.e., before the builder/developer obtains a commitment from a buyer). At December 31, 2007, approximately \$69.9 million, or 10.6% of Lincoln Bank's total loan portfolio, consisted of construction loans. Of these loans, approximately \$12.5 million were for the acquisition and development of residential housing developments, \$12.1 million financed the construction of one- to four-family residential properties and \$45.3 million financed the construction of commercial real estate. As of December 31, 2007, Lincoln Bank's largest construction loan relationship had a balance of \$7.5 million and was secured by a hotel in Fishers, Indiana. Also on that date, \$1.1 million construction loans were included in non-performing assets.

Construction loans on residential properties where the borrower has entered into a verifiable sales contract to a non-related party to purchase the completed home may be made with a maximum Loan-to-Value Ratio of 90% of the price stipulated in the sales contract or 80% of the appraised value of the property. With respect to residential properties constructed on a speculative basis, Lincoln Bank generally requires a Loan-to-Value Ratio of 75% of the "as completed" appraised value of the property. Although speculative loans make up a significant percentage of Lincoln Bank's construction loan portfolio, Lincoln Bank generally will finance only two speculative construction projects per builder. Residential construction loans are generally written with a fixed rate of interest and for an initial term of nine months. Lincoln Bank generally offers construction loans on commercial land development projects with a maximum Loan-to-Value Ratio of 75% of the appraised value of the property or 80% of the property's cost plus 80% of the cost of verifiable improvements to the property. The term of construction loans on commercial real estate properties generally do not exceed 12 months.

Construction loans provide a comparable, and in some cases higher, yield than a conventional mortgage loan, however, they also involve a higher degree of risk. For example, if a project is not completed and the

[Table of Contents](#)

borrower defaults, Lincoln Bank may have to hire another contractor to complete the project at a higher cost. Also, a project may be completed, however, it may not be salable, which might cause the borrower to default on the loan and require Lincoln Bank to take title to the project.

Land Loans. At December 31, 2007, approximately \$17.7 million, or 2.7% of Lincoln Bank's total loan portfolio, consisted of mortgage loans secured by undeveloped real estate. For commercial developer loans, Lincoln Bank will loan 65% Loan-to-Value on raw land purchases where there are no immediate plans for development. We will loan 75% on development loans where the land will be immediately used for commercial or residential development. Lincoln Bank writes these loans for a maximum term of 12 months. For the consumer residential lot loan program, loans for single family residential platted subdivision lots may be made up to 100% loan to value to the lesser of purchase price or appraisal amount. Lincoln Bank writes these loans for a maximum term of three years with a balloon payment and a fifteen year amortization. At December 31, 2007, Lincoln Bank's largest land loan relationship totaled \$5.3 million and was secured by land in Noblesville, Indiana. There were \$2.5 million of land loans included in non-performing assets at December 31, 2007.

Land loans present greater risk than conventional loans since land development borrowers who are over budget may divert the loan funds to cover cost-overruns rather than direct them toward the purpose for which such loans were made. In addition, land loans are more difficult to monitor than conventional mortgage loans. As such, a defaulting borrower could cause Lincoln Bank to take title to partially improved land that is unmarketable without further capital investment.

Commercial Loans. Lincoln Bank offers commercial loans, which consist primarily of loans to businesses that are secured by assets other than real estate. As of December 31, 2007, commercial loans amounted to \$50.6 million or 7.7% of Lincoln Bank's total loan portfolio. Commercial loans generally bear greater risk than real estate loans, depending on the ability of the underlying enterprise to repay the loan. Although commercial loans have not historically comprised a large portion of Lincoln Bank's loan portfolio, Lincoln Bank has increased the amount of loans it has made to small businesses in order to increase its rate of return and diversify its portfolio. As of December 31, 2007, \$132,000 of Lincoln Bank's commercial loans were included in non-performing assets.

One- to Four-Family Residential Loans. Lincoln Bank's lending activities include the origination of one- to four-family residential mortgage loans secured by property located in its primary market area. Lincoln Bank generally does not originate one- to four-family residential mortgage loans if the ratio of the loan amount to the lesser of the current cost or appraised value of the property (**Loan-to-Value Ratio**) exceeds 95%. Lincoln Bank generally requires private mortgage insurance on loans with a Loan-to-Value Ratio in excess of 80%. The cost of such insurance is factored into the annual percentage rate on such loans.

Lincoln Bank's underwriting criteria for one- to four-family residential loans include the value of the underlying collateral, income, debt-to-income ratio, stability of earnings and past credit history of a potential borrower. These underwriting criteria are based upon FNMA/FHLMC lending guidelines. Lincoln Bank offers fixed-rate loans which provide for the payment of principal and interest over a period of up to 40 years.

Lincoln Bank also offers adjustable-rate mortgage (**ARM**) loans pegged to the one-, three-, five- and seven-year U.S. Treasury/LIBOR securities yield adjusted to a constant maturity. Lincoln Bank may offer discounted initial interest rates on ARM loans, but requires that the borrower qualify for the loan at the fully-indexed rate (the index rate plus the margin). A substantial portion of the ARM loans in Lincoln Bank's portfolio at December 31, 2007 provide for maximum rate adjustments per year and over the life of the loan of 2% and 6%, respectively. Lincoln Bank's residential ARM loans are generally amortized over terms up to 30 years.

Lincoln Bank has previously originated certain fixed-rate one- to four-family residential loans with the intent of pooling these loans into FHLMC mortgage-backed securities. Lincoln Bank did not securitize any residential loans during 2006, but did securitize loans during 2007 in conjunction with the restructuring discussed

[Table of Contents](#)

previously. At December 31, 2007, Lincoln Bank continued to hold in its investment portfolio approximately \$0.5 million (amortized cost) of these securities that are backed by fixed-rate mortgage loans that it originated.

Lincoln Bank determines when it originates a one- to four-family residential loan whether it intends to hold the loan until maturity or sell it in the secondary market. Depending on the asset liability position of Lincoln Bank, its current loan demand and management's assessment of interest rate trends Lincoln Bank determines whether to sell any or all of the loans that it originates that are written to FNMA/FHLMC standards. Management monitors closely the amount of longer term fixed rate loans included in the portfolio and adjusts its hold policy as conditions warrant. Lincoln Bank retained the servicing rights on nearly all the loans that it sold prior to the acquisition of First Bank in August 2004. Currently, the majority of loans sold are sold with servicing released. Customers are given an option to have local servicing, but at a slightly higher note rate.

ARM loans decrease the risk associated with changes in interest rates by periodically repricing, but involve other risks because, as interest rates increase, the underlying payments by the borrower can also increase, thus increasing the potential for default by the borrower. At the same time, the marketability of the underlying collateral may be adversely affected by higher interest rates. Upward adjustments of the contractual interest rate are also limited by the maximum periodic and lifetime interest rate adjustment permitted by the loan documents, and, therefore, is potentially limited in effectiveness during periods of rapidly rising interest rates. At December 31, 2007, approximately 41.8% of Lincoln Bank's one- to four-family residential loans had adjustable rates of interest.

All of the one- to four-family residential mortgage loans that Lincoln Bank originates include "due-on-sale" clauses, which give Lincoln Bank the right to declare a loan immediately due and payable in the event that, among other things, the borrower sells or otherwise disposes of the real property subject to the mortgage and the loan is not repaid. However, Lincoln Bank occasionally permits assumptions of existing residential mortgage loans on a case-by-case basis.

At December 31, 2007, approximately \$147.9 million, or 22.5% of Lincoln Bank's portfolio of loans, consisted of one- to four-family residential loans. Approximately \$479.0, or 0.32% of total residential loans, were included in non-performing assets as of that date.

Consumer Loans. Lincoln Bank's consumer loans consist of variable- and fixed-rate home equity loans; lines of credit; automobile, recreational vehicle, boat and motorcycle loans; and loans secured by deposits. Consumer loans remained virtually unchanged between 2007 and 2006. Home equity loans increased nearly 7% and other consumer loans decreased by 6.1%. As noted above Lincoln substantially increased its indirect loan portfolio during 2005. The majority of the growth was in loans secured by recreational vehicles and boats. Given the nature of this collateral some of the loans were for terms up to 15 years. At December 31, 2007, Lincoln Bank's consumer loans including indirect loans aggregated approximately \$138.4 million, or 21.0% of Lincoln Bank's total loan portfolio. Included in consumer loans at December 31, 2007 were \$36.9 million of variable-rate home equity lines of credit.

Lincoln Bank's home equity lines of credit and fixed-term loans may be written for up to 100% of the appraised value of the property (less any first mortgage amount). Lincoln Bank's home equity and second mortgage loans were \$58.6 million, or 8.9% of total loans at December 31, 2007. Lincoln Bank generally will write automobile loans for up to the lesser of 100% of the Manufacturers Suggested Retail Price less any rebates plus sales tax or up to 125% of Dealer Invoice. New car loans are written for terms of up to 72 months and used car loans are written for terms up to 72 months, depending on the age of the car and up to 125% of the National Automobile Dealers Association guide (**NADA**) trade in value, not to exceed NADA retail value.

Loans for new recreational vehicles and boats are written for no more than 125% of the Dealer Invoice, for a maximum term of 180 months. New motorcycle loans are written for no more than 100% of the list price with a

[Table of Contents](#)

term not to exceed 72 months. All of Lincoln Bank's consumer loans have a fixed rate of interest except for home equity lines of credit, which are offered at a variable rate. At December 31, 2007, consumer loans in the amount of \$0.5 million, .39% of total consumer loans, were included in non-performing assets.

Consumer loans may entail greater risk than residential mortgage loans, particularly in the case of consumer loans that are unsecured or are secured by rapidly depreciable assets, such as automobiles. Further, any repossessed collateral under a defaulted consumer loan may not provide an adequate source of repayment of the outstanding loan balance. In addition, consumer loan collections depend on the borrower's continuing financial stability, and thus are more likely to be affected by adverse personal circumstances. Furthermore, the application of various federal and state laws, including bankruptcy and insolvency laws, may limit the amount which can be recovered on such loans.

Origination, Purchase and Sale of Loans. Historically, Lincoln Bank has confined its loan origination activities primarily to Hendricks, Hamilton, Montgomery, Clinton, Johnson, Brown, Marion and Morgan Counties. Lincoln Bank may from time to time make mortgage loans secured by property located outside of Indiana. Lincoln Bank's loan originations are generated from referrals from existing customers, real estate brokers, newspaper and periodical advertising.

Lincoln Bank's loan approval process is intended to assess the borrower's ability to repay the loan, the viability of the loan and the adequacy of the value of the property that will secure the loan. To assess the borrower's ability to repay, Lincoln Bank evaluates the employment and credit history and information on the historical and projected income and expenses of its borrowers.

Lincoln Bank generally requires appraisals on all real property securing its first-mortgage loans and requires title insurance and a valid lien on the mortgaged real estate. Appraisals for all real property securing first-mortgage loans are performed by independent appraisers who are state-licensed. Lincoln Bank requires fire and extended coverage insurance in amounts at least equal to the principal amount of the loan and also requires flood insurance to protect the property, which secures its interest, if the property is in a flood plain. Lincoln Bank also generally requires private mortgage insurance for all residential mortgage loans with Loan-to-Value Ratios of greater than 80%. Lincoln Bank generally requires escrow accounts for insurance premiums and taxes for residential mortgage loans with Loan-to-Value Ratios of greater than 80%.

Lincoln Bank's underwriting standards for consumer loans are intended to protect against some of the risks inherent in making consumer loans. Borrower character, paying habits, length of employment and financial strengths are important considerations.

Lincoln Bank occasionally purchases participation interests in loans originated by other financial institutions in order to diversify its portfolio, supplement local loan demand and to obtain more favorable yields. The participations that Lincoln Bank purchases normally represent a portion of residential or commercial real estate loans originated by other Indiana financial institutions, most of which are secured by property located in Indiana. As of December 31, 2007, Lincoln Bank had \$20.3 million of commercial loan participations in its asset portfolio.

Lincoln Bank occasionally sells participation interests in loans it originates in order to limit the risk on a specific credit or industry type or to remain within its legal lending limit to a single borrower. As of December 31, 2007, Lincoln Bank had \$10.8 million of commercial loan participations sold.

Origination and Other Fees. Lincoln Bank realizes income from late charges, checking account service charges, loan servicing fees and fees for other miscellaneous services. Late charges are generally assessed if a loan payment is not received within a specified number of days after it is due. The grace period depends on the individual loan documents. Lincoln Bank also receives a loan servicing fee of $\frac{1}{4}\%$ on fixed-rate loans and $\frac{3}{8}\%$ on ARM loans that it services for others.

Non-Performing and Problem Assets

After a mortgage loan becomes 17 days past due, Lincoln Bank delivers a delinquency notice to the borrower. When loans are 30 to 60 days in default, Lincoln Bank sends additional delinquency notices and telephone calls are placed with the borrower to establish an acceptable repayment schedule. When loans become 60 days in default, Lincoln Bank again contacts the borrower to establish an acceptable repayment schedule. When a mortgage loan is 90 days delinquent, Lincoln Bank will have either entered into a workout plan with the borrower or referred the matter to its attorney for collection. Management is authorized to commence foreclosure proceedings for any loan upon making a determination that it is prudent to do so.

Lincoln Bank reviews mortgage loans on a regular basis and places one- to four-family residential loans on a non-accrual status when they become 120 days delinquent. Other loans are placed on a non-accrual status when they become 90 days delinquent. Generally, when loans are placed on a non-accrual status, unpaid accrued interest is written off.

Non-performing Assets. At December 31, 2007, \$8.5 million, or .95%, of Lincoln Bank's total assets, were non-performing (including loans past due 90 days or more, non-accruing loans and foreclosed assets) compared to \$2.8 million, or .31%, of its total assets at December 31, 2006. At December 31, 2007, non-performing assets

included residential loans of \$479,000 commercial real estate loans of \$1.2 million, construction loans of \$1.1 million, multifamily loans of \$1.9 million, commercial loans of \$132,000, land loans of \$2.5 million and consumer loans of \$534,000. Lincoln Bank had real estate owned (“REO”) properties in the amount of \$571,000 as of December 31, 2007.

The table below sets forth the amounts and categories of Lincoln Bank’s non-performing assets (non-performing loans, foreclosed real estate and troubled debt restructurings) for the last five years and the period ended September 30, 2008. It is Lincoln Bank’s policy that earned but uncollected interest on all loans be reviewed monthly to determine if any portion thereof should be classified as uncollectible for any loan past due in excess of 90 days. Lincoln Bank deems any delinquent loan that is 90 days or more past due to be a non-performing asset. Additionally, loans less than 90 days past due may be non-performing if they are not accruing interest.

Classified Assets. Federal regulations and Lincoln Bank's Asset Classification Policy provide for the classification of loans and other assets such as debt and equity securities considered to be of lesser quality as "substandard," "doubtful" or "loss" assets. An asset is considered "substandard" if it is inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. "Substandard" assets include those characterized by the "distinct possibility" that the institution will sustain "some loss" if the deficiencies are not corrected. Assets classified as "doubtful" have all of the weaknesses inherent in those classified "substandard," with the added characteristic that the weaknesses present make "collection or liquidation in full," on the basis of currently existing facts, conditions, and values, "highly questionable and improbable." Assets classified as "loss" are those considered "uncollectible" and of such little value that their continuance as assets without the establishment of a specific loss reserve is not warranted.

An insured institution is required to establish general allowances for loan losses in an amount deemed prudent by management for loans classified substandard or doubtful, as well as for other problem loans. General allowances represent loss allowances which have been established to recognize the inherent risk associated with lending activities, but which, unlike specific allowances, have not been allocated to particular problem assets. When an insured institution classifies problem assets as "loss," it is required either to establish a specific allowance for losses equal to 100% of the amount of the asset so classified or to charge off such amount. Lincoln Bank regularly reviews its loan portfolio to determine whether any loans require classification in accordance with applicable regulations.

On March 10, 2008 we became aware of circumstances surrounding one of our major borrowers and another financial institution. We believe our well collateralized position regarding the performing loans the borrower has with our Company has not changed; however, we will continue to monitor the borrower closely. This event has not changed our position that no specific reserves should be established on our Company's loans to this borrower at this time.

Allowance for Loan Losses

The allowance for loan losses is maintained through the provision for loan losses, which is charged to earnings. The allowance for loan losses is determined in conjunction with Lincoln Bank's review and evaluation of current economic conditions (including those of its lending area), changes in the character and size of its loan portfolio, loan delinquencies (current status as well as past and anticipated trends) and adequacy of collateral securing loan delinquencies, historical and estimated net charge-offs, and other pertinent information derived from a review of the loan portfolio. In management's opinion, Lincoln Bank's allowance for loan losses is adequate to absorb probable losses inherent in the loan portfolio at September 30, 2008. However, there can be no assurance that regulators, when reviewing Lincoln Bank's loan portfolio in the future, will not require

increases in its allowances for loan losses or that changes in economic conditions will not adversely affect its loan portfolio. For more discussion on the allowance for loan losses, see “DESCRIPTION OF LINCOLN—Management’s Discussion and Analysis of Financial Condition and Results of Operation.”

Investments

Investments. The Lincoln Companies have adopted an investment policy that authorizes investments in U.S. Treasury securities, securities guaranteed by the Government National Mortgage Association (GNMA), securities issued by agencies of the U.S. Government, mortgage-backed securities issued by the FHLMC or the Federal National Mortgage Association (FNMA) and in highly-rated mortgage-backed securities, collateralized mortgage obligations and investment-grade corporate debt securities. This policy permits the Lincoln Companies' management to react quickly to market conditions. At December 31, 2007 all of the securities in its portfolio are considered available-for-sale. At December 31, 2007, the Lincoln Companies' investment portfolio consisted of investments in mortgage-backed securities, corporate securities, federal agency securities, municipal securities, FHLB stock and an investment in Bloomington Housing Associates, L.P. See "-Investment in Multi-Family, Low- and Moderate-Income Housing Project." At December 31, 2007, approximately \$161.0 million, or 18.1%, of the Lincoln Companies' total assets consisted of such investments. The Lincoln Companies also had \$2.0 million of federal funds sold and \$7.2 million in interest-earning deposits with other financial institutions as of that date. As of that date, the Lincoln Companies had pledged as collateral investment securities with a carrying value of \$59.3 million.

Investments in Multi-Family, Low and Moderate Income Housing Projects

Lincoln Bank holds an investment in a multi-family, low- and moderate-income housing project through its wholly-owned subsidiary, LF Service Corporation (**LF**). LF has invested in Bloomington Housing Associates, L.P. (**BHA**), which is an Indiana limited partnership that was organized to construct, own and operate a 130-unit apartment complex in Bloomington, Indiana (**BHA Project**). The BHA Project has been completed and the project has performed as planned. LF has invested approximately \$4.9 million in BHA since the inception of the BHA Project in August 1992.

A low- and moderate-income housing project qualifies for certain federal income tax credits if (i) it is a residential rental property, (ii) the units are used on a non-transient basis, and (iii) 20% or more of the units in the project are occupied by tenants whose incomes are 50% or less of the area median gross income, adjusted for family size, or alternatively, at least 40% of the units in the project are occupied by tenants whose incomes are 60% or less of the area median gross income. Qualified low income housing projects generally must comply with these and other rules for fifteen years, beginning with the first year the project qualified for the tax credit, or some or all of the tax credit together with interest may be recaptured. The tax credit is subject to the limitations on the use of general business credit, but no basis reduction is required for any portion of the tax credit claimed.

[Table of Contents](#)

As of December 31, 2007, 90% of the units in the BHA Project were occupied and the project complied with the low income occupancy requirements described above.

The Lincoln Companies record their equity in the net income or loss of the partnership based on the Company's interest in the partnership, which is 99 percent in Bloomington Housing Associates L.P. (Bloomington Housing). In addition to recording their equity in the income or losses of the partnerships, the Lincoln Companies have recorded the benefit of a low income housing tax credit of \$150,000, \$148,000 and \$150,000 for the years ended December 31, 2007, 2006 and 2005. At December 31, 2007, LF's investment in BHA was \$1,237,000.

Sources of Funds

General. Deposits have traditionally been the Lincoln Companies' primary source of funds for use in lending and investment activities. In addition to deposits, the Lincoln Companies derive funds from scheduled loan payments, investment maturities, loan prepayments, retained earnings, income on earning assets and borrowings. While scheduled loan payments and income on earning assets are relatively stable sources of funds, deposit inflows and outflows can vary widely and are influenced by prevailing interest rates, market conditions and levels of competition. Borrowings from the FHLB of Indianapolis have been used to compensate for reductions in deposits or deposit inflows at less than projected levels.

Deposits. Lincoln Bank attracts consumer and commercial deposits principally from within Hendricks, Montgomery, Clinton, Johnson, Brown, Marion and Morgan Counties through the offering of a broad selection of deposit instruments, including noninterest bearing checking, passbook accounts, NOW accounts, variable rate money market accounts, fixed-term certificates of deposit, individual retirement accounts and savings accounts. Lincoln Bank does not actively solicit or advertise for deposits outside of Hendricks, Montgomery, Clinton, Johnson, Brown and Morgan Counties, and substantially all of Lincoln Bank's depositors are residents of those counties. Deposit account terms vary, with the principal differences being the minimum balance required, the amount of time the funds remain on deposit and the interest rate. Lincoln Bank may sometimes accept brokered deposits and bids for public deposits and it held \$4.0 million and \$23.0 million of such funds, or 0.6% and 3.5% of its total deposits, at December 31, 2007. Lincoln Bank regularly runs specials on certificates of deposit with specific maturities.

Lincoln Bank establishes the interest rates paid, maturity terms, service fees and withdrawal penalties on a periodic basis. Determination of rates and terms are predicated on funds acquisition and liquidity requirements, rates paid by competitors, growth goals, and applicable regulations. Lincoln Bank relies, in part, on customer service and long-standing relationships with customers to attract and retain its deposits. Lincoln Bank also closely prices its deposits to the rates offered by its competitors.

Approximately 50.2% of Lincoln Bank's deposits consist of certificates of deposit, which generally have higher interest rates than other deposit products that it offers. Certificates of deposit have decreased 5.1% during the year ended December 31, 2007. Money market accounts represent 26.4% of Lincoln Bank's deposits and have grown 21.5% during the year ended December 31, 2007. Savings accounts represent 8.1% of deposits and have declined 21.9% since December 31, 2006. Non-interest bearing demand accounts declined \$5.1 million, or 10.0%, during the year ended December 31, 2007. Lincoln Bank offers special rates on certificates of deposit with maturities that fit its asset and liability strategies.

The flow of deposits is influenced significantly by general economic conditions, changes in money market and other prevailing interest rates and competition. The variety of deposit accounts that Lincoln Bank offers has allowed it to compete effectively in obtaining funds and to respond with flexibility to changes in consumer demand. Lincoln Bank has become more susceptible to short-term fluctuations in deposit flows as customers have become more interest rate conscious. Lincoln Bank manages the pricing of its deposits in keeping with its asset/liability management and profitability objectives. Based on its experience, management believes that

Lincoln Bank's noninterest bearing checking, savings accounts, NOW and MMDAs are relatively stable sources of deposits. However, the ability to attract and maintain certificates of deposit, and the rates Lincoln Bank pays on these deposits, have been and will continue to be significantly affected by market conditions.

Total deposits at December 31, 2007 were approximately \$656.4 million, compared to approximately \$655.7 million at December 31, 2006. Lincoln Bank's deposit base depends somewhat upon the manufacturing sector of Hendricks, Montgomery, Clinton, Johnson, Brown and Morgan Counties. Although the manufacturing sector in these counties is relatively diversified and does not significantly depend upon any industry, a loss of a material portion of the manufacturing workforce could adversely affect Lincoln Bank's ability to attract deposits due to the loss of personal income attributable to the lost manufacturing jobs and the attendant loss in service industry jobs.

In the unlikely event of Lincoln Bank's liquidation, all claims of creditors (including those of deposit account holders, to the extent of their deposit balances) would be paid first followed by distribution of the liquidation account to certain deposit account holders, with any assets remaining thereafter distributed to Lincoln as the sole shareholder of Lincoln Bank.

Borrowings. Lincoln Bank focuses on generating high quality loans and then seeking the best source of funding from deposits, investments or borrowings. At December 31, 2007, Lincoln Bank had borrowings in the amount of \$109.1 million from the FHLB of Indianapolis which bear fixed and variable interest rates and which are due at various dates through 2014. Lincoln Bank is required to maintain eligible loans and investment securities in its portfolio of at least 145% and 115%, respectively, of outstanding advances as collateral for advances from the FHLB of Indianapolis. As an additional funding source, Lincoln Bank has also sold securities under repurchase agreements. Lincoln Bank had \$16.8 million of overnight securities sold under repurchase agreement at December 31, 2007. The Company does not anticipate any difficulty in obtaining advances and other borrowings appropriate to meet its requirements in the future.

The following table presents certain information relating to Lincoln Bank's borrowings at or for the years ended December 31, 2007, 2006 and 2005.

Service Corporation Subsidiaries

Lincoln Bank currently owns three subsidiaries, LF Service Corporation (**LF**), Citizens Loan and Service Corporation (**CLSC**) and LF Portfolio Services, Inc. (**Portfolio**). LF's assets consist of an investment in BHA. See “-Investment in Low-and Moderate-Income Housing Project.” Previously LF invested in Family Financial Holdings Inc. (**Family Financial**). LF redeemed this investment in 2006.

CLSC primarily engages in the purchase and development of tracts of undeveloped land. As noted above the Lincoln Companies have agreed to cease these non-permissible activities within two years of the conversion date. FDIC regulations prohibited Lincoln Bank from including its investment in CLSC in its calculation of regulatory capital and as such this amount of approximately \$611,000 is excluded when calculating the risk based capital ratio requirements for regulatory capital. CLSC purchases undeveloped land, constructs improvements and infrastructure on the land, and then sells lots to builders, who construct homes for sale to home buyers. CLSC ordinarily receives payment when title is transferred.

Effective November 1, 2006, Lincoln Bank changed its charter from a federal savings bank charter to an Indiana commercial bank charter. Unlike federal savings banks, commercial banks are not permitted to participate in real estate development joint ventures. Under terms of the approval granted by the Federal Reserve Bank of Chicago, Lincoln agreed to cause Lincoln Bank to conform the existing direct and indirect nonbanking activities and investments conducted by Citizens Loan and Service Corporation, including by divestiture if necessary, to the requirements of the Bank Holding Company Act within two years of the consummation of the charter conversion.

Portfolio is a Delaware corporation with its principal place of business in Nevada. Portfolio holds and manages a significant portion of Lincoln Bank's investment portfolio. As of December 31, 2007, Portfolio had investments available for sale, and federal funds sold of \$114.8 million, total assets of \$115.8 million, and during the fiscal year ended December 31, 2007, had net income of \$3.7 million.

Employees

As of December 31, 2007, the Lincoln Companies employed 225 persons on a full-time basis and 21 on a part-time basis. None of the Lincoln Companies' employees are represented by a collective bargaining group, and management considers employee relations to be good.

Employee benefits for the Lincoln Companies' full-time employees include, among other things hospitalization/major medical insurance, dental insurance, long-term disability insurance, company sponsored life and accidental death insurance, Employee Assistance Program, participation in the Lincoln Bank Employee Stock Ownership and 401(k) Plan, which are administered by McCready and Keene and a Pentegra Group (formerly known as Financial Institutions Retirement Fund) defined benefit pension plan which is a noncontributory, multiple-employer comprehensive pension plan (the “Pension Plan”) for employees. The pension plan was frozen to new participants as well as for additional years of service for existing participants in June, 2004.

The Lincoln Companies consider their employee benefits to be competitive with those offered by other financial institutions and major employers in its area.

Competition

Lincoln Bank originates most of its loans to and accepts most of its deposits from residents of Hendricks, Montgomery, Clinton, Johnson, Brown and Morgan Counties, Indiana. Lincoln Bank is subject to competition from various financial institutions, including state and national banks, state and federal savings banks and associations, credit unions, and certain nonbanking consumer lenders that provide similar services in those

[Table of Contents](#)

counties with significantly larger resources than are available to Lincoln Bank. Lincoln Bank also competes with money market funds and insurance companies with respect to deposit accounts and individual retirement accounts.

The primary factors influencing competition for deposits are interest rates, service and convenience of office locations. Lincoln Bank competes for loan originations primarily through the efficiency and quality of the services that it provides borrowers and through interest rates and loan fees charged. Competition is affected by, among other things, the general availability of lendable funds, general and local economic conditions, current interest rate levels, and other factors that management cannot readily predict.

Regulation

General. On November 1, 2006, Lincoln Bank began operation as an Indiana state-chartered commercial bank and the Company became a registered bank holding company under the Bank Holding Company Act of 1956. As a state chartered commercial bank, Lincoln Bank is subject to extensive regulation by the Indiana Department of Financial Institutions (**DFI**) and the Federal Deposit Insurance Corporation (**FDIC**). For example, Lincoln Bank must obtain DFI approval before it may engage in certain activities and must file reports with the both the FDIC and the DFI regarding its activities and financial condition. The DFI and the FDIC periodically examine Lincoln Bank's books and records and, in certain situations, have examination and enforcement powers. This supervision and regulation are intended primarily for the protection of depositors and federal deposit insurance funds.

Lincoln Bank is also subject to federal and state regulation as to such matters as loans to officers, directors, or principal shareholders, required reserves, limitations as to the nature and amount of its loans and investments, regulatory approval of any merger or consolidation, issuances or retirements of Lincoln Bank's securities, and limitations upon other aspects of banking operations. In addition, Lincoln Bank's activities and operations are subject to a number of additional detailed, complex and sometimes overlapping federal and state laws and regulations. These include state usury and consumer credit laws, state laws relating to fiduciaries, the Federal Truth-In-Lending Act and Regulation Z, the Federal Equal Credit Opportunity Act and Regulation B, the Fair Credit Reporting Act, the Community Reinvestment Act, anti-redlining legislation, antitrust laws and regulations protecting the confidentiality of consumer financial information.

Both Lincoln and Lincoln Bank operate in highly regulated environments and are subject to supervision, examination and regulation by several governmental regulatory agencies, including the Board of Governors of the Federal Reserve System (**Federal Reserve**), the FDIC, and the DFI. The laws and regulations established by these agencies are generally intended to protect depositors, not shareholders. Changes in applicable laws, regulations, governmental policies, income tax laws and accounting principles may have a material effect on the Lincoln Companies' business and prospects. The following summary is qualified by reference to the statutory and regulatory provisions discussed.

The Bank Holding Company Act. Lincoln owns all of the outstanding capital stock of Lincoln Bank and is registered as a bank holding company under the federal Bank Holding Company Act of 1956. Lincoln is subject to periodic examination by the Federal Reserve and required to file periodic reports of its operations and any additional information that the Federal Reserve may require.

Investments, control, and activities. With some limited exceptions, the Bank Holding Company Act requires every bank holding company to obtain the prior approval of the Federal Reserve before acquiring another bank holding company or acquiring more than 5% of the voting shares of a bank (unless it already owns or controls the majority of such shares).

Bank holding companies are prohibited, with certain limited exceptions, from engaging in activities other than those of banking or of managing or controlling banks. They are also prohibited from acquiring or retaining

[Table of Contents](#)

direct or indirect ownership or control of voting shares or assets of any company which is not a bank or bank holding company, other than subsidiary companies furnishing services to or performing services for their subsidiaries, and other subsidiaries engaged in activities which the Federal Reserve determines to be so closely related to banking or managing or controlling banks as to be incidental to these operations. The Bank Holding Company Act does not place territorial restrictions on such nonbank activities.

Effective March 11, 2000, the Gramm-Leach Bliley Act of 1999, which was signed into law on November 12, 1999, allows a bank holding company to qualify as a “financial holding company” and, as a result, be permitted to engage in a broader range of activities that are “financial in nature” and in activities that are determined to be incidental or complementary to activities that are financial in nature. The Gramm-Leach-Bliley Act amends the Bank Holding Company Act of 1956 to include a list of activities that are financial in nature, and the list includes activities such as underwriting, dealing in and making a market in securities, insurance underwriting and agency activities and merchant banking. The Federal Reserve is authorized to determine other activities that are financial in nature or incidental or complementary to such activities. The Gramm-Leach-Bliley Act also authorizes banks to engage through financial subsidiaries in certain of the activities permitted for financial holding companies.

In order for a bank holding company to engage in the broader range of activities that are permitted by the Gramm-Leach-Bliley Act (1) all of its depository institutions must be well capitalized and well managed and (2) it must file a declaration with the Federal Reserve that it elects to be a “financial holding company.” In addition, to commence any new activity permitted by the Gramm-Leach-Bliley Act, each insured depository institution of the financial holding company must have received at least a “satisfactory” rating in its most recent examination under the Community Reinvestment Act. Lincoln has not elected to be a financial holding company.

Dividends. The Federal Reserve’s policy is that a bank holding company experiencing earnings weaknesses should not pay cash dividends exceeding its net income or which could only be funded in ways that weaken the bank holding company’s financial health, such as by borrowing. Additionally, the Federal Reserve possesses enforcement powers over bank holding companies and their non-bank subsidiaries to prevent or remedy actions that represent unsafe or unsound practices or violations of applicable statutes and regulations. Among these powers is the ability to proscribe the payment of dividends by banks and bank holding companies.

Source of strength. In accordance with Federal Reserve policy, Lincoln is expected to act as a source of financial strength to Lincoln Bank and to commit resources to support Lincoln Bank in circumstances in which Lincoln might not otherwise do so.

General regulatory supervision. As an Indiana commercial bank, Lincoln Bank is subject to examination by the DFI and the FDIC. The DFI and the FDIC regulate or monitor virtually all areas of Lincoln Bank’s operations. Lincoln Bank must undergo regular on-site examinations by the FDIC and DFI and must submit periodic reports to the FDIC and the DFI.

Lending limits. Under Indiana law, Lincoln Bank may not make a loan or extend credit to a single or related group of borrowers in excess of 15% of its unimpaired capital and unimpaired surplus. Additional amounts may be lent, not in excess of 10% of unimpaired capital and unimpaired surplus, if such loans or extensions of credit are fully secured by readily marketable collateral, including certain debt and equity securities but not including real estate. At December 31, 2007, Lincoln Bank did not have any loans or extensions of credit to a single or related group of borrowers in excess of its lending limits.

Transactions with affiliates and insiders. Lincoln Bank is subject to limitations on the amount of loans or extensions of credit to, or investments in, or certain other transactions with, affiliates and on the amount of advances to third parties collateralized by the securities or obligations of affiliates. Furthermore, within the foregoing limitations as to amount, each covered transaction must meet specified collateral requirements. Compliance is also required with certain provisions designed to avoid the acquisition of low quality assets.

[Table of Contents](#)

Lincoln Bank is also prohibited from engaging in certain transactions with certain affiliates unless the transactions are on terms substantially the same, or at least as favorable to such institution or its subsidiaries, as those prevailing at the time for comparable transactions with nonaffiliated companies.

Extensions of credit by Lincoln Bank to its executive officers, directors, certain principal shareholders, and their related interests must be made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with third parties, and not involve more than the normal risk of repayment or present other unfavorable features.

Bank Dividends. Under Indiana law, Lincoln Bank is prohibited from paying dividends in an amount greater than its undivided profits, or if the payment of dividends would impair Lincoln Bank's capital. Moreover, Lincoln Bank is required to obtain the approval of the DFI for the payment of any dividend if the aggregate amount of all dividends paid by Lincoln Bank during any calendar year, including the proposed dividend, would exceed the sum of Lincoln Bank's retained net income for the year to date combined with its retained net income for the previous two years. For this purpose, "retained net income" means the net income of a specified period, calculated under the consolidated report of income instructions, less the total amount of all dividends declared for the specified period.

Federal law generally prohibits Lincoln Bank from paying a dividend to its holding company if the depository institution would thereafter be undercapitalized. The FDIC may prevent an insured bank from paying dividends if the bank is in default of payment of any assessment due to the FDIC. In addition, payment of dividends by a bank may be prevented by the applicable federal regulatory authority if such payment is determined, by reason of the financial condition of such bank, to be an unsafe and unsound banking practice.

Branching and acquisitions. Branching by Lincoln Bank requires the approval of the FDIC and the DFI. Under current law, Indiana chartered banks may establish branches throughout the state and in other states, subject to certain limitations. Congress authorized interstate branching, with certain limitations, beginning in 1997. Indiana law authorizes an Indiana bank to establish one or more branches in states other than Indiana through interstate merger transactions and to establish one or more interstate branches through de novo branching or the acquisition of a branch. There are some states where the establishment of de novo branches by out-of-state financial institutions is prohibited.

Capital regulations. The federal bank regulatory authorities have adopted risk-based capital guidelines for banks and bank holding companies that are designed to make regulatory capital requirements more sensitive to differences in risk profiles among banks and bank holding companies and account for off-balance sheet items. Risk-based capital ratios are determined by allocating assets and specified off-balance sheet commitments to four risk weighted categories of 0%, 20%, 50%, or 100%, with higher levels of capital being required for the categories perceived as representing greater risk. The capital guidelines divide a bank holding company's or bank's capital into two tiers. The first tier (**Tier I**) includes common equity, certain non-cumulative perpetual preferred stock and minority interests in equity accounts of consolidated subsidiaries, less goodwill and certain other intangible assets (except mortgage servicing rights and purchased credit card relationships, subject to certain limitations). Supplementary (**Tier II**) capital includes, among other items, cumulative perpetual and long-term limited-life preferred stock, mandatory convertible securities, certain hybrid capital instruments, term subordinated debt and the allowance for loan and lease losses, subject to certain limitations, less required deductions. Banks and bank holding companies are required to maintain a total risk-based capital ratio of 8%, of which 4% must be Tier I capital. The federal banking regulators may, however, set higher capital requirements when a bank's particular circumstances warrant. Banks experiencing or anticipating significant growth are expected to maintain capital ratios, including tangible capital positions, well above the minimum levels.

Also required by the regulations is the maintenance of a leverage ratio designed to supplement the risk-based capital guidelines. This ratio is computed by dividing Tier I capital, net of all intangibles, by the quarterly average of total assets. The minimum leverage ratio is 3% for the most highly rated institutions, and 1% to 2%

[Table of Contents](#)

higher for institutions not meeting those standards. Pursuant to the regulations, banks must maintain capital levels commensurate with the level of risk, including the volume and severity of problem loans, to which they are exposed.

As of December 31, 2007, Lincoln and Lincoln Bank were categorized as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well-capitalized, Lincoln and Lincoln Bank must maintain capital ratios as set forth in the table. There are no conditions or events since that notification that management believes have changed Lincoln and Lincoln Bank's category.

Lincoln's and Lincoln Bank's actual capital amounts and ratios under the state charter are presented in the following table.

	Actual		For Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action Provisions

Prompt corrective regulatory action. Federal law provides the federal banking regulators with broad powers to take prompt corrective action to resolve the problems of undercapitalized institutions. The extent of the regulators' powers depends on whether the institution in question is "well capitalized," "adequately capitalized," "undercapitalized," "significantly undercapitalized," or "critically undercapitalized," as defined by regulation. Depending upon the capital category to which an institution is assigned, the regulators' corrective powers include: requiring the submission of a capital restoration plan; placing limits on asset growth and restrictions on activities; requiring the institution to issue additional capital stock (including additional voting stock) or to be acquired; restricting transactions with affiliates; restricting the interest rate the institution may pay on deposits; ordering a new election of directors of the institution; requiring that senior executive officers or directors be dismissed; prohibiting the institution from accepting deposits from correspondent banks; requiring the institution to divest certain subsidiaries; prohibiting the payment of principal or interest on subordinated debt; and, ultimately, appointing a receiver for the institution. At December 31, 2007, Lincoln Bank was categorized as "well capitalized," meaning that Lincoln Bank's total risk-based capital ratio exceeded 10%, Lincoln Bank's Tier I risk-based capital ratio exceeded 6%, Lincoln Bank's leverage ratio exceeded 5%, and Lincoln Bank was not subject to a regulatory order, agreement or directive to meet and maintain a specific capital level for any capital measure.

Other regulations. Interest and other charges collected or contracted for by Lincoln Bank are subject to state usury laws and federal laws concerning interest rates. The Bank's loan operations are also subject to federal laws applicable to credit transactions.

State bank activities. Under federal law, as implemented by regulations adopted by the FDIC, FDIC-insured state banks are prohibited, subject to certain exceptions, from making or retaining equity investments of a type, or in an amount, that are not permissible for a national bank. Federal law, as implemented by FDIC regulations, also prohibits FDIC-insured state banks and their subsidiaries, subject to certain exceptions, from engaging as

[Table of Contents](#)

principal in any activity that is not permitted for a national bank or its subsidiary, respectively, unless the bank meets, and could continue to meet, its minimum regulatory capital requirements and the FDIC determines that the activity would not pose a significant risk to the deposit insurance fund of which the bank is a member. Impermissible investments and activities must be divested or discontinued within certain time frames set by the FDIC. It is not expected that these restrictions will have a material impact on the operations of Lincoln Bank.

Enforcement powers. Federal regulatory agencies may assess civil and criminal penalties against depository institutions and certain “institution-affiliated parties,” including management, employees, and agents of a financial institution, as well as independent contractors and consultants such as attorneys and accountants and others who participate in the conduct of the financial institution’s affairs. In addition, regulators may commence enforcement actions against institutions and institution-affiliated parties. Possible enforcement actions include the termination of deposit insurance. Furthermore, regulators may issue cease-and-desist orders to, among other things, require affirmative action to correct any harm resulting from a violation or practice, including restitution, reimbursement, indemnifications or guarantees against loss. A financial institution may also be ordered to restrict its growth, dispose of certain assets, rescind agreements or contracts, or take other actions as determined by the regulator to be appropriate.

Effect of governmental monetary policies. The Bank’s earnings are affected by domestic economic conditions and the monetary and fiscal policies of the United States government and its agencies. The Federal Reserve’s monetary policies have had, and are likely to continue to have, an important impact on the operating results of commercial banks through its power to implement national monetary policy in order, among other things, to curb inflation or combat a recession. The monetary policies of the Federal Reserve have major effects upon the levels of bank loans, investments and deposits through its open market operations in United States government securities and through its regulation of the discount rate on borrowings of member banks and the reserve requirements against member bank deposits. It is not possible to predict the nature or impact of future changes in monetary and fiscal policies.

Federal Home Loan Bank System

The Bank is a member of the FHLB of Indianapolis, which is one of twelve regional FHLBs. Each FHLB serves as a reserve or central bank for its members within its assigned region. The FHLB is funded primarily from funds deposited by banks and savings associations and proceeds derived from the sale of consolidated obligations of the FHLB system. It makes loans to members (*i.e.*, advances) in accordance with policies and procedures established by the Board of Directors of the FHLB. All FHLB advances must be fully secured by sufficient collateral as determined by the FHLB. The Federal Housing Finance Board (**FHFB**), an independent agency, controls the FHLB System, including the FHLB of Indianapolis.

As a member of the FHLB, Lincoln Bank is required to purchase and maintain stock in the FHLB of Indianapolis in an amount equal to at least 1% of its aggregate unpaid residential mortgage loans, home purchase contracts, or similar obligations at the beginning of each year. At December 31, 2007, Lincoln Bank’s investment in stock of the FHLB of Indianapolis was \$8.8 million. The FHLB imposes various limitations on advances such as limiting the amount of certain types of real estate-related collateral to 30% of a member’s capital and limiting total advances to a member. Interest rates charged for advances vary depending upon maturity, the cost of funds to the FHLB of Indianapolis and the purpose of the borrowing. The FHLBs are required to provide funds for the resolution of troubled savings associations and to contribute to affordable housing programs through direct loans or interest subsidies on advances targeted for community investment and low- and moderate-income housing projects. For the year ended December 31, 2007, dividends paid by the FHLB of Indianapolis to Lincoln Bank totaled approximately \$403,000, for an annualized rate of 4.6%.

Limitations on rates paid for deposits

Regulations promulgated by the FDIC place limitations on the ability of insured depository institutions to accept, renew or roll over deposits by offering rates of interest which are significantly higher than the prevailing

[Table of Contents](#)

rates of interest on deposits offered by other insured depository institutions having the same type of charter in the institution's normal market area. Under these regulations, "well-capitalized" depository institutions may accept, renew or roll such deposits over without restriction, "adequately capitalized" depository institutions may accept, renew or roll such deposits over with a waiver from the FDIC (subject to certain restrictions on payments of rates) and "undercapitalized" depository institutions may not accept, renew or roll such deposits over. The regulations contemplate that the definitions of "well-capitalized," "adequately-capitalized" and "undercapitalized" will be the same as the definition adopted by the agencies to implement the corrective action provisions of federal law. Management does not believe that these regulations will have a materially adverse effect on Lincoln Bank's current operations.

Insurance of deposits

The Bank's deposits are insured to applicable limits by the FDIC. The Federal Deposit Insurance Reform Act of 2005, which was signed into law in February 2006, has resulted in significant changes to the federal deposit insurance program:

- Effective March 31, 2006, the Bank Insurance Fund and the Savings Association Insurance Fund were merged to create a new fund, called the Deposit Insurance Fund.
- The current \$100,000 deposit insurance coverage is subject to adjustment for inflation beginning in 2010 and every succeeding five years
- Deposit insurance coverage for individual retirement accounts and certain other retirement accounts has been increased from \$100,000 to \$250,000 and also will subject to adjustment for inflation

Pursuant to the Reform Act, the FDIC is authorized to set the reserve ratio for the DIF annually at between 1.15% and 1.5% of estimated insured deposits and the FDIC has been given discretion to set assessment rates according to risk regardless of the level of the fund reserve ratio. On November 2, 2006, the FDIC adopted final regulations that set the designated reserve ratio for the DIF at 1.25% beginning January 1, 2007.

Insured depository institutions that were in existence on December 31, 1996 and paid assessments prior to that date (or their successors) are entitled to a one-time credit against future assessments based on their past contributions to the BIF or SAIF. In 2006, Lincoln Bank was notified that its one-time credit of \$398,000 will be applied against future assessments.

Also on November 2, 2006, the FDIC adopted final regulations that establish a new risk-based premium system. Under the new system, the FDIC will evaluate each institution's risk based on three primary sources of information: supervisory ratings for all insured institutions, financial ratios for most institutions, and long-term debt issuer ratings for large institutions that have such ratings. An institution's assessments will be based on the insured institution's ranking in one of four risk categories. Effective January 1, 2007, well-capitalized institutions with the CAMELS ratings of 1 or 2 are grouped in Risk Category I and will be assessed for deposit insurance at an annual rate of between five and seven cents for every \$100 of domestic deposits. Institutions in Risk Categories II, III and IV will be assessed at annual rates of 10, 28 and 43 cents, respectively. An increase in assessments could have a material adverse effect on the Company's earnings.

FDIC-insured institutions remain subject to the requirement to pay assessments to the FDIC to fund interest payments on bonds issued by the Financing Corporation (**FICO**), an agency of the Federal government established to recapitalize the predecessor to the SAIF. These assessments will continue until the FICO bonds mature in 2017. For the quarter ended December 31, 2007, the FICO assessment rate was equal to 1.14 cents for each \$100 in domestic deposits maintained at an institution.

In early October 2008, the President signed into law the Emergency Economic Stabilization Act (**EESA**), which is principally designed to allow the U.S. Treasury and other governmental agencies to take action to restore liquidity and stability to the United States financial system. As part of EESA, the FDIC's insurance

[Table of Contents](#)

coverage for deposits has increased from \$100,000 to \$250,000 until December 31, 2009. In addition, the FDIC has announced the Temporary Liquidity Guarantee Program, which is primarily designed to encourage confidence and liquidity in the banking system by guaranteeing newly-issued senior unsecured debt of banks, thrifts and certain holding companies, but which also provides full deposit insurance coverage for non-interest bearing deposit transaction accounts regardless of the dollar amount. Unlimited coverage for non-interest bearing transaction accounts under the Temporary Liquidity Guarantee Program is available for 30 days without charge and thereafter at a cost of 10 basis points per annum. Lincoln is assessing its participation in the Temporary Liquidity Guarantee Program but has not yet decided whether it will participate.

Federal taxation. Historically, savings associations, such as Lincoln Bank prior to its conversion to an Indiana commercial bank effective November 1, 2006, were permitted to compute bad debt deductions using either the bank experience method or the percentage of taxable income method. However, for years beginning after December 31, 1995, no savings association could use the percentage of taxable income method of computing its allowable bad debt deduction for tax purposes. Instead, all savings associations were required to compute their allowable deduction using the experience method. The pre-1988 reserve, for which no deferred taxes have been recorded, need not be recaptured into income unless (i) the savings association no longer qualifies as a bank under the Internal Revenue Code of 1986, as amended (**Code**), or (ii) the savings association pays out excess dividends or distributions. Although Lincoln Bank does have some reserves from before 1988, Lincoln Bank is not required to recapture these reserves.

Depending on the composition of its items of income and expense, a savings association may be subject to the alternative minimum tax. A savings association must pay an alternative minimum tax on the amount (if any) by which 20% of alternative minimum taxable income (**AMTI**), as reduced by an exemption varying with AMTI, exceeds the regular tax due. AMTI equals regular taxable income increased or decreased by certain tax preferences and adjustments, including depreciation deductions in excess of that allowable for alternative minimum tax purposes, tax-exempt interest on most private activity bonds issued after August 7, 1986 (reduced by any related interest expense disallowed for regular tax purposes), the amount of the bad debt reserve deduction claimed in excess of the deduction based on the experience method and 75% of the excess of adjusted current earnings over AMTI (before this adjustment and before any alternative tax net operating loss). AMTI may be reduced only up to 90% by net operating loss carryovers, but alternative minimum tax paid can be credited against regular tax due in later years.

For federal income tax purposes, Lincoln has been reporting its income and expenses on the accrual method of accounting. Lincoln's federal income tax returns were audited in 2000 and no adjustments were made.

State taxation. The Lincoln Companies are subject to Indiana's Financial Institutions Tax (**FIT**), which is imposed at a flat rate of 8.5% on "apportioned adjusted gross income." "Apportioned adjusted gross income," for purposes of FIT, begins with taxable income as defined by Section 63 of the Code and, thus, incorporates federal tax law to the extent that it affects the computation of taxable income. Federal taxable income is then adjusted by several Indiana modifications. Other applicable state taxes include generally applicable sales and use taxes plus real and personal property taxes. Lincoln's state income tax returns for 2002, 2003 and 2004 were audited in 2006 and adjustments totaling \$33,000 including penalties and interest were made.

Recent Developments

On September 3, 2008, the date Lincoln and First Merchants announced the signing of the Merger Agreement, Lincoln determined that goodwill with a carrying amount of \$23.9 million would need to be evaluated for impairment in accordance with Statement of Financial Accounting Standards No. 142 (**SFAS 142**).

[Table of Contents](#)

This evaluation required an extensive fair value determination of Lincoln's assets and liabilities to determine an estimate of the implied fair value of goodwill. Upon conclusion of the evaluation, Lincoln determined that the full \$23.9 million of goodwill should be eliminated from its books. This elimination was recognized as a noncash expense as part of Lincoln's results of operations for the three month and nine month periods ending September 30, 2008.

This charge has no effect on Lincoln's cash flow or the regulatory capital or regulatory capital ratios of Lincoln or Lincoln Bank. Regulatory capital measurements used to assess the strength of individual banks, as well as the safety and soundness of the entire banking system, exclude goodwill as a component of capital.

Lincoln Bank owns computer and data processing equipment which it uses for transaction processing, loan origination, and accounting. The net book value of Lincoln Bank's electronic data processing equipment was approximately \$370,000 at December 31, 2007. This equipment is also listed in the totals by location above.

Lincoln Bank currently operates 18 automatic teller machines (**ATMs**), with one ATM located at its main office and each of its branch offices plus one at the loan production office on N. Meridian Street, Indianapolis. Lincoln Bank's ATMs participate in the Star[®] network.

Lincoln Bank has also contracted for data processing, item processing, electronic banking and ATM processing with Fidelity Information Services, located in Plano, Texas. The cost of these services is approximately \$162,000 per month.

Legal Proceedings

Although Lincoln and Lincoln Bank are involved, from time to time, in various legal proceedings in the normal course of business, there are no material legal proceedings to which they presently are a party or to which any of Lincoln's or Lincoln Bank's property is subject.

Management's Discussion and Analysis of Financial Information and Results of Operations

The following discussion and analysis of Lincoln's financial condition and results of operations should be read in conjunction with and with reference to Lincoln's consolidated financial statements and the notes thereto at and for the three-years ended December 31, 2007 and at and for the nine months ended September 30, 2008.

Critical Accounting Policies

Note 1 to Lincoln's December 31, 2007 consolidated financial statements contains a summary of Lincoln's significant accounting policies. Certain of these policies are important to the portrayal of Lincoln's financial condition, since they require management to make difficult, complex or subjective judgments, some of which may relate to matters that are inherently uncertain. Management believes that its critical accounting policies include determining the allowance for loan losses, the valuation of mortgage servicing rights, and the valuation of intangible assets.

Allowance for loan losses. The allowance for loan losses represents management's estimate of probable losses inherent in Lincoln's loan portfolios. In determining the appropriate amount of the allowance for loan losses, management makes numerous assumptions, estimates and assessments.

Lincoln's strategy for credit risk management includes conservative, centralized credit policies, and uniform underwriting criteria for all loans as well as an overall credit limit for each customer significantly below legal lending limits. The strategy also emphasizes diversification on a geographic, industry and customer level, regular credit quality reviews and quarterly management reviews of large credit exposures and loans experiencing deterioration of credit quality. A standard credit scoring system is used to assess credit risks during the loan approval process of all consumer loans while commercial loans are individually reviewed by a credit analyst with formal presentations to Lincoln Bank's Loan Committee.

Lincoln's allowance consists of three components: probable losses estimated from individual reviews of specific loans, probable losses estimated from historical loss rates and probable losses resulting from economic or other deterioration above and beyond what is reflected in the first two components of the allowance.

Larger commercial loans that exhibit probable or observed credit weaknesses are subject to individual review. Where appropriate, reserves are allocated to individual loans based on management's estimate of the borrower's ability to repay the loan given the availability of collateral, other sources of cash flow and legal

[Table of Contents](#)

options available to Lincoln. Included in the review of individual loans are those that are impaired as provided in SFAS No. 114, Accounting by Creditors for Impairment of a Loan. Any allowances for impaired loans are measured based on the present value of expected future cash flows discounted at the loan's effective interest rate or fair value of the underlying collateral. Lincoln evaluates the collectibility of both principal and interest when assessing the need for a reserve allocation. Estimated loss rates are applied to other commercial loans not subject to specific reserve allocations.

Homogenous loans, such as consumer installment and residential mortgage loans, are not individually risk graded. Rather, standard credit scoring systems are used to assess credit risks. Loss rates are based on the average net charge-off estimated by loan category. Allowances on individual loans and historical loss rates are reviewed quarterly and adjusted as necessary based on changing borrower and/or collateral conditions.

In addition, a review of certain "qualitative factors" is undertaken by the allowance for loan loss committee. This review is designed to account for any external factors that may not be fully included in the loss factors used above. Each qualitative factor is evaluated to determine its impact on the appropriate level of allowance that should be maintained. Each factor has two components; assessment and the trend. Depending on the evaluation each factor can add to or subtract from the calculated allowance.

Allowances on individual loans and estimated loss rates are reviewed quarterly and adjusted as necessary based on changing borrower and/or collateral conditions.

Lincoln's primary market area for lending is central Indiana. When evaluating the adequacy of the allowance, consideration is given to this regional geographic concentration and the closely associated effect changing economic conditions have on Lincoln's customers.

Mortgage servicing rights. Lincoln recognizes the rights to service sold mortgage loans as separate assets in the consolidated balance sheet. The total cost of loans when sold is allocated between loans and mortgage servicing rights based on the relative fair values of each. Mortgage servicing rights are subsequently carried at the lower of the initial carrying value, adjusted for amortization, or fair value. Mortgage servicing rights are evaluated for impairment based on the fair value of those rights. Factors included in the calculation of fair value of the mortgage servicing rights include, estimating the present value of future net cash flows, market loan prepayment speeds for similar loans, discount rates, servicing costs, and other economic factors. Servicing rights are amortized over the estimated period of net servicing revenue. It is likely that these economic factors will change over the life of the mortgage servicing rights, resulting in different valuations of the mortgage servicing rights. The differing valuations will affect the carrying value of the mortgage servicing rights on the consolidated balance sheet as well as the amounts recorded in the consolidated income statement.

Intangible assets. Management periodically assesses the impairment of its goodwill and the recoverability of its core deposit intangible. Impairment is the condition that exists when the carrying amount of goodwill exceeds its implied fair value. If actual external conditions and future operating results differ from management's judgments, impairment and/or increased amortization charges may be necessary to reduce the carrying value of these assets to the appropriate value.

As discussed more fully in management's review of operating results for the nine months ended September 30, 2008 below, the announced merger with First Merchants and the exchange ratio contained in the Merger Agreement triggered an evaluation of goodwill for impairment. This evaluation determined that goodwill recorded from previous acquisitions of Lincoln should be eliminated. As such, a charge against current earnings totaling \$23,907,000 was recorded in the quarter ending September 30, 2008.

Interest Rate Spread

Lincoln's results of operations have been determined primarily by net interest income and, to a lesser extent, fee income, miscellaneous income and general and administrative expenses. Net interest income is determined by the interest rate spread between the yields earned on interest earning assets and the rates paid on interest bearing liabilities and by the relative amounts of interest earning assets and interest bearing liabilities.

The following table describes the extent to which changes in interest rates and changes in volume of interest related assets and liabilities have affected Lincoln's interest income and expense during the periods indicated. For each category of interest earning asset and interest bearing liability, information is provided on changes attributable to (1) changes in rate (changes in rate multiplied by old volume) and (2) changes in volume (changes in volume multiplied by old rate). Changes attributable to both rate and volume which cannot be segregated have been allocated proportionally to the change due to volume and the change due to rate.

Financial Condition at September 30, 2008 Compared to Financial Condition at December 31, 2007

Assets totaled \$830.9 million at September 30, 2008, a decrease from December 31, 2007 of \$58.4 million. The net decrease in assets occurred primarily in investment securities available for sale, down \$26.0 million and total loans including loans held for sale, down \$9.4 million. Also, as noted above, management reviewed its goodwill asset for impairment during the third quarter and determined that it was fully impaired. The decline in goodwill totaled \$23.9 million. Investments declined as several callable securities were called as interest rates declined. The proceeds of these securities were used to offset reductions in certificates of deposit and money market deposits including public funds. The largest components of the decline in loans occurred in residential real estate mortgages, down \$13.6 million and indirect consumer loans, down \$8.8 million. Both of these declines are in line with management's expectations. The majority of our fixed rate mortgage product is currently being sold in the secondary market and indirect activity has been substantially reduced due to competition. Home equity loans increased by \$14.2 million and commercial loans increased by \$2.7 million from December 31, 2007. The increase in home equity loans included \$6.9 million of home equity loans referred by local, central Indiana, brokers with the customer and homes being located in central Indiana. As of September 30, 2008 this program has been curtailed as target goals for this channel were met. The allowance for loan losses increased since December 31, 2007. This was partially in reaction to an increase in nonperforming loans to 2.08% of total loans at September 30, 2008 from 1.22% at year end 2007.

Total deposits were \$594.5 million at September 30, 2008, a decline of \$61.9 million since December 31, 2007. The decline occurred primarily in money market deposits down \$49.0 million and certificates of deposit, down \$36.3 million. The decline in money market deposits was due to the outflow of public fund deposits as local governments paid bills as well as sought higher interest rate alternatives. Certificates of deposit were affected by less public fund deposits as well as management's efforts to reduce single service certificate of deposit customers where wholesale funding presented a substantially attractive alternative. Growth occurred in noninterest-bearing and interest-bearing demand deposit accounts, up \$1.5 million and \$19.2 million, respectively, and savings accounts, up \$2.5 million from December 31, 2007. Borrowings increased by \$31.1 million from year end 2007 to \$140.3 million at September 30, 2008 as wholesale borrowing costs declined below competitive rates for certain deposits as noted above.

Shareholders' equity declined by \$27.6 million from \$99.0 million at December 31, 2007 to \$71.4 million at September 30, 2008. The majority of the decline was the result of the net loss recorded. The net loss included \$23.9 million in expense recorded as the result of the review of goodwill for impairment and the subsequent charge to fully impair goodwill on Lincoln's books. Shareholders' equity was also negatively impacted by recording the decline in the fair market value of available-for-sale securities as of September 30, 2008. Accumulated other comprehensive loss grew to \$4.5 million at September 30, 2008 from a loss of \$4.4 million at December 31, 2007. Several "trust preferred" securities were responsible for a substantial amount of the increased loss in accumulated other comprehensive loss. The carrying value of these securities total \$13.4 million with a market value of \$7.9 million. Management has specifically reviewed these securities, along with other securities in a loss position, and determined, at this time, no other-than-temporary impairment exists. As of September 30, 2008 management has both the ability and the intent to hold these securities until recovery. Management does classify these securities as "available-for-sale" under the definition of Statement of Financial Accounting Standards No. 115, *Accounting for Certain Investments in Debt and Equity Securities* so certain circumstances, such as changes in market interest rates and related changes in the security's prepayment risk, needs for liquidity (for example, due to the withdrawal of deposits, increased demand for loans), changes in the availability of and the yield on alternative investments or changes in funding sources and terms could change management's assessment of its ability and intent to hold these securities.

Comparison of Operating Results for the Nine Months Ended September 30, 2008 and 2007

Net loss for the nine month period ended September 30, 2008 was \$22,364,000, or \$4.43 for both basic and diluted earnings per share. This compared to net income for the comparable period in 2007 of \$899,000 or \$.18 for basic and \$0.17 for diluted earnings per share. As noted above, during the first quarter of 2007, Lincoln Bank began

a strategy to restructure its balance sheet and, as a result, incurred a first quarter after-tax loss. The total year-to-date effect of the restructuring was a net loss of \$909,000, or \$.18 for both basic and diluted earnings per share.

The following table summarizes by quarter the final results of the balance sheet restructuring transaction and the financial statement income line affected.

Net interest income year-to-date through September 30, 2008 increased by \$1,859,000 or 11.5% from \$16,198,000 year-to-date 2007 to \$18,057,000 year-to-date in 2008. Generally the Bank has been in a liability sensitive position and falling interest rates have allowed the Bank to re-price its liabilities at a faster rate than it has had to re-price its assets. Net interest margin increased to 3.02% for the six-month period ended September 30, 2008 compared to 2.62% for the same period in 2007. The average yield on earning assets decreased 54 basis points for the nine month period ending September 30, 2008 compared to the same period in 2007 while the average cost of interest-bearing liabilities decreased 108 basis points in 2008 compared to 2007. This improved interest rate spread from 2.15% for the 2007 period to 2.69% for the 2008 period, or 54 basis points.

Lincoln Bank's provision for loan losses year-to-date through September 30, 2008 was \$2,162,000 compared to \$457,000 for the same period in 2007. A provision of \$1,507,000 was taken during the first quarter of 2008. The increased provision in the first quarter of 2008 was made for several reasons. After Lincoln Bank reviewed annual financial statements of certain of its loan customers it was determined that the customers' financial condition had declined and warranted downgrades of the credits. These loans were primarily development and commercial real estate loans affected by the downturn in the economy. The downgraded credits affected the outcome of the Bank's consistently applied methodology for determining loan loss allowances and resulted in a required increase to the allowance for loan losses. Although management believes the allowance for loan losses is appropriate to absorb future losses inherent in the portfolio as of September 30, 2008, further deterioration in either the economy or our borrowers' individual financial conditions may necessitate additional provision expense in the future.

Other income year-to-date through September 30, 2008 was \$5,527,000 compared to income of \$3,281,000 for the same period of 2007. As noted above the 2007 results are affected by a balance sheet restructuring that was initiated in the first quarter of 2007. Other income for the period ended September 30, 2007 included a net \$1,478,000 of net losses related to the balance sheet restructuring discussed above. This is illustrated in the table

[Table of Contents](#)

presented above. Excluding the balance sheet restructuring charges other income would have increased \$768,000 or 16.1%. The following comparisons have been adjusted for the 2007 restructuring effect where applicable. These are notable differences and are not meant to be an inclusive list of every change within total noninterest income. Net gains on sale of loans increased \$206,000 to \$1,033,000 for the nine month period ended September 30, 2008. We continue to sell the majority of our fixed rate mortgage production and realize gains on those sales. Service charges on deposit accounts and point of sale income have both been positively affected by our continued marketing program to attract new deposit customers. They increased by \$255,000 and \$193,000 respectively through the nine months ending September 30, 2008 as compared to the same period in 2007. We recognized gain on sales of securities totaling \$70,000 as certain callable securities were called during the first quarter of 2008. This compares to gains of \$14,000 on securities sold for the same period in 2007 after adjusting for the effect of the balance sheet restructuring. Loan servicing fees increased by \$25,000 to \$275,000 for the nine months ending September 30, 2008. This increase is due to the loans that were sold with servicing retained during the balance sheet restructuring in 2007. Other income increased from \$558,000 in the nine months ending September 30, 2007 to \$613,000 for same period in 2008. Various smaller increases made up this difference.

Other expenses for the nine month period ended September 30, 2008 were \$43,647,000, an increase of \$25,184,000 over the same period in 2007. As discussed above this includes the charge against earnings for the goodwill impairment totaling \$23,907,000 and various merger related expenses included in professional fees totaling \$549,000. Excluding these two items for comparative purposes, the goodwill impairment charge and the merger related expenses, other expenses would have totaled \$19,191,000 for the period ending September 30, 2008. This total would compare to the same period in 2007 of \$18,463,000 or an increase of \$728,000 or 3.9%. Most of the increase was in salaries and employee benefit costs, up \$624,000 or 6.8% for essentially the same reasons mentioned for the quarter and described above. Data processing costs increased \$203,000 or 10.7% due to customer account growth and certain feature enhancements. Occupancy costs also increased from \$1,769,000 to \$1,852,000 primarily from the addition of new branches in Greenwood and Mooresville in high traffic areas to replace existing offices in those communities. Advertising and business development costs for the nine months ended September 30, 2008 decreased \$151,000 to \$727,000 for essentially the same reasons as discussed in the quarterly results above. Other expenses increased \$182,000 to \$2,288,000 for the period ended September 30, 2008 compared to the same period in 2007 and, as above, the majority of this increase was due to increased Federal Deposit Insurance Corporation insurance premium. Other, smaller differences made up the balance of the change in other expenses.

Income tax expense for the nine months ended September 30, 2008 was \$138,000. This compares to income tax benefit of \$340,000 for the nine months ending September 30, 2007. In addition to the goodwill impairment charge during the quarter ending September 30, 2008 and certain merger related expenses not qualifying for a tax benefit, the difference between the actual rate recorded and the statutory rates was primarily due to permanent, non-taxable income recorded such as qualifying municipal interest and increases in cash value of life insurance and the benefit of a low income housing tax credit for the 2007 period.

Financial Condition at December 31, 2007 Compared to Financial Condition at December 31, 2006

Total assets were \$889.3 million at December 31, 2007, an increase of \$5.8 million or 0.7% compared to December 31, 2006. During the first quarter of 2007 Lincoln initiated a restructuring of its balance sheet that included the sale of certain securities as well as a portion of Lincoln Bank's fixed rate mortgage loan portfolio. The restructuring was completed during the second quarter.

The sale of mortgage loans continued the process of transforming the balance sheet from a traditional thrift asset and liability mix to a commercial bank structure. In addition, the reinvestment into securities allowed Lincoln Bank to structure expected cash flows that will support its planned increase in commercial and commercial real estate lending. Both the mortgages and the securities sold were generally those of lower yield in our portfolio of assets. Lincoln expects to realize immediate benefit in current earnings as a result of reinvesting in the new securities and additional benefit as cash flows from the new securities are received over the next

several years, providing funding for our expected commercial growth. Lastly, the sale of mortgages and the reinvestment into securities should have a risk based capital benefit, helping offset some of the capital pressures caused by our current commercial growth.

Restructuring Securities: As a part of the planned restructuring, Lincoln Bank transferred securities with a market value at March 31, 2007 of \$29.7 million from available for sale securities into trading securities and recognized a pretax loss of \$419,000. As a result of favorable movements in interest rates the actual loss incurred when these securities were sold totaled \$356,000. The average yield for this group of securities was approximately 4.64%. The reinvestment of the proceeds yielded 5.48% for investments purchased and approximately 7.50% for proceeds used to fund commercial loan originations. Approximately \$22.7 million of the sale proceeds were reinvested in securities and the remainder was used to fund current commercial growth. The transaction is expected to improve net interest margin through redeployment of the proceeds into higher yielding assets.

Restructuring Loans: The securitization and sale of approximately \$44.2 million of residential mortgage loans with an average yield of approximately 5.01% was also approved as part of the restructuring. The total loss experienced due to the sale of these loans was \$1.7 million. Of this, \$2.1 million was recorded as loss on sale of loans and once the loans were securitized a \$303,000 gain was recorded on the sale of securities. Individual details of the transaction are as follows:

- The loans were transferred from our held for investment portion of our loan portfolio to held for sale at the lower of cost or market. We recognized a pretax loss of \$1,327,000 in the quarter ending March 31, 2007 when we marked the loans to market value. An additional market value loss of \$753,000 was recognized in the quarter ending June 30, 2007. Ultimately, held for sale loans totaling \$3.58 million were transferred back into loans held for investment at their fair market value of \$3.46 million. The securitized loans had an original maturity of 10 and 15 years and were seasoned an average of nearly 3 years. Total proceeds from the sale of the securitized loans were approximately \$37.3 million. Of these proceeds, approximately \$33.8 million was reinvested into available-for-sale securities with a weighted average yield of approximately 5.60%.
- The remainder of the proceeds were used to fund commercial loan growth. A gain on sale totaling \$303,000, net of costs, was recognized when the securitized loans were sold.

Premises and equipment increased by \$3.8 million or 26.5% from \$14.3 million at December 31, 2006 to \$18.1 million at December 31, 2007. Investments in additional branch facilities and two future branching sites were responsible for the majority of this increase.

Investment Securities. Total investment securities decreased by \$.8 million to \$150.4 million at December 31, 2007 compared to the same date in 2006. All investment securities were classified as available for sale.

Loans and Allowances for Loan Losses. Net loans at December 31, 2007 were \$635.8 million, an increase of \$6.6 million from December 31, 2006. As noted above \$44.2 million of mortgage loans were marked for securitization at March 31, 2007. When the securitization was completed loans with a market value of \$3.5 million were returned to loans held for investment at market value. Net mortgage loans declined by \$40.7 million as a result of the securitization. Comparing to December 31, 2007 1-to-4 family mortgage loans have declined by \$51.1 million to \$147.9 million from \$199.0 million at December 31, 2006. Commercial and real estate construction loans experienced growth during 2007. Commercial loans increased by \$45.0 million, or 19.5% from December 31, 2006 to \$275.6 million at December 31, 2007. Real estate construction loans increased from \$61.2 million at December 31, 2006 to \$87.7 million at December 31, 2007, an increase of \$26.5 million or 43.3%. Multi-family real estate loans increased \$2.0 million to \$8.7 million at December 31, 2007. Consumer loans declined slightly from \$139.9 million at December 31, 2006 to \$138.4 million at December 31, 2007, a decrease of \$1.5 million or 1.0%. The restructuring of the balance sheet and the growth of our commercial and

[Table of Contents](#)

real estate construction portfolios continues our transformation to a more traditional commercial bank structure as we have discussed in prior communications. Competition for the level of creditworthy borrowers that we target remains high in the markets that we serve. Our growth has been, and will continue to be, constrained by our underwriting standards as we move into 2008. In addition, much of the 2007 commercial growth was a result of focused efforts by staff added in late 2006. Our intention is to continue to grow real estate and construction loans however levels achieved in 2007 may not be repeated.

The allowance for loan losses as a percentage of total loans increased from .96% to 1.02%. The increase in the allowance as a percentage of total loans resulted from our analysis of the risk factors present in our portfolio that could result in future loan losses. Our nonperforming loans as a percentage of total loans increased from .38% at the end of 2006 to 1.22% at the end of 2007. The allowance for loan losses as a percentage of nonperforming loans was 120.0% and 249.4% at December 31, 2007 and 2006, respectively. Nonperforming loans were \$7.9 million and \$2.5 million at each date, respectively. Of the \$5.4 million increase in nonperforming loans a total of \$5.1 million was related to two land development relationships. Specific reserves totaling \$958,000 have been established for these two relationships. Both relationships include real estate as collateral, one is primarily unimproved ground held for development and the other is a condominium project that is partially completed.

Lincoln has not experienced many of the challenges facing the banking industry as a whole due in large part to its policy of not investing in sub-prime mortgage loans or any (so-called "off-balance sheet") activity related to the structuring and sale of such loans. As the economy worsens some of Lincoln's customers will experience stress, in some cases severe enough to impact their ability to repay loans in a timely manner. Our plan is to work closely with our customers to help them work through the stress if possible and, where necessary, to liquidate the credit. Our policy of requiring prudent underwriting and the fact that Midwest property values have not been as severely impacted as other areas of the country should help mitigate the level of losses that Lincoln may incur. Property values have remained relatively stable in central Indiana throughout the huge swings up and back down experienced in California, Florida and isolated other parts of the country.

Deposits. Total deposits remained flat, increasing \$0.7 million from \$655.7 million at December 31, 2006 to \$656.4 million at December 31, 2007. Public funds deposits declined by \$16.4 million from December 31, 2006 to December 31, 2007.

Interest-bearing deposits increased by \$5.9 million, to \$610.5 million at December 31, 2007 from \$604.6 million at December 31, 2006 despite a net decline in interest-bearing public funds deposits of \$13.8 million over that same time period.

Although our non-interest bearing deposits declined by \$5.1 million from \$51.1 million at December 31, 2006 to \$46.0 million at December 31, 2007, \$2.6 million of this decline was due to public funds fluctuations.

Both interest-bearing deposits and non-interest bearing deposits were affected by migration of some non-interest bearing consumer customers to our new, generally low interest, interest-bearing demand products introduced early in 2007.

The interest-bearing deposits increased in several categories. Interest-bearing demand deposits increased from \$46.5 million at December 31, 2006 to \$54.2 million at December 31, 2007, an increase of 16.6%. Our marketing program for new, generally lower cost, interest bearing deposit products is responsible for much of this increase. Money market savings deposits increased by \$30.6 million or 21.4% from \$142.7 million at December 31, 2006 to \$173.3 million at December 31, 2007. A portion of this increase was due to our public funds money market product increasing by \$5.9 million. We also experienced an increase in money market savings accounts as certain money market product rates were increased to attract new customers. This effort also resulted in some existing customers migrating from our higher rate savings product to our money market product. Savings accounts declined by \$14.9 million from \$68.2 million at December 31, 2006 to \$53.3 million at December 31, 2007.

[Table of Contents](#)

Our certificates and other time deposits of \$100,000 or more declined \$24.5 million from \$129.8 million at December 31, 2006 to \$105.3 million at December 31, 2007 or 18.8%. A decline in public funds certificates of \$19.7 million was responsible for much of the total \$24.5 million decrease. Good growth in non-public fund deposits in the interest bearing deposits and money market savings areas noted above allowed us to rely less on higher cost public fund certificates of deposit at December 31, 2007.

During 2007 Lincoln Bank expanded its efforts to generate deposits. We have been pleased with our efforts to reshape the asset side of the balance sheet and feel it is positioned well for 2008 and beyond. Our next focus is to reshape the deposit side of the balance sheet from the traditional savings and loan, reliance on higher cost certificates of deposit, structure to a more commercial bank-like structure. The level of commercial loan growth has increased the universe of potential deposit customers and the implementation of our remote deposit capture platform allows us to compete for many commercial customers that may not be physically close to one of our banking facilities. We have increased our cash management staff during 2007, expanding on our philosophy of employing community business leaders who we train in banking. Our plan is to increase both our existing customer relationships as well as to expand new customer relationships with these staff additions.

Borrowed Funds. Total borrowed funds including securities sold under repurchase agreements were \$125.9 million at December 31, 2007 compared to \$120.5 million at the end of 2006. FHLB advances were \$108.1 million at December 31, 2007, an increase of \$4.4 million from December 31, 2006 while customer repurchase agreements decreased \$97,000 at year end 2007 to \$16.8 million. As described more fully in Note 11 in the Notes to Consolidated Financial Statements the Company had an outstanding balance of \$1.1 million on a line of credit with another financial institution at December 31, 2007.

Shareholders' Equity. Shareholders' equity decreased by \$.3 million from \$99.3 million at December 31, 2006 to \$99.0 million at December 31, 2007. Major items affecting shareholder's equity include the following decreases: repurchase of 70,437 shares common stock for \$1.2 million and cash dividends of \$2.8 million. Major items increasing shareholder's equity include: net income of \$1.7 million, stock options exercised of \$.7 million, ESOP shares earned of \$.5 million and the change in unrealized losses on securities, net of reclassification adjustment totaling \$.5 million. Other smaller items made up the remainder of the change in shareholder's equity.

Comparison of Operating Results For Years Ended December 31, 2007 and 2006

General. Net income for the year ended December 31, 2007 decreased \$1.2 million to \$1.7 million compared to \$2.9 million for the year ended December 31, 2006. Return on average assets for the years ended December 31, 2007 and 2006 was .20% and .33%, respectively. Return on average equity was 1.76% for the year ended December 31, 2007 and 2.89% for the year ended December 31, 2006.

Interest and Dividend Income. Total interest and dividend income was \$53.7 million for 2007 compared to \$51.2 million for 2006, an increase of \$2.5 million. The increase in interest income was due to an increase in average earning assets of \$7.8 million from \$814.5 million for 2006 to \$822.3 million for 2007 and the result of an increase in average earning asset yields by 24 basis points. The average yield on interest earning assets was 6.53% and 6.29% for the years ended December 31, 2007 and 2006, respectively.

Interest Expense. Interest expense was \$31.9 million for the year ended December 31, 2007 compared to \$29.0 million for the same period in 2006, an increase of \$2.9 million. Average interest bearing liabilities increased \$11.3 million to \$735.3 million for 2007 from \$724.0 million for 2006. The average cost of interest bearing liabilities was 4.34% and 4.01% for the years ended December 31, 2007 and 2006, respectively.

Net Interest Income. Net interest income for the year ended December 31, 2007 was \$21.8 million compared to \$22.2 million for the same period in 2006. The decline in net interest income in spite of increased average earning assets was the direct result of reduced spread. As shown above, average interest earning asset yields increased only 24 basis points while the cost of average interest bearing liabilities increased 33 basis points. This

[Table of Contents](#)

reduced our net interest spread from 2.28% in 2006 to 2.19% in 2007, or 9 basis points. Net interest income increased \$163,000 due to an increase in volume of net interest earning assets and liabilities and decreased \$588,000 as a result of the change in average rate of the net interest earning assets and interest bearing liabilities. Net interest margin was reduced to 2.65% for the twelve months ended December 31, 2007 from 2.73% for the same period in 2006.

Provision for Loan Losses. The provision for loan losses for the year ended December 31, 2007 was \$957,000 compared to \$884,000 last year for the same period. Non-performing loans to total loans at December 31, 2007 were 1.22% compared to .38% at December 31, 2006, while non-performing assets to total assets were .95% at December 31, 2007 compared to .31% at December 31, 2006. The allowance for loan losses as a percentage of loans at December 31, 2007 was 1.02% compared to .96% at December 31, 2006.

The 2007 provision and the allowance for loan losses were considered adequate based on size, condition and components of the loan portfolio, past history of loan losses and industry trends. While management estimates loan losses using the best available information, no assurance can be given that future additions to the allowance will not be necessary based on changes in economic and real estate market conditions, further information obtained regarding problem loans, identification of additional problem loans and other factors, both within and outside of management's control.

Service Charges on Deposit Accounts. Service charges on deposit accounts increased \$294,000 or 13.5% from \$2,180,000 for the year ended December 31, 2006 to \$2,474,000 for 2007. The primary reason for the increase in service charge revenue was the continued success of Lincoln Bank's courtesy overdraft product and new accounts opened as a result of our direct mail/premium award marketing campaign instituted in early 2007. This campaign is expected to continue and should generate additional deposit relationships as we move into 2008.

Net Gains (Losses) on Sales of Loans. Net losses on sales of loans of \$693,000 were recorded during the year ended December 31, 2007 as compared to \$518,000 of gains during 2006. As described above Lincoln Bank undertook a restructuring of its balance sheet during the first and second quarter of 2007 that resulted in the recognition of \$2.1 million of loss on sales of loans and recognized a gain from the sale of \$343,000 related to mortgage servicing rights. Excluding this net restructuring loss, net gains for 2007 would have been \$1.1 million, an increase over 2006 of \$517,000 or 100%. This increase was the result of more loans sold during 2007 compared to 2006. In 2007, loan sales totaled approximately \$66.4 million while in 2006 loan sales approximated \$37.7 million. The increase in loan sales was the result of a short-term change in the policy in 2006 of adding all loans into our portfolio to help compensate for slow loan demand in other loan categories. This policy was implemented in the fourth quarter of 2005 and continued into the second quarter of 2006. At that time, loan demand increased in commercial loans and we changed our policy to sell substantially all residential real estate loan volume that qualifies for sale in the secondary market. The average premium received on the sale of loans excluding the restructuring loss increased from 1.39% in 2006 to 1.66% during 2007. Substantially all loan sales during 2006 and 2007 were one- to-four-family mortgage loans. The decision to sell or retain loans is evaluated regularly depending on Lincoln Bank's interest rate sensitivity and excess investable funds. Future gains will depend on market prices for these loans as well as Lincoln Bank's ability to originate residential real estate mortgage loans and its desire to retain or sell those loans.

Net Realized Gains (Losses) on Sales of Securities. Net losses on sales of securities were \$25,000 in 2007 as compared to net gains on sales of securities in 2006 totaling \$14,000. As discussed above, certain mortgage loans were securitized as part of the restructuring of the balance sheet. The resulting \$37.3 million of held for trading securities were sold at a net gain of \$303,000. As additionally described above, certain other held for trading securities were also sold as part of the restructuring totaling \$29.4 million. This sale generated a loss of \$356,000. The remaining gain of \$28,000 resulted from \$14.9 million of available for sale securities sold in 2007. Proceeds from sales of securities available for sale during the year ended December 31, 2006 amounted to \$17.0 million with a net gain of \$14,000.

Point of Sale Income. Point of sale income generated by our debit cardholders shopping at merchant locations increased \$204,000 or 28.4% to \$922,000 for the year ended December 31, 2007 compared to \$718,000 for 2006. Our efforts toward increasing the number of checking accounts and the increased popularity of debit cards contributed to the rise in point of sale fee income. The popularity of debit card use continues to expand and as new accounts are opened debit card transaction should increase.

Loan Servicing Fees. Loan servicing fees earned for the year ended December 31, 2007 were \$346,000 compared to \$336,000 for 2006. The increase in loan servicing income was directly related to the restructuring of the balance sheet where mortgages were sold with servicing retained. Loan servicing income averages approximately 27 basis points of serviced loans. As noted above the majority of the Company's production is sold servicing released.

Increase in Cash Value of Life Insurance. The increase in cash surrender value of life insurance was \$849,000 for the year ended December 31, 2007 compared to \$689,000 for 2006. This increase reflects an additional life insurance investment made in late 2006 as well as slightly higher earnings on the life insurance policies.

Other Income. Other income for 2007 was \$1,150,000 compared to \$974,000 for the year ended December 31, 2006. As a part of the balance sheet restructuring described above a hedge transaction was entered into with the intent to mitigate fluctuations in interest rates between the initiation of the balance sheet restructuring and the culmination of the transaction. This hedge position was liquidated upon completion of the transaction and resulted in a gain of \$359,000. Several smaller declines make up the remainder of the change in other income.

Salaries and Employee Benefits. Salaries and employee benefits were \$12,295,000 for the year ended December 31, 2007 compared to \$11,663,000 for 2006, an increase of \$632,000 or approximately 5.4%. The largest cost increase was due to increased salary costs primarily in our commercial loan department. This increase in salary was reflected in our increased commercial loan outstandings.

The Lincoln Companies employed approximately 237 full-time equivalent employees in December, 2007, compared to 226 during December, 2006.

Net Occupancy Expenses. Occupancy expenses increased \$343,000 or 16.9% from \$2,024,000 in 2006 to \$2,367,000 in 2007. The largest increases occurred in rent expense which increased \$113,000 as new land for a new facility was leased in 2007 and real estate tax that increased \$186,000. Additional facilities and increased assessed valuations contributed to this increase. Increased leasehold improvement depreciation and various other smaller categories also increased. Two new branch facilities came fully online during 2007 and additional land was purchased for two future branch expansion locations.

Equipment Expenses. Equipment expenses totaled \$1,658,000 in 2007 compared to \$1,549,000 for 2006, an increase of \$109,000 or 7.0%. Most of this increase was due to increased information technology expenditures including certain software licensing.

Data Processing Fees. Data processing fees increased \$236,000 or 10.1% from \$2,334,000 in 2006 to \$2,570,000 in 2007. This increase was primarily related to increased volume of business and other services added to improve customer service as well as increased and improved branch network communications. Lincoln operates in a service bureau environment where growth has a direct impact on data processing costs.

Professional Fees. Professional fees decreased \$129,000 or 14.8% from 2006 to \$744,000 in 2007. The decrease was the direct result of additional costs required as a result of compliance with the Sarbanes-Oxley Act in 2006.

Director and Committee Fees. Director and committee fees decreased \$41,000 or 9.4% from \$435,000 in 2006 to \$394,000 in 2007. This decrease reflected two of our directors retiring in the second quarter of 2007.

Advertising and Business Development. Advertising and business development expenses increased \$182,000 or 19.4% from \$940,000 in 2006 to \$1,122,000 in 2007. Much of this increase was due to the implementation of a new deposit marketing program targeting new consumer checking customers implemented in early 2007. This program has resulted in a substantial increase in the opening of consumer accounts over prior periods and has helped improve service charge income as well as, to a lesser extent, consumer deposit balances. We expect this program to continue in 2008.

Amortization of Mortgage Servicing Rights. Amortization of mortgage servicing rights increased \$35,000 or 29.7% from \$118,000 for the year ended December 31, 2006, to \$153,000 for the year ended December 31, 2007. Falling interest rates along with the additional mortgage servicing rights created as a part of the restructuring described above have resulted in higher amortization of our mortgage servicing asset.

Core Deposit Intangibles Expense. Amortization of core deposit intangibles decreased \$86,000 from \$607,000 for 2006 to \$521,000 for 2007. This was the result of less amortization as a result of utilizing a declining balance method of amortization.

Other Expenses. Other expenses increased \$168,000 or 6.7% from \$2,500,000 for the year ended December 31, 2006, to \$2,668,000 for the year ended December 31, 2007. Losses on deposit accounts increased by \$104,000 and postage expense increased by \$27,000. Deposit losses included several larger losses primarily related to customer fraud. Processes and procedures have been adjusted to reduce this risk going forward. Postage expense has increased in part due to the additional number of accounts opened in 2007.

Income Tax Expense. Income tax expense decreased \$1,202,000 from the year ended December 31, 2006 to 2007. A tax benefit of \$389,000 was incurred in 2007 as a result of lower net operating income, nontaxable income and low income housing tax credits.

Comparison of Operating Results For Years Ended December 31, 2006 and 2005

General. Net income for the year ended December 31, 2006 increased \$1.7 million to \$2.9 million compared to \$1.2 million for the year ended December 31, 2005. Return on average assets for the years ended December 31, 2006 and 2005 was .33% and .14%, respectively. Return on average equity was 2.89% for the year ended December 31, 2006 and 1.18% for the year ended December 31, 2005.

Interest and Dividend Income. Total interest and dividend income was \$51.2 million for 2006 compared to \$43.9 million for 2005, an increase of \$7.3 million. The increase in interest income was due to an increase in average earning assets of \$49.1 million from \$765.4 million for 2005 to \$814.5 million for 2006 and the result of an increase in average earning asset yields by 56 basis points. The average yield on interest earning assets was 6.29% and 5.73% for the years ended December 31, 2006 and 2005, respectively.

Interest Expense. Interest expense was \$29.0 million for the year ended December 31, 2006 compared to \$21.0 million for the same period in 2005, an increase of \$8.0 million. Average interest bearing liabilities increased \$44.3 million to \$724.0 million for 2006 from \$679.7 million for 2005. The average cost of interest bearing liabilities was 4.01% and 3.09% for the years ended December 31, 2006 and 2005, respectively.

Net Interest Income. Net interest income for the year ended December 31, 2006 was \$22.2 million compared to \$22.9 million for the same period in 2005. The decline in net interest income in spite of increased average earning assets was the direct result of reduced spread. As shown above, average interest earning asset yields increased only 56 basis points while the cost of average interest bearing liabilities increased 92 basis points. This reduced our net interest spread from 2.64% in 2005 to 2.28% in 2006, or 36 basis points. Net interest income increased \$3.8 million due to an increase in volume of net interest earning assets and liabilities and decreased \$4.5 million as a result of the change in average rate of the net interest earning assets and interest bearing liabilities. Net interest margin was reduced to 2.73% for the twelve months ended December 31, 2006 from 2.99% for the same period in 2005.

Provision for Loan Losses. The provision for loan losses for the year ended December 31, 2006 was \$884,000 compared to \$2,642,000 last year for the same period. The primary reason for the increased provision in 2005 was the result of a \$1,546,000 provision for one credit. The entire amount of the provision for that credit was ultimately recognized as a charge-off during 2005. Non-performing loans to total loans at December 31, 2006 were .38% compared to .59% at December 31, 2005, while non-performing assets to total assets were .31% at December 31, 2006 compared to .45% at December 31, 2005. The allowance for loan losses as a percentage of loans at December 31, 2006 was .96% compared to .97% at December 31, 2005.

The 2006 provision and the allowance for loan losses were considered adequate based on size, condition and components of the loan portfolio, past history of loan losses and industry trends. While management estimates loan losses using the best available information, no assurance can be given that future additions to the allowance will not be necessary based on changes in economic and real estate market conditions, further information obtained regarding problem loans, identification of additional problem loans and other factors, both within and outside of management's control.

Service Charges on Deposit Accounts. Service charges on deposit accounts increased \$110,000 or 5.3% from \$2,070,000 for the year ended December 31, 2005 to \$2,180,000 for 2006. The primary reason for the increase in service charge revenue was the continued success of Lincoln Bank's courtesy overdraft product.

Net Realized and Unrealized Gains on Sales of Loans. Net realized and unrealized gains on sales of loans of \$518,000 were recorded during the year ended December 31, 2006 as compared to \$759,000 during 2005. This decrease was the result of fewer loans sold during 2006 compared to 2005. In 2006, loan sales totaled approximately \$37.7 million while in 2005 loan sales approximated \$64.2 million. The decrease in loan sales was the result of a short-term change in the policy of selling nearly all fixed rate residential real estate loan volume with maturities over 15 years during 2005 to adding all loans into our portfolio to help compensate for slow loan demand in other loan categories. This policy was implemented in the fourth quarter of 2005 and continued into the second quarter of 2006. At that time, loan demand increased in commercial loans and we changed our policy to sell all residential real estate loan volume that qualifies for sale in the secondary market. The average premium received on the sale of loans increased from 1.20% in 2005 to 1.39% during 2006. Substantially all loan sales during 2005 and 2006 were one- to-four-family mortgage loans. The decision to sell or retain loans is evaluated regularly depending on Lincoln Bank's interest rate sensitivity and excess investable funds. Future gains will depend on market prices for these loans as well as Lincoln Bank's ability to originate residential real estate mortgage loans and its desire to retain or sell those loans.

Net Realized Gains (Losses) on Securities Available for Sale. Proceeds from sales of securities available for sale during the year ended December 31, 2006 amounted to \$17.0 million with a net gain of \$14,000. During 2005 proceeds from sales of securities available for sale were \$54.9 million with a net loss of \$97,000. This included \$37.5 million that were sold in June 2005 as part of a balance sheet restructuring that resulted in a loss of approximately \$497,000.

Point of Sale Income. Point of sale income generated by our debit cardholders shopping at merchant locations increased \$135,000 or 23.2% to \$718,000 for the year ended December 31, 2006 compared to \$583,000 for 2005. Our efforts toward increasing the number of checking accounts and the increased popularity of debit cards contributed to the rise in point of sale fee income.

Loan Servicing Fees. Loan servicing fees earned for the year ended December 31, 2006 were \$336,000 compared to \$403,000 for 2005. The decline in loan servicing income was directly related to the decrease in the average balance of serviced loans. Loan servicing income averages approximately 29 basis points of serviced loans.

Increase in Cash Value of Life Insurance. The increase in cash surrender value of life insurance was \$689,000 for the year ended December 31, 2006 compared to \$673,000 for 2005.

[Table of Contents](#)

Other Income. Other income for 2006 was \$974,000 compared to \$676,000 for the year ended December 31, 2005. The largest increase was due to a loss on abandonment of fixed assets during 2005 totaling \$114,000 while losses on abandonment of fixed assets were only \$7,000 in 2006.

Salaries and Employee Benefits. Salaries and employee benefits were \$11,663,000 for the year ended December 31, 2006 compared to \$10,791,000 for 2005, an increase of \$872,000 or approximately 8.1%. The largest cost increase was due to increased hospitalization benefit costs, up \$351,000 in 2006 from 2005. In addition, employee merit raises in early 2006 contributed approximately \$265,000 to the increase. Increases in expense for the recognition and retention plan as well as option expense recognized for the first time in 2006 in accordance with FAS 123(R) totaled an additional \$170,000 of the \$872,000 increase. The Company employed approximately 226 full-time equivalent employees in December, 2006, compared to 231 during December, 2005.

Net Occupancy Expenses. Occupancy expenses increased \$88,000 or 4.5% from \$1,936,000 in 2005 to \$2,024,000 in 2006. Most of this increase related to premises leased during 2005 that incurred a full year expense in 2006. Increased rent, leasehold improvement depreciation and property taxes were several areas where expense increased.

Equipment Expenses. Equipment expenses totaled \$1,549,000 in 2006 compared to \$1,450,000 for 2005, an increase of \$99,000 or 6.8%. Most of this increase was due to increased depreciation and software amortization expense as fixed assets were added with relatively short lives.

Data Processing Fees. Data processing fees decreased \$21,000 or .9% from \$2,355,000 in 2005 to \$2,334,000 in 2006. This was primarily due to renegotiating the contract with our major core system processor during 2006. New pricing became effective in April, 2006; however, as part of our renegotiation we signed a five year contract with our servicer. Costs for 2006 would have been less with the new contract except for increased volume of business and other services added to improve customer service.

Professional Fees. Professional fees increased \$237,000 or 37.3% from \$636,000 in 2005 to \$873,000 in 2006. The increase was the direct result of additional costs required as a result of compliance with the Sarbanes-Oxley Act.

Director and Committee Fees. Director and committee fees increased \$46,000 or 11.8% from \$389,000 in 2005 to \$435,000 in 2006. This increase included one additional director added in late 2005, increased fees for a portion of the year for a previously internal officer that served as an outside director in early 2006 and the annual increase in directors fees.

Advertising and Business Development. Advertising and business development expenses increased \$193,000 or 25.8% from \$747,000 in 2005 to \$940,000 in 2006. Television ads and branding efforts increased in 2006 as we concentrated on improving consumer and commercial penetration in the markets we serve. Part of the cost increase was related to costs incurred at the end of 2006 as we began a new deposit marketing program targeting new consumer checking customers. This program will be fully implemented in 2007.

Amortization of Mortgage Servicing Rights. Amortization of mortgage servicing rights decreased \$153,000 or 56.5% from \$271,000 for the year ended December 31, 2005, to \$118,000 for the year ended December 31, 2006. Rising interest rates along with the majority of our sold mortgages being sold on a service released to the buyer basis have resulted in lower amortization of our mortgage servicing asset.

Core Deposit Intangibles Expense. Amortization of core deposit intangibles decreased \$113,000 from \$720,000 for 2005 to \$607,000 for 2006. This was the result of less amortization as a result of utilizing a declining balance method of amortization.

Other Expenses. Other expenses decreased \$723,000 or 22.4% from \$3,223,000 for the year ended December 31, 2005, to \$2,500,000 for the year ended December 31, 2006. Certain expenses were lower in 2006 than in 2005. We experienced a loss on sale of other real estate in 2005 that reversed to a gain on sale of other

[Table of Contents](#)

real estate in 2006. This was responsible for \$133,000 of the improvement in other expenses. Office supplies expense was \$136,000 lower in 2006 than in 2005. Merger related expenses that carried over into 2005, as well as improved supplies expense management were responsible for this substantial improvement. Expenses relating to telephone, dues, unreimbursed loan costs, postage and regulatory assessments are also included in other expenses.

Income Tax Expense. Income tax expense increased \$853,000 from the year ended December 31, 2005 to 2006. Income taxes were 22% of pre-tax income for the year ended December 31, 2006. A tax benefit of \$40,000 was incurred in 2005 as a result of lower net operating income that was more than offset by a greater amount of nontaxable income and low income housing tax credits.

Asset Quality

Lincoln currently classifies loans as special mention, substandard, doubtful and loss to assist management in addressing collection risks and pursuant to regulatory requirements. Special mention loans represent credits that have potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects or Lincoln's credit position at some future date. Substandard loans represent credits characterized by the distinct possibility that some loss will be sustained if deficiencies on the loans are not corrected. Doubtful loans possess the characteristics of substandard loans, but collection or liquidation in full is doubtful based upon existing facts, conditions and values. A loan classified as a loss is considered uncollectible. Lincoln had \$8.6 million and \$13.7 million of loans classified as special mention as of September 30, 2008 and December 31, 2007, respectively. In addition, Lincoln had \$27.2 million and \$8.5 million of loans classified as substandard at September 30, 2008 and December 31, 2007, respectively. Loans classified as doubtful totaled \$.2 million at September 30, 2008 and \$.7 million at December 31, 2007. At September 30, 2008 and December 31, 2007 there were no loans classified as loss. The increases in classified loans occurred primarily in the first quarter of 2008 after loan officers of Lincoln Bank reviewed annual financial statements of certain of its loan customers as they became available and determined that the customers' financial condition had declined and warranted downgrades of the credits. These loans were primarily development and commercial real estate loans affected by the downturn in the economy. Loans that were downgraded totaled over \$30 million and spanned over a dozen relationships. Nonperforming assets of Lincoln Bank increased to \$14.2 million at September 30, 2008 from \$7.9 million at December 31, 2007. More than half of this increase was related to one specific relationship that had been considered in our analysis of the allowance for loan losses at March 31, 2008 and provided accordingly through additional provision at that time. We continue to monitor the status of this credit to work towards a successful resolution.

At September 30, 2008, and December 31, 2007, non-accrual loans were \$10.3 million and \$7.7 million respectively. At September 30, 2008 and December 31, 2007, respectively, accruing loans delinquent 90 days or more totaled \$2.9 million and \$.2 million. A substantial portion of this increase was related to one specific relationship that had been considered in our analysis of the allowance for loan losses at March 31, 2008 and provided accordingly through additional provision at that time. At September 30, 2008 and December 31, 2007, the allowance for loan losses was \$8.3 million and \$6.6 million, respectively or 1.31% of total loans including loans held for sale at September 30, 2008 and 1.02% at December 31, 2007.

Liquidity and Capital Resources

Lincoln's primary sources of funds are deposits, borrowings and the proceeds from principal and interest payments on loans. In addition, securities maturities and amortization of mortgage-backed securities are structured to provide a source of liquidity. Sales of loans and available for sale securities can also provide liquidity should the need arise. While maturities and scheduled amortization of loans and mortgage-backed securities are a predictable source of funds, deposit flows and mortgage and mortgage-backed securities prepayments are greatly influenced by general interest rates, economic conditions and competition.

Other, primarily money center, financial institutions have experienced a tightening of liquidity as various sectors of the economy have contracted and certain financing alternatives available to these banks has been

[Table of Contents](#)

curtailed or eliminated. Lincoln has been affected by this tightening, not necessarily through reduced liquidity since Lincoln did not rely on these same sources for its liquidity, but through pricing for retail deposits. Lincoln has several wholesale alternatives available to it and weighs the cost of these alternatives against consumer market rates, especially in single service households.

Lincoln's primary investment activity is the origination of loans. During the years ended December 31, 2007, 2006 and 2005, cash used to originate loans exceeded repayments and other changes by \$49.4 million, \$37.1 million and \$24.3 million respectively. Loan growth has been funded by a combination of deposit growth, cash flow generated from monthly repayments of mortgage-backed securities and proceeds from sales and maturities of securities available for sale as well as certain loans sold as part of the balance sheet restructuring activities described above.

During the years ended December 31, 2007, 2006 and 2005 Lincoln purchased \$67.0 million, \$38.0 million and \$178.4 million of securities available for sale, respectively. During 2007, 2006 and 2005, these purchases were funded by proceeds from sales and maturities of securities available for sale and deposit growth as well as the sale of certain loans sold as part of the balance sheet restructuring activities described above. During the years ended December 31, 2007, 2006 and 2005, Lincoln received proceeds from maturities of mortgage-backed securities and other securities available for sale and held to maturity and held for trading of \$24.0 million, \$21.4 million and \$90.9 million, respectively. During the years ended December 31, 2007, 2006 and 2005, Lincoln received proceeds for the sale of mortgage-backed and other securities available for sale and held for trading of \$81.9 million, \$17.0 million and \$54.9 million which funds were used to fund its investment securities available for sale, loan growth and reduction of borrowed funds.

Lincoln had outstanding loan commitments and unused lines of credit of \$139.0 million and standby letters of credit outstanding of \$4.7 million at December 31, 2007. Management anticipates that Lincoln will have sufficient funds from loan repayments, loan sales, and from its ability to borrow additional funds from the FHLB of Indianapolis and other contingent sources to meet current commitments. Certificates of deposit scheduled to mature in one year or less at December 31, 2007 totaled \$242.3 million. Management believes that a significant portion of such deposits will remain with Lincoln based upon historical deposit flow data and Lincoln's competitive pricing in its market area. In addition, the liquidity sources listed above would also be available to fund any shortfalls that result from deposit run-off.

Liquidity management is both a daily and long-term function of Lincoln's management strategy. In the event that Lincoln should require funds beyond its ability to generate them internally, additional funds are available through the use of FHLB advances, brokered deposits and federal funds purchased. Lincoln had outstanding FHLB advances in the amount of \$108.1 million at December 31, 2007. As an additional funding source, Lincoln has also sold securities under repurchase agreements. Lincoln had \$16.8 million outstanding securities sold under repurchase agreements at December 31, 2007.

Other significant investing and financing activities for Lincoln included repurchases of common stock during 2007 and 2006. During 2007, 2006 and 2005, Lincoln repurchased common stock for \$1,199,000 \$1,973,000 and \$285,000, respectively. These transactions were funded by dividends from Lincoln Bank and borrowing on Lincoln's line of credit.

Quantitative measures established by regulation to ensure capital adequacy require Lincoln and the subsidiary banks to maintain minimum amounts and ratios (set forth in the table below) of total and Tier I capital (as defined in the regulations) to risk-weighted assets (as defined), and of Tier I capital (as defined) to average assets (as defined).

Table of Contents

Management believes, as of September 30, 2008, that Lincoln and Lincoln Bank meet all capital adequacy requirements to which they are subject. Lincoln's and Lincoln Bank's actual capital amounts and ratios under the state charter are presented in the following table.

In response to the financial crises affecting the banking system and financial markets and going concern threats to investment banks and other financial institutions, on October 3, 2008, the Emergency Economic Stabilization Act of 2008 (**EESA**) was signed into law. Pursuant to EESA, the U.S. Treasury will have the authority to, among other things, purchase up to \$700 billion of mortgages, mortgaged-backed securities and certain other financial instruments from financial institutions for the purpose of stabilizing and providing liquidity to the U.S. financial markets. On October 14, 2008, the Department of the Treasury announced that it would purchase equity stakes in a wide variety of banks and thrifts using \$250 billion of capital from the EESA funds under a program known as the Troubled Asset Relief Program Capital Purchase Program (**TARP Capital Purchase Program**). The TARP Capital Purchase Program involves the purchase by the Treasury of preferred stock in financial institutions with warrants to purchase common stock. Also on October 14, 2008, the FDIC announced the Temporary Liquidity Guarantee Program, which provides for the guarantee of newly-issued senior unsecured debt of banks, thrifts and certain holding companies as well as full deposit insurance coverage for non-interest bearing deposit transaction accounts, regardless of dollar amount. Unlimited coverage for non-interest bearing transaction accounts under the Temporary Liquidity Guarantee Program is available for 30 days without charge and thereafter at a cost of 10 basis points per annum. Lincoln and Lincoln Bank are currently assessing their participation in the TARP Capital Purchase Program and the Temporary Liquidity Guarantee Program, and are consulting with First Merchants regarding such participation in light of the proposed merger of Lincoln and First Merchants. Lincoln has applied for funds under the TARP Capital Purchase Program in the event the merger is not consummated.

Off-Balance Sheet Arrangements

Lincoln does not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on Lincoln's financial condition, change in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors. The term "off-balance sheet arrangement" generally means any transaction, agreement, or other contractual arrangement to which any entity unconsolidated with Lincoln is a party and under which Lincoln has (i) any obligation arising under a guarantee contract, derivative instrument or variable interest; or (ii) a retained or contingent interest in assets transferred to such entity or similar arrangement that serves as credit, liquidity or market risk support for such assets.

Contractual Obligations

Lincoln's contractual obligations as of December 31, 2007 are summarized in the following table.

	Payments due by period				
	Total	Less than 1 year	2 to 3 years	4 to 5 years	More than 5 years
Contractual Obligations					
Long Term Debt (1)	\$87,000	\$ 5,000	\$46,000	\$21,000	\$ 15,000

Total (5)	<u>\$97,958</u>	<u>\$ 8,067</u>	<u>\$50,584</u>	<u>\$22,104</u>	<u>\$ 17,203</u>

- (1) Long term debt is primarily FHLB advances and does not include borrowings with an initial term of less than one year. See "Notes to Consolidated Financial Statements—Borrowings," contained in Note 11, for information related to collateral and amounts with various options.
- (2) Leased facilities for six locations with various expiration dates none of which expires beyond 2027. Some of the leases contain rent adjustment provisions over the life of the lease and allocation of expense increases for shared expenses with other lease tenants.
- (3) The purchase obligations are to pay for office equipment rentals and data processing services including core system processing, item processing and ATM transaction processing. The contracts are for varied terms none of which extends beyond 2011.
- (4) A dividend on common stock was declared by the Board of Directors to shareholders of record on December 31, 2007 and payable on January 15, 2008.
- (5) For information regarding the contractual maturities of deposit liabilities, which are not included in the above table, see "Notes to Consolidated Financial Statements—Deposits," contained in Note 9.

Impact of Accounting Changes

Lincoln has a stock-based employee compensation plan, which is described more fully in Note 18 to its December 31, 2007 consolidated financial statements. Prior to 2006, Lincoln accounted for this plan under the recognition and measurement principles of APB Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations. No stock-based employee compensation cost is reflected in net income, as all options granted under those plans had an exercise price equal to the market value of the underlying common stock on the grant date.

Effective January 1, 2006, Lincoln adopted the fair value recognition provisions of Statement of Financial Accounting Standards (SFAS) No. 123(R), Share-Based Payment. Lincoln selected the modified prospective application. Accordingly, after January 1, 2006, Lincoln began expensing the fair value of stock options granted, modified, repurchased or cancelled.

[Table of Contents](#)

The following table illustrates the effect on net income and earnings per share if Lincoln had applied the fair value provisions of Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock-Based Compensation, to stock-based employee compensation.

In September 2006, the FASB issued Statement No. 157, Fair Value Measurements. This Statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This Statement establishes a fair value hierarchy about the assumptions used to measure fair value and clarifies assumptions about risk and the effect of a restriction on the sale or use of an asset. The standard is effective for fiscal years beginning after November 15, 2007. The adoption on January 1, 2008 of SFAS No. 157 did not have a material impact on the financial condition or results of operations of Lincoln.

On February 15, 2007, the FASB issued its Statement No. 159, The Fair Value Option for Financial Assets and Financial Liabilities—including an Amendment of FASB Statement No. 115. FAS 159 permits entities to elect to report most financial assets and liabilities at their fair value with changes in fair value included in net income. The fair value option may be applied on an instrument-by-instrument or instrument class-by-class basis. The option is not available for deposits withdrawable on demand, pension plan assets and obligations, leases, instruments classified as stockholders' equity, investments in consolidated subsidiaries and variable interest entities and certain insurance policies. The new standard is effective at the beginning of Lincoln's fiscal year beginning January 1, 2008, and early application may be elected in certain circumstances. Lincoln expects to first apply the new standard at the beginning of its 2008 fiscal year. The adoption on January 1, 2008 of SFAS No. 159 did not have a material impact on the financial condition or results of operations of Lincoln.

Income tax in the consolidated statements of income includes deferred income tax provisions or benefits for all significant temporary differences in recognizing income and expenses for financial reporting and income tax purposes. Lincoln files income tax returns in the U.S. federal and Indiana jurisdictions. With few exceptions, Lincoln is no longer subject to U.S. federal, state and local examinations by tax authorities for years before 2003.

Lincoln adopted the provisions of the Financial Accounting Standards Board (FASB) Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109, on January 1, 2007. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. As a result of the implementation of FIN 48, Lincoln did not identify any uncertain tax positions that it believes should be recognized in the financial statements.

Financial Accounting Standards Board Statement No. 141 (SFAS 141R), "Business Combinations (Revised 2007)," was issued in December 2007 and replaces SFAS 141 which applies to all transactions and other events in which one entity obtains control over one or more other businesses. SFAS 141R requires an acquirer, upon initially obtaining control of another entity, to recognize the assets, liabilities and any non-controlling interest in the acquiree at fair value as of the acquisition date. Contingent consideration is required to be recognized and

[Table of Contents](#)

measured at fair value on the date of acquisition rather than at a later date when the amount of that consideration may be determinable beyond a reasonable doubt. This fair value approach replaces the cost allocation process required under SFAS 141 whereby the cost of an acquisition was allocated to the individual asset acquired and liabilities assumed based on their estimated fair value. SFAS 141R requires acquirers to expense acquisition-related costs as incurred rather than allocating such costs to the assets acquired and liabilities assumed.

Under SFAS 141R, the requirements of SFAS 146, "Accounting for Costs Associated with Exit or Disposal Activities," would have to be met in order to accrue for a restructuring plan in purchase accounting. Pre-acquisition contingencies are to be recognized at fair value, unless it is a non-contractual contingency that is not likely to materialize, in which case, nothing should be recognized in purchase accounting. Instead, that contingency would be subject to the probable and estimable recognition criteria under SFAS 5, "Accounting for Contingencies." The Company is evaluating the requirements of SFAS 141R to determine if it will have a significant impact on the Company's financial condition or results of operations. This statement is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008 with early adoption prohibited.

Financial Accounting Standards Board Statement No. 160 (SFAS 160), "Noncontrolling Interest in Consolidated Financial Statements, an amendment of ARB Statement No. 51," was issued in December 2007 and establishes accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS 160 clarifies that a non-controlling interest in a subsidiary, which is sometimes referred to as a minority interest, is an ownership interest in the consolidated entity that should be reported as a component of equity in the consolidated financial statements. Among other requirements, SFAS 160 requires consolidated net income to be reported at amounts that are attributable to both the parent and the non-controlling interest. It also requires disclosure, on the face of the consolidated income statement, of the amounts of consolidated net income attributable to the parent and to the non-controlling interest. SFAS 160 is effective for the Company on January 1, 2009 and is not expected to have a significant impact on the Company's financial statements.

Financial Accounting Standards Board Statement No. 161 (SFAS 161), "Disclosures About Derivative Instruments and Hedging Activities, an Amendment of FASB Statement No. 133," was issued in March 2008 and amends and expands the disclosure requirements of SFAS 133 to provide greater transparency about (i) how and why an entity uses derivative instruments, (ii) how derivative instruments and related hedge items are accounted for under SFAS 133 and its related interpretations, and (iii) how derivative instruments and related hedged items affect an entity's financial position, results of operations and cash flows. To meet those objectives, SFAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments and disclosures about credit-risk-related contingent features in derivative agreements. SFAS 161 is effective for the Company on January 1, 2009 and is not expected to have a significant impact on the Company's financial statements.

Impact of Inflation and Changing Prices

The consolidated financial statements presented herein have been prepared in accordance with generally accepted accounting principles. These principles require the measurement of financial position and operating results in terms of historical dollars, without considering changes in the relative purchasing power of money over time due to inflation.

Lincoln's primary assets and liabilities are monetary in nature. As a result, interest rates have a more significant impact on Lincoln's performance than the effects of general levels of inflation. Interest rates, however, do not necessarily move in the same direction or with the same magnitude as the price of goods and services, since such prices are affected by inflation. In a period of rapidly rising interest rates, the liquidity and maturities structures of Lincoln's assets and liabilities are critical to the maintenance of acceptable performance levels.

[Table of Contents](#)

The principal effect of inflation, as distinct from levels of interest rates, on earnings is in the area of noninterest expense. Such expense items as employee compensation, employee benefits and occupancy and equipment costs may be subject to increases as a result of inflation. An additional effect of inflation is the possible increase in the dollar value of the collateral securing loans that Lincoln has made. Lincoln is unable to determine the extent, if any, to which properties securing its loans have appreciated in dollar value due to inflation.

Quantitative and Qualitative Disclosures about Market Risks

An important component of Lincoln Bank's asset/liability management policy includes examining the interest rate sensitivity of its assets and liabilities and monitoring the expected effects of interest rate changes on the net portfolio value of its assets. An asset or liability is interest rate sensitive within a specific time period if it will mature or reprice within that time period. If Lincoln Bank's assets mature or reprice more quickly or to a greater extent than its liabilities, net portfolio value and net interest income would tend to increase during periods of rising interest rates, but decrease during periods of falling interest rates. Conversely, if Lincoln Bank's assets mature or reprice more slowly or to a lesser extent than its liabilities, net portfolio value and net interest income would tend to decrease during periods of rising interest rates but increase during periods of falling interest rates. Lincoln Bank's policy has been to mitigate the interest rate risk inherent in its historical business, the origination of long-term loans funded by short-term deposits, by pursuing certain strategies designed to decrease the vulnerability of Lincoln Bank's earnings to material and prolonged changes in interest rates.

The Bank's board of directors has delegated responsibility for the day-to-day management of interest rate risk to the Asset/Liability (ALCO) Committee. The ALCO Committee meets monthly to manage and review Lincoln Bank's assets and liabilities. The committee considers the bank's interest rate risk position, liquidity needs. The ALCO Committee establishes interest rates for deposits and reviews loan product pricing and competitive pricing weekly.

The Bank manages the relationship between interest rates and the effect on Lincoln Bank's economic value of equity (EVE). This approach calculates the difference between the present value of expected cash flows from assets and the present value of expected cash flows from liabilities, as well as cash flows from off-balance sheet contracts. Lincoln Bank manages assets and liabilities within the context of the marketplace, regulatory limitations and within limits established by Lincoln Bank's Board of Directors on the amount of change in EVE which is acceptable given certain interest rate changes.

Presented below, as of September 30, 2008 is an analysis showing the present value impact of changes in interest rates, assuming a comprehensive mark-to-market environment. The estimated net market value of interest sensitive assets and liabilities in the current environment at that date increased from \$44.8 million at December 31, 2006 to an estimated net market value at December 31, 2007 of \$69.9 million. Fluctuations in external interest rates including the inversion of the yield curve in 2006 resulted

[Table of Contents](#)

in our short term and non-maturity deposit liabilities re-pricing at a faster rate and a substantially narrower spread than historically experienced. Generally, the result of a narrower spread is a lower net market value. As the interest rate curve has moved back towards a more “traditional” positively sloped shape and interest rates have fallen the net market value of interest bearing assets and interest bearing liabilities has improved. The tables also illustrate the effect of an immediate and parallel shift in the yield curve on Lincoln’s financial assets. As of December 31, 2007 Lincoln was at a higher risk of increasing rates than it was of declining rates.

These tables should be used with caution. The net market value sensitivities do not necessarily represent the changes in net asset value that would actually occur under the given interest rate scenarios, as sensitivities do not reflect changes in value of the company as a going concern, nor consider potential re-balancing or other management actions that might be taken in the future under asset/liability management as interest rates change.

In addition, the shocks presented of immediate and parallel shifts in the yield curve in up, and down 100 basis point increments are unlikely to occur as most historical changes in rates have occurred gradually and in a non-linear fashion. As with any method of measuring interest rate risk, certain shortcomings are inherent in the methods of analysis presented above. For example, although certain assets and liabilities may have similar maturities or periods to re-pricing, they may react in different degrees to changes in market interest rates. Also, the interest rates on certain types of assets and liabilities may fluctuate in advance of changes in market interest rates, while interest rates on other types may lag behind changes in market rates. Additionally, certain assets, such as adjustable-rate loans, have features which restrict changes in interest rates on a short-term basis and over the life of the asset. Further, in the event of a change in interest rates, expected rates of prepayments on loans and early withdrawals from certificates could likely deviate significantly from those assumed in calculating the tables.

Information on Continuing Directors

In the Merger Agreement, First Merchants has agreed that it will cause Jerry R. Engle, who currently serves as Chairman of the Board and President and Chief Executive Officer of Lincoln and President and Chief Executive Officer of Lincoln Bank, and another current director of Lincoln as chosen by First Merchants, to be nominated for election to the First Merchants Board of Directors for a three-year term at the first annual meeting of First Merchants’ shareholders following the merger. First Merchants has not yet determined the identity of the second Lincoln director to be nominated for election to the First Merchants Board of Directors. Mr. Engle will not be separately compensated for his services as a director of First Merchants.

Mr. Engle (age 63) has been President and Chief Executive Officer of Lincoln Bank since May 1, 2005, and Chairman of the Board, President and Chief Executive Officer of Lincoln since June 1, 2005. Formerly, he was the President and Chief Executive Officer of First Shares and its subsidiary First Bank from March 1999 until joining Lincoln.

The Bank has entered into a three-year employment contract with Mr. Engle. The contract extends annually for an additional one-year term to maintain its three-year term if Lincoln Bank's Board of Directors determines to so extend it, unless notice not to extend is properly given by either party to the contract. Mr. Engle receives his current salary under the contract with Lincoln Bank, subject to increases approved by the Board of Directors. The contract also provides, among other things, for participation in other fringe benefits and benefit plans available to Lincoln Bank's employees. Mr. Engle may terminate his employment upon sixty days' written notice to Lincoln Bank. Mr. Engle may also terminate his own employment for cause. The Bank may discharge Mr. Engle for cause at any time or in specified events. The employment contract protects Lincoln Bank's confidential business information and protects Lincoln Bank from competition by Mr. Engle should he voluntarily terminate his employment without cause or be terminated by Lincoln Bank for cause.

The employment agreement between Lincoln Bank and Mr. Engle provides that if Lincoln Bank terminates Mr. Engle's employment for other than cause or if Mr. Engle terminates his own employment for cause, Mr. Engle will receive his base compensation under the contract for the balance of the contract if the termination does not follow a change in control, and this payment period shall be not less than six months. In addition, during that period, Mr. Engle will continue to participate in Lincoln Bank's group insurance plans and retirement plans, or receive comparable benefits. If Mr. Engle is terminated without cause or "for cause" within 12 months following a change in control, he will receive a lump sum payment within 30 days following the change in control equal to three times his base compensation in effect at the time of the termination of his employment. The agreement also provides that within a period of three months after his termination following a change of control, Mr. Engle will have the right to cause Lincoln Bank to purchase any stock options he holds for a price equal to the fair market value of the shares subject to the options minus their option price. The agreement defines "change in control" as any of the following:

- a person or group acquires ownership of stock representing more than 50% of Lincoln Bank's or Lincoln's total fair value or total voting power of the stock of Lincoln Bank or Lincoln which acquisition of control could result from a merger of Lincoln or Lincoln Bank;

Table of Contents

- the date new directors are added to Lincoln's Board of Directors as a result of a merger involving Lincoln or Lincoln Bank and as a result of such addition of directors, Lincoln's or Lincoln Bank's directors before the replacement constitute 50% or less of the total directors following such addition of directors; or
- a person or group, other than shareholders of Lincoln Bank or an entity controlled by shareholders of Lincoln Bank, acquires more than 40% of the total gross fair market value of Lincoln Bank's assets, unless the person or group owns 50% or more of the total value or voting power of Lincoln Bank's stock.

If the payments provided for in the contract, together with any other payments made to Mr. Engle by Lincoln Bank, are deemed to be payments in violation of the "golden parachute" rules of the Internal Revenue Code, those payments will be reduced to the largest amount which would not cause Lincoln Bank to lose a tax deduction for the payments under those rules. If Mr. Engle had been terminated as of December 31, 2007, within 12 months following a change in control of Lincoln, without cause by Lincoln Bank or for cause by Mr. Engle, the cash compensation which would be paid under the contract to Me. Engle would be have been \$810,000. This amount is subject to any Section 280G(b)(3) limitations.

Compensation Committee Interlocks and Insider Participation. Mr. Engle is not and was not during 2007 a member of Lincoln's Stock/Compensation Committee.

- First Merchants' total assets would be less than the sum of its total liabilities plus the amount that would be needed to satisfy preferential rights of shareholders payable upon dissolution.

The amount of dividends, if any, that may be declared by First Merchants in the future will necessarily depend upon many factors, including, among other things, future earnings, capital requirements, business conditions and capital levels of subsidiaries (since First Merchants is primarily dependent upon dividends paid by its subsidiaries for revenues), the discretion of First Merchants' Board of Directors and other factors that may be appropriate in determining dividend policies.

First Merchants' national bank subsidiaries may pay cash dividends to First Merchants on their common stock only out of adjusted retained net profits for the year in which the dividend is paid and the two preceding years.

First Merchants' bank subsidiaries will ordinarily be restricted to paying dividends in a lesser amount to First Merchants than is legally permissible because of the need for the banks to maintain adequate capital consistent with the capital adequacy guidelines promulgated by the banks' principal federal regulatory authorities. If a bank's capital levels are deemed inadequate by the regulatory authorities, payment of dividends to its parent holding company may be prohibited. First Merchants' present bank subsidiaries are not currently subject to such a restriction.

The holders of the outstanding shares of First Merchants common stock are entitled to one vote per share on all matters presented for shareholder vote. First Merchants shareholders do not have cumulative voting rights in the election of directors. Under cumulative voting, the number of shares a shareholder is entitled to vote is multiplied by the number of directors to be elected to the board. A shareholder may then cast this number of votes for the election of directors. A shareholder may cast all of his/her/its votes for one candidate or distribute them among two or more candidates.

Indiana law generally requires that mergers, consolidations, sales, leases, exchanges or other dispositions of all or substantially all of the assets of a corporation be approved by the affirmative vote of a majority of the issued and outstanding shares entitled to vote at the shareholders meeting, subject to provision in the corporation's articles of incorporation requiring a higher percentage vote. First Merchants' Articles of Incorporation provide that certain business combinations may, under certain circumstances, require approval of more than a majority of the outstanding voting shares of the entities' common stock. See "COMPARISON OF COMMON STOCK—Anti-Takeover Provisions," on page 140.

The holders of the outstanding shares of Lincoln common stock are entitled to one vote per share on all matters presented for shareholder vote. Lincoln shareholders do not have cumulative voting rights in the election of directors. Under cumulative voting, the number of shares a shareholder is entitled to vote is multiplied by the number of directors to be elected to the board. Articles of Incorporation and Bylaw Amendments

Indiana law generally requires shareholder approval for most amendments to a corporation's articles of incorporation by a majority of a quorum at a shareholder's meeting (and, in certain cases, a majority of all shares held by any voting group entitled to vote). However, Indiana law permits a corporation in its articles of incorporation to specify a higher shareholder vote requirement for certain amendments. First Merchants' Articles of Incorporation require a super-majority shareholder vote of 75% of its outstanding shares of common stock for the amendment of certain significant provisions and a majority of its outstanding shares for all other amendments. See "COMPARISON OF COMMON STOCK—Number of Directors and Term of Office," "COMPARISON OF COMMON STOCK—Removal of Directors," and "COMPARISON OF COMMON STOCK—Anti-Takeover Provisions."

The Articles of Incorporation of Lincoln provide that certain of the Articles (specifically, those related to Directors, Certain Limitations and Certain Business Combinations) may not be altered, amended or repealed without the affirmative vote of the holders of at least 80% of the then-outstanding shares of voting stock, voting together as a single class. See "COMPARISON OF COMMON STOCK—Number of Directors and Term of Office," "COMPARISON OF COMMON STOCK—Removal of Directors," and "COMPARISON OF COMMON STOCK—Anti-Takeover Provisions."

The Lincoln By-Laws may be amended by the affirmative vote of a majority of the entire Board of Directors, without the assent or vote of the shareholders.

First Merchants

Lincoln

Indiana law permits a board of directors to amend a corporation's by-laws unless the articles of incorporation provide otherwise. First Merchants' By-Laws may generally be amended by an affirmative vote of a majority of the entire Board of Directors. However, several provisions of First Merchants' By-Laws require two-thirds (2/3) vote of the entire Board of Directors to approve amendments, including the provision regarding removal of directors and setting the number and classes of directors. In addition, First Merchants' Articles of Incorporation provide that its By-Laws may not be amended to repeal, modify or amend certain provisions of its Articles of Incorporation.

Special Meetings of Shareholders

First Merchants' By-Laws provide that a special meeting of shareholders may be called by the Board of Directors, the President, at the written request of a majority of the Board of Directors or at the written request of shareholders holding at least one-fourth (1/4) of all shares outstanding and entitled to vote on business for which the meeting is called.

The Lincoln By-Laws provide that a special meeting of shareholders may only be called by the Chairman of the Board of Directors, if any, or by the Board of Directors pursuant to a resolution adopted by a majority of the total number of Directors.

Number of Directors and Term of Office

First Merchants' Articles of Incorporation provide that the number of directors shall be set in the By-Laws by the Board of Directors and shall be at least 9 and no more than 21. First Merchants' Articles of Incorporation also provide for classes of directors with staggered terms. Amendment of this provision of First Merchants' Articles of Incorporation requires the approval of three-fourths (3/4) of the voting stock. First Merchants' By-Laws specify that the number of directors is 10. The By-Laws provide that the number of directors may be amended only by a two-thirds (2/3) vote of the entire Board of Directors. Consistent with its Articles of Incorporation, First Merchants' By-Laws provide that the Board of Directors is divided into 3 classes with 4 directors in 1 of the classes and 3 directors in the other 2 classes. The directors in each class are elected for 3-year staggered terms. Thus, approximately only one-third (1/3) of First Merchants' Board of Directors is elected at each annual meeting of shareholders. Because First Merchants' Board of Directors is divided into classes, a majority of First Merchants' directors can be replaced only after 2 annual meetings of shareholders. A two-thirds (2/3) vote of the entire Board of Directors is required to amend this provision of First Merchants' By-Laws.

The Articles of Incorporation of Lincoln provide that the total number of directors shall not be less than five nor more than 15 as may be specified from time to time by resolution adopted by a majority of members of the Board of Directors. If the Board of Directors has not specified the number of directors, the number shall be nine. The Articles of Incorporation also provide for three classes of directors with staggered three-year terms. Amendment of this provision of the Lincoln Articles of Incorporation requires the affirmative vote of the holders of at least 80% of the voting power of all of the then-outstanding shares of voting stock, voting together as a single class. The By-Laws of Lincoln also require that the Directors have (a) their primary domicile in Brown, Clinton, Hendricks, Montgomery, Morgan or Johnson Counties, Indiana, and (b) a loan or deposit relationship with Lincoln Bank which they have maintained for at least a continuous period of nine months immediately prior to their nomination to the Board of Directors. In addition, each Director who is not an employee of Lincoln or its subsidiaries must have served as a member of a civic or community organization based in one of the aforementioned

First Merchants

Lincoln

Indiana counties for at least a continuous period of 12 months during the five years prior to his or her nomination to the Board of Directors. The Board of Directors may waive one more of the foregoing requirements in connection with the acquisition of another financial institution or the acquisition or opening of a new branch by its subsidiary. The By-Laws may be altered, amended or repealed by the affirmative vote of a majority of the full Board of Directors of Lincoln.

Nomination of Directors

Under First Merchants' By-Laws, only the Nominating and Governance Committee of the Board of Directors may nominate a candidate for the Board of Directors. Shareholders may suggest a person for nomination by sending a notice to the Committee setting forth at a minimum:

- the name and address of each suggested nominee;
- the principal occupation of each suggested nominee;
- the total number of shares of First Merchants capital stock held by the notifying shareholder; and
- the name and residence address of the notifying shareholder.

Pursuant to the Articles of Incorporation and By-Laws of Lincoln, nominations to the Board of Directors may be made by any nominating committee or person appointed by the Board of Directors or by any shareholder entitled to vote for the election of directors. Nominations, other than those made by or at the direction of the Board of Directors, may be made by written notice to the Secretary of Lincoln setting forth at a minimum:

- the name, age, business and residence addresses of each suggested nominee;
- the principal occupation of each suggested nominee;
- the class and number of shares of Lincoln capital stock held by the nominee;
- the class and number of shares of Lincoln capital stock held by the notifying shareholder; and
- the name and record address of the notifying shareholder.

Removal of Directors

First Merchants' Articles of Incorporation and By-Laws provide that any director or all directors may be removed, with or without cause, at a meeting of shareholders upon the vote of the holders of not less than two-thirds (2/3) of the outstanding shares entitled to vote on the election of directors. However, if two-thirds (2/3) of the entire Board of Directors recommends removal of a director to the shareholders, then such director may be removed by the affirmative vote of the holders of at least a majority of the outstanding shares entitled to vote on the election of directors at a shareholders meeting. A two-thirds (2/3) vote of the entire Board of Directors is

The Lincoln Articles of Incorporation and By-Laws provide that any director or all directors may be removed, but only for cause, by the affirmative vote of the holders of at least eighty percent (80%) of the outstanding shares entitled to vote generally on the election of directors. The affirmative vote of the holders of at least eighty percent (80%) of the outstanding shares of voting stock, voting together as a single class, is also required to amend this provision of the Articles of Incorporation.

First Merchants

required to amend this provision of First Merchants' By-Laws. Amendment of this provision of First Merchants' Articles of Incorporation requires the approval of three-fourths (3/4) of the voting stock.

Dissenters' Rights

Under Indiana law, a shareholder of a corporation is entitled to dissent from and obtain payment of the fair value of the shareholder's shares in the following events:

- Consummation of a plan of merger to which the corporation is a party, if shareholder approval is required and the shareholder is entitled to vote thereon;
- Consummation of a plan of share exchange by which the corporation's shares will be acquired, if the shareholder is entitled to vote on the plan;
- Consummation of a sale or exchange of all, or substantially all, the property of the corporation other than in the usual course of business, if the shareholder is entitled to vote on the sale or exchange;
- Approval of a control share acquisition under Indiana law; and
- Any corporate action taken pursuant to a shareholder vote to the extent the articles of incorporation, by-laws or a resolution of the board of directors provides that voting or non-voting shareholders are entitled to dissent and obtain payment for their shares.

Under Indiana law, dissenters' rights are not available to holders of shares with respect to any transaction if the shares were registered or traded on a national securities exchange. Thus, First Merchants shareholders do not presently have dissenters' rights because First Merchants' shares are traded on the NASDAQ Global Select Market System.

Liquidation Rights

In the event of any liquidation or dissolution of First Merchants, its shareholders are entitled to receive pro rata, according to the number of shares held, any assets distributable to shareholders, subject to the payment of First Merchants' liabilities and any rights of creditors and holders of shares of First Merchants' preferred stock then outstanding.

Lincoln shareholders also do not presently have dissenters' rights because Lincoln's shares are traded on the NASDAQ Global Market System.

In the event of any liquidation or dissolution of Lincoln, its shareholders are entitled to receive pro rata, according to the number of shares held, any assets distributable to shareholders, subject to the payment of Lincoln's liabilities and any rights of creditors and holders of shares of Lincoln's preferred stock then outstanding.

First Merchants

Lincoln

Redemption

Under Indiana law, First Merchants may redeem or acquire shares of its common stock with funds legally available therefor, and shares so acquired constitute authorized but unissued shares. First Merchants may not redeem or acquire its shares of common stock if, after such redemption, it would not be able to pay its debts as they become due. Additionally, First Merchants may not redeem its shares if its total assets would be less than the sum of its total liabilities plus preferential rights of shareholders payable upon dissolution.

In addition, as a bank holding company, First Merchants must give prior notice to the Federal Reserve if the consideration to be paid by First Merchants for any redemption or acquisition of its shares, when aggregated with the consideration paid for all redemptions or acquisitions for the preceding 12 months, equals or exceeds 10% of its consolidated net worth, unless First Merchants is well-capitalized before and after the redemption, is well-managed and is not subject to any unresolved supervisory issues.

Under Indiana law, Lincoln may redeem or acquire shares of its common stock with funds legally available therefor, and shares so acquired constitute authorized but unissued shares. Lincoln may not redeem or acquire its shares of common stock if, after such redemption, it would not be able to pay its debts as they become due. Additionally, Lincoln may not redeem its shares if its total assets would be less than the sum of its total liabilities plus preferential rights of shareholders payable upon dissolution.

In addition, as a bank holding company, Lincoln must give prior notice to the Federal Reserve if the consideration to be paid by Lincoln for any redemption or acquisition of its shares, when aggregated with the consideration paid for all redemptions or acquisitions for the preceding 12 months, equals or exceeds 10% of its consolidated net worth, unless Lincoln is well-capitalized before and after the redemption, is well-managed and is not subject to any unresolved supervisory issues.

Anti-Takeover Provisions

The anti-takeover measures applicable to First Merchants and Lincoln described below may have the effect of discouraging a person or other entity from acquiring control of either company. These measures may have the effect of discouraging certain tender offers for shares of their common stock which might otherwise be made at premium prices or certain other acquisition transactions which might be viewed favorably by a significant number of shareholders.

Under Indiana law, any 10% shareholder of an Indiana corporation, with a class of voting shares registered under Section 12 of the Securities Exchange Act of 1934, such as First Merchants, is prohibited for a period of 5 years from completing a business combination with the corporation unless, prior to the acquisition of such 10% interest, the Board of Directors approved either the acquisition of such interest or the proposed business combination. If such prior approval is not obtained, the corporation and a 10% shareholder may not consummate a business combination unless all provisions of the articles of incorporation are complied with and either a majority of disinterested shareholders approve the transaction or all shareholders receive a price per share as determined by Indiana law. A corporation may specifically adopt application of the business combination provision in its Articles of Incorporation and obtain the protection provided by this provision.

An Indiana corporation may elect to remove itself from the protection provided by the Indiana business combination provision, but such an election remains ineffective for 18 months and does not apply to a combination with a shareholder who acquired a 10% ownership position prior to the election. Both First Merchants and Lincoln have adopted the protection provided by the business combination provision of Indiana law.

In addition to the business combination provision, Indiana law also contains a “control share acquisition” provision which, although different in structure from the business combination provision, may have a similar effect of discouraging or making more difficult a hostile takeover of an Indiana corporation. This provision also

First Merchants

Lincoln

may have the effect of discouraging premium bids for outstanding shares. Under this provision, unless otherwise provided in the corporation's articles of incorporation or by-laws, if a shareholder acquires a certain amount of shares, approval of a majority of the disinterested shareholders must be obtained before the acquiring shareholder may vote the control shares. Under certain circumstances, the shares held by the acquiror may be redeemed by the corporation at the fair market value of the shares as determined by the control share acquisition provision. Both First Merchants and Lincoln are subject to the control share acquisition provision. The constitutional validity of the control share acquisition statute has been challenged in the past and has been upheld by the United States Supreme Court.

The control share acquisition provision does not apply to a plan of affiliation and merger if the corporation complies with the applicable merger provisions and is a party to the agreement of merger or plan of share exchange.

In addition to the protections afforded by Indiana law, First Merchants' Articles of Incorporation provide that the directors of First Merchants are divided into 3 classes, each serving 3-year terms with one class to be elected at each annual meeting of shareholders. First Merchants' Articles of Incorporation also provide that directors may be removed with or without cause by a two-thirds (2/3) vote of the shares entitled to vote. However, if the Board by two-thirds (2/3) vote recommends removal of a director, that director may be removed by a majority of the shares entitled to vote. These provisions help prevent hostile shareholders from replacing a majority of the Board of Directors at one time. In addition, both of these provisions of First Merchants' Articles of Incorporation regarding directors may only be amended by approval of three-fourths (3/4) of the voting stock.

First Merchants' Articles of Incorporation also require the approval of the holders of three-fourths (3/4) of the voting stock to approve certain business combinations involving any shareholder holding more than 10% of the voting stock unless the transaction is approved by a two-thirds (2/3) vote of the Board or the shareholders are to receive fair consideration for their shares. "Business combination" is defined to include mergers, consolidations, sales, leases, liquidations, dissolutions, certain reorganizations, and agreements relating to the foregoing. "Fair consideration" generally means, an amount per share equal to the higher of (a) the highest per share price paid for the First Merchants common stock in the 2 years preceding the business combination, and (b) the per share book value for First Merchants common stock. In the event two-thirds (2/3) Board approval is obtained or fair consideration is to be paid, then approval of the business combination would only require the approval of the holders of two-thirds (2/3) of the voting stock. Amendment of this provision of First Merchants' Articles of Incorporation requires the approval of three-fourths (3/4) of the voting stock.

In addition to the protections afforded by Indiana law, the Articles of Incorporation of Lincoln provide that the directors of Lincoln are divided into three (3) classes, each serving three-year terms with one class to be elected at each annual shareholder meeting. The Articles of Incorporation also provide that directors may be removed for cause by affirmative vote of the holders of at least eighty percent (80%) of the shares entitled to vote generally in the election of directors. These provisions help prevent hostile shareholders from replacing a majority of the Board of Directors at one time. In addition, these provisions of the Lincoln Articles of Incorporation regarding directors may only be amended by approval of the holders of at least eighty percent (80%) of the voting stock.

The Articles of Incorporation of Lincoln also require the approval of the holders of at least eighty percent (80%) of the voting stock to approve certain business combinations involving any shareholder holding more than ten (10%) of the voting stock unless the transaction is approved by a majority of the Continuing Directors and the price and procedure requirements contained in the Articles of Incorporation have been met, including with respect to receipt of Fair Market Value. "Business combination" is defined to include mergers, consolidations, sales, leases, liquidations, dissolutions, certain reorganizations, and agreements relating to the foregoing. "Continuing Director" means any member of the Board of Directors who is unaffiliated with the interested shareholder and was a member of the Board of Directors prior to the time the interested shareholder became an interested shareholder. "Fair Market Value" generally means the highest closing sale price during the 30-day period immediately preceding the date in question of a share of stock on the Composite Tape for the securities exchange on which the stock is listed.

First Merchants

The existence of authorized but unissued common stock and preferred stock of First Merchants may also have an anti-takeover effect. The issuance of additional First Merchants shares with sufficient voting power could have a dilutive effect on its stock and may result in the defeat of an attempt to acquire control of First Merchants. The Board of Directors may issue shares of common stock and/or preferred stock at any time without shareholder approval. Prior to issuance, the Board of Directors would determine the relative rights, preferences, limitations and restrictions of the preferred stock. The Board of Directors would also determine whether any voting rights would attach to the preferred stock. The Board of Directors has no present plans to issue any preferred stock or common stock other than the common stock to be issued in the merger. The issuance of preferred or common stock in the future could result in the dilution of ownership and control of First Merchants by shareholders. Since First Merchants shareholders have no preemptive rights, there is no guarantee that shareholders would have an opportunity to purchase any of the preferred or common stock when and if it is issued.

Lincoln

In the event majority Board approval is obtained and the price and procedure requirements are met, then approval of the business combination would only require the affirmative vote required by law. Amendment of this provision of Lincoln Articles of Incorporation requires the approval of holders of eighty percent (80%) of the voting stock.

The existence of authorized but unissued common stock and preferred stock of Lincoln may also have an anti-takeover effect. The issuance of additional Lincoln shares with sufficient voting power could have a dilutive effect on its stock and may result in the defeat of an attempt to acquire control of Lincoln. The Board of Directors may issue shares of common stock and/or preferred stock at any time without shareholder approval. Prior to issuance, the Board of Directors would determine the relative rights, preferences, limitations and restrictions of the preferred stock. The Board of Directors would also determine whether any voting rights would attach to the preferred stock. The Board of Directors has no present plans to issue any preferred stock or common stock other than the common stock to be issued in the merger. Since Lincoln shareholders have no preemptive rights, there is no guarantee that shareholders would have an opportunity to purchase any of the preferred or common stock when and if it is issued.

Director Liability

Under Indiana law, a director of First Merchants or Lincoln will not be liable to shareholders for any action taken as a director, or any failure to take any action, unless:

- The director has breached or failed to perform his duties as a director in good faith with the care an ordinarily prudent person in a like position would exercise under similar circumstances and in a manner the director reasonably believes to be in the best interests of the corporation; and
- Such breach or failure to perform constitutes willful misconduct or recklessness.

Indemnification of Directors, Officers and Employees

Under Indiana law and First Merchants' and Lincoln's Articles of Incorporation, either corporation may indemnify any director, officer, employee or agent for any and all liability and expense incurred in connection with a proceeding which such person is involved in by reason of such person's position with First Merchants or Lincoln, as applicable, in which (a) the person is wholly successful or (b) the person acted in good faith in what the person reasonably believed to be in or at least not opposed to the best interests of First Merchants or Lincoln, as applicable. If the proceeding is a criminal proceeding, the person must have had no reasonable cause to believe that the person's conduct was unlawful. If the person is wholly successful with respect to the claim or proceeding, the indemnification by First Merchants or Lincoln, as applicable is mandatory. Finally, both First Merchants' and Lincoln's Articles of Incorporation permit the corporation to advance expenses to a person prior to final disposition of the proceeding if the person undertakes to repay any advanced amounts, if it is ultimately determined that he or she is not entitled to indemnification, or if the person furnishes to First Merchants or Lincoln, as applicable, a written affirmation of the person's good faith belief that he or she is entitled to indemnification.

INDEMNIFICATION

As an Indiana corporation, First Merchants is subject to Indiana law. Section 23-1-37-1 *et seq.* of the Indiana Business Corporation Law contains detailed provisions on indemnification of directors and officers of an Indiana corporation against expenses, judgments, settlements, penalties and fines incurred with respect to certain proceedings.

First Merchants' Articles of Incorporation, as amended, and By-Laws, as amended, provide that First Merchants will indemnify any person who is or was a director, officer or employee of First Merchants or of any other corporation for which he is or was serving in any capacity at the request of First Merchants against all liability and expense that may be incurred in connection with, resulting from or arising out of any claim, action, suit or proceeding with respect to which such director, officer or employee is wholly successful or acted in good faith in a manner he reasonably believed to be in, or not opposed to, the best interests of First Merchants or such other corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe that his conduct was unlawful. A director, officer or employee of First Merchants is entitled to be indemnified as a matter of right with respect to those claims, actions, suits or proceedings where he has been wholly successful. In all other cases, such director, officer or employee will be indemnified only if the Board of Directors of First Merchants (acting by a quorum consisting of directors who are not parties to or who have been wholly successful with respect to such action) or independent legal counsel finds that he has met the standards of conduct set forth above. This indemnification is to the full extent and according to the procedures and requirements of Indiana law.

The directors and officers of First Merchants are covered by an insurance policy indemnifying them against certain civil liabilities, including liabilities under the federal securities laws, which might be incurred by them in such capacity.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers or persons controlling First Merchants pursuant to the foregoing provisions, First Merchants has been informed that in the opinion of the Securities and Exchange Commission this indemnification is against public policy as expressed in the Securities Act of 1933 and is therefore unenforceable.

SHAREHOLDER PROPOSALS

Any proposal which a First Merchants shareholder intends to have presented at the 2009 annual meeting of First Merchants and included in the proxy statement and form of proxy relating to that meeting must have been received by the Secretary of First Merchants at First Merchants' principal office no later than November 20, 2008, for inclusion in First Merchants' proxy statement and form of proxy relating to that meeting. Shareholder proposals, if any, intended to be presented at the 2009 annual meeting of First Merchants that were not submitted for inclusion in the proxy statement will be considered untimely unless they are received by the Secretary of First Merchants at First Merchants' principal office by February 2, 2009.

In the event that the effective time of the merger does not occur prior to that date, a shareholder who wishes to have a proposal presented at the next annual meeting of Lincoln and included in the proxy statement and form of proxy relating to that meeting, must send the proposal to Lincoln so that it is received by Lincoln at its main office no later than 120 days in advance of March 14, 2009. A shareholder proposal submitted for presentation at the annual meeting but not for inclusion in Lincoln's proxy statement and form of proxy will normally be considered untimely if it is received by Lincoln later than 120 days prior to the annual meeting. If, however, Lincoln gives shareholders less than 130 days' notice or prior public disclosure of the date of the next annual meeting, a proposal shall be considered untimely if it is received by Lincoln later than the close of business on the 10th day following the day on which the notice of the date of the meeting was mailed or the public disclosure was made. If Lincoln receives notice of the proposal after that time, each proxy that Lincoln receives will confer upon it the discretionary authority to vote on the proposal in the manner the proxies deem appropriate, even though there is no discussion of the proposal in Lincoln's proxy statement for the next annual meeting. Proposals should be sent to the attention of the Secretary of Lincoln at P.O. Box 510, 905 Southfield Drive, Plainfield, Indiana 46168. All shareholder proposals are subject to the requirements of the proxy rules under the Securities Exchange Act of 1934, as amended, and Lincoln's articles of incorporation, by-laws and Indiana law.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Audit Committee, Board of Directors and Shareholders
Lincoln Bancorp
Plainfield, Indiana

We have audited the accompanying consolidated balance sheets of Lincoln Bancorp as of December 31, 2007 and 2006, and the related consolidated statements of income, comprehensive income, stockholders' equity and cash flows for each of the years in the three-year period ended December 31, 2007. The Company's management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. Our audits included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Lincoln Bancorp as of December 31, 2007 and 2006, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2007, in conformity with accounting principles generally accepted in the United States of America.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Lincoln Bancorp's internal control over financial reporting as of December 31, 2007, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and our report dated March 5, 2008 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2007, 2006 and 2005 (Table Dollar Amounts in Thousands, Except Share Data)

Note 1: Nature of Operations and Summary of Significant Accounting Policies

The accounting and reporting policies of Lincoln Bancorp (Company) and its wholly owned subsidiary, Lincoln Bank (Bank), and the Bank's wholly owned subsidiaries, L-F Service Corporation (L-F Service), Citizens Loan and Service Corporation (CLSC) and LF Portfolio Services, Inc. (LF Portfolio), conform to accounting principles generally accepted in the United States of America and reporting practices followed by the banking industry. The more significant of the policies are described below.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The Company is a holding company whose principal activity is the ownership and management of the Bank. The Bank switched from a federal thrift charter to a state charter in 2006 and provides full banking services in a single significant business segment. As a state chartered bank, the Bank is subject to regulation by the Department of Financial Institutions, State of Indiana and the Federal Deposit Insurance Corporation.

The Bank generates commercial, mortgage and consumer loans and receives deposits from customers located primarily in Central Indiana. The Bank's loans are generally secured by specific items of collateral including real property, consumer assets and business assets. L-F Service invests in low income housing partnerships. CLSC develops land for residential housing. LF Portfolio manages part of the Company's investment securities portfolio.

Consolidation—The consolidated financial statements include the accounts of the Company and the Bank and its subsidiaries after elimination of all material intercompany transactions and accounts.

Cash Equivalents—The Company considers all liquid investments with original maturities of three months or less to be cash equivalents.

Investment Securities—Debt securities are classified as held to maturity when the Company has the positive intent and ability to hold the securities to maturity. Securities held to maturity are carried at amortized cost. Debt securities not classified as held to maturity are classified as available for sale. Securities available for sale are carried at fair value with unrealized gains and losses reported separately in accumulated other comprehensive income (loss), net of tax. Trading securities, if any, are carried at fair value with any unrealized gains or losses reported in the statement of income.

Amortization of premiums and accretion of discounts are recorded as interest income from securities. Realized gains and losses are recorded as net security gains (losses). Gains and losses on sales of securities are determined on the specific-identification method.

Loan securitizations—The Company occasionally securitizes certain mortgage loans and creates mortgage-backed securities for sale in the secondary market. Because the resulting securities are collateralized by the identical loans previously held, no gains or losses are recognized at the time of the securitization transactions. When securitized loans are sold to an outside party, the specific-identification method is used to determine the cost of the security sold, and a gain or loss is recognized in income.

Loans held for sale are carried at the lower of aggregate cost or market. Market is determined using the aggregate method. Net unrealized losses, if any, are recognized through a valuation allowance by charges to income based on the difference between estimated sales proceeds and aggregate cost.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2007, 2006 and 2005 (Table Dollar Amounts in Thousands, Except Share Data)—(Continued)

Loans are carried at the principal amount outstanding. A loan is impaired when, based on current information or events, it is probable that the Company will be unable to collect all amounts due (principal and interest) according to the contractual terms of the loan agreement. Payments with insignificant delays not exceeding 90 days outstanding are not considered impaired. Certain nonaccrual and substantially delinquent loans may be considered to be impaired. Generally, loans are placed on non-accrual status at 90 days past due and interest is considered a loss, unless the loan is well-secured and in the process of collection. The Company considers its investment in one-to-four family residential loans and consumer loans to be homogeneous and, therefore, excluded from separate identification for evaluation of impairment. Interest income is accrued on the principal balances of loans. The accrual of interest on impaired and nonaccrual loans is discontinued when, in management's opinion, the borrower may be unable to meet payments as they become due. When interest accrual is discontinued, all unpaid accrued interest is reversed when considered uncollectible. Interest income is subsequently recognized only to the extent cash payments are received. Certain loan fees and direct costs are being deferred and amortized as an adjustment of yield on the loans over the contractual lives of the loans. When a loan is paid off or sold, any unamortized loan origination fee balance is credited to income.

Allowance for loan losses—The allowance for loan losses represents management's estimate of probable losses inherent in the Company's loan portfolios. In determining the appropriate amount of the allowance for loan losses, management makes numerous assumptions, estimates and assessments.

The Company's strategy for credit risk management includes conservative, centralized credit policies, and uniform underwriting criteria for all loans as well as an overall credit limit for each customer below legal lending limits. The strategy also emphasizes diversification on a geographic, industry and customer level, regular credit quality reviews and quarterly management reviews of large credit exposures and loans experiencing deterioration of credit quality. A standard credit scoring system is used to assess credit risks during the loan approval process of all consumer loans while commercial loans are individually reviewed by a credit analyst with formal presentations to the Bank's Loan Committee.

The Company's allowance consists of three components. The Company estimates probable incurred losses from individual reviews of specific loans and probable incurred losses from historical loss rates. Also, factors affecting probable incurred losses resulting from economic or environmental factors that may not be captured in the first two components of the allowance are considered.

Larger commercial loans that exhibit probable or observed credit weaknesses are subject to individual review. Where appropriate, reserves are allocated to individual loans based on management's estimate of the borrower's ability to repay the loan given the availability of collateral, other sources of cash flow and legal options available to the Company. Included in the review of individual loans are those that are impaired as provided in SFAS No. 114, Accounting by Creditors for Impairment of a Loan. Any allowances for impaired loans are measured based on the present value of expected future cash flows discounted at the loan's effective interest rate or fair value of the underlying collateral.

The Company evaluates the collectibility of both principal and interest when assessing the need for a loss accrual. Estimated loss rates are applied to other commercial loans not subject to specific reserve allocations.

Homogenous loans, such as consumer installment and residential mortgage loans are not individually risk graded. Rather, standard credit scoring systems are used to assess credit risks. Loss rates are based on the average net charge-off estimated by loan category. Allowances on individual loans and historical loss rates are reviewed quarterly and adjusted as necessary based on changing borrower and/or collateral conditions.

The Company's primary market area for lending is central Indiana. When evaluating the adequacy of the allowance, consideration is given to this regional geographic concentration and the closely associated effect changing economic conditions and other qualitative factors have on the Company's customers. The Company has not substantively changed any aspect to its overall approach in the determination of the allowance for loan losses. There have been no material changes in assumptions or estimation techniques as compared to prior periods that impacted the determination of the current period allowance.

Premises and equipment are carried at cost, net of accumulated depreciation. Depreciation is computed using the straight-line method based principally on the estimated useful lives of the assets which range from 3 to 39 years. Maintenance and repairs are expensed as incurred while major additions and improvements are capitalized. Gains and losses on dispositions are included in current operations.

Federal Home Loan Bank stock is a required investment for institutions that are members of the Federal Home Loan Bank (FHLB) system and is carried at the amount at which stock can be redeemed. The required investment in the common stock is based on a predetermined formula.

Foreclosed assets are carried at the lower of cost or fair value less estimated selling costs. When foreclosed assets are acquired, any required adjustment is charged to the allowance for loan losses. All subsequent activity is included in current operations.

Goodwill is annually tested for impairment. If the implied fair value of goodwill is lower than its carrying amount, goodwill impairment is indicated and goodwill is written down to its implied fair value. Subsequent increases in goodwill value are not recognized in the financial statements.

Core deposit intangible is being amortized on an accelerated basis over ten years until such time that straight-line amortization exceeds the accelerated method. Such asset is periodically evaluated as to the recoverability of its carrying value.

Mortgage servicing rights on originated loans are capitalized by allocating the total cost of the mortgage loans between the mortgage servicing rights and the loans based on their relative fair values. Capitalized servicing rights, which include purchased servicing rights, are amortized in proportion to and over the period of estimated servicing revenues. Impairment of mortgage servicing rights is assessed based on the fair value of those rights. Fair values are estimated using discounted cash flows based on a current market interest rate. For purposes of measuring impairment, the rights are stratified based on the predominant risk characteristics of the underlying loans. The predominant characteristic currently used for stratification is type of loan. The amount of impairment recognized is the amount by which the capitalized mortgage servicing rights for a stratum exceed their fair value.

Investments in limited partnerships are recorded using the equity method of accounting. Losses due to impairment are recorded when it is determined that the investment no longer has the ability to recover its carrying amount. The benefits of low income housing tax credits associated with the investment are accrued when earned.

Stock options—The Company has a stock-based employee compensation plan, which is described more fully in Note 18. Prior to 2006, the Company accounted for this plan under the recognition and measurement principles of APB Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations. No stock-based employee compensation cost is reflected in net income, as all options granted under those plans had an exercise price equal to the market value of the underlying common stock on the grant date.

Effective January 1, 2006, the Company adopted the fair value recognition provisions of Statement of Financial Accounting Standards (SFAS) No. 123(R), Share-Based Payment. The Company selected the modified prospective application. Accordingly, on January 1, 2006, the Company began expensing the fair value of stock options granted, modified, repurchased or cancelled.

The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value provisions of Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock-Based Compensation, to stock-based employee compensation.

Income tax in the consolidated statements of income includes deferred income tax provisions or benefits for all significant temporary differences in recognizing income and expenses for financial reporting and income tax purposes. The Company or one of its subsidiaries files income tax returns in the U.S. federal and Indiana jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state and local examinations by tax authorities for years before 2003.

The Company adopted the provisions of the Financial Accounting Standards Board (FASB) Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109, on January 1, 2007. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. As a result of the implementation of FIN 48, the Company did not identify any uncertain tax positions that it believes should be recognized in the financial statements.

Earnings per share have been computed based upon the weighted-average common shares outstanding during each year. Unearned ESOP shares and RRP shares which have not vested have been excluded from the computation of average shares outstanding.

Reclassifications of certain amounts in the 2006 and 2005 consolidated financial statements have been made to conform to the 2007 presentation. These reclassifications had no impact on net income.

Note 2: Restriction on Cash and Due From Banks

The Bank is required to maintain reserve funds in cash and/or on deposit with the Federal Reserve Bank. The reserve required at December 31, 2007 was \$576,000.

Securities with a carrying value of \$23,230,000 and \$18,841,000 were pledged at December 31, 2007 and 2006 to secure securities sold under agreements to repurchase. Securities with a carrying value of \$36,068,000 and \$11,767,000 were pledged at December 31, 2007 and 2006 to secure FHLB advances.

During 2007, the Company transferred \$30,137,000 of securities available for sale to trading and these investments were subsequently sold in 2007. Upon the transfer to trading, the unrealized losses on these securities were realized in the income statement. Total realized and unrealized losses on the transfer and sale of these securities totaled \$356,000 and are included in the gross losses total noted in the following paragraph.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2007, 2006 and 2005 (Table Dollar Amounts in Thousands, Except Share Data)—(Continued)

Proceeds from sales of securities available for sale during 2007 were \$14,906,000 and proceeds from sales of securities held for trading were \$66,983,000. Gross gains of \$389,000 and gross losses of \$414,000 were realized on those sales. Proceeds from sales of securities available for sale during 2006 were \$16,989,000. Gross gains of \$53,000 and gross losses of \$39,000 were realized on those sales. Proceeds from sales of securities available for sale during 2005 were \$54,889,000. Gross gains of \$467,000 and gross losses of \$564,000 were realized on those sales.

Certain investment securities are reported in the consolidated financial statements at an amount less than their historical cost. Total fair value of these investments at December 31, 2007 and 2006 were \$47,976,000 and \$123,557,000, which is approximately 31.9% and 81.7% of the Company's investment portfolio. These declines primarily resulted from continued increases in market interest rates from acquisition date of the securities. The unrealized losses in corporate obligations primarily relate to four variable-rate trust preferred debt securities issued by regional and national financial institutions.

Substantially all of the Company's investments are either mortgage-backed securities or debt instruments. Based on evaluation of available evidence, including recent changes in market interest rates and credit rating information, management believes the declines in fair value for these securities are generally interest rate related and that all amounts due will be collected according to the contractual terms of the debt securities. Therefore management has concluded that the declines in fair value for these securities are temporary. The Company does not hold any marketable equity securities where the amortized cost was less than the current market value as of December 31, 2007 and 2006.

Should the impairment of any of these securities become other than temporary, the cost basis of the investment will be reduced and the resulting loss recognized in net income in the period the other-than-temporary impairment is identified. At December 31, 2007, the Company has the intent and the ability to hold these securities until the earlier of recovery or maturity.

The following table shows our investments' gross unrealized losses and fair value, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position at December 31, 2007 and 2006:

As of December 31, 2007, the Company had approximately \$6,900,000 of state tax loss carryforward available to offset future franchise tax. The state loss carryforwards expire in tax years 2024 through 2027.

No valuation allowance was necessary at December 31, 2007 and 2006.

Retained earnings include approximately \$7,277,000 for which no deferred income tax liability has been recognized. This amount represents an allocation of income to bad debt deductions as of December 31, 1987 for tax purposes only. Reduction of amounts so allocated for purposes other than tax bad debt losses including redemption of bank stock or excess dividends, or loss of "bank" status, would create income for tax purposes only, which income would be subject to the then-current corporate income tax rate. At December 31, 2007, the unrecorded deferred income tax liability on the above amount was approximately \$2,474,000.

Note 14: Commitments and Contingent Liabilities

In the normal course of business there are outstanding commitments and contingent liabilities, such as commitments to extend credit and standby letters of credit, which are not included in the accompanying consolidated financial statements. The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instruments for commitments to extend credit and standby letters of credit is represented by the contractual or notional amount of those instruments. The Company uses the same credit policies in making such commitments as it does for instruments that are included in the consolidated balance sheets.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**December 31, 2007, 2006 and 2005 (Table Dollar Amounts in Thousands, Except Share Data)—(Continued)**

Financial instruments whose contract amount represents credit risk were as follows:

	2007	2006
Loan commitments	\$ 138,975	\$ 116,138
Standby letters of credit	4,678	5,531

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation. Collateral held varies, but may include residential real estate, income-producing commercial properties, or other assets of the borrower.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party.

The Company and the Bank are also subject to claims and lawsuits which arise primarily in the ordinary course of business. It is the opinion of management that the disposition or ultimate determination of such possible claims or lawsuits will not have a material adverse effect on the consolidated financial position of the Company.

The Bank has several noncancellable operating leases, primarily for leased premises, that expire over the next 20 years. These leases generally contain renewal options for periods ranging from 180 months to 10 years. Rental expense for these leases was \$472,000, \$359,000, and \$335,000 for the years ended December 31, 2007, 2006 and 2005, respectively.

Future minimum lease payments under operating leases are:

	<u>Operating Leases</u>
2008	\$ 346
2009	331
2010	332
2011	326
2012	292

Total minimum lease payments	<u>\$ 3,830</u>

Note 15: Dividend and Capital Restrictions

Without prior approval, current regulations allow the Bank to pay dividends to the Company not exceeding retained net income for the current year plus those for the previous two years.

At December 31, 2007, the shareholder's equity of the Bank was \$98,711,000. Although well capitalized, under current regulations in effect, the Bank is required to apply to the Indiana Department of Financial Institutions to pay dividends to the Company.

Note 16: Regulatory Capital

The Company and the Bank are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company and Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and the Bank must meet specific capital guidelines that involve quantitative measures of assets, liabilities and certain off-balance-sheet items as calculated under regulatory accounting practices. The capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Company and the subsidiary banks to maintain minimum amounts and ratios (set forth in the table below) of total and Tier I capital (as defined in the regulations) to risk-weighted assets (as defined), and of Tier I capital (as defined) to average assets (as defined). Management believes, as of December 31, 2007, that the Company and the Bank meet all capital adequacy requirements to which they are subject.

As of December 31, 2007, the Company and Bank were categorized as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well-capitalized, the Company and Bank must maintain capital ratios as set forth in the table. There are no conditions or events since that notification that management believes have changed the Company and Bank's category.

The Company and Bank's actual capital amounts and ratios are presented in the following table.

Note 17: Employee Benefits and Change in Accounting Principle

The Company provides pension benefits for substantially all individuals who were employed by the Company prior to July 1, 2004 through its participation in a multi-employer pension plan. On June 30, 2004, the Company froze this defined-benefit pension plan and discontinued the accrual of benefits to plan participants beyond what was already earned to that date. Separate actuarial valuations are not made with respect to each participating employer. Pension expense for 2007, 2006 and 2005 was \$163,000, \$172,000 and \$171,000.

The Company has a retirement savings 401(k) plan in which substantially all employees may participate. Prior to September 1, 2005, the Company matched employees' contributions at the rate of 50 percent for the first 6 percent of W-2 earnings contributed by participants. Beginning September 1, 2005, the Company matches employees' contributions at the rate of 100 percent for the first 3 percent of W-2 earnings contributed by the participants. The Bank's expense for the plan was \$247,000, \$244,000 and \$214,000 for 2007, 2006 and 2005.

The Company has a supplemental retirement plan for directors which provides for continuation of director fees upon events specified under the plan. On December 31, 2006, the Company adopted the recognition provision of SFAS No. 158, Employers' Accounting for Defined, Pension and other Post-Retirement Plans. Upon adoption of SFAS No. 158, the Company recorded an adjustment of \$260,000 to increase the plan liability to the projected benefit obligation. The net of tax adjustment to accumulated other comprehensive loss was \$157,000. The plan liability was \$1,219,000 and \$1,224,000 at December 31, 2007 and 2006. Expense under the plan was \$175,000, \$172,000 and \$159,000 for 2007, 2006 and 2005. Certain disclosures required by SFAS No. 132R, Employers' Disclosures about Pensions and other Postretirement Benefits—an amendment of FASB Statements No. 87, 88 and 106 have been omitted because they are immaterial to the financial statements.

The Company has an ESOP covering substantially all employees of the Company and Bank. The ESOP acquired 560,740 shares of the Company common stock at \$10 per share with funds provided by a loan from the Company. Accordingly, the common stock acquired by the ESOP is shown as a reduction of shareholders' equity. Unearned ESOP shares totaled 249,106 and 278,940 at December 31, 2007 and 2006 and had a fair value of \$3,495,000 and \$5,576,000 at those dates. Shares are released to participants proportionately as the loan is repaid. Dividends on allocated shares are recorded as dividends and charged to retained earnings. Dividends on unallocated shares are used to repay the loan and are treated as compensation expense. Compensation expense is

recorded equal to the fair market value of the stock when contributions, which are determined annually by the Board of Directors of the Company and Bank, are made to the ESOP. ESOP expense for 2007, 2006 and 2005 was \$530,000, \$565,000 and \$552,000. At December 31, 2007 and 2006, the ESOP had 224,944 and 219,186 allocated shares, 249,106 and 278,940 suspense shares and no committed-to-be released shares.

The Company has a Recognition and Retention Plan (RRP). The RRP has purchased or acquired 308,863 shares of Company common stock, and grants for 291,226 of these shares have been awarded to various directors, officers and employees of the Bank. The awards generally are to vest and be earned by the recipient at a rate of 20 percent per year. The unearned portion of these stock awards is presented as a reduction of shareholders' equity. RRP expense for 2007, 2006 and 2005 was \$98,000, \$112,000 and \$33,000.

Unvested RRP shares at December 31, 2007:

Granted	—	-0-
Vested	(6,079)	15.97

Unearned compensation at December 31, 2007 related to the RRP shares is \$202,000 and will be recognized over a weighted average period of 3.0 years.

Note 18: Stock Option Plans

The Company's Stock Option Plans (the Plans), which are shareholder approved, permit the grant of stock options to its directors, officers and other key employees. The Lincoln Bancorp 1999 Stock Option Plan authorized the grant of options for up to 700,925 shares of the Company's common stock, which generally vest at a rate of 20 percent a year and have a 10-year contractual term. The Lincoln Bancorp 2005 Stock Option Plan authorized the grant of options for up to 250,000 shares of the Company's common stock, which may vest at the discretion of the Company and have a 10-year contractual term. The Company believes that such awards better align the interests of its directors and employees with those of its shareholders. Option awards are granted with an exercise price equal to the market price of the Company's stock at the date of grant. Certain option awards provide for accelerated vesting if there is a change in control (as defined in the Plans). The Company generally issues shares from its authorized shares to satisfy option exercises.

The fair value of each option award is estimated on the date of grant using a binomial option valuation model that uses the assumptions noted in the following table. Expected volatility is based on historical volatility of the Company's stock and other factors. The Company uses historical data to estimate option exercise and employee termination within the valuation model. The expected term of options granted is derived from the output of the option valuation model and represents the period of time that options granted are expected to be outstanding. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

	2007	2006	2005
Expected volatility	18.3%	18.4%	16.4%
Expected dividends	3.0%	3.1%	3.1%

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**December 31, 2007, 2006 and 2005 (Table Dollar Amounts in Thousands, Except Share Data)—(Continued)****Note 20: Fair Values of Financial Instruments**

The following methods and assumptions were used to estimate the fair value of each class of financial instrument.

Cash and Cash Equivalents and Interest-Bearing Deposits—The fair value of cash and cash equivalents and interest-bearing deposits approximates carrying value.

Securities—Fair values are based on quoted market prices.

Loans—The fair value for loans is estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality.

FHLB Stock—Fair value of FHLB stock is based on the price at which it may be resold to the FHLB.

Interest Receivable/Payable—The fair value of interest receivable/payable approximates carrying values.

Deposits—Fair values for certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on such time deposits.

Borrowings—The fair value of the borrowing is estimated using a discounted cash flow calculation, based on borrowing rates for periods comparable to the remaining terms to maturity of the borrowings.

Advance Payments by Borrowers for Taxes and Insurance—The fair value approximates carrying value.

Off-Balance Sheet Commitments—Commitments include commitments to originate mortgage and consumer loans and standby letters of credit and are generally of a short-term nature. The fair value of such commitments are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties' credit standing. The carrying amounts of these commitments, which are immaterial, are reasonable estimates of the fair value of these financial instruments.

The estimated fair values of the Company's financial instruments are as follows:

	2007		2006

Note 24: Future Accounting Matters

In September 2006, the FASB issued Statement No. 157, Fair Value Measurements. This Statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This Statement establishes a fair value hierarchy about the assumptions used to measure fair value

and clarifies assumptions about risk and the effect of a restriction on the sale or use of an asset. The standard is effective for fiscal years beginning after November 15, 2007. The adoption on January 1, 2008 of SFAS No. 157 did not have a material impact on the financial condition or results of operations of the Company.

On February 15, 2007, the FASB issued its Statement No. 159, The Fair Value Option for Financial Assets and Financial Liabilities—Including an Amendment of FASB Statement No. 115. FAS 159 permits entities to elect to report most financial assets and liabilities at their fair value with changes in fair value included in net income. The fair value option may be applied on an instrument-by-instrument or instrument class-by-class basis. The option is not available for deposits withdrawable on demand, pension plan assets and obligations, leases, instruments classified as stockholders' equity, investments in consolidated subsidiaries and variable interest entities and certain insurance policies. The new standard is effective at the beginning of the Company's fiscal year beginning January 1, 2008, and early application may be elected in certain circumstances. The Company expects to first apply the new standard at the beginning of its 2008 fiscal year. The adoption on January 1, 2008 of SFAS No. 159 did not have a material impact on the financial condition or results of operations of the Company.

LINCOLN BANCORP AND SUBSIDIARY**Notes to Unaudited Consolidated Condensed Financial Statements****Note 1: Basis of Presentation**

The consolidated financial statements include the accounts of Lincoln Bancorp (the "Company"), its wholly owned subsidiary, Lincoln Bank, a state chartered commercial bank ("Lincoln" or the "Bank"), and Lincoln's wholly owned subsidiaries, LF Service Corporation ("LF Service") and Citizens Loan and Service Corporation ("CLSC"), both Indiana corporations, and LF Portfolio Services, Inc. ("LF Portfolio"), a Delaware corporation. A summary of significant accounting policies is set forth in Note 1 of Notes to Financial Statements included in the December 31, 2007 Annual Report to Shareholders. All significant intercompany accounts and transactions have been eliminated in consolidation.

The interim consolidated financial statements have been prepared in accordance with instructions to Form 10-Q, and therefore do not include all information and footnotes necessary for a fair presentation of financial position, results of operations and cash flows in conformity with generally accepted accounting principles.

The interim consolidated financial statements at September 30, 2008 and for the three months and nine months ended September 30, 2008 and 2007, have not been audited by independent accountants, but reflect, in the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows for such periods. The results of operations for the three-month period and nine month periods ended September 30, 2008 are not necessarily indicative of the results that may be expected for the entire year. The consolidated condensed balance sheet of the Company as of December 31, 2007 has been derived from the audited consolidated balance sheet of the Company as of that date.

Reclassifications of certain amounts in the 2007 consolidated financial statements have been made to conform to the 2008 presentation.

Note 2: Investment Securities

Certain investment securities are reported in the consolidated financial statements at an amount less than their historical cost. Total fair value of these investments at September 30, 2008 and December 31, 2007 were \$43,843,00 and \$47,976,000, which is approximately 35.2% and 31.9% of the Company's investment portfolio. These declines primarily resulted from continued increases in market interest rates from acquisition date of the securities. The unrealized losses in corporate obligations primarily relate to six variable-rate trust preferred debt securities; four are issued by regional and national financial institutions and two are pooled trust preferred debt securities.

The following tables show our investments' gross unrealized losses and fair value, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position at September 30, 2008 and December 31, 2007:

Notes to Unaudited Consolidated Condensed Financial Statements—(Continued)

	Less than 12 Months		December 31, 2007		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
Federal agencies	\$ 4,905	\$ (120)	\$ —	\$ —	\$ 4,905	\$ (120)

Corporate obligations	5,956	(488)	6,323	(649)	12,279	(1,137)
Municipals	4,391	(59)	4,450	(76)	8,841	(135)
Totals	\$28,077	\$ (697)	\$19,899	\$ (874)	\$47,976	\$ (1,571)

The Company's unrealized losses on corporate obligations relate primarily to its investment in trust preferred securities. The decline in value is attributable to temporary illiquidity and the financial crisis affecting these markets and not the expected cash flows of the individual securities. Due to the illiquidity in the market, it is unlikely that the Company would be able to recover its investment in these securities if the Company sold the securities at this time. The Company has analyzed the cash flow characteristics of the securities and this analysis included utilizing the most recent trustee reports and any other relevant market information including announcements of deferrals or defaults of trust preferred securities. Because the Company has the intent and ability to hold these securities until a recovery of fair value and has determined that there was no adverse change in the cash flow as viewed by a market participant, the Company does not consider these investments to be other-than-temporarily impaired at September 30, 2008.

At September 30, 2008, approximately 90% of the mortgage-backed securities in a loss position held by the Company were issued by U.S. government-sponsored entities and agencies, primarily Fannie Mae and Freddie Mac, institutions which the government has affirmed its commitment to support. Because the decline in market value is attributable to changes in interest rates and illiquidity, and not credit quality, and because the Company has the intent and ability to hold these mortgage-backed securities until a recovery of fair value, which may be maturity, the Company does not consider these securities to be other-than-temporarily impaired at September 30, 2008.

At September 30, 2008, the Company's unrealized losses relating to municipal securities are attributable to changes in interest rates and illiquidity, and not credit quality, and because the Company has the intent and ability to hold these municipal securities until a recovery of fair value, which may be maturity, the Company does not consider these securities to be other-than-temporarily impaired at September 30, 2008.

Note 3: Earnings Per Share

Earnings per share have been computed based upon the weighted-average common shares outstanding. Unearned Employee Stock Ownership Plan shares have been excluded from the computation of average common shares outstanding.

Note 4: Disclosures About Fair Value of Assets and Liabilities

Effective January 1, 2008, the Company adopted Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (FAS 157). FAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. FAS 157 has been applied prospectively as of the beginning of the period.

FAS 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FAS 157 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies used for instruments measured at fair value on a recurring basis and recognized in the accompanying balance sheet, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Available-for-sale Securities

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include certain collateralized mortgage obligations, mortgage backed securities, corporate trust preferred notes and certain municipal securities. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include certain trust preferred stock pools and structured government agency securities which are less liquid securities.

Loans Held for Sale

Loans held for sale are initially recorded at cost and evaluated for lower of cost or fair value at each reporting period. As of September 30, 2008 the fair value of loans held for sale approximated cost and as such no fair value disclosure is included on these loans in the tables below.

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying balance sheet measured at fair value on a recurring basis and the level within the FAS 157 fair value hierarchy in which the fair value measurements fall at September 30, 2008.

Mortgage Servicing Rights	55			55

LINCOLN BANCORP AND SUBSIDIARY

Notes to Unaudited Consolidated Condensed Financial Statements—(Continued)

Impaired Loans

Loan impairment is reported when full payment under the contractual loan terms is not expected. Impaired loans are carried at the present value of estimated future cash flows using the loan's existing rate, or the fair value of collateral if the loan is collateral dependent. Loans are evaluated for impairment quarterly.

During the first nine months of 2008, the Bank evaluated \$9.9 million of loans for impairment and determined specific impairment on these loans totaling \$2.3 million. Certain of these impaired loans were impaired for the first time, partially charged-off or re-evaluated, resulting in a remaining balance for these loans, net of specific allowance, of \$7.6 million. This valuation would be considered Level 3. Level 3 inputs for impaired loans included current and prior appraisals, discounting factors, the borrowers' financial results and other considerations including expected cash flows.

Mortgage Servicing rights

Mortgage servicing rights are initially recorded at fair value and are subsequently reported at amortized cost and periodically evaluated for impairment as described in (SFAS) No. 156, *Accounting for Servicing of Financial Assets—an amendment of FASB Statement No. 140*. New mortgage servicing rights recorded during the current accounting period are recorded at fair value and are disclosed as a nonrecurring measurement.

Mortgage servicing rights recorded as an asset and into income during the three months ended September 30, 2008 totaled \$3,000 and \$55,000 for the six months ended September 30, 2008. Mortgage servicing rights do not trade in an active, open market with readily observable prices. Accordingly, fair values of new mortgage servicing rights are estimated using discounted cash flow models. Due to the nature of the valuation inputs, recording initial mortgage servicing rights are classified within Level 3 of the hierarchy.

Note 5: Recent Accounting Pronouncements

In September 2006, the FASB issued Statement No. 157, "Fair Value Measurements". This statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This Statement establishes a fair value hierarchy about the assumptions used to measure fair value and clarifies assumptions about risk and the effect of a restriction on the sale or use of an asset. The standard is effective for fiscal years beginning after November 15, 2007. In February 2008, the FASB issued Staff Position (FSP) 157-2, Effective Date of FASB Statement No. 157. This FSP delays the effective date of FAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value on a recurring basis (at least annually) to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. The impact of the adoption was not material.

In February 2006, FASB issued Statement No. 159, "The Fair Value Option for Financial Assets and Liabilities" ("SFAS 159"). Adoption of SFAS 159 is required for January 1, 2008. This statement allows, but does not require, companies to record certain assets and liabilities at their fair value. The fair value determination is made at the instrument level, so similar assets or liabilities could be partially accounted for using the historical cost method, while other similar assets or liabilities are accounted for using the fair value method. Changes in fair value are recorded through the income statement in subsequent periods. The statement provides for a one time opportunity to transfer existing assets and liabilities to fair value at the point of adoption with a cumulative effect adjustment recorded against equity. After adoption, the election to report assets or liabilities at fair value must be made at the point of their inception. The adoption of this statement did not have a material impact on the Company's consolidated financial statements.

Financial Accounting Standards Board Statement No. 141 (SFAS 141R), “Business Combinations (Revised 2007),” was issued in December 2007 and replaces SFAS 141 which applies to all transactions and other events in which one entity obtains control over one or more other businesses. SFAS 141R requires an acquirer, upon initially obtaining control of another entity, to recognize the assets, liabilities and any non-controlling interest in the acquiree at fair value as of the acquisition date. Contingent consideration is required to be recognized and measured at fair value on the date of acquisition rather than at a later date when the amount of that consideration may be determinable beyond a reasonable doubt. This fair value approach replaces the cost allocation process required under SFAS 141 whereby the cost of an acquisition was allocated to the individual asset acquired and liabilities assumed based on their estimated fair value. SFAS 141R requires acquirers to expense acquisition-related costs as incurred rather than allocating such costs to the assets acquired and liabilities assumed.

Under SFAS 141R, the requirements of SFAS 146, “Accounting for Costs Associated with Exit or Disposal Activities,” would have to be met in order to accrue for a restructuring plan in purchase accounting. Pre-acquisition contingencies are to be recognized at fair value, unless it is a non-contractual contingency that is not likely to materialize, in which case, nothing should be recognized in purchase accounting. Instead, that contingency would be subject to the probable and estimable recognition criteria under SFAS 5, “Accounting for Contingencies.” The Company is evaluating the requirements of SFAS 141R to determine if it will have a significant impact on the Company’s financial condition or results of operations. This statement is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008 with early adoption prohibited.

Financial Accounting Standards Board Statement No. 160 (SFAS 160), “Noncontrolling Interest in Consolidated Financial Statements, an amendment of ARB Statement No. 51,” was issued in December 2007 and establishes accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS 160 clarifies that a non-controlling interest in a subsidiary, which is sometimes referred to as a minority interest, is an ownership interest in the consolidated entity that should be reported as a component of equity in the consolidated financial statements. Among other requirements, SFAS 160 requires consolidated net income to be reported at amounts that are attributable to both the parent and the non-controlling interest. It also requires disclosure, on the face of the consolidated income statement, of the amounts of consolidated net income attributable to the parent and to the non-controlling interest. SFAS 160 is effective for the Company on January 1, 2009 and is not expected to have a significant impact on the Company’s financial statements.

Financial Accounting Standards Board Statement No. 161 (SFAS 161), “Disclosures About Derivative Instruments and Hedging Activities, an Amendment of FASB Statement No. 133,” was issued in March 2008 and amends and expands the disclosure requirements of SFAS 133 to provide greater transparency about (i) how and why an entity uses derivative instruments, (ii) how derivative instruments and related hedge items are accounted for under SFAS 133 and its related interpretations, and (iii) how derivative instruments and related hedged items affect an entity’s financial position, results of operations and cash flows. To meet those objectives, SFAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments and disclosures about credit-risk-related contingent features in derivative agreements. SFAS 161 is effective for the Company on January 1, 2009 and is not expected to have a significant impact on the Company’s financial statements.

Note 6: Pending Acquisition

On September 3, 2008, the Company entered into a definitive agreement to be acquired by First Merchants Corporation. The agreement provides that shareholders of the Company will receive, at their election, either 0.7004 shares of First Merchants common stock, subject to possible upward or downward adjustment as provided in the Merger Agreement or \$15.76 in cash. The number of shares of First Merchants common stock and the amount of cash payable in connection with the merger is subject to various limitations and prorations. The transaction value is estimated at approximately \$75 million. The transaction is expected to close in the fourth quarter of 2008.

Due to the pending acquisition, at its October 21, 2008 meeting, the Board of Directors authorized the acceleration of vesting for certain option and recognition and retention incentive programs. This vesting will result in estimated expense to be recognized during the fourth quarter of 2008 totaling approximately \$500,000.

In addition, the Merger Agreement affirmed certain employment and change of control contracts that are anticipated to be paid in conjunction with the completion of the merger. The expense related to the payment of these contracts is estimated to be \$3.1 million and will be recognized in the fourth quarter of 2008 subject to the completion of the merger.

Each Lincoln shareholder who would otherwise have been entitled to a fraction of a First Merchants share, upon surrender of all such shareholder's certificates representing Lincoln's common shares, shall be paid in cash (without interest) in an amount equal to the fraction of the First Merchants Average Price (as defined below). No such shareholder of Lincoln shall be entitled to dividends, voting rights or any other rights in respect of any fractional share.

3.04 *Termination Rights.*

(a) As used in this Section 3.04, the term "First Merchants Average Price" shall mean the average of the closing price of the common stock of First Merchants as reported in Bloomberg, L.P. for the twenty (20) days that First Merchants common stock trades on NASDAQ preceding the fifth (5th) calendar day prior to the Effective Date (the "Determination Date"). The First Merchants Average Price and the dollar amounts set forth in Sections 3.04(b) and 3.04(c) shall be appropriately and proportionately adjusted to reflect any share adjustment as contemplated by Section 3.03 hereof.

(b) Lincoln may terminate this Agreement if its Board of Directors so determines by a vote of a majority of the members of its entire Board of Directors if the First Merchants Average Price shall be less than \$16.50; subject to the following two provisions. If Lincoln elects to exercise its right of termination pursuant to the immediately preceding sentence, it shall give written notice to First Merchants within forty-eight (48) hours of the Determination Date. Within three business days after the date of receipt of such notice, First Merchants shall have the option of adjusting the Conversion Ratio to equal a number equal to a quotient, the numerator of which is the product of \$16.50 and the Conversion Ratio (as then in effect) and the denominator of which is the First Merchants Average Price. If First Merchants makes an election

contemplated by the preceding sentence, it shall give prompt written notice to Lincoln of such election and the revised Conversion Ratio, whereupon no termination shall have occurred pursuant to this Section 3.04(b) and this Agreement shall remain in effect in accordance with its terms (except as the Conversion Ratio shall have been so modified), and any references in this Agreement to “Conversion Ratio” shall thereafter be deemed to refer to the Conversion Ratio as adjusted pursuant to this Section 3.04(b).

(c) First Merchants may terminate this Agreement if its Board of Directors so determines by a vote of a majority of the members of its entire Board of Directors if the First Merchants Average Price shall be greater than \$30.00; subject to the following two provisions. If Lincoln makes an election contemplated by the preceding sentence, it shall give prompt written notice to First Merchants of such election and the revised Conversion Ratio, whereupon no termination shall have occurred pursuant to this Section 3.04(c) and this Agreement shall remain in effect in accordance with its terms (except as the Conversion Ratio shall have been so modified), and any references in this Agreement to “Conversion Ratio” shall thereafter be deemed to refer to the Conversion Ratio as adjusted pursuant to this Section 3.04(c).

An election form (the “Election Form”) shall be mailed to each record holder of Lincoln’s common shares as of the record date fixed for the special shareholders’ meeting at which the Merger will be submitted to a vote of Lincoln’s shareholders (the “Special Record Date”). In addition, reasonable efforts will be made to make the Election Form available to all persons who become shareholders of Lincoln between the Special Record Date and the Election Deadline (as defined below). The deadline for receipt of such Election Forms shall be the close of business on the first business day after the special meeting at which the Merger will be submitted to a vote of Lincoln’s shareholders, or such other date mutually agreed to by Lincoln and First Merchants (the “Election Deadline”). The Election Forms shall be mailed to each record holder of Lincoln’s common stock as of the Special Record Date along with the proxy materials for the special shareholders’ meeting at which the Merger will be submitted to a vote of Lincoln’s shareholders. The Election Form will permit each holder of record of Lincoln’s common stock as of the Special Record Date to elect, subject to Section 3.07, to have all of such holder’s shares converted in the Merger into either the Share Option, the Cash Option or a combination of the Share Option and the Cash Option. The Election Form shall also permit direct deposit of cash in each holder’s account in either the Bank or FMBCI. An election shall be duly made by completing the Election Form and any other required documents in accordance with the instructions set forth therein and delivering them to the Election Agent (as defined below) or to such other person or persons mutually agreed upon by Lincoln and First Merchants to receive elections, to receive outstanding Lincoln shares, to deliver cash or cash and shares of First Merchants’ common stock and to carry out the other procedures set forth herein, on or before 5:00 p.m., Eastern Time, on the Election Deadline. Lincoln common shares as to which the Share Option has been elected are referred to in this Agreement as “Stock Election Shares.” Lincoln common shares as to which the Cash Option has been elected are referred to in this Agreement as “Cash Election Shares.” Lincoln common shares as to which no valid election has been made by the Election Deadline are referred to in this Agreement as “Non-Electing Shares.”

3.06 Election Agent. First Merchants and Lincoln hereby appoint American Stock Transfer to act as agent (the “Election Agent”) of Lincoln’s shareholders for the purposes of mailing and receiving the Election Forms, tabulating the results and notifying First Merchants and Lincoln of the results.

3.07 Diversity of Payments.

(a) In the event (i) the number of Cash Election Shares would entitle the holders of such shares (and Lincoln shareholders receiving cash payments for fractional shares) to receive \$16,800,000 or less in cash, and (ii) the number of Stock Election Shares and Non-Electing Shares would entitle the holders of such

Table of Contents

shares to receive 3,576,417 or less shares of common stock of First Merchants (assuming for such purpose that all Non-Electing Shares were treated as Stock Election Shares), then all Share Option and Cash Option elections of the holders of Lincoln's common shares shall be honored (each in its entirety) and all Non-Electing Shares shall be treated as Stock Election Shares.

(b) In the event that the amount of cash to be received by holders of Cash Election Shares and Lincoln shareholders receiving cash payments for fractional shares pursuant to the terms of the Agreement would result in cash payments of more than \$16,800,000, the Cash Election Shares shall be converted into Stock Election Shares pro rata (based on the number of Cash Election Shares held by each Lincoln shareholder) until the total remaining number of Cash Election Shares is such that the Merger will (i) result in cash payments of no more than \$16,800,000 for Cash Election Shares and Lincoln shareholders receiving cash payments for fractional shares, and (ii) satisfy the "continuity of interest" requirement applicable to tax-free reorganizations under the Code. Cash Election Shares which are not converted into Stock Election Shares shall remain as Cash Election Shares, and all Non-Electing Shares shall be treated as Stock Election Shares.

(c) In the event that the number of shares of common stock of First Merchants to be received by shareholders of Lincoln pursuant to the terms of the Agreement in respect of Stock Election Shares and Non-Electing Shares (which, for purposes of this calculation, shall be considered as Stock Election Shares) exceeds 3,576,417, the Non-Electing Shares shall first be converted into Cash Election Shares pro rata (based on the number of Non-Electing Shares held by each Lincoln shareholder), and after all Non-Electing Shares have been converted into Cash Election Shares, the Stock Election Shares shall be converted into Cash Election Shares pro rata (based on the number of Stock Election Shares held by each Lincoln shareholder) until the total remaining number of Stock Election Shares (and, if applicable, Non-Electing Shares) is such that the Merger will (i) result in 3,576,417 shares of First Merchants common stock being issued to the shareholders of Lincoln for Stock Election Shares and Non-Electing Shares (if any have not been so converted) or such lesser number of shares as is required in effecting the adjustment described in this subsection, and (ii) satisfy the "continuity of interest" requirement applicable to tax-free reorganizations under the Code. Stock Election Shares which are not converted into Cash Election Shares shall remain as Stock Election Shares, and all Non-Electing Shares which are not converted into Cash Election Shares shall be treated as Stock Election Shares.

(d) Lincoln and First Merchants shall mutually determine the validity of elections submitted by Lincoln's shareholders.

(e) A holder of Lincoln's shares that is a bank, trust company, security broker-dealer or other recognized nominee, may submit one or more Election Forms for the persons for whom it holds shares as nominee provided that such bank, trust company, security broker-dealer or nominee certifies to the satisfaction of Lincoln and First Merchants the names of the persons for whom it is so holding shares (the "Beneficial Owners"). In such case, each Beneficial Owner for whom an Election Form is submitted shall be treated as a separate owner for purposes of the election procedure and allocation of shares set forth herein.

(f) First Merchants and Lincoln may, upon mutual agreement, apply the adjustments set forth in this Section 3.07 only to such extent and to such number of Lincoln's shareholders as is necessary to accomplish the objectives of this Section 3.07 and to assure that the Merger will qualify as a tax-free reorganization.

(g) Certain shares of common stock of Lincoln are held under The Lincoln Bank Employee Stock Ownership Plan and 401(k) Savings Plan and Trust Agreement (the "ESOP"). The Cash Option or Share Option elected with respect to the shares held by the ESOP shall be subject to the adjustments described in Sections 3.07(b) and 3.07(c), but only to the extent that no less than "Adequate Consideration" (as defined below) will be paid to the ESOP for its Lincoln common shares. Accordingly, the ESOP will participate in any pro rata adjustment required by Sections 3.07(b) and 3.07(c) until such adjustment would otherwise cause the ESOP to receive less than Adequate Consideration, and further adjustments will only be made among the Lincoln shareholders other than the ESOP. For purposes of this subsection, "Adequate Consideration" shall be as defined in section 3(18) of Employee Retirement Income Security Act of 1974, as

amended (“ERISA”) and the regulations promulgated thereunder. If the trustee of the ESOP desires application of this subsection 3.07(g), it shall so instruct First Merchants in writing on or before the Effective Date, along with its written determination that failure to apply this subsection would result in less than “Adequate Consideration” being delivered to the ESOP as provided herein.

3.08 Distribution of First Merchants’ Common Stock and Cash.

(a) Each share of common stock of First Merchants outstanding immediately prior to the Effective Date shall remain outstanding unaffected by the Merger.

(b) Following the Effective Date, First Merchants shall mail to each Lincoln shareholder a letter of transmittal (the “Letter of Transmittal”) providing instructions as to the transmittal to the conversion agent, American Stock Transfer (the “Conversion Agent”), of certificates representing shares of Lincoln’s common stock and the issuance of shares of First Merchants’ common stock and cash in exchange therefor pursuant to the terms of this Agreement. Distribution of stock certificates representing First Merchants’ common stock and cash payments for Lincoln’s common stock and for fractional shares shall be made by First Merchants to each former shareholder of Lincoln within fifteen (15) business days following the later of the Effective Date or the date of such shareholder’s delivery to the Conversion Agent of such shareholder’s certificates representing Lincoln common shares, accompanied by a properly completed and executed Letter of Transmittal. Interest shall not accrue or be payable with respect to any cash payments.

(c) Following the Effective Date, stock certificates representing Lincoln’s common shares shall be deemed to evidence only the right to receive cash and/or ownership of First Merchants’ common stock (for all corporate purposes other than the payment of dividends) and cash for fractional shares, as applicable. No dividends or other distributions otherwise payable subsequent to the Effective Date on stock of First Merchants shall be paid to any shareholder entitled to receive the same until such shareholder has surrendered such shareholder’s certificates for Lincoln’s common shares to the Conversion Agent in exchange for certificates representing First Merchants’ common stock and/or cash. Upon surrender or compliance with the provisions of Section 3.08(b), there shall be paid to the record holder of the new certificate(s) evidencing shares of First Merchants’ common stock the amount of all dividends and other distributions, without interest thereon, withheld with respect to such common stock.

(d) At or after the Effective Date, there shall be no transfers on the stock transfer books of Lincoln of any Lincoln common shares. If, after the Effective Date, certificates are presented for transfer to Lincoln, such certificates shall be cancelled and exchanged for the consideration set forth in Section 3.01 hereof, as adjusted pursuant to the terms of this Agreement.

(e) First Merchants shall be entitled to rely upon the stock transfer books of Lincoln to establish the persons entitled to receive cash and shares of common stock of First Merchants, which books, in the absence of actual knowledge by First Merchants of any adverse claim thereto, shall be conclusive with respect to the ownership of such stock.

(f) With respect to any certificate for Lincoln common shares which has been lost, stolen, or destroyed, First Merchants shall be authorized to issue common stock to the registered owner of such certificate upon receipt of an affidavit of lost stock certificate, in form and substance satisfactory to First Merchants, and upon compliance by the Lincoln’s shareholder with all procedures historically required by Lincoln in connection with lost, stolen, or destroyed certificates.

Neither First Merchants nor any Subsidiary has any liability to the PBGC, to the IRS, to the DOL, to the Employee Benefits Security Administration, or to an employee or First Merchants Employee Plan beneficiary under Section 502 of ERISA, with respect to any First Merchants Employee Plan.

In addition, each such First Merchants Employee Plan has been and is being operated in substantial conformance with the applicable provisions of ERISA and the Code, as amended by the Acts, including the automatic rollover rules which became effective March 28, 2005. Except as set forth in the Disclosure Letter, First Merchants and/or any Subsidiary, as applicable, sought and received favorable determination letters from the IRS within the applicable remedial amendment periods under Code Section 401(b), and has furnished to Lincoln copies of the most recent IRS determination letters with respect to any such First Merchants Employee Plan that is an “employee pension benefit plan” under ERISA Section 3(2)(A).

The terms of such letter to the shareholders of Lincoln shall be in a form mutually agreed to by First Merchants and Lincoln.

7.11 *Exercise of Options*.

(a) From and after the date hereof, Lincoln covenants that no additional stock options or stock appreciation rights shall be granted by Lincoln under any stock option plans of Lincoln or otherwise. Any stock options granted by Lincoln on or before the date of this Agreement, but which are currently not vested, may be amended to be immediately vested and exercisable. On or prior to the Effective Date, all outstanding stock options of Lincoln, disclosed pursuant to Section 5.03(e), may be exercised in accordance with the stock option plan under which such option was granted, and Lincoln shall use reasonable efforts to cause such stock options to be exercised on or immediately before the Effective Date.

(b) On or prior to the calendar day immediately preceding the Effective Date, or such other date mutually agreed to by Lincoln and First Merchants (the “Option Deadline”), Lincoln shall take all action necessary to terminate all stock option plans of Lincoln outstanding as of the Option Deadline and shall use reasonable efforts to obtain necessary consents from optionees to permit such termination in accordance with the foregoing provisions. No Lincoln stock options shall continue to be outstanding after the Option Deadline. Instead, as of the Option Deadline, any outstanding Lincoln stock options that have not been previously exercised are to be terminated in return for either (i) or (ii):

(i) A Cash amount determined using the following equation:

$$[(FMAP \times CR) - EP] \times OP$$

(For purposes of this equation, FMAP equals the First Merchants Average Price; CR equals the Conversion Ratio; EP equals the applicable exercise price per Lincoln common share issuable upon exercise of the applicable stock option; and OP equals the number of Lincoln common shares issuable upon exercise of such stock option.)

(ii) The number of Lincoln common shares issuable upon exercise of such Lincoln stock option in exchange for payment of the exercise price as required in the applicable stock option. For purposes of this item (ii), the required payment can also be made by cashless exercise, which also includes an equity swap, all as permitted in the applicable election form. In the event that the optionee fails to pay this exercise price in cash or through such cashless exercise on or before the Option Deadline, the optionee shall be deemed to have elected to receive the cash amount as referred to in the immediately preceding item (i).

(c) An election to receive cash or common stock under Section 7.11(b) must be made no later than two (2) days prior to the Option Deadline. If an election is not made by such time, a non-electing optionee shall be deemed to have elected to receive cash under item (i) of Section 7.11(b). In addition, if the cash amount calculated under item (i) of Section 7.11(b) is negative, a non-electing optionee shall be entitled to nothing upon termination of the previously unexercised Lincoln stock option.

(d) In addition to those common shares issued upon exercise of stock options as provided in this section 7.11 (the "Option Shares"), Lincoln shall have no more than 5,319,731 common shares outstanding immediately prior to the Effective Date. Furthermore, the diversity of payment limitations contained in section 3.07 shall otherwise apply to the Option Shares, as well as all other Lincoln common shares outstanding as of the Effective Date.

7.12 SEC and Other Reports.

(a) Promptly upon its becoming available, Lincoln shall furnish to First Merchants one (1) copy of each financial statement, report, notice, or proxy statement sent by Lincoln to its shareholders generally and of each regular or periodic report, registration statement or prospectus filed by Lincoln with NASDAQ or the SEC or any successor agency, of any order issued by any Governmental Authority in any proceeding to which Lincoln is a party, and of any notice or communication received by Lincoln from NASDAQ or the SEC. For purposes of this provision, "Governmental Authority" shall mean any government (or any political subdivision or jurisdiction thereof), court, bureau, agency or other governmental entity having or asserting jurisdiction over Lincoln or any of its respective businesses, operations or properties.

(b) None of the information supplied or to be supplied by Lincoln for inclusion or incorporation by reference in (i) the Registration Statement (as defined in Section 8.01 hereof) will, at the time the Registration Statement and each amendment or supplement thereto, if any, becomes effective under the Securities Act of 1933, as amended, contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements contained therein, in light of the circumstances in which they are made, not misleading, and (ii) the Proxy Statement (as defined in Section 8.01 hereof) and any amendment or supplement thereto will, at the date of mailing, contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements contained therein, in light of the circumstances in which they are made, not misleading.

7.14 Adverse Actions. Lincoln shall not (a) take any action while knowing that such action would, or is reasonably likely to, prevent or impede the Merger from qualifying as a reorganization within the meaning of Section 368 of the Code; or (b) knowingly take any action that is intended or is reasonably likely to result in (i) any of its representations and warranties set forth in this Agreement being or becoming untrue in any material respect at any time at or prior to the Effective Date, (ii) any of the conditions to the Merger set forth in Section 9 not being satisfied, (iii) a material violation of any provision of this Agreement, or (iv) a material delay in the consummation of the Merger except, in each case, as may be required by applicable law or regulation.

7.15 Bank Merger Agreement. Lincoln shall cause the appropriate officers of the Bank to execute and deliver the Bank Merger Agreement contemporaneously herewith.

7.16 Employee Stock Ownership Plan. Lincoln shall establish a freeze and termination date for the ESOP that is no later than the day before the Effective Date. As of the Effective Date, the ESOP shall be frozen and all shares of Lincoln stock held by the ESOP shall be converted into rights to receive the Merger Consideration described in Section 3 in respect thereof. On or before the ESOP's receipt of a favorable determination letter from the Internal Revenue Service ("IRS") with regard to termination, all outstanding indebtedness of the ESOP shall be repaid, any assets remaining in the suspense fund under the ESOP shall be allocated among the accounts of the ESOP Participants as additional earnings as otherwise provided in the ESOP and, after receipt of the such determination letter, the net assets of the ESOP shall be promptly distributed to Participants under the ESOP and their Beneficiaries, except as otherwise required by applicable law. Within five (5) business days following the

approval of the Merger by the Lincoln shareholders, Lincoln shall file the notifications or applications with the IRS necessary to comply with the provisions of this Section 7.16. To the extent any notifications or applications with the IRS to comply with the provisions of this Section 7.16 are required to be filed after the Effective Date, First Merchants shall promptly make such notifications or applications. If for any reason the IRS does not permit the ESOP to be terminated or distributions to be made to employees of Lincoln and its Subsidiaries as provided above, First Merchants will, in its sole discretion, either (a) merge the ESOP into its existing 401(k) Plan or (b) amend the ESOP to provide for the ESOP to be continued after the Effective Date for the sole and exclusive benefit of the individuals participating therein or having accounts thereunder immediately prior to the Effective Date; provided, however, that (i) no such amendment shall require or have the effect of requiring First Merchants, Lincoln or their respective Subsidiaries to make any contributions to the ESOP at or after the Effective Date, (ii) no such amendment shall require or have the effect of requiring First Merchants, Lincoln or their respective Subsidiaries to make any contributions to the ESOP at or prior to the Effective Date in addition to any contributions that otherwise would be required, (iii) any such amendment shall be conditioned upon its not having an adverse effect upon the qualified status of the ESOP under Section 401(a) of the Code, and (iv) no such amendment shall require or have the effect of requiring continuation of the ESOP for more than three years after the Effective Date. Lincoln and its Subsidiaries shall make no contributions to the ESOP between the date hereof and the Effective Date other than elective deferrals (Compensation Reduction Amounts), matching contributions (Company Matched Contributions), but only at rates as currently provided in the ESOP, and such other contributions as may be required to maintain the tax-qualified status of the ESOP or to enable the ESOP to make required payments on the loans currently outstanding to it.

7.17 Lincoln Recognition and Retention Plan.

(a) As of the date hereof, 32,888 of the outstanding Lincoln Common Shares are held in trust in the Lincoln Federal Savings Bank Recognition and Retention Plan and Trust (the "RRP Plan"). On and after the date of this Agreement, no further contributions shall be made to the RRP Plan. However, on or before the Effective Date, but otherwise subject to any applicable statutory or regulatory requirements, Lincoln will: (a) modify any or all outstanding RRP Plan Awards held by employees or directors of Lincoln or its Subsidiaries to become fully vested on or before the Effective Date, (b) issue fully vested and previously unissued RRP Plan Awards to employees or directors of Lincoln and its Subsidiaries in accordance with the terms and conditions of the RRP Plan, and (c) make distributions of Lincoln Common Shares to applicable recipients as provided in the RRP Plan.

First Merchants agrees to advise Lincoln, promptly after First Merchants receives notice thereof, of the time when the Registration Statement has become effective or any supplement or amendment has been filed, of the issuance of any stop order or the suspension of the qualification of First Merchants common stock for offering or sale in any jurisdiction, of the initiation or threat of any proceeding for any such purpose, or of any request by the SEC for the amendment or supplement of the Registration Statement or for additional information. First Merchants agrees to use its reasonable best efforts to list, prior to the Effective Date, on the Global Select Market System of NASDAQ (subject to official notice of issuance), the shares of First Merchants common stock to be issued to the holders of Lincoln common shares in the Merger. (k) By Lincoln or First Merchants, if the Merger has not been consummated before June 30, 2009 (provided that the terminating party is not then in material breach of any representation, warranty, covenant or other agreement contained herein).

10.02 *Effect of Termination.* Except as provided below, in the event that this Agreement is terminated pursuant to the provisions of Section 10.01 hereof, no party shall have any liability to any other party for costs, expenses, damages or otherwise; provided, however, that notwithstanding the foregoing, in the event that this Agreement is terminated pursuant to Section 10.01(b) hereof on account of a willful breach of any of the representations and warranties set forth herein or any willful breach of any of the agreements set forth herein, then the non-breaching party shall be entitled to recover appropriate damages from the breaching party, including, without limitation, reimbursement to the non-breaching party of its costs, fees and expenses (including attorneys', accountants' and advisors' fees and expenses) incident to the negotiation, preparation and execution of this Agreement and related documentation; provided, however, that nothing in the foregoing proviso shall be deemed to constitute liquidated damages for the breach by a party of the terms of this Agreement or otherwise limit the rights of the non-breaching party. Notwithstanding the foregoing, (i) in the event of termination by Lincoln in accordance with Section 10.01(f) or by First Merchants in accordance with Section 10.01(g) or 10.01(h), Lincoln shall pay First Merchants the sum of \$3,200,000 as liquidated damages, (ii) in the event of termination by Lincoln in accordance with Section 10.01(j), First Merchants shall pay Lincoln the sum of \$3,200,000, and (iii) in the event of termination by First Merchants in accordance with Section 10.01(d), First Merchants shall pay Lincoln the sum of \$2,000,000. Such liquidated damages shall be in lieu of costs, expenses and damages otherwise recoverable under the first sentence of this Section 10.02. Such payment shall be made within ten (10) days of the date of notice of termination. Each of First Merchants and Lincoln acknowledges the reasonableness of such amount in light of the considerable time and expense invested and to be invested by each of them and their respective representatives in furtherance of the Merger. Such amount was agreed upon by First Merchants and Lincoln as compensation for their time and expense and not as a penalty, it being impossible to ascertain the exact value of the time and expense to be invested. The prevailing party in the event of any litigation to enforce this Section 10.02 shall be entitled to recover reasonable attorneys' fees.

SECTION 11

Effective Date Of Merger

Subject to the terms and upon satisfaction of all requirements of law and the conditions specified in this Agreement, the Merger shall become effective at the close of business on the day specified in the Articles of Merger of Lincoln with and into First Merchants (the "Articles of Merger") as filed with the Secretary of State of the State of Indiana (the "Effective Date"). Unless otherwise agreed to by the parties, the Effective Date shall be no later than the last business day of the month in which both (a) any waiting period following the last approval of the Merger by a state or federal regulatory agency or governmental authority expires and (b) the conditions precedent to the Merger outlined in Section 9 have been satisfied; provided, however the Effective Date shall not be before December 31, 2008, unless otherwise agreed by the parties.

SECTION 12

12.03 *Bank Merger-Articles of Merger.* Subject to the provisions of this Agreement, on the Effective Date, the articles of merger or other filings necessary to consummate the Bank Merger shall be duly filed.

12.04 *Opinions of Counsel.* At the Closing, (a) Lincoln shall deliver an opinion of its counsel, Bose McKinney & Evans LLP, to First Merchants, and (b) First Merchants shall deliver an opinion of its counsel, Bingham McHale LLP to Lincoln, each dated as of the date of Closing. The form of such opinion shall be as mutually agreed to by the parties hereto and their respective counsel; provided, however, the opinion of Lincoln’s counsel shall also include an opinion that the ESOP termination and distribution contemplated under Section 7.16 hereof was conducted in accordance with all applicable plan documents, statutes, rules and regulations.

SECTION 13

Miscellaneous

13.01 *Effective Agreement.* This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and permitted assigns, but none of the provisions thereof shall inure to the benefit of any other person, firm, or corporation whomsoever other than Sections 7.11, 7.16, 7.17, 8.03, 8.06, 8.07 and 8.08, which may be enforced by the employees and officers of Lincoln and Lincoln’s Subsidiaries. The waiver by any party hereto of a breach of any provision of this Agreement shall not operate or be construed as a waiver of any other or subsequent breach hereunder.

(b) Notwithstanding the prior approval by the shareholders of Lincoln, this Agreement may be amended, modified or supplemented by the written agreement of Lincoln, First Merchants, the Bank and FMBCI without further approval of such shareholders, except that no such amendment, modification or supplement shall decrease the consideration specified in Section 3 hereof, or shall otherwise materially adversely affect the rights of the shareholders of Lincoln without the further approval of such shareholders.

ENGLE EMPLOYMENT AGREEMENT

Employment Agreement

This Employment Agreement (“Agreement”) is made and entered into this 31st day of December, 2008, by and between JERRY R. ENGLE (“Employee”) and FIRST MERCHANTS BANK OF CENTRAL INDIANA, NATIONAL ASSOCIATION (“Employer”), a national banking association.

1. Employment.

Employer hereby employs Employee and Employee hereby accepts employment upon the terms and conditions set forth in this Agreement.

2. Term of Agreement.

Subject to the provisions for termination hereinafter provided, the “Term” of this Agreement shall commence on December 31, 2008, and continue for a term of twenty-four (24) months.

3. Duties.

During the Term of this Agreement, Employee shall be the Indianapolis Regional President and shall perform all duties related and necessary to that position; provided, however, that such duties shall be regularly performed in or from an office of the Employer in the greater Indianapolis area, as directed by Employer. Employee agrees to abide by all by-laws, policies, practices, procedures, and rules of Employer.

Employee shall devote all of his professional time, efforts, skill and ability to the business of Employer, and shall not, during the Term of this Agreement, be engaged in any other business activity, whether or not such business activity is pursued for gain, profit or other pecuniary advantage, unless Employee has obtained the prior written approval of Employer; but this shall not be construed as preventing Employee from investing his assets in such form or manner as will not require any services on the part of Employee in the operation of the affairs of the companies in which such investments are made. Further, this Paragraph 3 shall not prevent Employee from participating in charitable or other not-for-profit activities as long as such activities do not materially interfere with Employee’s work for Employer.

4. Business Opportunities.

Employee will take no action that deprives Employer of any business opportunities within the scope of Employee’s existing duties and, should Employee be offered or become aware of any such opportunities, Employee shall advise Employer in writing, and Employer shall have the right of first refusal before Employee pursues such opportunity.

5. Compensation and Benefits.

Employer shall compensate Employee for services performed during the Term of this Agreement as follows:

- A. *Annual Salary.* Employer shall pay Employee a total Annual Salary of Two Hundred Ninety-Seven Thousand and 00/100 Dollars (\$297,000.00) (minus all applicable deductions and withholdings, including federal, state, and local taxes, and FICA), payable in accordance with Employer’s normal payroll policies. At least annually, if not more often, Employer shall review and may increase Employee’s Annual Salary as Employer determines to be reasonable and appropriate.

Table of Contents

- B. *Employee's Bonus.* In addition to his Annual Salary, Employee may be paid an Employee Bonus in the sole discretion of Employer.
- C. *Automobile Allowance.* Employer shall pay Employee Eight Hundred and 00/100 Dollars (\$800.00) per month, less applicable withholdings to compensate him for the business use of his automobile. Employee's automobile shall otherwise be owned, maintained and insured by Employee at his sole expense.
- D. *Other Benefits.* Employee shall be entitled to all other benefits otherwise provided to full-time employees of Employer and in accordance with Employer's policies. The terms and conditions on which Employer shall provide benefits to Employee are the same as it provides such benefits to its other management employees holding positions similar to that of Employee. Employee understands and agrees that all benefits are subject to change from time to time at the sole discretion of Employer.
- E. *Stock Options / Restricted Shares.* Pursuant to the Merger Agreement, as defined in Paragraph 19, Employee is to be provided with 6,400 restricted shares or 24,000 stock options or a combination of both. Employer will take all steps necessary to confirm that such forms of deferred compensation are promptly awarded to Employee after the execution of this Agreement based upon terms and conditions substantially similar to those included with awards made to other management employees holding positions similar to that of Employee with Employer or any affiliate of First Merchants Corporation.

6. Expense Reimbursement.

Employer shall reimburse Employee for all reasonable out-of-pocket expenses that are incurred by Employee in providing services to Employer hereunder, so long as Employee provides Employer with reasonable documentation necessary to support such expenses. All expense reimbursement shall be paid to Employee consistent with Employer's expense reimbursement policy, in effect from time to time.

7. Confidential Information and Return of Property.

Employee acknowledges that in the course of his employment with Employer, he will occupy a position of trust and confidence and will have access to and may develop Confidential Information of actual or potential value to, or otherwise useful to, Employer. "Confidential Information" means information that the Employer owns or possesses, that it uses or is potentially useful in its business, that it treats as proprietary, private or confidential, and that is not generally known to the public, including, but not limited to, trade secrets (as defined by the Indiana Trade Secrets Act, Ind. Code sec. 24-2-3-1, *et. seq.*), information relating to the Employer's business plans, financial condition, operating and other costs, sales, pricing, marketing, ideas, research records, plans for service improvements and development, lists of actual or potential customers, actual and potential customer usage and requirements, customer records, trade secrets, and any other information which derives independent economic value, either actual or potential. Information supplied to Employee from outside sources will also be presumed to be Confidential Information unless and until Employer designates it otherwise.

Employee agrees to use Confidential Information solely in the course of his duties as an employee of Employer and in furtherance of Employer's business. Employee hereby further agrees that the above-referenced information will be kept confidential at all times during the Term of this Agreement and thereafter, that he will not disclose or communicate to any third party any of the Confidential Information and will not make use of the Confidential Information on his own behalf or on the behalf of a third party.

Employee agrees that all Confidential Information is and shall remain the exclusive property of Employer. Employee agrees to return to Employer on or before Employee's termination of employment with Employer all Employer property, information and documents, including and without limitation, all reports, files, memoranda, records, software, hardware, credit cards, keys, computer access codes or disks, instruction or operational manuals, handbooks or manuals, written financial information, business plans or other physical and personal

[Table of Contents](#)

property which Employee received or prepared or helped prepare in connection with his employment with Employer; and Employee agrees that he will not retain any copies, duplicates, reproductions or excerpts thereof.

This Paragraph 7 shall survive the termination of this Agreement.

8. Non-Solicitation.

- A. *Customers.* Employee shall not, at any time during the Term or for a period of one (1) year thereafter, directly or indirectly, on Employee's own behalf or for any other person, firm, corporation or other business entity: (1) solicit, seek to obtain, divert or otherwise attempt to take away any of the banking or bank-related service business of any of Employer's customers; (2) provide services to or accept the business of any of Employer's customers for the banking or bank-related service business offered by Employer; or (3) request or advise any of Employer's customers to terminate, reduce, limit or otherwise change their banking or bank-related service business relationship with Employer. For purposes of this Section 8.A., "Employer's customers" shall mean those persons, firms, corporations and other business entities who are customers of Employer at the time of Employee's termination of employment with Employer or who were customers of Employer at any time during the two year period immediately preceding the termination of Employee's employment with Employer, whether or not Employee had direct contact with such customers on behalf of Employer.
- B. *Employees.* Employee shall not, at any time during the Term or for a period of one (1) year thereafter, directly or indirectly, on Employee's own behalf or for any other person, firm, corporation or other business entity, solicit, induce, request, advise, or otherwise attempt to take away or to influence any of Employer's employees to terminate his or her employment with Employer.
- C. *Exceptions.* If Employer terminates this Agreement without Cause, as set forth in Paragraph 10(D), or Employee terminates the Agreement for Good Reason, as provided in Paragraph 10(C), the foregoing Customers and Employees provisions of this Paragraph 8 shall only apply for the shorter of: (i) one (1) year following termination of this Agreement or (ii) the remaining portion of the Term (prior to termination) for which Employee is provided the lump sum payment under Paragraph 10D or 10(C). If the Agreement is not terminated, but rather expires as provided in Paragraph 2 at the conclusion of the twenty-four (24) month period, the foregoing Customers and Employees provisions of this Paragraph 8 shall expire contemporaneously therewith.

9. Breach of Agreement.

- A. Employee acknowledges that any breach of Paragraphs 7 or 8 of this Agreement, by Employee may cause irreparable damage to Employer and that the legal remedies available to Employer will be inadequate. Therefore, in the event of any threatened or actual breach of Paragraphs 7 or 8 of this Agreement by Employee, Employee agrees that Employer shall be entitled to specific enforcement of this Agreement through injunctive or other equitable relief in addition to legal remedies, without the need for posting bond. If Employee is found, by a court of competent jurisdiction, to have breached any of the terms of Paragraphs 7 or 8 of this Agreement, Employee agrees to pay Employer reasonable attorney's fees and costs incurred in seeking relief from Employee's breach of Paragraphs 7 or 8 of this Agreement. If a court of competent jurisdiction declines to find a breach by Employee of Paragraphs 7 or 8 has occurred, Employer agrees to pay Employee reasonable attorney's fees and costs Employee incurred in responding to Employer's request for relief.
- Employee and Employer hereby submit to the jurisdiction and venue of the Delaware County, Indiana Courts and the United States District Court for the Southern District of Indiana, as applicable, in any cause of action to enforce the terms and conditions of Paragraphs 7 or 8 of this Agreement.
- B. Employee and Employer hereby agree that any claim, controversy, or dispute arising out of or relating to this Agreement or the breach thereof, except those identified in Paragraph 9(A) of this Agreement,

Table of Contents

shall be settled by binding arbitration in Delaware County, Indiana. Such arbitration shall be conducted in accordance with the rules of the American Arbitration Association, then in effect. Each party shall bear their own attorney's fees and costs in such proceeding. Arbitration shall be the sole and exclusive method of resolving such claims, controversies, or disputes under this Agreement.

C. This Paragraph 9 shall survive the termination of this Agreement.

10. Termination.

A. *Termination Due to Death.* In the event of Employee's death, this Agreement shall terminate as of the date of Employee's death. If this Agreement is terminated because of Employee's death, Employee's benefits shall be determined in accordance with the survivor's benefits, insurance, and other applicable programs of Employer, then in effect. Upon Employee's death, Employer's obligations to compensate Employee under Paragraph 5 of this Agreement shall immediately expire; provided, however, that within forty-five (45) business days of Employee's death, Employer shall pay to Employee's estate that portion of his Annual Salary and Bonus as provided in Paragraphs 5(A) and 5(B) of this Agreement that shall have been earned through the date of Employee's death, but not yet paid. Except as otherwise set forth herein or as otherwise required by applicable law, following the termination date established pursuant to this Paragraph 10(A), Employer and Employee (including Employee's heirs, executors, administrators, and personal representatives) shall have no further obligations to each other under this Agreement.

B. *Termination Due to Disability.* In the event Employee suffers a Disability, as defined herein, during the Term of Employment and is, therefore, unable to perform the duties required by the Agreement for more than ninety (90) calendar days during any consecutive twelve (12) month period, Employer shall have the right to terminate this Agreement and Employee's employment. Employer shall deliver written notice to Employee of Employer's intent to terminate this Agreement pursuant to this Paragraph 10(B) and specifying in such notice a termination date not less than thirty (30) days after the giving of the notice ("Disability Notice Period"). This Agreement and Employee's employment shall terminate at the close of business on the last day of the Disability Notice Period.

If this Agreement is terminated because of Employee's Disability, Employee shall be entitled to receive any applicable disability insurance benefits as allowed under Paragraph 5 (D) of this Agreement. Upon termination of this Agreement pursuant to this Paragraph 10(B), Employer's obligations to compensate Employee under Paragraph 5 of this Agreement shall immediately expire; provided, however, that within forty-five (45) business days after the termination of this Agreement, Employer shall pay to Employee that portion of his Annual Salary and Bonus as provided in Paragraphs 5(A) and 5(B) of this Agreement that shall have been earned through the termination date, but not yet paid. Except as otherwise set forth herein or as otherwise required by applicable law, following the termination date established pursuant to this Paragraph 10(B), Employer and Employee shall have no further obligations to each other under this Agreement.

For purposes of this Agreement only, the term "Disability" shall mean, the inability of Employee, because of injury, illness, disease, or bodily or mental infirmity, to engage in the performance of substantially all of the duties required by this Agreement with or without a reasonable accommodation. Employer shall reasonably and fairly determine such Disability upon receipt of, and in reliance on, medical advice from a licensed physician or physicians qualified to give professional medical advice.

C. *Termination by Employee.* Employee may terminate this Agreement at any time, with or without Good Reason, by providing Employer written notice of his intent to terminate this Agreement pursuant to this Paragraph 10(C) and specifying in such notice a termination date not less than thirty (30) days after the giving of the notice ("Employee's Notice Period"). This Agreement and Employee's employment shall terminate at the close of business on the last day of Employee's Notice Period.

For purposes of this Paragraph 10(C), "Good Reason" shall be defined as: (i) any action by Employer to remove Employee as Indianapolis Regional President of Employer, except for promotions, if any,

and except where Employer properly acts to remove Employee for Cause as defined in Paragraph 10(D) below, (ii) any action by Employer to materially limit, increase or modify Employee's duties and/or authority as Indianapolis Regional President of Employer or to otherwise change the regular work location of Employee outside of the greater Indianapolis area, (iii) any failure of Employer to obtain the assumption of the obligation to perform this Agreement by any successor of Employer, or (iv) any material breach by Employer of a term, condition or covenant of this Agreement.

If Employee terminates this Agreement pursuant to this Paragraph 10(C), Employee shall immediately upon the termination of this Agreement forfeit all rights and benefits to which he would otherwise have been entitled under this Agreement; provided, however, that within fifteen (15) business days after the termination of this Agreement pursuant to this Paragraph 10(C),

1. If termination by Employee is without Good Reason, Employer shall pay to Employee that portion of his Annual Salary as provided in Paragraph 5(A) of this Agreement that shall have been earned through the termination date, but not yet paid; or
2. If termination by Employee is with Good Reason, Employer shall pay to Employee a lump sum payment equal to remaining portion of Employee's Annual Salary as provided in Paragraph 5(A) for the Term then in effect, plus that portion of Employee's Bonus as provided in Paragraph 5(B) of this Agreement that shall have been earned through the termination date, but not yet paid.

Except as otherwise set forth herein or as otherwise required by applicable law, following the termination date established pursuant to this Paragraph 10(C), Employer and Employee shall have no further obligations to each other under this Agreement.

- D. *Termination by Employer Without Cause.* At any time during the Term of Employment, Employer may terminate this Agreement (and, thus, terminate Employee's Employment) for any reason by providing Employee written notice of its intent to terminate this Agreement pursuant to this Paragraph 10(D) and specifying in such notice a termination date not less than thirty (30) days after the giving of the notice ("Employer's Notice Period"). This Agreement and Employee's employment shall terminate at the close of business on the last day of Employer's Notice Period.

If this Agreement is terminated pursuant to this Paragraph 10(D), Employee shall immediately upon the termination of this Agreement forfeit all rights and benefits to which he would otherwise have been entitled under this Agreement; provided, however, that within fifteen (15) business days after the termination of this Agreement pursuant to this Paragraph 10(D), Employer shall pay to Employee a lump sum payment equal to remaining portion of Employee's Annual Salary as provided in Paragraph 5(A) for the Term then in effect, plus that portion of Employee's Bonus as provided in Paragraph 5(B) of this Agreement that shall have been earned through the termination date, but not yet paid. Except as otherwise set forth herein or as otherwise required by applicable law, following the termination date established pursuant to this Paragraph 10(D), Employer and Employee shall have no further obligations to each other under this Agreement.

- E. *Termination by Employer With Cause.* At any time during the Term of Employment, Employer may terminate this Agreement and Employee's Employment for "Cause." The term "Cause" as used herein shall mean a reasonable determination by Employer that Employee:

1. Engaged in willful and continued failure to perform substantially Employee's duties with Employer if such failure continues for a period of thirty (30) days after Employer delivers to Employee written demand for substantial performance, specifically identifying the manner in which Employee has not substantially performed his duties;
2. Engaged in unauthorized conduct and behavior that has the likelihood of exposing Employer to material liability or otherwise significantly jeopardizing Employer's business interests;
3. Has been convicted of any crime constituting a felony or involving moral turpitude or controlled substance;

4. Materially breached any term or condition of this Agreement; or
5. As otherwise defined in this Agreement.

Upon the occurrence of any of the foregoing, Employer may provide Employee written notice of its intent to terminate this Agreement pursuant to this Paragraph 10(E) and this Agreement and Employee's employment shall terminate at the close of business on the date on which Employer provides such notice.

If this Agreement is terminated pursuant to this Paragraph 10(E), Employee shall immediately upon the termination of this Agreement forfeit all rights and benefits to which he would otherwise have been entitled under this Agreement; provided, however, that Employer shall pay to Employee in accordance with Employer's normal payroll practices, that portion of Employee's Annual Salary as provided in Paragraph 5(A) of this Agreement that shall have been earned through the termination date. Except as otherwise set forth herein or as otherwise required by applicable law, following the termination date established pursuant to this Paragraph 10(E), Employer and Employee shall have no further obligations to each other under this Agreement.

- F. *Exception to Loss of Rights and Benefits.* Notwithstanding any contrary provisions contained herein, termination of this Agreement for any reason shall not otherwise terminate the rights and benefits held by Employee under any separate written agreement between Employee and Employer or any affiliate of First Merchants Corporation, including, but not limited to, Employee's rights and benefits under any change in control agreement, stock options, restricted share awards, other deferred compensation agreements, and the Merger Agreement, as defined in Paragraph 19.

11. Indemnification of Employee.

Employer shall indemnify Employee to the fullest extent permitted by Employer's articles of incorporation, by-laws and applicable federal or state laws for all amounts (including, without limitation, judgments, fines, settlement payments, expenses and attorneys' fees) incurred or paid by Employee in connection with any action, suit, investigation or proceeding arising out of or relating to the performance by Employee or services for, or the acting by Employee as a director, officer or employee of, Employer, any subsidiary of Employer or any other person or enterprise at Employer's request. Expenses, including but not limited to attorneys' fees and disbursements, incurred in defending any action, suit, investigation or proceeding, for which Employee may be entitled to indemnification under this Paragraph 11 upon final disposition of such action, shall be paid by Employer in advance of the final disposition, to the maximum extent permitted by applicable laws and regulations; provided, however, that prior to making any such payments Employer shall receive an undertaking by or on behalf of Employee to repay such amounts if it shall ultimately be determined that he is not entitled to indemnification.

12. Suspension.

If Employee is suspended and/or temporarily prohibited from participating in the conduct of Employer's affairs by a notice served under Section 8(e)(3) or (g)(1) of the Federal Deposit Insurance Act (12 U.S.C. § 1818(e)(3) and (g)(1)), Employer's obligations under this Agreement shall be suspended as of the date of service, unless stayed by appropriate proceedings. If the charges in the notice are dismissed, Employer shall (i) pay Employee all or part of the compensation withheld while its obligations under this Agreement were suspended and (ii) reinstate (in whole or in part) any of its obligations which were suspended.

13. Removal or Prohibition.

If Employee is removed and/or permanently prohibited from participating in the conduct of Employer's affairs by an order issued under section 8(e)(4) or (g)(1) of the Federal Deposit Insurance Act (12 U.S.C. § 1818(e)(4) or (g)(1)), all obligations of Employer under this Agreement shall terminate as of the effective date of the order and shall be considered a termination of Employee by Employer for "Cause" pursuant to Paragraph 10(E) of this Agreement.

14. Default of Employer.

If Employer is in default (as defined in section 3(x)(1) of the Federal Deposit Insurance Act), all obligations under this Agreement shall terminate as of the date of default, and shall be considered a termination of Employee by Employer for "Cause" pursuant to Paragraph 10(E) of this Agreement.

15. Termination by Regulatory Action.

All obligations under this Agreement may be terminated except to the extent determined that the continuation of the Agreement is necessary for the continued operation of Employer: (i) by the Office of the Comptroller of the Currency (the "Controller"), at the time the Federal Deposit Insurance Corporation enters into an agreement to provide assistance to or on behalf of Employer under the authority contained in Section 13(c) of the Federal Deposit Insurance Act; or (ii) by the Controller at the time the Controller approves a supervisory merger to resolve problems related to operation of Employer or when Employer is determined to be in an unsafe and unsound condition.

16. Conflict with Regulations.

If any of the provisions in this Agreement shall conflict with 12 C.F.R. § 30, Appendix A, or the Controller policies adopted thereunder (as the same may be amended from time to time) the requirements of such regulation shall supersede any contrary provisions herein and shall prevail.

17. Successors and Assigns.

This Agreement shall be binding upon and inure to the benefit of the successors and assigns of Employer, and unless clearly inapplicable, all references herein to Employer shall be deemed to include any such successor. In addition, this Agreement shall be binding upon and inure to the benefit of Employee and his heirs, executors, legal representatives and assigns; provided, however, that the obligations of Employee hereunder are personal in nature and may not be delegated without the prior written approval of Employer.

18. Choice of Law.

This Agreement shall be interpreted, construed, and governed by the laws of the State of Indiana, regardless of the place of execution or performance.

19. Entire Agreement

This Agreement contains the entire agreement of the parties and replaces and supersedes all employment agreements between Employee and Lincoln Bancorp or Lincoln Bank, including, but not limited to that certain Amended and Restated Employment Agreement between Lincoln Bank and Employee dated October 1, 2007 and effective as of January 1, 2005 (the "Lincoln Agreements"). Notwithstanding the foregoing, the obligation to make the lump sum payment upon Change in Control, as provided in the Lincoln Agreements and reaffirmed in the Agreement of Reorganization and Merger Between First Merchants Corporation and Lincoln Bancorp entered into this same date (the "Merger Agreement"), shall not be superseded or replaced, but shall continue to be in full force and effect.

This Agreement may not be changed orally, but only by an agreement in writing signed by the party against whom enforcement of any waiver, change, modification, extension, or discharge is sought.

This Agreement may be executed in multiple counterparts, each of which (or a facsimile thereof) shall be deemed an original, but all of which shall be considered a single instrument.

20. Severability.

If any provision of this Agreement shall be held by a court of competent jurisdiction to be contrary to law or public policy, the remaining provisions shall remain in full force and effect.

21. Notice.

Any notices, requests, demands, or other communications provided for by this Agreement shall be sufficient if in writing and if (i) delivered by hand to the other party; (ii) sent by facsimile communication with appropriate confirmation of delivery; (iii) sent by registered or certified United States Mail, return receipt requested, with all postage prepaid; or (iv) sent by recognized commercial express courier services, with all delivery charges prepaid; and addressed as follows:

If to Employer:
First Merchants Bank of Central Indiana, National Association

If to Employee:
Jerry R. Engle
345 South Oakwood Drive
Greenwood, Indiana 46142

or to such other address as either party hereto may have furnished to the other party in writing in accordance herewith, except that notices of change of address shall be effective only upon receipt.

22. Successor.

Employer shall require any successor (whether direct or indirect, by purchase, merger, consolidation or otherwise) to all or substantially all of the business or assets of Employer, by agreement in form and substance satisfactory to Employee to expressly assume and agree to perform this Agreement in the same manner and to the same extent that Employer would be required to perform it if no such succession had taken place. Failure of Employer to obtain such agreement prior to the effectiveness of any such succession shall be a material intentional breach of this Agreement and shall entitle Employee to terminate this Agreement with Good Reason pursuant to Paragraph 10(C) herein. Any successor assuming this Agreement shall be subject to the obligations of this Paragraph 22, similar to Employer.

23. Acknowledgement.

Employee represents and acknowledges that Employee has had adequate time to review this Agreement, Employee has had the opportunity to ask questions and receive answers from Employer regarding this Agreement, and Employee has had the opportunity to consult with legal advisors of his choice concerning the terms and conditions of this Agreement.

This Agreement is intended to supersede and replace all prior agreements, understandings and arrangements between or among Employer, or any agent thereof, and the Employee, or any agent thereof, relating to the employment of Employee.

EXHIBIT B-2

DITMARS EMPLOYMENT AGREEMENT

Employment Agreement

This Employment Agreement (“Agreement”) is made and entered into this 31st day of December, 2008, by and between JOHN B. DITMARS (“Employee”) and FIRST MERCHANTS BANK OF CENTRAL INDIANA, NATIONAL ASSOCIATION (“Employer”), a national banking association.

1. Employment.

Employer hereby employs Employee and Employee hereby accepts employment upon the terms and conditions set forth in this Agreement.

2. Term of Agreement.

Subject to the provisions for termination hereinafter provided, the “Term” of this Agreement shall commence on December 31, 2008, and continue for a term of twenty-four (24) months.

3. Duties.

During the Term of this Agreement, Employee shall be a Senior Vice President and shall perform all duties related and necessary to that position; provided, however, that such duties shall be regularly performed in or from an office of the Employer in the greater Indianapolis area, as directed by Employer. Employee agrees to abide by all by-laws, policies, practices, procedures, and rules of Employer.

Employee shall devote all of his professional time, efforts, skill and ability to the business of Employer, and shall not, during the Term of this Agreement, be engaged in any other business activity, whether or not such business activity is pursued for gain, profit or other pecuniary advantage, unless Employee has obtained the prior written approval of Employer; but this shall not be construed as preventing Employee from investing his assets in such form or manner as will not require any services on the part of Employee in the operation of the affairs of the companies in which such investments are made. Further, this Paragraph 3 shall not prevent Employee from participating in charitable or other not-for-profit activities as long as such activities do not materially interfere with Employee’s work for Employer.

4. Business Opportunities.

Employee will take no action that deprives Employer of any business opportunities within the scope of Employee’s existing duties and, should Employee be offered or become aware of any such opportunities, Employee shall advise Employer in writing, and Employer shall have the right of first refusal before Employee pursues such opportunity.

5. Compensation and Benefits.

Employer shall compensate Employee for services performed during the Term of this Agreement as follows:

- A. *Annual Salary.* Employer shall pay Employee a total Annual Salary of One Hundred Eighty-Eight Thousand and 00/100 Dollars (\$188,000.00) (minus all applicable deductions and withholdings, including federal, state, and local taxes, and FICA), payable in accordance with Employer’s normal payroll policies. At least annually, if not more often, Employer shall review and may increase Employee’s Annual Salary as Employer determines to be reasonable and appropriate.

- B. *Employee's Bonus.* In addition to his Annual Salary, Employee may be paid an Employee Bonus in the sole discretion of Employer.
- C. *Automobile Allowance.* Employer shall pay Employee Four Hundred and 00/100 Dollars (\$400.00) per month, less applicable withholdings to compensate him for the business use of his automobile. Employee's automobile shall otherwise be owned, maintained and insured by Employee at his sole expense.
- D. *Other Benefits.* Employee shall be entitled to all other benefits otherwise provided to full-time employees of Employer and in accordance with Employer's policies. The terms and conditions on which Employer shall provide benefits to Employee are the same as it provides such benefits to its other management employees holding positions similar to that of Employee. Employee understands and agrees that all benefits are subject to change from time to time at the sole discretion of Employer.
- E. *Stock Options / Restricted Shares.* Pursuant to the Merger Agreement, as defined in Paragraph 19, Employee is to be provided with 6,400 restricted shares or 24,000 stock options or a combination of both. Employer will take all steps necessary to confirm that such forms of deferred compensation are promptly awarded to Employee after the execution of this Agreement based upon terms and conditions substantially similar to those included with awards made to other management employees holding positions similar to that of Employee with Employer or any affiliate of First Merchants Corporation.

6. Expense Reimbursement.

Employer shall reimburse Employee for all reasonable out-of-pocket expenses that are incurred by Employee in providing services to Employer hereunder, so long as Employee provides Employer with reasonable documentation necessary to support such expenses. All expense reimbursement shall be paid to Employee consistent with Employer's expense reimbursement policy, in effect from time to time.

7. Confidential Information and Return of Property.

Employee acknowledges that in the course of his employment with Employer, he will occupy a position of trust and confidence and will have access to and may develop Confidential Information of actual or potential value to, or otherwise useful to, Employer. "Confidential Information" means information that the Employer owns or possesses, that it uses or is potentially useful in its business, that it treats as proprietary, private or confidential, and that is not generally known to the public, including, but not limited to, trade secrets (as defined by the Indiana Trade Secrets Act, Ind. Code sec. 24-2-3-1, *et. seq.*), information relating to the Employer's business plans, financial condition, operating and other costs, sales, pricing, marketing, ideas, research records, plans for service improvements and development, lists of actual or potential customers, actual and potential customer usage and requirements, customer records, trade secrets, and any other information which derives independent economic value, either actual or potential. Information supplied to Employee from outside sources will also be presumed to be Confidential Information unless and until Employer designates it otherwise.

Employee agrees to use Confidential Information solely in the course of his duties as an employee of Employer and in furtherance of Employer's business. Employee hereby further agrees that the above-referenced information will be kept confidential at all times during the Term of this Agreement and thereafter, that he will not disclose or communicate to any third party any of the Confidential Information and will not make use of the Confidential Information on his own behalf or on the behalf of a third party.

Employee agrees that all Confidential Information is and shall remain the exclusive property of Employer. Employee agrees to return to Employer on or before Employee's termination of employment with Employer all Employer property, information and documents, including and without limitation, all reports, files, memoranda, records, software, hardware, credit cards, keys, computer access codes or disks, instruction or operational manuals, handbooks or manuals, written financial information, business plans or other physical and personal

property which Employee received or prepared or helped prepare in connection with his employment with Employer; and Employee agrees that he will not retain any copies, duplicates, reproductions or excerpts thereof.

This Paragraph 7 shall survive the termination of this Agreement.

8. Non-Solicitation.

- A. *Customers.* Employee shall not, at any time during the Term or for a period of one (1) year thereafter, directly or indirectly, on Employee's own behalf or for any other person, firm, corporation or other business entity: (1) solicit, seek to obtain, divert or otherwise attempt to take away any of the banking or bank-related service business of any of Employer's customers; (2) provide services to or accept the business of any of Employer's customers for the banking or bank-related service business offered by Employer; or (3) request or advise any of Employer's customers to terminate, reduce, limit or otherwise change their banking or bank-related service business relationship with Employer. For purposes of this Section 8.A., "Employer's customers" shall mean those persons, firms, corporations and other business entities who are customers of Employer at the time of Employee's termination of employment with Employer or who were customers of Employer at any time during the two year period immediately preceding the termination of Employee's employment with Employer, whether or not Employee had direct contact with such customers on behalf of Employer.
- B. *Employees.* Employee shall not, at any time during the Term or for a period of one (1) year thereafter, directly or indirectly, on Employee's own behalf or for any other person, firm, corporation or other business entity, solicit, induce, request, advise, or otherwise attempt to take away or to influence any of Employer's employees to terminate his or her employment with Employer.
- C. *Exceptions.* If: (a) Employer terminates this Agreement without Cause, as set forth in Paragraph 10(D); or (b) Employee terminates the Agreement for Good Reason, as provided in Paragraph 10(C), the foregoing Customers and Employees provisions of this Paragraph 8 shall only apply for the shorter of: (i) one (1) year following termination of this Agreement or (ii) the remaining portion of the Term (prior to termination) for which Employee is provided the lump sum payment under Paragraph 10D or 10(C). If the Agreement is not terminated, but rather expires as provided in Paragraph 2 at the conclusion of the twenty-four (24) month period, the foregoing Customers and Employees provisions of this Paragraph 8 shall expire contemporaneously therewith.

9. Breach of Agreement.

- A. Employee acknowledges that any breach of Paragraphs 7 or 8 of this Agreement, by Employee may cause irreparable damage to Employer and that the legal remedies available to Employer will be inadequate. Therefore, in the event of any threatened or actual breach of Paragraphs 7 or 8 of this Agreement by Employee, Employee agrees that Employer shall be entitled to specific enforcement of this Agreement through injunctive or other equitable relief in addition to legal remedies, without the need for posting bond. If Employee is found, by a court of competent jurisdiction, to have breached any of the terms of Paragraphs 7 or 8 of this Agreement, Employee agrees to pay Employer reasonable attorney's fees and costs incurred in seeking relief from Employee's breach of Paragraphs 7 or 8 of this Agreement. If a court of competent jurisdiction declines to find a breach by Employee of Paragraphs 7 or 8 has occurred, Employer agrees to pay Employee reasonable attorney's fees and costs Employee incurred in responding to Employer's request for relief.
- Employee and Employer hereby submit to the jurisdiction and venue of the Delaware County, Indiana Courts and the United States District Court for the Southern District of Indiana, as applicable, in any cause of action to enforce the terms and conditions of Paragraphs 7 or 8 of this Agreement.
- B. Employee and Employer hereby agree that any claim, controversy, or dispute arising out of or relating to this Agreement or the breach thereof, except those identified in Paragraph 9(A) of this Agreement,

[Table of Contents](#)

shall be settled by binding arbitration in Delaware County, Indiana. Such arbitration shall be conducted in accordance with the rules of the American Arbitration Association, then in effect. Each party shall bear their own attorney's fees and costs in such proceeding. Arbitration shall be the sole and exclusive method of resolving such claims, controversies, or disputes under this Agreement.

- C. This Paragraph 9 shall survive the termination of this Agreement.

10. Termination.

- A. *Termination Due to Death.* In the event of Employee's death, this Agreement shall terminate as of the date of Employee's death. If this Agreement is terminated because of Employee's death, Employee's benefits shall be determined in accordance with the survivor's benefits, insurance, and other applicable programs of Employer, then in effect. Upon Employee's death, Employer's obligations to compensate Employee under Paragraph 5 of this Agreement shall immediately expire; provided, however, that within forty-five (45) business days of Employee's death, Employer shall pay to Employee's estate that portion of his Annual Salary and Bonus as provided in Paragraphs 5(A) and 5(B) of this Agreement that shall have been earned through the date of Employee's death, but not yet paid. Except as otherwise set forth herein or as otherwise required by applicable law, following the termination date established pursuant to this Paragraph 10(A), Employer and Employee (including Employee's heirs, executors, administrators, and personal representatives) shall have no further obligations to each other under this Agreement.

- B. *Termination Due to Disability.* In the event Employee suffers a Disability, as defined herein, during the Term of Employment and is, therefore, unable to perform the duties required by the Agreement for more than ninety (90) calendar days during any consecutive twelve (12) month period, Employer shall have the right to terminate this Agreement and Employee's employment. Employer shall deliver written notice to Employee of Employer's intent to terminate this Agreement pursuant to this Paragraph 10(B) and specifying in such notice a termination date not less than thirty (30) days after the giving of the notice ("Disability Notice Period"). This Agreement and Employee's employment shall terminate at the close of business on the last day of the Disability Notice Period.

If this Agreement is terminated because of Employee's Disability, Employee shall be entitled to receive any applicable disability insurance benefits as allowed under Paragraph 5 (D) of this Agreement. Upon termination of this Agreement pursuant to this Paragraph 10(B), Employer's obligations to compensate Employee under Paragraph 5 of this Agreement shall immediately expire; provided, however, that within forty-five (45) business days after the termination of this Agreement, Employer shall pay to Employee that portion of his Annual Salary and Bonus as provided in Paragraphs 5(A) and 5(B) of this Agreement that shall have been earned through the termination date, but not yet paid. Except as otherwise set forth herein or as otherwise required by applicable law, following the termination date established pursuant to this Paragraph 10(B), Employer and Employee shall have no further obligations to each other under this Agreement.

For purposes of this Agreement only, the term "Disability" shall mean, the inability of Employee, because of injury, illness, disease, or bodily or mental infirmity, to engage in the performance of substantially all of the duties required by this Agreement with or without a reasonable accommodation. Employer shall reasonably and fairly determine such Disability upon receipt of, and in reliance on, medical advice from a licensed physician or physicians qualified to give professional medical advice.

- C. *Termination by Employee.* Employee may terminate this Agreement at any time, with or without Good Reason, by providing Employer written notice of his intent to terminate this Agreement pursuant to this Paragraph 10(C) and specifying in such notice a termination date not less than thirty (30) days after the giving of the notice ("Employee's Notice Period"). This Agreement and Employee's employment shall terminate at the close of business on the last day of Employee's Notice Period.

For purposes of this Paragraph 10(C), "Good Reason" shall be defined as: (i) any action by Employer to remove Employee as Senior Vice President of Employer, except for promotions, if any, and except

where Employer properly acts to remove Employee for Cause as defined in Paragraph 10(D) below, (ii) any action by Employer to materially limit, increase or modify Employee's duties and/or authority as Senior Vice President of Employer or to otherwise change the regular work location of Employee outside of the greater Indianapolis area, (iii) any failure of Employer to obtain the assumption of the obligation to perform this Agreement by any successor of Employer, or (iv) any material breach by Employer of a term, condition or covenant of this Agreement.

If Employee terminates this Agreement pursuant to this Paragraph 10(C), Employee shall immediately upon the termination of this Agreement forfeit all rights and benefits to which he would otherwise have been entitled under this Agreement; provided, however, that within fifteen (15) business days after the termination of this Agreement pursuant to this Paragraph 10(C),

1. If termination by Employee is without Good Reason, Employer shall pay to Employee that portion of his Annual Salary as provided in Paragraph 5(A) of this Agreement that shall have been earned through the termination date, but not yet paid; or
2. If termination by Employee is with Good Reason, Employer shall pay to Employee a lump sum payment equal to remaining portion of Employee's Annual Salary as provided in Paragraph 5(A) for the Term then in effect, plus that portion of Employee's Bonus as provided in Paragraph 5(B) of this Agreement that shall have been earned through the termination date, but not yet paid.

Except as otherwise set forth herein or as otherwise required by applicable law, following the termination date established pursuant to this Paragraph 10(C), Employer and Employee shall have no further obligations to each other under this Agreement.

- D. *Termination by Employer Without Cause.* At any time during the Term of Employment, Employer may terminate this Agreement (and, thus, terminate Employee's Employment) for any reason by providing Employee written notice of its intent to terminate this Agreement pursuant to this Paragraph 10(D) and specifying in such notice a termination date not less than thirty (30) days after the giving of the notice ("Employer's Notice Period"). This Agreement and Employee's employment shall terminate at the close of business on the last day of Employer's Notice Period.

If this Agreement is terminated pursuant to this Paragraph 10(D), Employee shall immediately upon the termination of this Agreement forfeit all rights and benefits to which he would otherwise have been entitled under this Agreement; provided, however, that within fifteen (15) business days after the termination of this Agreement pursuant to this Paragraph 10(D), Employer shall pay to Employee a lump sum payment equal to remaining portion of Employee's Annual Salary as provided in Paragraph 5(A) for the Term then in effect, plus that portion of Employee's Bonus as provided in Paragraph 5(B) of this Agreement that shall have been earned through the termination date, but not yet paid. Except as otherwise set forth herein or as otherwise required by applicable law, following the termination date established pursuant to this Paragraph 10(D), Employer and Employee shall have no further obligations to each other under this Agreement.

- E. *Termination by Employer With Cause.* At any time during the Term of Employment, Employer may terminate this Agreement and Employee's Employment for "Cause." The term "Cause" as used herein shall mean a reasonable determination by Employer that Employee:

1. Engaged in willful and continued failure to perform substantially Employee's duties with Employer if such failure continues for a period of thirty (30) days after Employer delivers to Employee written demand for substantial performance, specifically identifying the manner in which Employee has not substantially performed his duties;
2. Engaged in unauthorized conduct and behavior that has the likelihood of exposing Employer to material liability or otherwise significantly jeopardizing Employer's business interests;
3. Has been convicted of any crime constituting a felony or involving moral turpitude or controlled substance;

4. Materially breached any term or condition of this Agreement; or
5. As otherwise defined in this Agreement.

Upon the occurrence of any of the foregoing, Employer may provide Employee written notice of its intent to terminate this Agreement pursuant to this Paragraph 10(E) and this Agreement and Employee's employment shall terminate at the close of business on the date on which Employer provides such notice.

If this Agreement is terminated pursuant to this Paragraph 10(E), Employee shall immediately upon the termination of this Agreement forfeit all rights and benefits to which he would otherwise have been entitled under this Agreement; provided, however, that Employer shall pay to Employee in accordance with Employer's normal payroll practices, that portion of Employee's Annual Salary as provided in Paragraph 5(A) of this Agreement that shall have been earned through the termination date. Except as otherwise set forth herein or as otherwise required by applicable law, following the termination date established pursuant to this Paragraph 10(E), Employer and Employee shall have no further obligations to each other under this Agreement.

- F. *Exception to Loss of Rights and Benefits.* Notwithstanding any contrary provisions contained herein, termination of this Agreement for any reason shall not otherwise terminate the rights and benefits held by Employee under any separate written agreement between Employee and Employer or any affiliate of First Merchants Corporation, including, but not limited to, Employee's rights and benefits under any change in control agreement, stock options, restricted share awards, other deferred compensation agreements, and the Merger Agreement, as defined in Paragraph 19.

11. Indemnification of Employee.

Employer shall indemnify Employee to the fullest extent permitted by Employer's articles of incorporation, by-laws and applicable federal or state laws for all amounts (including, without limitation, judgments, fines, settlement payments, expenses and attorneys' fees) incurred or paid by Employee in connection with any action, suit, investigation or proceeding arising out of or relating to the performance by Employee or services for, or the acting by Employee as a director, officer or employee of, Employer, any subsidiary of Employer or any other person or enterprise at Employer's request. Expenses, including but not limited to attorneys' fees and disbursements, incurred in defending any action, suit, investigation or proceeding, for which Employee may be entitled to indemnification under this Paragraph 11 upon final disposition of such action, shall be paid by Employer in advance of the final disposition, to the maximum extent permitted by applicable laws and regulations; provided, however, that prior to making any such payments Employer shall receive an undertaking by or on behalf of Employee to repay such amounts if it shall ultimately be determined that he is not entitled to indemnification.

12. Suspension.

If Employee is suspended and/or temporarily prohibited from participating in the conduct of Employer's affairs by a notice served under Section 8(e)(3) or (g)(1) of the Federal Deposit Insurance Act (12 U.S.C. § 1818(e)(3) and (g)(1)), Employer's obligations under this Agreement shall be suspended as of the date of service, unless stayed by appropriate proceedings. If the charges in the notice are dismissed, Employer shall (i) pay Employee all or part of the compensation withheld while its obligations under this Agreement were suspended and (ii) reinstate (in whole or in part) any of its obligations which were suspended.

13. Removal or Prohibition.

If Employee is removed and/or permanently prohibited from participating in the conduct of Employer's affairs by an order issued under section 8(e)(4) or (g)(1) of the Federal Deposit Insurance Act (12 U.S.C. § 1818(e)(4) or (g)(1)), all obligations of Employer under this Agreement shall terminate as of the effective date of the order and shall be considered a termination of Employee by Employer for "Cause" pursuant to Paragraph 10(E) of this Agreement.

14. Default of Employer.

If Employer is in default (as defined in section 3(x)(1) of the Federal Deposit Insurance Act), all obligations under this Agreement shall terminate as of the date of default, and shall be considered a termination of Employee by Employer for "Cause" pursuant to Paragraph 10(E) of this Agreement.

15. Termination by Regulatory Action.

All obligations under this Agreement may be terminated except to the extent determined that the continuation of the Agreement is necessary for the continued operation of Employer: (i) by the Office of the Comptroller of the Currency (the "Controller"), at the time the Federal Deposit Insurance Corporation enters into an agreement to provide assistance to or on behalf of Employer under the authority contained in Section 13(c) of the Federal Deposit Insurance Act; or (ii) by the Controller at the time the Controller approves a supervisory merger to resolve problems related to operation of Employer or when Employer is determined to be in an unsafe and unsound condition.

16. Conflict with Regulations.

If any of the provisions in this Agreement shall conflict with 12 C.F.R. § 30, Appendix A, or the Controller policies adopted thereunder (as the same may be amended from time to time) the requirements of such regulation shall supersede any contrary provisions herein and shall prevail.

17. Successors and Assigns.

This Agreement shall be binding upon and inure to the benefit of the successors and assigns of Employer, and unless clearly inapplicable, all references herein to Employer shall be deemed to include any such successor. In addition, this Agreement shall be binding upon and inure to the benefit of Employee and his heirs, executors, legal representatives and assigns; provided, however, that the obligations of Employee hereunder are personal in nature and may not be delegated without the prior written approval of Employer.

18. Choice of Law.

This Agreement shall be interpreted, construed, and governed by the laws of the State of Indiana, regardless of the place of execution or performance.

19. Entire Agreement.

This Agreement contains the entire agreement of the parties and replaces and supersedes all employment agreements between Employee and Lincoln Bancorp or Lincoln Bank, including, but not limited to that certain Amended and Restated Employment Agreement between Lincoln Bank and Employee dated October 1, 2007 and effective as of January 1, 2005 (the "Lincoln Agreements"). Notwithstanding the foregoing, the obligation to make the lump sum payment upon Change in Control, as provided in the Lincoln Agreements and reaffirmed in the Agreement of Reorganization and Merger Between First Merchants Corporation and Lincoln Bancorp entered into this same date (the "Merger Agreement"), shall not be superseded or replaced, but shall continue to be in full force and effect.

This Agreement may not be changed orally, but only by an agreement in writing signed by the party against whom enforcement of any waiver, change, modification, extension, or discharge is sought.

This Agreement may be executed in multiple counterparts, each of which (or a facsimile thereof) shall be deemed an original, but all of which shall be considered a single instrument.

20. Severability.

If any provision of this Agreement shall be held by a court of competent jurisdiction to be contrary to law or public policy, the remaining provisions shall remain in full force and effect.

21. Notice.

Any notices, requests, demands, or other communications provided for by this Agreement shall be sufficient if in writing and if (i) delivered by hand to the other party; (ii) sent by facsimile communication with appropriate confirmation of delivery; (iii) sent by registered or certified United States Mail, return receipt requested, with all postage prepaid; or (iv) sent by recognized commercial express courier services, with all delivery charges prepaid; and addressed as follows:

If to Employer:

First Merchants Bank of Central Indiana, National Association

If to Employee:

John B. Ditmars

or to such other address as either party hereto may have furnished to the other party in writing in accordance herewith, except that notices of change of address shall be effective only upon receipt.

22. Successor.

Employer shall require any successor (whether direct or indirect, by purchase, merger, consolidation or otherwise) to all or substantially all of the business or assets of Employer, by agreement in form and substance satisfactory to Employee to expressly assume and agree to perform this Agreement in the same manner and to the same extent that Employer would be required to perform it if no such succession had taken place. Failure of Employer to obtain such agreement prior to the effectiveness of any such succession shall be a material intentional breach of this Agreement and shall entitle Employee to terminate this Agreement with Good Reason pursuant to Paragraph 10(C) herein. Any successor assuming this Agreement shall be subject to the obligations of this Paragraph 22, similar to Employer.

23. Acknowledgement.

Employee represents and acknowledges that Employee has had adequate time to review this Agreement, Employee has had the opportunity to ask questions and receive answers from Employer regarding this Agreement, and Employee has had the opportunity to consult with legal advisors of his choice concerning the terms and conditions of this Agreement.

This Agreement is intended to supersede and replace all prior agreements, understandings and arrangements between or among Employer, or any agent thereof, and the Employee, or any agent thereof, relating to the employment of Employee.

September 2, 2008

Board of Directors
Lincoln Bancorp
905 Southfield Drive
Plainfield, IN 46168

Ladies and Gentlemen:

Lincoln Bancorp (“Lincoln”) and First Merchants Corporation (“First Merchants”) have entered into an Agreement of Reorganization and Merger, dated as of September 2, 2008 (the “Agreement”), pursuant to which Lincoln will merge with and into First Merchants, with First Merchants as the surviving entity (the “Merger”). Under the terms of the Agreement, upon consummation of the Merger, each share of Lincoln common stock issued and outstanding immediately prior to the Merger (the “Lincoln Common Stock”), other than certain shares specified in the Agreement, will be converted into the right to receive at the election of the holder thereof and subject to the proration procedures further described in the Agreement: (i) 0.7004 (the “Conversion Ratio”) shares of First Merchants’ common stock for each Lincoln common share held (the “Share Option”), or (ii) cash in the amount of \$15.76 for each share of Lincoln’s common stock held (the “Cash Option” and together with the Share Option, the “Merger Consideration”). The terms of the Merger are more fully described in the Agreement. Capitalized terms used herein without definition shall have the meanings given to such terms in the Agreement. You have requested our opinion as to the fairness, from a financial point of view, of the Merger Consideration to the holders of Lincoln Common Stock.

Sandler O’Neill & Partners, L.P., as part of its investment banking business, is regularly engaged in the valuation of financial institutions and their securities in connection with mergers and acquisitions and other corporate transactions. In connection with this opinion, we have reviewed, among other things: (i) the Agreement; (ii) certain publicly available financial statements and other historical financial information of Lincoln that we deemed relevant; (iii) certain publicly available financial statements and other historical financial information of First Merchants that we deemed relevant; (iv) internal financial projections for Lincoln for the years ending December 31, 2008 and an estimated growth rate for the years thereafter as prepared by and reviewed with management of Lincoln; (v) internal earnings estimates for First Merchants for the years ending December 31, 2008 and December 31, 2009 as discussed with senior management of First Merchants and an estimated long-term growth rate for the years thereafter as reviewed with senior management of First Merchants; (vi) the pro forma financial impact of the Merger on First Merchants based on assumptions relating to transaction expenses, purchase accounting adjustments and cost savings determined by the senior managements of Lincoln and First Merchants; (vii) the publicly reported historical price and trading activity for Lincoln’s and First Merchants’ respective common stock, including a comparison of certain financial and stock market information for Lincoln and First Merchant with similar publicly available information for certain other companies the securities of which are publicly traded; (viii) the financial terms of certain recent business combinations in the commercial banking industry, to the extent publicly available; (ix) the current market environment generally and the banking environment in particular; and (x) such other information, financial studies, analyses and investigations and financial, economic and market criteria as we considered relevant. We also discussed with certain members of senior management of Lincoln the business, financial condition, results of operations and prospects of Lincoln and held similar discussions with certain members of senior management of First Merchants regarding the business, financial condition, results of operations and prospects of First Merchants.

In performing our review, we have relied upon the accuracy and completeness of all of the financial and other information that was available to us from public sources, that was provided to us by Lincoln and First Merchants or their respective representatives or that was otherwise reviewed by us and have assumed such accuracy and completeness for purposes of rendering this opinion. We have further relied on the assurances of the respective managements of Lincoln and First Merchants that they are not aware of any facts or circumstances that would make any of such information inaccurate or misleading. We have not been asked to and have not

Table of Contents

undertaken an independent verification of any of such information and we do not assume any responsibility or liability for the accuracy or completeness thereof. We did not make an independent evaluation or appraisal of the specific assets, the collateral securing assets or the liabilities (contingent or otherwise) of Lincoln and First Merchants or any of their respective subsidiaries, or the collectibility of any such assets, nor have we been furnished with any such evaluations or appraisals. We did not make an independent evaluation of the adequacy of the allowance for loan losses of Lincoln and First Merchants nor have we reviewed any individual credit files relating to Lincoln and First Merchants. We have assumed, with your consent, that the respective allowances for loan losses for both Lincoln and First Merchants are adequate to cover such losses and will be adequate on a pro forma basis for the combined entity.

In preparing its analyses, Sandler O'Neill received internal estimates for Lincoln and First Merchants from the respective managements of Lincoln and First Merchants. The projections of transaction costs, purchase accounting adjustments and expected cost savings used by Sandler O'Neill in its analyses were prepared by and/or reviewed with the managements of Lincoln and First Merchants' management confirmed to us that they reflected the best currently available estimates and judgments of such management of the future financial performance of Lincoln and First Merchants, respectively, and we assumed that such performance would be achieved. We express no opinion as to such estimates or the assumptions on which they are based. We have also assumed that there has been no material change in Lincoln's and First Merchants' assets, financial condition, results of operations, business or prospects since the date of the most recent financial statements made available to us. We have assumed in all respects material to our analysis that Lincoln and First Merchants will remain as going concerns for all periods relevant to our analyses, that all of the representations and warranties contained in the Agreement and all related agreements are true and correct, that each party to the agreements will perform all of the covenants required to be performed by such party under the agreements, that the conditions precedent in the agreements are not waived and that the Merger will qualify as a tax-free reorganization for federal income tax purposes. Finally, with your consent, we have relied upon the advice Lincoln has received from its legal, accounting and tax advisors as to all legal, accounting and tax matters relating to the Merger and the other transactions contemplated by the Agreement.

Our opinion is necessarily based on financial, economic, market and other conditions as in effect on, and the information made available to us as of, the date hereof. Events occurring after the date hereof could materially affect this opinion. We have not undertaken to update, revise, reaffirm or withdraw this opinion or otherwise comment upon events occurring after the date hereof. We are expressing no opinion herein as to what the value of First Merchants' common stock will be when issued to Lincoln's shareholders pursuant to the Agreement or the prices at which Lincoln's and First Merchants' common stock may trade at any time.

We have acted as Lincoln's financial advisor in connection with the Merger and will receive a fee for our services, a substantial portion of which is contingent upon consummation of the Merger. We will also receive a fee for rendering this opinion. Lincoln has also agreed to indemnify us against certain liabilities arising out of our engagement.

In the ordinary course of our business as a broker-dealer, we may purchase securities from and sell securities to Lincoln and First Merchants and their affiliates. We may also actively trade the equity or debt securities of Lincoln and First Merchants or their affiliates for our own account and for the accounts of our customers and, accordingly, may at any time hold a long or short position in such securities.

Our opinion is directed to the Board of Directors of Lincoln in connection with its consideration of the Merger and does not constitute a recommendation to any shareholder of Lincoln as to how such shareholder should vote at any meeting of shareholders called to consider and vote upon the Merger or the form of consideration such shareholder should elect in the Merger. Our opinion is directed only to the fairness, from a financial point of view, of the Merger Consideration to holders of Lincoln Common Stock and does not address the underlying business decision of Lincoln to engage in the Merger, the relative merits of the Merger as compared to any other alternative business strategies that might exist for Lincoln or the effect of any other

[Table of Contents](#)

transaction in which Lincoln might engage. We were directed by the Board of Directors to contact several potential purchasers of the Company. Sandler O'Neill hereby authorizes our opinion to be quoted or referred to, in whole or in part, in the registration statement to be filed in connection with Merger and approves the references to the opinion contained in such registration statement. This opinion shall not be used for any other purposes, without Sandler O'Neill's prior written consent. This Opinion has been approved by Sandler O'Neill's fairness opinion committee. We do not express any opinion as to the fairness of the amount or nature of the compensation to be received in the Merger by Lincoln's officers, directors, or employees, or class of such persons, relative to the compensation to be received in the Merger by any other shareholders of the company.

Based upon and subject to the foregoing, it is our opinion that, as of the date hereof, the Merger Consideration is fair to the holders of Lincoln Common Stock from a financial point of view.

Very truly yours,

/s/ Sandler O'Neill & Partners, L.P.

PART II
INFORMATION NOT REQUIRED IN PROSPECTUS

Item 20. Indemnification of Directors and Officers of First Merchants Corporation

First Merchants Corporation (**First Merchants**) is an Indiana corporation. Section 23-1-37-1 *et seq.* of the Indiana Business Corporation Law contains detailed provisions on indemnification of directors and officers of an Indiana corporation against expenses, judgments, settlements, penalties and fines incurred with respect to certain proceedings.

First Merchants' Articles of Incorporation, as amended, and By-Laws, as amended, provide that First Merchants will indemnify any person who is or was a director, officer or employee of First Merchants or of any other corporation for which he is or was serving in any capacity at the request of First Merchants against all liability and expense that may be incurred in connection with, resulting from or arising out of any claim, action, suit or proceeding with respect to which such director, officer or employee is wholly successful or acted in good faith in a manner he reasonably believed to be in, or not opposed to, the best interests of First Merchants or such other corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe that his conduct was unlawful. A director, officer or employee of First Merchants is entitled to be indemnified as a matter of right with respect to those claims, actions, suits or proceedings where he has been wholly successful. In all other cases, such director, officer or employee will be indemnified only if the Board of Directors of First Merchants (acting by a quorum consisting of directors who are not parties to or who have been wholly successful with respect to such action) or independent legal counsel finds that he has met the standards of conduct set forth above.

The directors and officers of First Merchants are covered by an insurance policy indemnifying them against certain civil liabilities, including liabilities under the federal securities laws, which might be incurred by them in such capacity.

(a) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(b) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer, or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.
